Volume 21

Issues 1–3

Concentration of proteinin fish mince wash water discharged from Surimi processing plant by ultrafiltration A. Khatprathum, P. Siriwongpaisaan and W. Youravong (Songkhla, Thailand).....	1
Management of wastewater from ink production and metal plating industries in an Egyptian industrial city F.A. Nasr, A.M. Ashmawy, H.S. Ibrahim and M.A. El-Khateeb (Cairo, Egypt)	8
Corrosion failure 90/10 cupronickel tubes in a desalination plant O. Elragei (Tripoli, Libya), F. Elshawesh (Bahrain) and H.M. Ezuber (Tripoli, Libya).....	17
Reverse osmosis modeling with the orthogonal collocation on finite element method B. Absar, S. El Mahi Lamine Kadi and O. Belhamiti (Mostaganem, Algeria)	23
Chelating ion exchange properties of terpolymer resin 2,4-DHPOF-II derived from 2,4-dihydroxypropiofenone M.V. Tarase, A.B. Zade and W.B. Gurnule (Nagpur, India).....	33
CTAB modified nanoporous carbon for the adsorption of chromate ions from industrial wastewater M. Anbia and S.E. Moradi (Tehran, Iran)	44
An approach towards redefining water quality parameters for leather industry. Part 1. Effect of hardness and chlorides in water G. Devikavathi and C. Muralidharan (Chennai, India)	53
Assessment of the natural joboba residues as adsorbent for removal of cadmium from aqueous solutions M. Allawzi, S. Al-Asheh, H. Allaboun and O. Borini (Irbid, Jordan).....	60
Performance analysis of an integrative unit for air conditioning and desalination S. Kalaiselvam, M. Udayakumar and S. Jeyasheela (Chennai, India)	66
Use of surfactant-modified zeolite to carry and slowly release sulfate Zhaohui Li (Kenosha, WI, USA) and Yingpeng Zhang (Ji'nan, China).....	73
Reactive silica in natural waters – A review R.Y. Ning (San Diego, CA, USA)	79
Degradation of high concentration phenol by ozonation in combination with ultrasonic irradiation L.P. Yang (Guangzhou, Beijing and Jishou), W.Y. Hu (Jishou), H.M. Huang (Guangzhou and Beijing) and B. Yan (Guangzhou, China)	87
The adsorption of arsenic on magnetic iron oxide in aqueous solutions Guiqiu Liu, Nairui Liu, Hefei Zhang and Lixi Zhang (Xi'an, China)	96
Fault diagnosis for an MSF desalination plant by using Bayesian networks E.E. Tarifa, F. Núñez Álvaro, S. Franco (San Salvador de Jujuy) and S. Mussati (Santa Fe, Argentina)	102
Lower rate of H ⁺ (OH ⁻) ions generation at an anion-exchange membrane in electro dialysis N.D. Pismenskaya, E.I. Belova, V.V. Nikonenko, V.I. Zabolotsky, G.Yu. Lopatkova, Yu.N. Karzhavin (Krasnodar, Russia) and C. Larchet (Créteil, France)	109
Functional analysis of cellulose acetate flat membranes prepared via casting technique S.A. Ahmed, M.H. Sorour, H.A. Talaat and S.S. Ali (Cairo, Egypt)	115
Removal of drugs of abuse from municipal wastewater using reverse osmosis membranes M.R. Boleda (Barcelona, Spain), K. Majamaa, P. Aerts (Rheinmünster, Germany), V. Gómez (Tarragona, Spain), M.T. Galceran, F. Ventura (Barcelona, Spain).....	122
Operating control strategies and dimensioning of photovoltaic-powered reverse osmosis desalination plants without batteries A. Schies, J. Went, C. Heidtmann, M. Eisele, F. Kroemke, H. Schmoch and M. Vetter (Freiburg, Germany)	131
The energy demand for desalination with solar powered reverse osmosis units J. Went, F. Kroemke, H. Schmoch and M. Vetter (Freiburg, Germany)	138

Nanofiltration of acid mine drainage H. Al-Zoubi (Ma'an, Jordan), A. Rieger, P. Steinberger (Freiberg, Germany), W. Pelz (Erlangen, Germany), R. Haseneder and G. Härtel (Freiberg, Germany).....	148
Novel polymer film heat exchangers for seawater desalination J.B.P. Christmann, L.J. Krätz and H.-J. Bart (Kaiserslautern, Germany).....	162
Membrane treatment applied to aqueous solutions containing atrazine photocatalytic oxidation products A. Sotto, M.J. López-Muñoz, J.M. Arsuaga, J. Aguado and A. Revilla (Madrid, Spain)	175
Evaluation of calcium content of drinking water supplies and its effect on calcium deficit in Jordan M. Al-Mahasneh, H. Mousa, H. Jalamneh, I. Bani Hani and M. Zawahreh (Irbid, Jordan)	181
A review of modeling bioprocesses in membrane bioreactors (MBR) with emphasis on membrane fouling predictions S.I. Patsios and A.J. Karabelas (Thessaloniki, Greece).....	189
Preparation, characterization and photocatalytic activity of a novel nanostructure ZnO composite film derived sol-gel process using organic binder materials M. Nasr-Esfahani (Najafabad and Karaj), A. Khakifirooz (Karaj), N. Tavakoli and M.H. Soleimani (Isfahan, Iran).....	202
Simultaneous nitritation and denitritation of domestic wastewater without addition of external carbon sources at limited aeration and normal temperatures Wei Zeng, Yue Zhang, Lei Li, Yongzhen Peng and Shuying Wang (Beijing, China)	210
Role of <i>Azadirachta indica</i> (neem) biomass in the removal of Ni(II) from aqueous solution M. Alam, S. Rais and M. Aslam (New Delhi, India).....	220
Utilization of an agricultural waste material, melon (<i>Cucumis melo</i> L.) peel, as a sorbent for the removal of cadmium from aqueous phase O. Hamdaoui, F. Saoudi and M. Chiha (Annaba, Algeria).....	228
Role of solution hydrodynamics on the deposition of CaSO ₄ scale on copper substrate L.M. Al-Hadhrami and A. Quddus (Dhahran, Saudi Arabia)	238
Removal of metsulfuron methyl by granular activated carbon adsorption J.M. Abdul, S. Vigneswaran (Sydney, Australia), W.G. Shim (Gwangju, Korea) and J. Kandasamy (Sydney, Australia)	247
The influence of pH on removal of H ₂ S and natural organic matter by anion resin M.M. Vidović (Belgrade), J.N. Jovičević (K. Mitrovica), J.D. Krstić, I.D. Tomić and S.S. Rogan (Belgrade, Serbia)	255
Finite time thermodynamic optimization for heat-driven binary separation processes Lingen Chen, Liwei Shu and Fengrui Sun (Wuhan, China).....	264
Preparation and application of thiol wheat straw as sorbent for removing mercury ion from aqueous solution Renmin Gong, Wenkai Cai, Na Li (Wuhu), Jian Chen (Wuxi), Jingjing Liang and Jinxu Cao (Wuhu, China)	274
Improvement in the efficiency of hydrolysis of anaerobic digestion in sewage sludge by the use of enzymes I.G. Al-alm Rashed, J. Akunna, M.M. El-Halwany and A.F. Abou Atiaa (Mansoura, Egypt).....	280
Removal of Ni ²⁺ from aqueous solution by blast furnace sludge as an adsorbent A. Radjenovic, J. Malina and A. Strkalj (Sisak, Croatia).....	286
Phosphorus removal from Tunisian landfill leachate through struvite precipitation under controlled degassing technique S. Hassidou, T. Ismail and M. Ben Amor (Soliman, Tunisia).....	295
A new microfiltration photocatalytic reactor for DDT removal Weihai Pang, Naiyun Gao, Haifeng Wang and Shengji Xia (Shanghai, China)	303
Adsorption of Zn(II), Pb(II), Cr(III) and Mn(II) from water by Jordanian bentonite J.S. Al-Jariri and F. Khalili (Amman, Jordan).....	308
Biosorption of copper ions from aqueous solutions using the desert tree <i>Acacia raddiana</i> M.F. Talhi, A. Cheriti (Bechar, Algeria), N. Belboukhari (Bechar, Algeria and Marseille, France), L. Agha (Bechar, Algeria) and C. Roussel (Marseille, France)	323
Performance evaluation of vacuum membrane distillation for desalination by using a flat sheet membrane B.L. Pangarkar (Nashik), P.V. Thorat (Akola), S.B. Parjane and R.M. Abhang (Nashik, India).....	328
The effect of Si and Fe impurities on the removal of Cu ²⁺ and Co ²⁺ from Co/Cu aqueous solutions using natural clinoptilolite as an ion-exchanger D.W. Nyembe, B.B. Mamba and A.F. Mulaba-Bafubiandi (Doornfontein, South Africa)	335

Modeling and simulation of a new design of the SMCEC desalination unit using solar energy K. Zhani (Sfax, Tunisia) and H. Ben Bacha (Alkharj, Saudi Arabia)	346
Nitric acid-treated bamboo waste as low-cost adsorbent for removal of cationic dye from aqueous solution B.H. Hameed (Penang) and I.A.W. Tan (Sarawak, Malaysia)	357
Development of a dynamic simulator (INFMED) for the MED/VC plant G. Kishore (Trombay, India), S. Nisan, S. Dardour (Saint Paul-lez-Durance, France), A.K. Adak, V.K. Srivastava and P.K. Tewari (Trombay, India).....	364
Experience gained through the implementation and operation of a solar humidification–dehumidification desalination plant E. Mathioulakis, G. Panaras and V. Belessiotis (Agia Paraskevi Attikis, Greece).....	375
Visualization of transparent exopolymer particles (TEP) in various source waters T. Berman and R. Parparova (Migdal, Israel)	382
Author Index.....	390
