

Contents

Volume 152

Study of the effect of morphological structure on microfiltration membrane fouling
Ming Zhuo, Kai Lv, Xueyan Zhang, Ying Zhang, Xizhi Shi, Yin Lu (China) 1

Porosity control of self-supported geopolymeric membrane through hydrogen peroxide and starch additives
A. Naveed, F. Saeed (Pakistan), M. Khraisheh (Qatar), M. Al Bakri (Malaysia),
Noor-ul-Amin, S. Gul (Pakistan) 11

Synthesis of modified polyepoxysuccinic acid and evaluation of its scale inhibition on CaCO_3 , CaSO_4 ,
and $\text{Ca}_3(\text{PO}_4)_2$ precipitation for industrial recycling water
Yiyi Chen, Yuming Zhou, Qingzhao Yao, Qiuli Nan, Mingjue Zhang, Wei Sun (China) 16

Investigation of natural Jordanian zeolite tuff (JZT) as adsorbent for TOC removal
from industrial wastewater in a continuous fixed bed column: study of the influence of particle size
W. Omar, R. Al Dwairi, Z.S. Abu-Hamattah, N. Jabarin (Jordan) 26

Development of BMPs for management of NPS from railway bridges
Jiyeol Im, Kyungik Gil (Korea) 33

Management of organic matter in watersheds with insufficient observation data: the Nakdong River basin
Jeonghoon Lee, Ungtae Kim (USA), Lee-Hyung Kim, Eung Seok Kim, Sangdan Kim (Korea) 44

Lab-scale study on recirculated subsurface flow wetlands packed with pumice
for the treatment of stormwater from animal feeding-lots
Siping Niu, Xuan Wang, Jianghua Yu (China), Youngchul Kim (Korea) 58

Evaluation of management level of water conservancy construction supervision unit
based on variable weight fuzzy theory
Bo Wang, Tianyu Fan, Mengqi Liu, Fuqiang Wang, Xiangtian Nie (China) 66

The properties of CO_2 and CH_4 fluxes across water-air interface at the Three Gorges Reservoir,
the mainstream of Yangtze River from Zhutuo to Wanzhou, China
Yu Qin, Zhengmian Liu, Zhe Li, Boxiao Yang (China) 75

Immobilization of nitrifying/denitrifying bacteria onto construction waste and the elimination of pollutants
from stormwater runoff
Haiyan Li, Xi Zhang, Xiaoran Zhang, Ziyang Zhang (China) 82

Application of a model-based method for hydrodynamic processes in constructed wetland
to management of livestock wastewater based on finite elements method
S. Brito-Espino, C.A. Mendieta-Pino, S.O. Pérez-Báez, A. Ramos-Martín (Spain) 92

A rapid microwave synthesis of nanoscale $\text{BiVO}_4/\text{Bi}_2\text{O}_3/\text{SiO}_2$ with large specific surface area
and excellent visible-light-driven activity
Xi Zhang, Fang-yan Chen, Yu-bin Tang, Yi-ming Liu, Xin-gang Wang (China) 99

Catalytic ozonation for the treatment of municipal wastewater by iron loaded zeolite A
A. Ikhtlaq, M. Anis, F. Javed, H. Ghani, H.M.S. Munir, K. Ijaz (Pakistan) 108

Anaerobic digestion of high salinity wastewater and methane production
N. Sinbuathong, M. Leadvilai, B. Sillapacharoenkul (Thailand) 116

Adsorption behavior and practical separation of some radionuclides using cellulose/ HO_7Sb_3
S.S. Mahrous, E.A. Abdel-Galil, N. Belacy, E.A. Saad (Egypt) 124

Experimental basis of an emergency filtration system treating river flood water for rural areas
in developing countries
H. Gökçekuş, M.N. Yahya (Turkey), P. Paul (UK), D. Orhon (Turkey) 133

Evaluation of the environmental quality associated with near-surface groundwater characteristics
in coal-mining areas based on rough set and uncertainty measure theory
Hujun He, Chong Tian, Jie Fang, Gang Jin, Le An (China) 139

Thermo-economic modeling and multi-objective optimization of multiple-effect desalination
integrated with an organic Rankine cycle
Z. Hajabdollahi, Kyung Chun Kim (Korea) 148

Study on the characteristics of metal corrosion and sterilizing effect of chlorine dioxide Liang Liu, Tingting Cao, Qiwei Zhang, Chongwei Cui (China)	161
Hemodialysis waters as a source of potentially pathogenic mycobacteria (PPM) M. Roshdi Maleki, S.R. Moaddab, H. Samadi Kafil (Iran)	168
Quality and quantity of leachate with different ages and operations in semi-arid climate Y. Zegzouti, A. Boutafda, L. El Fels, M. El Hadek, A. Lebrihi, F. Bekkaoui, M. Hafidi (Morocco)	174
Hybrid nanocomposite by solid-solid reaction A. Ben Othman, F. Ayari, R. Abidi, M. Trabelsi Ayadi (Tunisia)	185
Modification of SiO ₂ by n-dodecyltrimethoxysilane and preparation of SiO ₂ -filled regenerated cellulose nanocomposite membranes for dehydration of caprolactam by pervaporation Siqian Hu, Zaikun Wu, Zhihua Xu, Tianrong Zhu (China)	197
Volatile fatty acid (VFA) and methane generation from sewage sludge and banana straw: influence of pH and two-phase anaerobic fermentation Shun He, Qinghua Deng, Ping Xian, Zhongtang Li, Songfan Tan, Qin Liu (China)	208
Growth rate abolishment on phenol as a substrate by <i>Pseudomonas</i> sp. AQ5-04 is best modelled using the Luong substrate inhibition kinetics A. Aisami (Malaysia, Nigeria), N.A. Yasid, W.L.W. Johari, S.A. Ahmad, M.Y. Shukor (Malaysia)	214
Optimization and modeling of simultaneous adsorption of Cr(VI) and phenol onto Dowex 1X8 ion exchange resin: kinetic and thermodynamic studies S. Harbi, D. Tabassi, C. Hannachi, F. Guesmi, B. Hamrouni (Tunisia)	221
Removal of Ochratoxin A from water by novel adsorbent; magnetic carbon nanocomposites prepared from sugar beet wastes M. Zahoor, N. Gulfam, M. Khisroon, F.A. Khan (Pakistan)	234
Coagulation treatment of SDS by hydrolyzed Al species: effects of pH and substrate concentration Hefei Wang, Dong Wang, Wei Ren (China)	242
Fenton oxidation using Fe ²⁺ /Fe ³⁺ /H ₂ O ₂ to improve the DCO removal and to degrade the phenolic compounds in olive oil mill wastewater L. El Fels, A. Boutafda, Y. Zegzouti, N. Laghmiri, M. Neffa, L. Kouisni, M. Taourirt, M. Hafidi (Morocco)	252
Enhanced photocatalytic activity of gadolinium titanate on ofloxacin degradation after supporting on HZSM-5 zeolite Chengzhi Jiang, Ming Han, Wenjie Zhang (China)	261
Removal of aspartame by catalytic ozonation by nano-TiO ₂ coated pumice A. Alver, E. Basturk (Turkey)	268
Ammonium adsorption on particles with different grain sizes sieved by sediment resuspension Siliang Zhang, Qitao Yi, Kai Xie, Qiuwen Chen (China)	276
Adsorption of Pb(II), Cu(II) and Ni(II) ions on functionalized carbon nanotube-C60 hybrid: adsorption process, isotherm, thermodynamic and kinetic studies N. Mehrmand, M.K. Moravaji, A. Parvareh (Iran)	283
Cloud point extraction and determination of Cd(II) in water by spectrophotometry and application of central composite design J. Hsaini, M. Nafti, F. Guesmi, C. Hannachi, B. Hamrouni (Tunisia)	299
Removing amoxicillin antibiotic from aqueous solutions by <i>Saccharomyces cerevisiae</i> yeast bioadsorbent: kinetic, thermodynamic and isotherm studies M.R. Samarghandi, G. Asgari, R. Shokoohi, A. Dargahi, A. Arabkouhsar (Iran)	306
Treatability of pharmaceutical effluents using free-living bacteria in a batch mode E. El-Bestawy (Egypt), J. Saber (Saudi Arabia), R. Amer (Egypt), L. Aljdibi (Saudi Arabia)	316
Investigation of heavy metal accumulation in Sapanca Lake sediment by using pollution indices A. Ateş, H. Demirel (Turkey)	328
Adsorption of toxic heavy metals on organofunctionalized acid activated exfoliated bentonite clay for wastewater treatment goals F. Fazlali, A.R. Mahjoub, H. Aghayan (Iran)	338
Kinetic and thermodynamic investigation on the adsorption of hexavalent chromium pollution by Fe ₃ O ₄ /AC/TiO ₂ nanotubes as a novel ternary magnetic nanocomposite S.G. Hosseini, J. Vahabzadeh Pasikhani (Iran)	351

Adsorption of purpurin dye from industrial wastewater using Mn-doped Fe ₂ O ₄ nanoparticles loaded on activated carbon M. Kiani, S. Bagheri, N. Karachi, E. Alipanahpour Dil (Iran)	366
Kinetic modeling of sonocatalytic degradation of an azo dye using synthesized zinc-iron nanolayered double hydroxide L. Samaei (Iran), A. Khataee (Iran, Turkey), S. Arefi-Oskoui (Iran)	374
Ag:ZrO ₂ -NPs-AC based nanocomposite as a novel sorbent for trapping hazardous food additive dye from water sample M. Moradi, N. Rastakhiz, M. Ghaedi, R. Zhiani (Iran)	383
An efficient cloud point extraction of mixed organic-inorganic pollutants using an ionic liquid as extractant: separation of the red Bemacid dye from nickel (II) in saline medium and optimization through factorial design methodology R. Semmoud, M.A. Didi (Algeria)	393
Removal of Remazol Black B from solution aqueous using P-γ-Fe ₂ O ₃ nanoparticles: synthesis, physical characterization, isotherm, kinetic and thermodynamic studies S. Ahmadi, A. Rahdar, S. Rahdar (Iran), C.A. Igwegbe (Nigeria)	401
A comparison of single and catalytic ozonation for decolorization of malachite green R. Parvarideh, A.A. Aghapour, S.J. Jafari, S. Karimzadeh, H. Khorsandi (Iran)	411
Author Index	419
