

**Contents**  
**Volume 181**

Impacts of projected changes in feed-water salinity on the City of Cape Coral Florida north brackish-water reverse osmosis desalination plant operation N.J. Harvey, T.M. Missimer (USA) .....	1
Environmental impacts of reject brine disposal from desalination plants C. Rodrigues Anders, C. dos Santos Fernandes, N. da Silva Dias, J.W. da Silva Gomes, M.R. de Souza Melo, B.G.A. de Souza, A.C. Medeiros Souza, F.S. de Sousa Júnior (Brazil) .....	17
Nanofiltration performance prediction for brackish water desalination: case study of Tunisian groundwater M.A. Kammoun (Tunisia, France), S. Gassara, J. Palmeri (France), R. Ben Amar (Tunisia), A. Deratani (France) .....	27
Linear programming determination of blend ratios for desalinated water produced by multistage flash and reverse osmosis in a hybrid plant Y. Nishi, Liu Qian, M. Higashimoto, M.A. Abdelmoneim (Japan) .....	40
Techniques for water disinfection, decontamination and desalinization: a review J. Zuluaga-Gomez (Spain, Colombia, France), P. Bonaveri, D. Zuluaga (Colombia), C. Álvarez-Peña, N. Ramírez-Ortiz (Spain) .....	47
Polyelectrolyte self-assembly on polymeric nanofiltration substrates: Insight into thin film growth and surface modification M.M. Motsa (South Africa), B.B. Mamba (South Africa, China) .....	64
Design recommendations and cost assessment for non-stop off-grid plants of seawater desalination based on PV-driven with wind/diesel energy backup V.J. Subiela, B. Peñate, L. García-Rodríguez (Spain) .....	80
Performance of bubble column humidification-dehumidification (HDH) desalination system B.A. Abdelkader (Canada, Saudi Arabia), M. Khan, M.A. Antar, A.E. Khalifa (Saudi Arabia) .....	101
Biomass as a renewable energy source for water desalination: a review A. Amiri, C.E. Brewer (USA) .....	113
Performance evaluation of anaerobic moving bed bioreactor (An-MBBR) for pretreatment of desizing wastewater H.M.A. Shahzad (Pakistan), C. Baumann (Germany), S.J. Khan (Pakistan), H. Schönberger, F.-A. Weber (Germany), Zeshan (Pakistan) .....	123
Bioelimination of phenanthrene using degrading bacteria isolated from petroleum soil: safe approach A.S. Abdel-Razek, H.H. El-Sheikh, W.B. Suleiman, T.H. Taha, M.K. Mohamed (Egypt) .....	131
Case study of pump scheduling using sensor-based real-time pump efficiency monitoring Heekyong Oh, Jungyeol Eom, Taehoon Kim (Korea) .....	141
Cross-scale analysis of the energy recovery process in pressure exchanger and pipeline system Zheng Cao, Jianqiang Deng, Fanghua Ye (China) .....	151
Halophilic bacterial community and their ability to remove zinc oxide and titanium dioxide nanoparticles from wastewater V. Weber, I. Kamika, M.N.B. Momba (South Africa) .....	161
Treatment of domestic sewage by biological contact oxidation of different packings under hypoxia Chunhong Shi, Yao Zhang, Xiaolong Huang, Xinfei Zhang (China) .....	188
Comparative analysis of the phosphorus removal characteristics between two-stage and single-stage SBR processes for phosphorus and nitrogen removal Hongyan Li, Lei Bai, Beisheng Long, Hua Kang, Hongbo Liu, Shuping Wang, Xi Nie (China) .....	197
Influence of solids contained in septic tank effluent on lifespan of soil infiltration systems M. Spychała, M. Pawlak, M. Makowska (Poland) .....	204
Modelling of lead ions transport through bulk liquid membrane A.D.Z. Albdiri, A.A. Mohammed, M. Hussein (Iraq), S. Koter (Poland) .....	213

Bacterial contamination in drinking water of urban Peshawar: a comparative study at the sources and user points of tube wells S. Khan, S. Ali, S. Muhammad, B. Khan, A. Ali (Pakistan), A.E.-L. Hesham (Egypt), S. Begum (Pakistan) .....	221
Optimizing of <i>Microcystis aeruginosa</i> inactivation in freshwater using algicidal <i>Bacillus subtilis</i> by central composite design A.A. Al-Hakimi (Saudi Arabia, Yemen), F. Alminderej (Saudi Arabia), E. Noman (Yemen, Malaysia) .....	228
Water quality and health risk of public drinking water sources: a study of filtration plants installed in Rawalpindi and Islamabad, Pakistan M.T. Sohail (China), Y. Mahfooz, R. Aftab (Pakistan), Y. Yen, M.A. Talib, A. Rasool (China) .....	239
Synthesis of zinc oxide nanoparticles impregnated clay tablets and their potential applications as point of use water purification intervention A. Samad, M.I. Din, M. Ahmed (Pakistan) .....	251
Fluoride in groundwater in the Bongo District, Ghana: an assessment, health impact and possible mitigation strategies F. Atipoka (Ghana), A.I. Schäfer (Germany), F. Momade (Ghana) .....	258
Comprehensive evaluation of water resources utilization benefits based on catastrophe theory Meimei Wu (China), Wei Ge (China, The Netherlands), Zening Wu, Zongkun Li (China) .....	273
Removal, optimization and kinetic modelling of high concentration of methyl tertiary butyl ether from aqueous solutions using copper oxide nanoparticles and hydrogen peroxide F. Abbasi, M.R. Samaei, A. Azhdarpoor, M. Jalili, H. Maleknia, A. Mehdizadeh (Iran) .....	278
Dynamic sorption of hexavalent chromium using sustainable low-cost eggshell membrane A. Lahmar, Z. Hattab, R. Zerdoum, N. Boutemine, R. Djellabi, N. Filali, K. Guerfi (Algeria) .....	289
Graphene-supported iron-based composites: a review of applications to wastewater treatment Xianliang Wu, Rensheng Cao, Jiwei Hu, Chao Zhou, Liya Fu, Xionghui Wei (China) .....	300
Isolation and identification of cold-tolerance aerobic denitrifier <i>Pseudomonas plecoglossicida</i> Y-1 Shu-di Xiang, Zhen-lun Li, Qing Ye, Teng-xia He, Yi Xu, Xue-jiao Huang, Mi Feng (China) .....	321
A transfer-learning-based feature classification algorithm for UAV imagery in crop risk management Shubo Wang, Yu Han, Jian Chen, Yue Pan, Yi Cao, Hao Meng (China) .....	330
Effect of treated wastewater on strawberry Y. Djillali, M.N. Chabaca, S. Benziada, H. Bouanani (Algeria), L. Mandi (Morocco), M.C. Bruzzoniti (Italy), N. Boujelben (Morocco), A. Kettab (Algeria) .....	338
Nano spinels of copper-doped cobalt aluminate ( $\text{Co}_x\text{Cu}_{(1-x)}\text{Al}_2\text{O}_4$ ) for removal of Cd(II) from aqueous solutions A. Shamsi, S. Hashemian (Iran) .....	346
Removal of highly toxic Cd(II) metal ions from aqueous medium using magnetic nanocomposite: adsorption kinetics, isotherm and thermodynamics A.A. Alqadami, Mu. Naushad, T. Ahamad, M. Algamdi, A. Alshahrani (Saudi Arabia), H. Uslu (Turkey), S.K. Shukla (China) .....	355
Intensified adsorption of cesium by PVDF-g-caffeic acid/Prussian blue/polytetrafluoroethylene sandwich membranes Shuang Hao, Zhiqian Jia (China) .....	362
Enhanced removal of arsenic and fouling mitigation of nanofiltration process via coagulation pretreatment Changwei Zhao, Ling Yu, Lili Xu, Yang Yu (China) .....	369
Isotherm, kinetic and thermodynamic studies for adsorption of lead(II) onto modified Aloj clay K.S. Obayomi, M. Auta, A.S. Kovo (Nigeria) .....	376
Aqueous degradation of esculetin (6,7-dihydroxycoumarin) using gamma radiation J. Madureira, M.L. Botelho (Portugal), W.J. Cooper (USA), J.P. Leal, R. Melo (Portugal) .....	385
Synthesis and characterization of $\text{FeNi}_3$ nanoparticles and their application as catalysts for penicillin G degradation in a Fenton-like reaction A.H. Panahi, M. Kamranifar, M.H. Moslehi (Iran), S. Rodriguez-Couto (Spain), N. Nasseh (Iran) .....	391
Removal of methylene blue dye from synthetic aqueous solutions using dimethylglyoxime modified amberlite IRA-420: kinetic, equilibrium and thermodynamic studies A.E.M. Mekky, M.M. El-Masry, R.E. Khalifa, A.M. Omer, T.M. Tamer (Egypt), Z.A. Khan, M. Gouda (Saudi Arabia), M.S. Mohy Eldin (Egypt) .....	399

Production and characterization of Ti-doped SrAl <sub>2</sub> O <sub>4</sub> via volume combustion synthesis: application for dye removal P. Demircivi, M. Bugdayci (Turkey) .....	412
Toxic yellow cow dung powder (Auramine O dye) removal via Ipomoea aquatica waste Y.C. Lu (Brunei), N. Priyantha (Sri Lanka), L.B.L. Lim (Brunei), M. Suklueng (Thailand) .....	422
Influence of natural and synthetic blended polymers on the electrospun PVA/chitosan/PANI composite nanofibers to be used for dye decolorization M.A. Khalil, M.F. El-Kady, G.M. El-Subruiti, E.M. El-Sayed (Egypt) .....	436
Author Index .....	447
