Volume 25

Issues 1–3

Global trends and performances of desalination research H. Tanaka (Fukuoka, Japan) and Y.-S. Ho (Taichung, Taiwan and Beijing, China)	1
Full-scale anaerobic sequencing batch biofilm reactor for sulfate-rich wastewater treatment A. Sarti, A.J. Silva, M. Zaiat and E. Foresti (São Carlos, SP, Brasil)	13
Phenol biodegradation by mixed culture in batch reactor – Optimization of the mineral medium composition A. Hamitouche (Algiers, Algeria), A. Amrane (Rennes, France), Z. Bendjama and F. Kaouah (Algiers, Algeria)	20
Treatment of textile wastewater using organically modified bentonite J.X. Lin and L. Wang (Hangzhou, China).....	25
Investigation for the possibility of nitrogen removal from industrial effluent of bone glue industry using a batch electrocoagulation unit with monopolar horizontal electrodes A.H. El-Shazly (Alexandria, Egypt).....	31
Direct-dyes bioremoval using <i>Aspergillus niger</i> in pilot scale bioreactor W.M. Abd El-Rahim and O.A.M. El-Arady (Cairo, Egypt)	39
Ion-exchange-ultrafiltration system for surfactants removal from water solutions I. Kowalska (Wroclaw, Poland)	47
Removal of textile dyes by sorption on low-cost sorbents. A case study: sorption of reactive dyes onto <i>Luffa cylindrica</i> E.A. Oliveira, S.F. Montanher and M.C. Rollemberg (Maringá, Paraná, Brazil)	54
Decoloration of Methyl Red by gliding arc discharge B. Trifi (Tunis, Tunisia), S. Cavadias (Paris, France) and N. Bellakhal (Tunis, Tunisia).....	65
Reclaiming polymer-flooding produced water for beneficial use: Salt removal via electrodialysis Guolin Jing, Lijie Xing, Shulin Li and Chunjie Han (Daqing, China).....	71
Properties of anion exchange resins exhausted by humic compounds Z. Maletskyi, T. Mitchenko, N. Makarova (Kiev, Ukraine) and W.H. Hoell (Karlsruhe, Germany)	78
Optimization of the reverse osmosis seawater demineralization technologies for a power producing industry F. Fendri, T. Mitchenko and Z. Maletskyi (Kiev, Ukraine).....	84
Simulation of the spiral wound RO membranes deformation under operating conditions S.A. Avlonitis, D.G. Pavlou and S. Skourtis (Psahna Evia, Greece).....	91
Adsorption characteristic studies of phosphorus onto laterite Liang Zhang, Song Hong, Jing He, Fuxing Gan (Wuhan, China) and Y.-S. Ho (Taichung, Taiwan and Beijing, China).....	98
Potentially toxic trace elements accumulating in marine sediment and bivalves in the outfall area of a desalination plant Ming-Hsun Lin, Cheng-Haw Lee (Tainan City), Yung-Chang Lin (Niaosong Township) and Kuo-Hsin Yang (Taipei, Taiwan)	106
Membrane potential across a cation-exchange membrane separating solutions with a common electrolyte but two different solvents Y. Zhang, Y. Chen, M. Yue, Z. He and Y. Zhou (Mianyang, China)	113
Operation of desalination plants using renewable energies and hybrid control L.G. Palacin, F. Tadeo, C. de Prada and J. Salazar (Valladolid, Spain).....	119
New dynamic library of reverse osmosis plants with fault simulation L.G. Palacin, F. Tadeo (Valladolid, Spain), H. Elfil (Soliman, Tunisia), C. de Prada and J. Salazar (Valladolid, Spain)	127

Application of the combined ultrafiltration and reverse osmosis for refinery wastewater reuse in Sinopec Yanshan Plant Daxin Wang, Flora Tong (Beijing, China) and P. Aerts (Midland, MI, USA)	133
Maximising RO recovery using a new antiscalant for high sulphate waters S.P. Chesters, M.W. Armstrong, D.A. Golding and H. Ostovar (Middlewich, Cheshire, UK)	143
The effects of feed water de-gassing on the permeate flux of a small scale SWRO pilot plant M.J. Francis, R.M. Pashley and M. Rzechowicz (Perth, Australia)	150
Development and characterization of chitosan coated biopolymer sorbent for the removal of fluoride ion from aqueous solutions Y. Vijaya (Tirupati, India), S.R. Popuri (Cave Hill, Barbados), G. Sankara Reddy and A. Krishnaiah (Tirupati, India).....	159
Recycle of alum sludge with PAC (RASP) for drinking water treatment Lu Qi, Rong Cheng, Hong-chen Wang, Xiang Zheng (Beijing), Guang-ming Zhang and Gui-bai Li (Harbin, China).....	170
Mutual action of copper (II) and a nonionic surfactant (oxyethylated alcohols) on their simultaneous removal by a neutral hyper-cross-linked polystyrene adsorbent D. Kaušpėdienė and A. Selskienė (Vilnius, Lithuania)	176
Removal of Disperse Red 1 from an aqueous solution by fungus <i>Aspergillus niger</i> George Yuzhu Fu (Statesboro, GA, USA) and T. Viraraghavan (Regina, Saskatchewan, Canada).....	187
Membrane distillation heat transfer enhancement by CFD analysis of internal module geometry A. Cipollina, G. Micale and L. Rizzuti (Palermo, Italy).....	195
Application of the photo-Fenton process to the mineralization of phthalic anhydride in aqueous medium S. Trabelsi-Souissi (Marne-la-Vallée, France and Tunis, Tunisia), N. Oturan (Marne-la-Vallée, France), N. Bellakhal (Tunis, Tunisia) and M.A. Oturan (Marne-la-Vallée, France)	210
Third phase formation in the extraction of nitric acid and metal ions by octyl(phenyl)- <i>N,N</i> -diisobutyl carbamoyl methyl phosphine oxide (O Φ CMPO) based solvents S. Mallick, A. Suresh, T.G. Srinivasan and P.R. Vasudeva Rao (Kalpakkam, India)	216
Biological nitrogen removal at low water temperatures – long term experience S. Morling and E. Plaza (Stockholm, Sweden)	226
Application of advanced oxidation processes to remove refractory compounds from dye wastewater Jinwook Chung (Gyeonggi-Do) and Jong-Oh Kim (Gangwon-do, Korea).....	233
Multi-criteria sustainability assessment of water desalination and energy systems – Kuwait case N.H. Afgan (Lisbon, Portugal) and M. Darwish (Safat, Kuwait).....	241
Experimental and simulation study of an air gap membrane distillation module with solar absorption function for desalination H. Chang, C.-L. Chang, C.-D. Ho, C.-C. Li and P.-H. Wang (Tamsui, Taiwan)	251
Membrane reactor design as a tool for better membrane performance in a biofilm MBR (BF-MBR) I. Ivanovic and T. Leiknes (Trondheim, Norway)	259
Studies on the photocatalytic decolorization of pararosaniline chloride dye and its simulated dye bath effluent A.H. Ali, S. Kapoor and S.K. Kansal (Chandigarh, India)	268
Environmental assessment of brine discharge and wastewater in the Arabian Gulf R. Bashitialshaaer, L. Flyborg (Lund), K.M. Persson (Lund and Malmö, Sweden)	276
Evaluation of variable volume diafiltration processes using the Logarithmic Integral G. Foley (Dublin, Ireland).....	286
Production of L-lysine from L-lysine monohydrochloride by electrodialysis Yan Chen, Yaping Zhang, Mingzhu Yue and Yuanlin Zhou (Mianyang, China).....	291
Crosslinked sodium alginate and sodium alginate-clinoptilolite (natural zeolite) composite membranes for pervaporation separation of dimethylformamide-water mixtures: A comparative study S. Kahya (Aksaray), O. Şanlı (Ankara) and E. Çamurlu (Antalya, Turkey)	297
Plackett–Burman design and response surface methodological approach to optimize basic dyes removal using sugarcane bagasse Siew-Teng Ong (Perak, Malaysia), Eng-Cheong Khoo, Pei-Sin Keng, Siew-Ling Hii (Kuala Lumpur, Malaysia), Siew-Ling Lee (Johor, Malaysia), Yung-Tse Hung (Cleveland, OH, USA) and Sie-Tiong Ha (Perak, Malaysia)	310
Author Index.....	319
