Volume 134

***Special issue on the 13th Conference on Micropollutants in Human Environment
4–6 December 2017, Czestochowa, Poland (Part II)***

(Part I is published in Volume 117, June 2018)

The aerobic biodegradation of EDDHA and EDDHSA in water under the static test conditions E. Klem-Marciniak, K. Hoffmann, J. Hoffmann (Poland)	1
The problem of chloramines in swimming pool water – technological research experience J. Wyczarska-Kokot (Poland)	7
Applying ultrasonic in the PAHs degradation in sewage sludge D. Boruszko (Poland)	15
Analysis of the presence and drug resistance of bacteria from the <i>Enterobacteriaceae</i> family and the genus of <i>Enterococcus</i> in treated wastewater from a selected wastewater treatment plant L. Stępnia, Ł. Pasoń, E. Stańczyk-Mazanek, J. Lach (Poland)	23
The effect of modification of activated carbon WG-12 on lead adsorption from water J. Lach, L. Stępnia, A. Ociepa-Kubicka (Poland)	30
PAH removal effectiveness comparison from hydraulic fracturing model wastewater in SBR reactors with granular and flocced activated sludge P. Ofman, I. Skoczko (Poland)	41
Oil derivatives separating efficiency in treatment of water contaminated with diesel oil with bio-components K. Tarnowski, S. Bering, A. Głowacka, J. Mazur (Poland)	52
Comparison of the PAHs degradation effectiveness using CaO ₂ or H ₂ O ₂ under the photo-Fenton reaction J. Kozak, M. Włodarczyk-Makuła (Poland)	57
Impact of UV disinfection on potential of personal care products components on chlorination by-products formation in swimming pool water A. Włodyka-Bergier, T. Bergier (Poland)	65
Use of sorption minerals to remove petroleum substances from water J. Piekutin (Poland)	76
The use polyaluminium chlorides with various basicity for removing of organic matter from water L. Dąbrowska (Poland)	80
Effect of mesophilic fermentation of sewage sludge on drug-resistant bacteria count of the <i>Enterococcus</i> genus E. Stańczyk-Mazanek, Ł. Pasoń, U. Kępa (Poland)	86
Effect of erythromycin on biochemical activity of microorganisms of activated sludge A. Tomska, M. Worwąg (Poland)	92
Efficiency estimation of water purification with various filtration materials I. Skoczko (Poland)	99
Retention of bisphenol A and caffeine on PES/PES-CNTs membranes – performance and effect of different conditions G. Kamińska, M. Adamczak, J. Bohdziewicz (Polnad)	109
Impact of selected nanoparticles on wastewater treatment efficiency M. Madela, A. Grobelak, E. Neczaj (Poland)	115
Recovery of phosphorus as struvite from sewage sludge and sewage sludge ash M. Worwąg (Poland)	121
The influence of body fluids compounds on trichloramine formation in swimming pool water A. Włodyka-Bergier, T. Bergier, D. Gajewska, E. Stańkowska (Poland)	128
Modeling of changes in trihalomethanes concentration in a wide water supply system: the case study of the Silesian agglomeration I. Zimoch, E. Łobos (Poland)	135

Analysis of rheological properties of modified sewage sludge P. Wolski (Poland)	143
Effect of pre-treatment and conditions on the appearance of long chain fatty acids in treatment of wastewater containing oil E. Łobos-Moysa (Poland)	148
Mercury contents in the green belts within the urban area I. Małuszyńska, M.J. Małuszyński, A. Popenda, A. Strzelczyk (Poland)	154
Hexachlorocyclohexane (HCH) isomers adsorption from water solution using natural sorbent K. Ignatowicz (Poland)	161
Predicting bentonite sorption properties towards selected hydrocarbons based on certain physical properties T. Kozłowski, L. Dąbek, E. Ozimina (Poland)	167
Microplastics in surface water under strong anthropopression W. Nocoń, K. Moraczewska-Majkut, E. Wiśniowska (Poland)	174
The possibilities of using the aspen poplar seeds (<i>Populus tremula</i> L.) for the purpose of removing monoaromatic hydrocarbons from an aqueous solution T. Ciesielczuk, C. Rosik-Dulewska, K. Łuczak, A. Lipka (Poland)	182
Evaluation of seasonal activity of various bacteria in a constructed wetland using AT4 and TTC tests S. Myszograj, F. Bydałek, E. Płuciennik-Koropczuk (Poland)	188
Studies of effectiveness of odour removal from water during treatment processes I. Zimoch, M. Skrzypczak (Poland)	199
Effectiveness of degradation and removal of non-steroidal pharmaceuticals which are the most frequently identified in surface water R. Nowak, E. Wiśniowska, M. Włodarczyk-Makuła (Poland)	211
Co-composting of anaerobic sewage sludge and biomass amended with biopreparations M. Worwag, T. Kamizela, M. Kacprzak, A. Grobelak (Poland)	224
Methods for calculating carbon sequestration in degraded soil of zinc smelter and post-mining areas A. Placek, A. Grobelak, D. Włóka (Poland), B.R. Singh, Å. Almås (Norway), M. Kacprzak (Poland)	233
Evaluation of turbidity impact on the microbiological quality of water with usage of Bayes' theorem I. Zimoch, J. Paciej (Poland)	244
The use of chitosan and pressure-driven membrane processes to remove natural organic matter from regenerative brine recovery M. Rajca (Poland)	251
Temperature and pH influence on the efficiency of trace metals leaching from sewage sludge with EDTA solution B. Karwowska (Poland)	257
Assessing the concentration of chosen PAH in drinking water A. Rosińska, P. Sobczak (Poland)	265
Analysis of disinfectant decay in a water supply system based on mathematical model I. Zimoch, E. Bartkiewicz (Poland)	272
Removal of organic pollutants and surfactants from laundry wastewater in membrane bioreactor (MBR) S. Bering, J. Mazur, K. Tarnowski, N. Dąbkowska, M. Janus, S. Mozia, A.W. Morawski (Poland)	281
The use of algae in the process of heavy metal ions removal from wastewater K. Kipigroch (Poland)	289
Evaluation of the possibilities of using humic acids obtained from lignite modern water treatment M. Huculak-Mączka, K. Hoffmann, J. Hoffmann (Poland)	296
Effect of anthropopressure on cadmium content in grasses – pot experiment M.J. Małuszyński, I. Małuszyńska (Poland)	305
Effect of H ₂ O ₂ sequential dosing in the Fenton process on leachate treatment J. Gawdzik, J. Muszyńska, M. Sikorski (Poland)	310
Efficiency of microplastics removal in selected wastewater treatment plants – preliminary studies E. Wiśniowska, K. Moraczewska-Majkut, W. Nocoń (Poland)	316
Author Index	324
Corrigendum to "Adsorption of lead by modified Eucalyptus camaldulensis barks: equilibrium, kinetic and thermodynamic studies" published in vol. 111 (2018) pp. 267–277 (10.5004/dwt.2018.22191) Y. Essaadaoui, A. Lebkiri, E. Rifi, L. Kadiri, A. Ouas (Morocco)	325
