Volume 243

An investigation of effect of mass flow rate variation on productivity, exergoeconomic and enviroeconomic parameters on N similar PVTCPs included with double slope solar still D.B. Singh, D. Kumar, R.K. Yadav, S.K. Sharma, Y. Chaturbedi, N. Kumar, V.K. Dwivedi (India)	1
Spatio-temporal changes of water pollution, and its sources and consequences in the Bug River, Poland A. Grzywna, U. Bronowicka-Mielniczuk, K. Połec (Poland)	18
The occurrence of microplastics in wastewater and the possibilities of using separation methods to reduce this contamination at the wastewater treatment plant K. Moraczewska-Majkut, W.K. Nocoń, E. Łobos-Moysa (Poland)	37
Removal of selected heterocyclic organic compounds from water and possibilities of system optimization J. Piekutin, U. Kotowska, J. Struk-Sokołowska (Poland)	44
Nano-photocatalysis in water and wastewater treatment M. Bodzek, K. Konieczny, A. Kwiecińska-Mydlak (Poland)	51
The use of membrane filtration for removal of aluminum from drinking water sources A. Kwiecińska-Mydlak, W. Sieradzki, B. Jagustyn, K. Wodzisławska (Poland)	75
TiO ₂ and halloysite-modified ultrafiltration membranes for treating WWTP effluent E. Puszczalo, G. Kamińska, J. Bohdziewicz (Poland)	83
Halloysite as main nanostructural filler in multifunctional mixed matrix membranes – review of applications and new possibilities K. Piotrowski, P. Sakiewicz, K. Gołombek (Poland)	91
Determination of effectiveness of commercial polymeric membranes for carbon dioxide separation G. Wiciak, A. Janusz-Cygan, K. Janusz-Szymańska, M. Tańczyk (Poland)	107
Removal of organic compounds in the pretreatment of a brackish industrial waste stream E. Łobos-Moysa, E. Kudlek (Poland)	116
Antifouling enhancement of polyethersulfone membranes incorporated with silver nanoparticles for bovine serum albumin and humic acid removal M. Al-Bulushi, M. Al-Hinai, S. Al-Obaidani, S. Dobrestov (Oman), E. Nxumalo (South Africa), M. Al-Abri (Oman)	123
Effects of ultraviolet irradiation and titanium(IV) oxide on greywater and domestic wastewater with a low propensity for bio-disintegration M. Spychała, R. Błażejowski, D.T. Młynarczyk, J. Musiał, R. Krakowiak, B.J. Stanis, T. Goslinski (Poland), H.T. Nguyen (Vietnam)	143
Surfactant removal efficiency using a multiscale flow laboratory hydrophyte system – a biodegradation experiment D. Ginter-Kramarczyk, J. Zembrzuska, I. Kruszelnicka, A. Zając-Woźnialis (Poland)	156
Impact of chemical activation on selected adsorption features of powdered activated carbon I. Skoczko, R. Guminski, E. Bos, I. Zglobicka (Poland)	165
Biodesalination and biodegradation of crude oil in aqueous solutions by <i>Halobacillus halophilus</i> M. Zamani Beidokhti, D. Yousefi Kebria (Iran)	180
Electrosorption of cadmium ions from the aqueous solution by a MnO ₂ /carbon fiber composite electrode J.T. Hasan, R.H. Salman (Iraq)	187
Combined treatment with α -amylase and <i>Saccharomyces cerevisiae</i> culture for nutrient removal and biomass production in effluent from rice parboilization G.W. Fehrenbach, F.P.L. Leite, D.G.L. Santos (Brazil)	200
Degradation of formaldehyde from wastewater by batch re-circulation process using a photocatalytic reactor P. Ezhilkumar, V.M. Sivakumar, M. Thirumarimurugan (India)	206
Permanent magnet treatment technology for crystal blockage of tunnel drainage pipes Hao Leng, Huoyin Lv, Fenglei Han, Fabo Liu, Tao Liu (China)	211

Interaction carboxylic acids — light in an aqueous medium and their implication in the elimination of carbamazepine A. Boudib, N. Debbache, N. Seraghni, B.A. Dekkiche, T. Sehili (Algeria)	221
Satellite-derived shallow wetland bathymetry using different classification algorithms and datasets A. Dervisoglu, N. Yagmur, B.B. Bilgilioglu (Turkey)	231
Chitosan sorbents used for dye removal U. Filipkowska, T. Józwiak (Poland)	242
Performance studies of indigo dye removal using TiO ₂ modified clay and zeolite ultrafiltration membrane hybrid system M. Romdhani (Tunisia, France), W. Aloulou, H. Aloulou (Tunisia), C. Charcosset, S. Mahouche-Chergui, B. Carbonnier (France), R. Ben Amar (Tunisia)	262
Regeneration of anthraquinone dye-loaded waste activated carbon by microwave heating and its reuse to adsorb dye containing wastewater Chunfu Xin, Wenhai Hu, Hongying Xia, Qi Zhang, Heng Yan (China)	275
Dye pollution removal in aqueous solution using novel photochemically synthesized CoZnFe ₂ O ₃ nanocomposite R.L. Khalaf, I.M.H. Almousawi, A.M. Rheima (Iraq)	287
Carboxyl-modified lignocellulose biomass of <i>Moringa oleifera</i> pod husk for effective removal of cationic dyes in single and binary dye systems K.N.A. Putri, W. Chinpa (Thailand)	294
Author Index	305
