Volume 16

Electrocoagulation of a raw water of Ghrib Dam (Algeria) in batch using aluminium and iron electrodes D. Belhout, D. Ghernaout (Blida), S. Djeddar-Douakh (Medea) and A. Kellil (Blida, Algeria)	1
Comparison of leachate treatments in the simulated landfill bioreactors with different operation modes C.-R. Fang, J. Yao, J. Wang, W. Wang, Y.-Y. Long, R. He and D.-S. Shen (Hangzhou, China).....	10
Performance characteristics of a solar humidification–dehumidification unit using packed bed of screens as the humidifier A.H. El-Shazly, M.M. El-Gohary and M.E. Ossman (Alexandria, Egypt)	17
Preparation and characterization of a new inorganic cation-exchanger zirconium (IV) iodosilicate: Analytical applications for metal content determination in pharmaceutical sample and synthetic mixture S.A. Nabi, S.A. Ganai (Aligarh) and M. Naushad (Ghaziabad, India)	29
Chemical precipitation of aerobically treated olive mill wastewater A.C. Johnson (Sheffield, UK and Asmara, Eritrea), G. Martinez-Garcia and R.G.J. Edyvean (Sheffield, UK)	39
Fouling of tubular ceramic membranes during processing of cane sugar juice W.O.S. Doherty, D.W. Rackemann and R.J. Steindl (Brisbane, Australia)	45
Effect of thermal radiation and heat generation on MHD flow past a uniformly heated vertical plate G. Saha, T. Sultana (Dhaka, Bangladesh) and S. Saha (Melbourne, Australia).....	57
Removal of Pb ²⁺ and Zn ²⁺ from the aqueous solutions by activated carbon prepared from date stones L. Mouni, D. Merabet (Ouzemour, Algeria), A. Bouzaza (Rennes, France) and L. Belkhiri (Batna, Algeria)	66
Alkaline treatment of seashells and its use for the removal of Cu(II) from aqueous solution A. Baraka, H. Hatem, I. Mamdouh and A. Zaki (Cairo, Egypt).....	74
Sorption of Cu(II) ion from aqueous solution by scrap tyre N.A. Oladoja (Akungba-Akoko), A.E. Ofomaja (Benin), J.A. Idiaghe (Auchi), A.K. Akinlabi (Benin) and E.E. Egbon (Ekpoma, Nigeria)	83
Optimizing coagulant demand by nephelometric turbidimeter monitoring system (NTMS) W.P. Cheng, R.F. Yu, Y.J. Hsieh, S.Y. Wu, Y.W. Huang and S.M. Chen (Miaoli, Taiwan).....	95
Chemical analysis in an effluent desalination system V. Velmurugan and K. Srithar (Tamil Nadu, India).....	101
Performance evaluation of nanofiltration membranes for diafiltration of dye/salt mixtures: Experimental observations and model verification J. Cuhorka and P. Mikulášek (Pardubice, Czech Republic)	110
Comparing PAC/UF and conventional clarification with PAC for removing microcystins from natural waters M. Campinas (Faro and Lisbon) and M.J. Rosa (Lisbon, Portugal).....	120
Acid mine drainage treatment with dunite A. Demetriou, M. Lysandrou, A. Charalambides and I. Pashalidis (Lefkosia, Cyprus)	129
Comparison of osmotic membrane distillation and forward osmosis membrane processes for concentration of anthocyanin C.A. Nayak and N.K. Rastogi (Mysore, India).....	134
The biodegradable complexing agents as an alternative to chelators in sorption of heavy metal ions D. Kołodyńska (Lublin, Poland).....	146
From chemical disinfection to electrodisinfection: The obligatory itinerary? D. Ghernaout (Blida) and B. Ghernaout (Medea, Algeria)	156
Acyclic polyamine modified starch for amido black 10B removal in basic solution R. Cheng (Shanghai), S. Ou (Guilin), B. Xiang, Y. Li, F. Chang and M. Li (Shanghai, China).....	176
Towards implementation of reverse electrodialysis for power generation from salinity gradients J.W. Post (Sneek and Leeuwarden), C.H. Goeting (Sneek and Schiedam), J. Valk (Sneek), S. Goinga (Stavoren), J. Veerman (Leeuwarden), H.V.M. Hamelers (Wageningen) and P.J.F.M. Hack (Sneek and Schiedam, The Netherlands)	182
Effect of olive mill wastewater spreading on the physicochemical characteristics of soil A. Yaakoubi, A. Chahlaoui (Zitoune Meknès), M. Rahmani (Rabat), M. Elyachioui (Kenitra) and I. Nejdi (Rabat, Morocco)	194

In Desalination, from 1987 to 2009, The birth of a new seawater pretreatment process: electrocoagulation – An overview	
A. Saiba, S. Kourdali (Blida), B. Ghernaout (Medea) and D. Ghernaout (Blida, Algeria).....	201
Sustainability analysis of different SWRO pre-treatment alternatives	
M. Beery and J.-U. Repke (Berlin, Germany).....	218
Drought impacts on karstic spring annual water potential. Application on Almyros (Crete) brackish spring	
D. Alexakis and G. Tsakiris (Athens, Greece).....	229
Crystallization of salts from super-concentrate produced by tandem RO process	
R.Y. Ning (San Diego, CA) and A.J. Tarquin (El Paso, TX, USA).....	238
Photochemical oxidative decolorization of CI basic red 46 by UV/H ₂ O ₂ process: Optimization using response surface methodology and kinetic modeling	
A.R. Khataee and B. Habibi (Tabriz, Iran).....	243
Double-sided wet fabric evaporator utilizing wind and solar energy efficiently – Simulation modeling and feasibility of evaporator	
T. Nosoko, S. Gima, H. Minakuchi, K. Ameku and K. Irabu (Okinawa, Japan).....	254
Removal of Pb(II) ions from aqueous solutions using <i>Bombax ceiba</i> saw dust activated carbon	
V. Sakthi (Pollachi, India), N. Muthulakshmi Andal (Coimbatore), S. Rengaraj and M. Sillanpää (Mikkeli, Finland).....	262
Comparative study on the removal of zinc(II) by bovine bone, billy goat bone and synthetic hydroxyapatite	
S. Meski, H. Khireddine, S. Ziani (Bejaia, Algeria), S. Rengaraj and M. Sillanpää (Mikkeli, Finland).....	271
Sorption of nickel ions from aqueous solutions using activated carbon derived from walnut shell waste	
G. Wang, A. Li and M. Li (Dalian, China).....	282
PACl coagulation for the solid–liquid separation of highly concentrated algae suspensions	
W.P. Cheng, W.Y. Chen and R.F. Yu (Miaoli, Taiwan).....	290
Advanced treatment of paper mill wastewater by catalytic vacuum distillation	
N. Li, H. Ma and B. Wang (Xi'an, China).....	298
Pervaporation performance of crosslinked PVA and chitosan membranes for dehydration of caprolactam solution	
Q. Li, P. Yu, T. Zhu, L. Zhang, Q. Li and Y. Luo (Wuhan, China).....	304
Adaptability of ultrafiltration and its pretreatment process in three types of feed water	
H. Zeng, J. Zhang, C. Ye and J. Lin (Wuhan, China).....	313
Adsorption of Cu(II) and Pb(II) from aqueous solution using Jordanian natural zeolite based on factorial design methodology	
N.A. Jarrah (Karak, Jordan).....	320
Selective separation of palladium (II) from precious metal ions using thiosemicarbazone derivatives from acidic media by solid phase and solvent extractions	
M.M. Hassanien (Beni-Suef) and K.S. Abou-El-Sherbini (Giza, Egypt).....	329
Thermodynamic analysis of humidification–dehumidification desalination cycles	
G.P. Narayan, M.H. Sharqawy, J.H. Lienhard V (Cambridge, MA, USA) and S.M. Zubair (Dhahran, Saudi Arabia).....	339
Thermophysical properties of seawater: A review of existing correlations and data	
M.H. Sharqawy, J.H. Lienhard V (Cambridge, MA, USA) and S.M. Zubair (Dhahran, Saudi Arabia).....	354
Salinity and specific ion effects on onion establishment in relation to disposal of desalting concentrates	
S. Miyamoto, G. Niu and I. Martinez (El Paso, TX, USA).....	381
Chromium VI and cadmium II removal from aqueous solutions by olive stones	
K. Rouibah (Constantine and Jijel), A.-H. Meniai (Constantine), M.T. Rouibah, L. Deffous (Constantine and Jijel) and M.B. Lehocine (Constantine, Algeria).....	393
Optimization study on sewage sludge conditioning using <i>Moringa oleifera</i> seeds	
W.K. Tat, A. Idris, M.J. Megat Mohd Noor, T.A. Mohamed, A.H. Ghazali (Serdang) and S.A. Muyibi (Kuala Lumpur, Malaysia).....	402
Comparative analysis on reduction of agricultural non-point pollution by riparian buffer strips in the Paldang Watershed, Korea	
S.J. Chung (Gyeonggi-Do and Seoul), H.K. Ahn, J.M. Oh, I.S. Choi, S.H. Chun (Gyeonggi-Do), Y.K. Choung, I.S. Song and K.H. Hyun (Seoul, Korea).....	411
Sodium silicate impacts on lead release in a blended potable water distribution system	
P.A. Lintereur (Fort Worth, TX), S.J. Duranceau, J.S. Taylor and E.D. Stone (Orlando, FL, USA).....	427
Author Index.....	439
