

Issue 1
Selected papers presented at the conference on Desalination for the Environment:
Clean Water and Energy, 17–20 May 2009, Baden, Germany
Organized by the European Desalination Society

Renewable energies	
U. Schindewolf (Karlsruhe) and K.W. Böddeker (Hamburg, Germany).....	1
Energy consumption of reverse osmosis seawater desalination – possibilities for its optimisation in design and operation of SWRO plants	
H. Ludwig (Stuttgart, Germany)	13
Environmental, economic and performance merits of triple production of water, electricity and renewable energy	
M.A.-K. Al-Sofi (Al-Khobar, Saudi Arabia).....	26
Retrofits to improve desalination plants	
R.L. Stover (San Leandro, CA, USA).....	33
Steady state and dynamic models of multistage flash desalination: A review	
H. Al-Fulajj (Safat, Kuwait), A. Cipollina (Palermo, Italy), D. Bogle (London, UK) and H. Ettouney (Safat, Kuwait).....	42
An alternative hybrid concept combining seawater desalination, solar energy and reverse electro dialysis for a sustainable production of sweet water and electrical energy	
E. Brauns (Mol, Belgium).....	53
WAIV – wind aided intensified evaporation for brine volume reduction and generating mineral byproducts	
L. Katzir, Y. Volkmann, N. Daltrophe, E. Korngold, R. Mesalem, Y. Oren and J. Gilron (Sde Boker, Israel)	63
Water hammer simulation in spiral wound reverse osmosis membranes	
S.A. Avlonitis, D.A. Avlonitis, A. Baldoukas, K. Kralis and A. Metaxa (Psaxna Evia, Greece).....	74
Heat pipes as an extra measure to eliminate radioactive contamination in nuclear seawater desalination	
I. Khamis (Vienna, Austria), H. Jouhara (Uxbridge, UK) and V. Anastasov (Vienna, Austria)	82
Self-cleaning beach gallery design for seawater desalination plants	
R.G. Maliva and T.M. Missimer (Fort Myers, FL, USA).....	88
An approach to optimize the production of solar desalination unit using the SMCEC principle	
K. Zhani (Sfax, Tunisia) and H. Ben Bacha (Alkharj, Saudi Arabia)	96
The fate of transparent exopolymer particles (TEP) in seawater UF-RO system: A pilot plant study in Zeeland, The Netherlands	
L.O. Villacorte (Delft), R. Schurer (Spijkenisse), M.D. Kennedy, G.L. Amy and J.C. Schippers (Delft, The Netherlands).....	109
Freezing desalination of seawater in a static layer crystallizer	
A. Rich, Y. Mandri, N. Bendaoud (Villeurbanne, France and Rabat, Morocco), D. Mangin (Villeurbanne, France), S. Abderafi (Rabat, Morocco), C. Bebon (Villeurbanne, France), N. Semlali (Rabat, Morocco), J.-P. Klein (Villeurbanne, France), T. Bounahmidi , A. Bouhaouss (Rabat, Morocco) and S. Veessler (Marseille, France).....	120
Pilot scale evaluation of a novel post-treatment process for desalinated water	
L. Birnhack, R. Penn, S. Oren, O. Lehmann and O. Lahav (Haifa, Israel)	128
Alternative approach for assessment and limitation of environmental impacts from desalination plant water discharges by substitution of the “mixing zone” by a “minimum dilution volume”	
A. Schäfer (Bad Vilbel, Germany)	137
Atrazine removal from aqueous solutions by nanofiltration	
A. Bódalo (Murcia), G. León (Cartagena), A.M. Hidalgo, M. Gómez, M.D. Murcia and P. Blanco (Murcia, Spain)	143

A QSAR (quantitative structure-activity relationship) approach for modelling and prediction of rejection of emerging contaminants by NF membranes V. Yangali-Quintanilla, A. Sadmani, M. Kennedy and G. Amy (Delft, The Netherlands).....	149
Desalination plant discharge calculator T. Bleninger, A. Niepelt and G. Jirka (Karlsruhe, Germany).....	156
Performance characteristics of a once-through multi-stage flash distillation process H. Baig, M.A. Antar and S.M. Zubair (Saudi Arabia).....	174
Split partial second pass design for SWRO plants S. Rybar, R. Boda and C. Bartels (Oceanside, CA, USA).....	186
Modified operation of a small scale energy recovery device for seawater reverse osmosis A. Bermudez-Contreras and M. Thomson (Loughborough, UK).....	195
First year performance review of Magong UF/RO seawater desalination plant V. García-Molina (Germany), R. Chang (Taiwan) and M. Busch (Germany).....	203
Effects of operational parameters on the removal efficiency of non-ionic surfactant by electroflotation A. Skender, N. Moulai-Mostefa and M. Tir (Medea, Algeria).....	213
Successful antiscalant field trial – Optimization at higher pH and seawater temperature, Larnaca Desalination Plant E. Koutsakos (Nicosia, Cyprus), G. Delaisse and W. van der Wal (Louvain-La-Neuve, Belgium).....	217
Removal of organic micro-pollutants during drinking water treatment by nanofiltration and reverse osmosis P. Lipp, F. Sacher and G. Baldauf (Karlsruhe, Germany).....	226
Design, sizing and simulation of solar powered desalination unit for brackish water in Jordan A.H. Muhaidat (Amman, Jordan).....	238
Cold water operating experience of Seaguard UF as pretreatment to SWRO F. Knops and F. Horvath (Enschede, The Netherlands).....	247
Comparative assessment of advanced membrane treatment of municipal wastewater for reuse in Kuwait A. Abusam and A. Shahalam (Safat, Kuwait).....	254
Experiences with pellet reactor softening as pretreatment for inland desalination in the USA G. van Houwelingen, R. Bond, T. Seacord and E. Fessler (Amersfoort, The Netherlands).....	259
Facilitated transport of cobalt through bulk liquid membranes containing D2EHPA as carrier. Kinetic study of the influence of some operational variables G. León (Cartagena) and M.A. Guzmán (Murcia, Spain).....	267

Issue 2

Selected papers presented at the AQUA 2008 International Conference on Water Science and Technology–Integrated Water Resources Management, 16–19 October 2008, Athens, Greece

Editorial M. Scoullas (Athens), A. Zouboulis (Thessaloniki) and S. Karavoltsos (Athens, Greece).....	274
An innovative coastal protection system: Quality characteristics and reuse options of drained seawater derived from its operation L. Bonadonna and M. Semproni (Rome, Italy).....	275
The impact of mining activities on the hypersaline Mar Menor lagoon M. Dassenakis (Athens, Greece), G. Garcia (Cartagena, Spain), E. Diamantopoulou (Athens, Greece), J.D. Girona, E.M. Garcia-Marin (Cartagena, Spain), G. Filippi and V. Fioraki (Athens, Greece).....	282
A preliminary study of particle dynamics in the water column of Saronikos Gulf, Greece, by using Th-234/U-238 disequilibrium approach N. Evangelidou, H. Florou and M. Scoullas (Athens, Greece).....	290
GIS modeling of the impact of drip irrigation, of water quality and of soil's available water capacity on <i>Zea mays</i> L. biomass yield and its biofuel potential A. Filintas (Larissa and Mytilene), P. Dioudis (Larissa) and C. Prochaska (Thessaloniki, Greece).....	303
Determination of acid herbicides in water by LC/MS/MS E. Sklivagou, K. Papadopoulou and A. Bakoulis (Athens, Greece).....	320
Evaluation of water quality in an urban park for environmental sensitization: A large scale simulation model S. Karavoltsos, A. Sakellari, M. Antonopoulou, M. Dassenakis and M. Scoullas (Athens, Greece).....	328

Natural radioactivity as an impact factor in drinking water quality G. Trabidou and H. Florou (Athens, Greece).....	336
Novel inorganic-organic composite coagulants based on aluminium N.D. Tzoupanos and A.I. Zouboulis (Thessaloniki, Greece).....	340

Issue 3

Effects of orthophosphate corrosion inhibitor on lead in blended water quality environments E.D. Stone, S.J. Duranceau, P.A. Lintereur and J.S. Taylor (Orlando, FL, USA).....	348
A novel hybrid forward osmosis – nanofiltration (FO-NF) process for seawater desalination: Draw solution selection and system configuration C.H. Tan and H.Y. Ng (Singapore)	356
Effects of operating parameters on permeation flux for desalination of sodium chloride solution using air gap membrane distillation M. Matheswaran, T.O. Kwon (Chonnam, Korea), J. Kim (Daejeon, Korea), M. Duke, S. Gray (Melbourne, Australia) and I.S. Moon (Chonnam, Korea)	362
Kinetics and thermodynamics of fluoride removal using cerium-impregnated chitosan S.K. Swain (Mesra), T. Padhi (Rourkela), T. Patnaik (Mesra), R.K. Patel (Rourkela), U. Jha and R.K. Dey (Mesra, India).....	369
A biotechnological thrive on COD and chromium removal from leather industrial wastewater by the isolated microorganisms T. Mandal, D. Dasgupta (Durgapur) and S. Datta (Kolkata, India).....	382
Performance of a novel dynamic membrane bioreactor in treating synthetic domestic wastewater J. Duan, H. Zhang, J. Wang and F. Yang (Dalian, China).....	393
Thermal modeling and carbon credit earned of a double slope passive solar still V.K. Dwivedi (Greater Noida) and G.N. Tiwari (New Delhi, India).....	400
Study on the influence of high salts content on fungal treatment of saline wastewaters M. Ellouze, F. Aloui and S. Sayadi (Sfax, Tunisia).....	411
Removal of ⁶⁰ Co and ¹³⁴ Cs radionuclides from aqueous solution using titanium tungstate ion exchanger G.M. Ibrahim (Cairo, Egypt).....	418
Photocatalytic degradation of diazinon in aqueous solution by platinumized TiO ₂ Y. Nakaoka, H. Katsumata, S. Kaneco, T. Suzuki and K. Ohta (Mie, Japan).....	427
Ti/Cr-pillared clay as photocatalysts for 4-chlorophenol removal in water D. Tabet (Blida, Algeria), D. Robert (Saint Avoird, France), P. Pichat (Ecully, France) and H. Khalaf (Blida, Algeria)	437
Performances of protease and amylase cleaning for microporous membranes used in wastewater applications V.L. Puspitasari, M. Rattier, P. Le-Clech and V. Chen (Sydney, Australia).....	441
Renewable energy fueled desalination in Israel W. Meindersma (Utrecht, The Netherlands and Hevel Eilot, Israel), W.G.J.H.M. van Sark (Utrecht, The Netherlands) and C. Lipchin (Hevel Eilot, Israel).....	450
Treatment of combined bleaching effluent by membrane filtration technology for system closure in paper industry S.K. Shukla, V. Kumar and M.C. Bansal (Saharanpur, India).....	464
Evaluation of kinetic coefficients using membrane bioreactor and active sludge process treating textile wastewater L. Salazar (Nariño, Colombia) and M. Crespi (Barcelona, Spain)	471
Author Index.....	479
