Volume 202

| | |
|---|-----|
| Long-term pumping-induced groundwater quality changes at a brackish-water desalination facility, Sanibel Island, Florida N.J. Harvey, D.E. Johnston, T.M. Missimer (USA) | 1 |
| The research and application progress of the isobaric ERD technique for SWRO desalination plant Kaier Liang (China, USA), Qingfen Ma, Hui Lu, Haixuan Fang, Peng Yang, Junqing Fan (China) | 14 |
| Optimal design and techno-economic evaluation of a renewable energy powered combined reverse osmosis desalination and brine treatment unit E.J. Okampo, N. Nwulu (South Africa) | 27 |
| Preparation and characterization of partially degradable hollow fiber membranes based on polysulfone/poly(L-lactide-co-glycolide-co- ϵ -caprolactone) blends C. Wojciechowski, M. Mazurek-Budzyńska, A. Palinska, A. Chwojnowski, L. Granicka, W. Sikorska, G. Rokicki (Poland) | 38 |
| Applicability of the Lr form of the Kedem–Katchalsky–Peusner equations for membrane transport in water purification technology A. Ślęzak, S. Grzegorzczyn, K.M. Batko, W.M. Bajdur, M. Włodarczyk-Makuła (Poland) | 48 |
| Effect of iron salt modification on the adsorption of hydrogen sulfide by sludge-based activated carbon Fan Zeng, Xiaofeng Liao, Jiawei Lu, Danping Pan, Qili Qiu, Keqiang Ding, Wendi Zhang (China) | 61 |
| Sequencing batch reactor: inexpensive and efficient treatment for tannery effluents of Fez city in Morocco K. Elkarrach, M. Merzouki, O. Laidi, S. Biyada, A. Omor, M. Benlemlih (Morocco) | 71 |
| Performance of hybrid anaerobic membrane bioreactors (AnMBRs) augmented with activated carbon in treating palm oil mill effluent (POME) Chee Yong Tai, S.M.A. Abuabdou, Choon Aun Ng, Chin Heng Gan, M.J.K. Bashir (Malaysia) | 78 |
| The effect of POME ultrasonication pretreatment on biogas production and reduction of greenhouse gases emissions from wastewater treatment units of palm oil mills T.T. Suksaroj, S. Yaeed, C. Suksaroj (Thailand) | 86 |
| Optimizing induced struvite crystallization in a fluidized bed reactor for low-strength ammonium wastewater treatment Jingyao Wang, Hui Gong, Xiang Liu, Zhimou Wei, Kaijun Wang (China) | 95 |
| Photo-oxidation of real olive oil mill wastewater N. Baycan, A. Balkan, G. Gören (Turkey) | 105 |
| Experimental and economic analysis of a permeate gap solar-driven membrane distillation system S. Mejbri (Tunisia), K. Zhani (Saudi Arabia, Tunisia) | 112 |
| Developing symmetrical traditional double-stage membrane distillation system based on air-gap and water-gap configurations M.A.E.R. Abu-Zeid (China, Egypt), Xiaolong Lu, Shaozhe Zhang (China) | 121 |
| Simulation and optimization of hydraulic conditions via separation mesh modification in a pilot hybrid growth membrane bioreactor using computational fluid dynamics A. Bakr, Bo-Wen Wang, He-Ping Liu, Xue-Song Yi, Fei Yang (China) | 133 |
| Permeate flux enhancement with a helical wired concentric tube in air gap membrane distillation systems Chii-Dong Ho, Luke Chen, Kun-Yi Wu, Chi-Hsiang Ni (Taiwan), Thiam Leng Chew (Malaysia) | 150 |
| A review: preparation of sludge derived carbons and their performance in wastewater treatment Li Yu, Yunkang Liu, Huangzhao Wei (China) | 169 |
| The general methods of mine water treatment in China Penghui Gao, Yuntao Wang, Zhenghan Zhang, Yiran Cao, Zhan Liu, Donghai Zhang (China) | 183 |

| | |
|---|-----|
| Electrocoagulation in batch mode for the removal of the chemical oxygen demand of an effluent from slaughterhouse wastewater in Lima Peru: Fe and Al electrodes W. Reátegui-Romero, S.A. Tuesta-Tinoco, C.E. Ochoa De la Cruz, J.A. Huamán-Ccopa, M.E. King-Santos, E.F. Estrada-Huamani, W. Bulege-Gutierrez, R.A. Yuli-Posadas, V. Fernández-Guzmán (Peru) | 206 |
| Adsorption of oxytetracycline from aquaculture wastewater by modified zeolites: kinetics, isotherm, and thermodynamics Xiaocai Yu, Runqiang Yu, Bining Xue, Jiaqi Liao, Wanting Zhu, Siyao Tian (China) | 219 |
| Flower-shaped nanoscale $\text{Na}_2\text{Mg}(\text{CO}_3)_2$: a promising adsorbent for fluoride removal from drinking water Bai Sun, Fangwen Xu, Fei Liu, Yunming Cheng, Jie Zhang, Zhuo Tang, Jinyun Liu, Shuguang Zhu, Xinli Cai (China) | 232 |
| Electrocoagulation-flotation: a novel proposal for Latin-American water treatment facilities C. Graepin, E. Carissimi, R.C. Kuhn, G.H. Bracher (Brazil) | 241 |
| Adsorption and mechanism of nitrate from groundwater onto Si-Al porous clay mineral material as ceramic waste: characterization, kinetics, and adsorption isotherms Liping Jia, Binhui Jiang, Fei Huang, Xiaomin Hu (China) | 251 |
| Annual dynamics of water quality in a small urban landscape lake: a case study of Lake Wuzhou, China Yuan Gao, Yanjie Zhao (China) | 264 |
| The element concentrations and enrichment factors of sediments in West Marmara Sea ports A. Yinanç (Turkey) | 269 |
| Influencing factors of immobilized bacteria particles for improving denitrification efficiency Lian-gang Hou, Yang Liu, Bang-Lei Zhou, Jun Li (China) | 276 |
| Separation of formic acid and acetic acid from aqueous solutions using sugar beet processing fly ash: characterization, kinetics, isotherms and thermodynamics H. Zeidan, D. Ozdemir, N. Kose, E. Pehlivan, G. Ahmetli, M.E. Marti (Turkey) | 283 |
| Optimization of TOC removal from coal gasification wastewater by novel Fe/C micro-electrolysis fillers containing MnO_2 using response surface methodology Yaqin Liang, Hui Li, Xiaoming Mao, Lintao Wu, Yan Li, Fei Wang, Liqun Liang, Zhihui Ma (China) | 295 |
| Performance of mixed mesoporous silica Si (Mes)-Perovskite (P) to remove hydroxybenzene in aqueous solution — effect of parameters influencing the adsorption efficiency M. Abbas, T. Aksil, M. Trari (Algeria) | 306 |
| Removal of triclosan from aqueous solution using thermally treated rice husks M. Triwiswara, Jin-Kyu Kang, Joon-Kwan Moon, Chang-Gu Lee, Seong-Jik Park (Korea) | 317 |
| Reasonable design of a corn stalk cellulose-based adsorbent for adsorption of Cd(II) and Ni(II): adsorption behaviors and mechanisms Cen Lai, Fen Huang, Yumeng Wu (China), Rong Wang (China, UK) | 327 |
| Residual biomass of gooseberry (<i>Ribes uva-crispa</i> L.) for the bioremoval process of Fe(III) ions T. Kalak, J. Dudczak-Hałaubuda (Poland), Y. Tachibana (Japan), R. Cierpiszewski (Poland) | 345 |
| Enhanced photocatalytic ozonation of 2,4-dichlorophenoxyacetic acid using CoP cocatalyst decorated on $g\text{-C}_3\text{N}_4$ under visible-light irradiation Zhuo Liu, Changyu Lu, Qicai Mo, Qiaozhi Yan, Jinlin Li, Weisheng Guan (China) | 355 |
| Preparation and characterization of a recyclable high-branched/generation dendrimer nano-polymer based on enhanced magnetic core for naphthalene sorption from aqueous solutions S. Aliannejadi, A.H. Hassani, H. Ahmad Panahi, S.M. Borghei (Iran) | 364 |
| Adsorption of carcinogenic dye Congo red onto prepared graphene oxide-based composites A.A. Mizhir, A.A. Abdulwahid, H.S. Al-Lami (Iraq) | 381 |
| Adsorption studies on brilliant green dye in aqueous solutions using activated carbon derived from guava seeds by chemical activation with phosphoric acid R. Mansour, M.G. Sameda, A. Zaatout (Egypt) | 396 |
| Waste products from the phosphate industry as efficient removal of Acid Red 88 dye from aqueous solution: their regeneration uses and batch design adsorber K. Boughzala (Tunisia), F. Kooli (Saudi Arabia), N. Meksi, A. Bechrifa, K. Bouzouita (Tunisia) | 410 |

| | |
|--|-----|
| Removal of crystal violet in aqueous solution by activated carbon from pericarp of rubber fruit and bagasse: kinetics, thermodynamics and adsorption studies F. Hayeeye, M. Sattar (Thailand) | 420 |
| Synthetic dyes adsorption and discoloration of a textile wastewater effluent by H_3PO_4 and H_3BO_3 activated <i>Thapsia transtagana</i> biomass A. Machrouhi, W. Boumya, M. Khnifira, M. Sadiq, M. Abdennouri, A. Elhalil, H. Tounsadi, S. Qourzal, N. Barka (Morocco) | 435 |
| Synthesis, characterization, and evaluations of Cu-doped TiO_2/Bi_2O_3 nanocomposite for Direct red 16 azo dye decolorization under visible light irradiation V. Barahimi, A. Mehrabani-Zeinabad, M. Rahmati, M. Ghafaripoor (Iran) | 450 |
| Author Index | 462 |
