<tbody>
<tr>
<td>New material for the wire mesh demister</td>
<td>H.T. El-Dessouky and O.A. Al Marshad (Riyadh, Saudi Arabia)</td>
<td>21665</td>
</tr>
<tr>
<td>Feasibility analysis of solar combi-system for simultaneous production of pure drinking water</td>
<td>M. Asim (Lahore, Pakistan), N.T. Uday Kumar (Ras Al Khaimah, UAE) and A.R. Martin (Stockholm, Sweden)</td>
<td>21674</td>
</tr>
<tr>
<td>Performance improvement of membrane distillation of high-concentration saline solution with pulse feeding</td>
<td>Yuqin Xiong, Ting Peng, Zaifeng Shi, Qiang Lin, Meimei Zhang, Shichao Wang and Hao Li (Haikou, China)</td>
<td>21685</td>
</tr>
<tr>
<td>CCD series no-19: The lowest energy prospects for SWRO through single-element modules under plug-flow and closed-circuit desalination conditions</td>
<td>A. Efraty (Har-Adar, Israel)</td>
<td>21696</td>
</tr>
<tr>
<td>Environmental implications of Tajoura reverse osmosis desalination plant</td>
<td>B. Brika (Tripoli, Libya)</td>
<td>21712</td>
</tr>
<tr>
<td>Studies on treatment of egg processing industry wastewater using electrocoagulation method: optimization using response surface methodology</td>
<td>K. Thirugnanasambandham, V. Sivakumar (Chennai, India) and K. Shine (Riyadh, Saudi Arabia)</td>
<td>21721</td>
</tr>
<tr>
<td>The effect of HRT and carriers on the sludge specifications in MBR to remove VOCs from petrochemical wastewater</td>
<td>H. Hazrati, J. Shayegan and S. Mojtaba Seyedi (Tehran, Iran)</td>
<td>21730</td>
</tr>
<tr>
<td>Comparison of flocculant aids as pretreatment reagent for membrane filtration process by fingerprint analysis of organic matters in secondary effluent</td>
<td>Fang Tang (Beijing), Hong-Ying Hu (Beijing and Shenzhen), Li-Juan Sun, Xin Tang (Beijing, China), N. Azuma and M. Oinuma (Tokyo, Japan)</td>
<td>21743</td>
</tr>
<tr>
<td>Effect of anoxic:oxic ratio on the efficiency and performance of sequencing batch reactor (SBR) system for treatment of industrial estate wastewater containing Cr³⁺ and Ni²⁺</td>
<td>M. Ranuroeng and S. Sirianuntapiboon (Bangkok, Thailand)</td>
<td>21752</td>
</tr>
<tr>
<td>Liquid–liquid separation of aqueous ammonia using a hollow-fibre membrane contactor</td>
<td>Md.M. Hossain and O. Chaalal (Al Ain, UAE)</td>
<td>21770</td>
</tr>
<tr>
<td>Synthesis of coal cinder balls and its application for COD, cr and ammonia nitrogen removal from aqueous solution</td>
<td>Yongmei Wang, Weijun Tian, Chenglin Wu, Jie Bai and Yangguo Zhao (Qingdao, China)</td>
<td>21781</td>
</tr>
<tr>
<td>Identification of irreversible UF membrane foulants by fluorescence excitation–emission matrix coupled with parallel factor analysis</td>
<td>Jiayu Tian, Huarong Yu, Yiwei Shen, Wenxin Shi, Dongmei Liu, Shanshan Gao and Fuyi Cui (Harbin, China)</td>
<td>21794</td>
</tr>
<tr>
<td>Relationship between nitrogen transformation and its related genes: comparison among riparian, marsh, and full-scale constructed wetlands</td>
<td>Jianing Liu, Zhongchen Yang, Wenjun Yu, Jiannan Hu, Huijun Xie, Shuning Wang and Jian Zhang (Jinan, China)</td>
<td>21806</td>
</tr>
<tr>
<td>Landfill leachate treatment by a coagulation–floculation process: effect of the introduction order of the reagents</td>
<td>M. Assou (Casablanca), L. El Fels (Marrakesh), A. El Asli (Ifrane), H. Fakidi, S. Souabi (Casablanca) and M. Hafidi (Marrakesh, Morocco)</td>
<td>21817</td>
</tr>
</tbody>
</table>
Extraction of copper from wastewater through supported liquid membrane using tri-ethanolamine as a carrier
R. Nawaz, K. Ali and M. Khan (Peshawar, Pakistan) ........................................................................................................ 21827
Facile synthesis of β-FeOOH nanoparticle-loaded secondary fly ash composites for enhanced removal of copper ion
Heng Yang, Qi Zhou, Wenjun Luo and Chunjie Yan (Wuhan, China) ..................................................................................... 21842
Lead and cadmium sorption in water samples using modified nano-sized cobalt aluminate
M.H. Morcali (Kahramanmaras) and A. Baysal (Istanbul, Turkey) ..................................................................................... 21855
Fabrication of MWCNTs/ThO2 nanocomposite and its adsorption behavior for the removal of Pb(II) metal from aqueous medium
A. Mittal (Bhopal, India), Mu. Naushad (Riyadh, Saudi Arabia), G. Sharma (Solan, India), Z.A. AOthman, S.M. Wabaidur and M. Alam (Riyadh, Saudi Arabia) .................................................................................................................. 21863
Comparative study of the removal of nickel(II) and chromium(VI) heavy metals from metal plating wastewater by two nanofiltration membranes
G. Basaran, D. Kavak (Eskisehir), N. Dizge (Mersin), Y. Asci, M. Solener (Eskisehir) and B. Ozbey (Kocaeli, Turkey) .................................................................................................................. 21870
Zinc and nickel adsorption onto a low-cost mineral adsorbent: kinetic, isotherm, and thermodynamic studies
A. Emami and A. Rahbar-Kelishami (Tehran, Iran) ........................................................................................................ 21881
Solid-phase extraction of Cu, Zn, and Mn from Nile river and tap water prior to flame atomic absorption determination
S.M. Abdel Azeem (Fayoum, Egypt and Shagra, Saudi Arabia), S.M. Attaf (Sirte, Libya) and M.F. El-Shahat (Cairo, Egypt) .................................................................................................................. 21893
Removal of Zn(II) ions from aqueous media on thermal activated sawdust
G. Nacu, D. Bulgariu, M.C. Popescu, M. Harja, D. Toader Juvrale and L. Bulgariu (Iasi, Romania) .............................. 21904
Continuous manganese(II) ions removal from aqueous solutions using rice husk ash-packed column reactor Ningning Li, Jiaying Zhao, Zhao Jiang, Bo Cao, Yan Lu, Dexin Shan and Ying Zhang (Harbin, China) ............................................................................................................. 21916
Adsorption kinetics and isotherms for the removal of nickel ions from aqueous solutions by an ion-exchange resin: application of two and three parameter isotherm models
N.S. Yousef, R. Farouq and R. Hazzaa (Alexandria, Egypt) .............................................................................................. 21925
A kinetic and thermodynamic study of cyanide adsorption in activated carbon
G.G. Stavropoulos, M. Papadopoulou and K. Papadimitriou (Thessaloniki, Greece) ......................................................... 21939
Removal of fluoride from aqueous solution by natural and acid-activated diatomite and ignimbrite materials
E. Kir, H. Oruc, I. Kir and T. Sardohan-Koseoglu (Isparta, Turkey) ..................................................................................... 21944
Comparison of physicochemical properties of activated carbons derived from biomass wastes by H2PO3 activation: adsorption of trimethoprim
Zizhang Guo, Li Xu (Jinan, China), Cui Liu (Lubbock, TX, USA), Fengkai Sun, Yan Kang and Shuang Liang (Jinan, China) .................................................................................................................. 21957
Yeast-activated sludge model for aerobic degradation of a non-fermentable substrate
M.D. Frigon, Dongfang Liu (Tianjin, China) and J. Young (Fayetteville, AR, USA) ............................................................. 21968
Hydrothermal synthesis of NiO nanostructures for photodegradation of 4-nitrophenol
S. Safa, R. Hejazi, M. Rabbani and R. Azimirad (Tehran, Iran) .......................................................................................... 21982
Biological denitrification using rice washing drainage (RWD) as carbon source for removing nitrate from groundwater
Z&A. AlOthman, S.M. Wabaidur and M. Alam (Riyadh, Saudi Arabia) ............................................................................. 21990
Removal of tetrabromobisphenol-A from aqueous solution by Al13-montmorillonite modified with different types of surfactants and transition metals
Xiang Li, Qian Deng, Zaili Zhang and Xiaoshan Jia (Guangzhou, China) ........................................................................... 22000
Photocatalytic degradation of reactive red 3 and alachlor over uncalcined Fe–TiO2 synthesized via hydrothermal method
K.K.P. Rivera (Quezon, Philippines and Khon Kaen, Thailand), M.D.G. de Luna (Quezon, Philippines), T. Suwannarueang and K. Wantala (Khon Kaen, Thailand) ........................................................................... 22017
Photocatalytic degradation of methyl orange and cyanide by using TiO2/CuO composite
H. Koohestani (Semnan) and S.K. Sadrnezaad (Tehran, Iran) ............................................................................................. 22029
Resin-supported Fe(III) as an efficient heterogeneous Fenton catalyst for degradation of Reactive Black 5
Yan Wang, Yan Chen, Jianfei Wang and Jiaojiao Lu (Fengyang, China) ............................................................................... 22039
Contents / Desalination and Water Treatment 57/46 (2016) v–vii

Development of grafted cotton fabrics ions exchanger for dye removal applications: methylene blue model
M.S. Mohy Eldin (Jeddah, Saudi Arabia and Alexandria, Egypt), M.H. Gouda, M.A. Abu-Saied, Y.M.S. El-Shazly and H.A. Farag (Alexandria, Egypt) ................................................................................................................................. 22049

Removal of the anionic dye Biebrich scarlet from water by adsorption to calcined and non-calcined Mg–Al layered double hydroxides
D. Chebli, A. Bouguettoucha (Sétif), A. Reffas (M’ila), C. Tiar, M. Boutahala (Sétif, Algeria), H. Gulyas (Hamburg, Germany) and A. Amrane (Rennes, France) ........................................................................................................ 22061

Cu-doped ZnO nanoparticle for removal of reactive black 5: application of artificial neural networks and multiple linear regression for modeling and optimization
K. Salehi, H. Daraei, P. Teymouri, B. Shahmoradi and A. Maleki (Sanandaj, Iran) ......................................................................................................................................................... 22074

Photocatalytic degradation of p-nitrotoluene (PNT) using TiO\textsubscript{2}-modified silver-exchanged NaY zeolite: kinetic study and identification of mineralization pathway
P.K. Surolia and R.V. Jasra (Bhavnagar, India) ................................................................................................................................. 22081

Isolation and characterization of Candida vishwanathii strain TERI MS1 for degradation of petroleum hydrocarbons in marine environment
A. Priya, P.M. Sarma and B. Lal (New Delhi, India) ................................................................................................................................. 22099

Selected papers presented at the Sustainable Water Management Conference on Sustainable Domestic Water Use in Mediterranean Regions (SWMED)
19–21 February 2015, Tunis, Tunisia

Chemical treatment of orange tree sawdust for a cationic dye enhancement removal from aqueous solutions: kinetic, equilibrium and thermodynamic studies
A.A. Azzaz (Soliman and Bizerte), S. Jellali (Soliman, Tunisia), A.A. Assadi (Rennes, France) and L. Bousselmi (Soliman, Tunisia) ......................................................................................................................................................... 22107

Electrochemical degradation of dye on lead dioxide electrodeposited on stainless steel: effect of cyclic voltammetry parameters
I. Elaissaoui, H. Akrout and L. Bousselmi (Soliman, Tunisia) ................................................................................................................................. 22120

Application of bioinoculation to enhance rhizocompetence of horizontal subsurface flow constructed wetland system
M. Ben Saad, M. Ben Said, L. Bousselmi and A. Ghrabi (Soliman, Tunisia) ................................................................................................................................. 22133

Aeration length phase control using on-line ammonia and dissolved oxygen feedback control at Choutrana II WWTP
S. Hajji (Tunis, Tunisia), S. Safa (Stuttgart, Germany), A. Ouali (Soliman), H. Shayeb and M.L. Marouani (Tunis, Tunisia) ......................................................................................................................................................... 22140

Assessment of heavy metals pollution using multivariate statistical analysis methods in Wadi El Bey (Tunisia)
T. Gasmi (Soliman and Tunis), I. Khouni and A. Ghrabi (Soliman, Tunisia) ................................................................................................................................. 22152

Diagnosis and characteristics of water quality along the Wadi El Bey River (Tunisia).
Coagulation/flocculation essays of textile effluents discharged into the Wadi
F. Mhamdi (Soliman and Jarzouna), I. Khouni and A. Ghrabi (Soliman, Tunisia) ................................................................................................................................. 22166

Author Index ........................................................................................................................................................................................................... 22189
