Volume 283

Treatment of textile wastewater by electrocoagulation process assisted with biocoagulant obtained from the pitahaya peels H.G.J. Pacheco, N.Y.M. Elguera, M.R.A. Mamani, N.P.L. Alvarez (Peru), V. de Cinque Almeida (Brazil)	1
Treatment of municipal wastewater of Fez city (Morocco) using a sequence of aerobic and Fenton processes M. Kachabi (Morocco, France), M. Nawdali, K.F. Benbrahim (Morocco), L. Fine, J.-M. Chovelon, C. Ferronato (France), H. Zaitan (Morocco)	11
Treatment of power plant wastewater using reverse osmosis process H.A. Mohammed, D.E. Sachit, M.H. Al-Furaiji (Iraq)	22
Removal of Cr(III) from tannery wastewater using <i>Citrus aurantium</i> (grapefruit peel) as biosorbent Z. Rabago-Velasquez, L. Patiño-Saldivar (Mexico), A.N. Ardila A. (Colombia), A. Talavera-Lopez, M. Salazar-Hernández, R. Hernández-Soto, J.A. Hernández (Mexico)	36
Study of the effects of ionic liquid on microwave demulsification of polymer flooding wastewater Huayi Jiang, Nana Sun, Ding Wang, Ennan Xiao, Aojiang Qi (China)	50
Preparation of an enhanced chitosan modified flocculant with both chelation adsorption and flocculation effects for efficient treatment of Pb ²⁺ heavy metal wastewater Lixiu Liu, Aijiang He (China)	62
Treatment of olive mill wastewater by an ecosystem R. Bougassa, L. Tahri, A. El Abidi, R.A. Lahmam, M. Fekhaoui (Morocco)	74
Effect of flow field and electric field coupling on oil-water emulsion separation Zhihua Wang, Xiangdong Qi, Yongtao Zhuang, Qun Wang, Xitong Sun (China)	79
A comprehensive study on the effect of variation of flow rate of fluid and N on energy metrics of N similar photovoltaic thermal flat plate collectors integrated single slope solar still G.K. Sharma, A. Mallick, R.K. Sharma, N. Kumar, D.B. Singh (India)	97
Performance study of a solar still desalination system coupled with solar air heater B. Ellappan, V.R. Madhavan (India), M.E.H. Attia (Algeria)	109
Decontamination of silver ions from aqueous solution using coconut coir F. Kausar, T. Javed, N. Khalid, M.L. Mirza (Pakistan)	118
Enhanced adsorption of fluoride ion by polyethyleneimine modified diatomite in aqueous solution: adsorption optimization, models, and mechanism Yanzhuo Zhang, Haiqin Zhang, Jing Zhao, Xiaozhuan Zhang (China)	130
The removal of Pb(II) ions from aqueous solutions by immobilized (<i>Chlorophyta</i>) macroalgae: an equilibrium, kinetic, and desorption-regeneration study D.S. Alobaidi, A.I. Alwared (Iraq)	141
Removal of Cr(III) and Ni(II) from aqueous solution using a mixed cellulose ether-ester hydroxyethylcellulose adipate M.A. Hussain, S. Fatima, A. Abbas, A. Alb, M. Amin, G. Muhammad, M. Sher (Pakistan)	153
A review on dissolution of multi-component non-aqueous phase liquids: recent studies, mechanisms and mass transfer limitations P. Patil, G.P. Jeppu, M. Vasudevan, C.R. Girish (India)	164
Efficient adsorption of tetracycline in water by Mn and Ce codoped MIL-100 composite oxide Shuguang Zhu, Pengyu Zhang, Jie Zhang, Xiaojie Song, Yun Wang, Xiangxiang Wang, Jinyun Liu, Bai Sun (China)	185
Novel recyclable composite BiOBr/chitin-Fe ₃ O ₄ with enhanced visible-light photocatalytic degradation of the antibacterial agent ciprofloxacin Hongting Ye, Xiaoxing Zeng, Fei Feng, Yuanhang Li, Xiaofeng Gong (China)	196
Heterogeneous activation of peroxide via acid-modified red mud for the degradation of phenol Hongliang Chen, Qian Long, Fuhua Wei (China)	209

Adsorption of crystal violet dye from aqueous solution by activated sewage treatment plant sludge P. Shrivastava, M.K. Dwivedi, V. Malviya, P. Jain, A. Yadav, N. Jain (India)	222
Removal of methylene blue from aqueous solution using common bean vine and cowpea vine biomass Guotong Qin, Conghui Wang, Qiongjie Yang, Wei Wei (China)	237
Application of United Arab Emirates <i>Arecaceae</i> leaves biochar for adsorptive removal of Rhodamine-B from an aqueous solution M.I. Khan, A. Shanableh (UAE), S. Manzoor, A. ur Rehman, S. Shahida, F. Ahmad (Pakistan)	247
Electrochemical properties of Ti/Sb/SnO ₂ -SiO ₂ anode for electrocatalytic oxidation of Acid Red 18 Yanfang Song, Jiaman Liu, Jiping Jia, Honghua Ge, Xinjing Meng, Yuzeng Zhao (China)	259
Impact of chitosan on CS/TiO ₂ composite system for enhancing its photocatalytic performance towards dye degradation S. Afzal (Malaysia, Pakistan), R. Naeem, B. Sherino, N. Nabi, F. Behlil (Pakistan), N.M. Julkapli (Malaysia)	274
Optimization of the electrocoagulation process by central composite design for the elimination of poly black dye using recycled aluminum electrodes K. Elhadeuf, N. Bougdah, F. Balaska, M. Chikhi (Algeria)	280
Particle size obtained via pre-dispersion and its influence on sludge ultrasonic disintegration Ł. Skórkowski, E. Zielewicz, A. Kawczyński (Poland)	299
Author Index	308
