

***Selected papers presented at the European Desalination Society conference  
EuroMed 2015: Desalination for Clean Water and Energy  
Palermo, Italy, 10–14 May 2015***

The Red Sea–Dead Sea desalination project at Aqaba A. Rabadi (Amman, Jordan) .....	22713
Solar desalination by air-gap membrane distillation: a case study from Algeria D.-E. Moudjeber (Chlef, Algeria), A. Ruiz-Aguirre (Almería, Spain), D. Ugarte-Judge (Perpignan, France), H. Mahmoudi (Chlef, Algeria) and G. Zaragoza (Almería, Spain).....	22718
Effects of nearshore evaporation rates on the design of seabed gallery intake systems for SWRO facilities located along the Red Sea shoreline of Saudi Arabia A.H.A. Dehwah, K.Z. Jadoon, S. Al-Mashharawi (Thuwal, Saudi Arabia) and T.M. Missimer (Fort Myers, FL, USA) .....	22726
Start-up of brackish water desalination for agricultural irrigation in the Canary Islands (Spain) A. Ruiz-García, E. Ruiz-Saavedra and J. Feo-García (Las Palmas, Spain).....	22734
Pollutant removal efficiency of a pilot-scale horizontal subsurface flow in Sicily (Italy) planted with <i>Cyperus alternifolius</i> L. and <i>Typha latifolia</i> L. and reuse of treated wastewater for irrigation of <i>Arundo donax</i> L. for pellet production—Results of two-year tests under Mediterranean climatic conditions S. La Bella, T. Tuttolomondo, C. Leto, G. Bonsangue, R. Leone, G. Virga and M. Licata (Palermo, Italy) .....	22743
Removal of reactive textile dye from aqueous solutions by electrocoagulation in a continuous cell A. Amour (Bejaia), B. Merzouk (M'sila and Bejaia, Algeria), J.-P. Leclerc (Nancy, France) and F. Lopicque (Bejaia, Algeria) .....	22764
Description of sorption kinetics of azo dye onto birch chips by means of fractional derivatives W. Kamiński, E. Tomczak and P. Tosik (Lodz, Poland) .....	22774
Nitritation via heat shock using immobilized active sludge aggregates Guanghui Chen, Jun Li, Jia Wei, Jinping Zeng, Yanzhuo Zhang, Wei Bian and Hailiang Deng (Beijing, China).....	22779
Adsorption of azo dyes onto a corn cob in packed column at the constant velocity of front propagation E. Tomczak, W. Kamiński and M. Blus (Lodz, Poland).....	22788
Adsorption of hazardous heavy metal copper(II) from aqueous effluents onto waste material fish ( <i>Dicentrarchus labrax</i> ) scales: optimization, equilibrium, kinetics, thermodynamic, and characterization studies D. Uzunoğlu and A. Özer (Mersin, Turkey) .....	22794
Experimental screening of some chelating agents for calcium and magnesium removal from saline solutions M.H. Sorour, H.A. Hani, H.F. Shaalan (Giza) and M.M.H. El-Sayed (Giza and New Cairo, Egypt).....	22799
Cadmium removal from dilute aqueous solutions under galvanostatic mode in a flow-through cell Ma. de Lourdes Llovera-Hernández, A. Álvarez-Gallegos, J.A. Hernández and S. Silva-Martínez (Cuernavaca, Mexico) .....	22809
Separation of calcium and magnesium using dual precipitation/chelation scheme from saline solutions M.H. Sorour, H.A. Hani and H.F. Shaalan (Giza, Egypt) .....	22818
Removal of copper from simulated wastewater by electrocoagulation/floatation technique A.A. Moneer, A.A. El-Shafei, M.M. Elewa and M.M. Naim (Alexandria, Egypt) .....	22824
Effect of operating conditions on the Cu <sup>2+</sup> removal from wastewater by cementation on a fixed bed of zinc cylinders A.H. El-Shazly, A.M. Nassr, A.A. Mubarak and A.A. Zaatout (Alexandria, Egypt).....	22835

Biosorption of methylene blue by activated sludge H. Cherifi, S. Djezar, A. Korichi, K. Nekkache and H. Messahel (Médéa, Algeria) .....	22842
Experimental determination of nanofiltration models: application to nitrate removal M. Sancho, S. Álvarez-Blanco, G.O.M. Kombo and B. García-Fayos (Valencia, Spain) .....	22852
Analysis of membrane performance in Ni and Co removal from liquid wastes by means of micellar-enhanced ultrafiltration F. Tortora, V. Innocenzi, M. Prisciandaro (L'Aquila), G. Mazziotti di Celso (Teramo) and F. Vegliò (L'Aquila, Italy) .....	22860
Comparison of adsorbent materials for herbicide diuron removal from water S. Salvestrini (Caserta, Italy), J. Jovanović and B. Adnadjević (Belgrade, Serbia) .....	22868
Ibuprofen degradation in aqueous solution by using UV light S. Chianese (Aversa), P. Iovino, S. Canzano (Caserta), M. Prisciandaro (L'Aquila) and D. Musmarra (Aversa, Italy) .....	22878
Cost assessment in SWRO desalination plants with a production of 600 m <sup>3</sup> /d in Canary Islands J. Feo-García, A. Ruiz-García, E. Ruiz-Saavedra and N. Melian-Martel (Las Palmas, Spain) .....	22887
Mini-review: novel non-destructive in situ biofilm characterization techniques in membrane systems R. Valladares Linares, L. Fortunato, N.M. Farhat, S.S. Bucs (Thuwal, Saudi Arabia), M. Staal (Delft, The Netherlands), E.O. Fridjonsson, M.L. Johns (Crawley, Australia), J.S. Vrouwenvelder (Thuwal, Saudi Arabia, and Delft and Leeuwarden, The Netherlands) and T.O. Leiknes (Thuwal, Saudi Arabia) .....	22894
Use of innovative inge <sup>®</sup> Multibore <sup>®</sup> ultrafiltration membranes for the treatment of challenging seawater R. Krüger, D. Vial, P. Buchta and R. Winkler (Greifenberg, Germany) .....	22902
Biofilm-based membrane reactors – selected aspects of the application and microbial layer control L. Janczewski and A. Trusek-Holownia (Wroclaw, Poland) .....	22909
Waste activated sludge dewaterability: comparative evaluation of sludge derived from CAS and MBR systems M. Capodici, G. Mannina and M. Torregrossa (Palermo, Italy) .....	22917
Biological stability and dewaterability of CAS and MBR sludge L. Pontoni (Cassino), M. Fabbicino, L. Frunzo, F. Pirozzi (Naples) and G. Esposito (Cassino, Italy) .....	22926
Performance evaluation of a novel eductor-based MBR for the treatment of domestic wastewater S. Mitra, N. Daltrophe and J. Gilron (Beersheva, Israel) .....	22934
Performance of a moving bed-membrane bioreactor treating saline wastewater contaminated by hydrocarbons from washing of oil tankers R. Campo, N. Di Prima, M.G. Giustra, G. Freni and G. Di Bella (Enna, Italy) .....	22943
Produced water treatment using two-phase partitioning bioreactor V. Piemonte (Rome), M. Prisciandaro (L'Aquila), A. Cassese, L. Di Paola and D. Barba (Rome, Italy) .....	22953
Modelling the biological processes of MBR treatment plants G. d'Antonio (Naples), G. Esposito (Cassino), M. Fabbicino and A. Panico (Naples, Italy) .....	22960
Hydrodynamic design of electrochemical reactors based on computational fluid dynamics G. Rodríguez, F.Z. Sierra-Espinosa (Cuernavaca), J. Teloza (Tepeyanco), A. Álvarez and J.A. Hernández (Cuernavaca, Mexico) .....	22968
Forward osmosis for treatment of oil sands produced water: systematic study of influential parameters A. Bhinder, B.A. Fleck (Edmonton), D. Pernitsky (Calgary) and M. Sadrzadeh (Edmonton, Canada) .....	22980
Characterization of pressure retarded osmosis lab-scale systems F. Giacalone, A. Cipollina, F. Grisafi, A. Tamburini, G. Vella and G. Micale (Palermo, Italy) .....	22994
Performance of a RED system with ammonium hydrogen carbonate solutions M. Bevacqua, A. Carubia, A. Cipollina, A. Tamburini (Palermo, Italy), M. Tedesco (Leeuwarden, The Netherlands) and G. Micale (Palermo, Italy) .....	23007
Energy consumption assessment of 4,000 m <sup>3</sup> /d SWRO desalination plants J. Feo-García, A. Ruiz-García, E. Ruiz-Saavedra and N. Melian-Martel (Las Palmas, Spain) .....	23019
The use of a solar chimney and condensers to enhance the productivity of a solar still P. Refalo, R. Ghirlando and S. Abela (Msida, Malta) .....	23024
Autonomous solar powered membrane distillation systems: state of the art K. Zhani, K. Zarzoum (Sfax), H. Ben Bacha (Sfax, Tunisia and Alkharj, Saudi Arabia), J. Koschikowski and D. Pfeifle (Freiburg, Germany) .....	23038
SOLMED: heat transfer characterization A. Gonda, V. Renaudin, D. Alonso, T. Roques-Carmes (Nancy) and P. Bandelier (Grenoble, France) .....	23052

Improving the rate of solar heat recovery from nanofluids by using micro heat exchanger S.E. AbdElhafez, A.H. El-Shazly and A. El-Maghraby (New Borg El-Arab City, Egypt) .....	23066
MED seawater desalination using a low-grade solar heat source P. Bandelier (Grenoble), F. Pelascini (Schiltigheim), J.-J. d’Hurlaborde (Loyettes), A. Maisee, B. Boillot and J. Laugier (Grenoble, France) .....	23074
Quasi-steady state simulations of thermal vapor compression multi-effect distillation plants coupled to parabolic trough solar thermal power plants B. Ortega-Delgado, P. Palenzuela, D.C. Alarcón-Padilla (Almería) and L. García-Rodríguez (Sevilla, Spain) .....	23085
Experimental parametric analysis of a solar pilot-scale multi-effect distillation plant P. Palenzuela, D.C. Alarcón-Padilla and G. Zaragoza (Almería, Spain) .....	23097
Geothermal electricity generation and desalination: an integrated process design to conserve latent heat with operational improvements T.M. Missimer (Fort Myers, FL, USA and Thuwal, Saudi Arabia), Kim Choon Ng, K. Thuw and M.W. Shahzad (Thuwal, Saudi Arabia and Singapore) .....	23110
A transient model for forward and parallel feed MED M.C. Georgiou and A.M. Bonanos (Nicosia, Cyprus) .....	23119
Theoretical–experimental analysis of the heat transfer in a helical condenser for a heat transformer integrated to a water purification system A.H. Hernández, O. Flores, A. Huicochea, A. Álvarez, F.Z. Sierra, S. Silva and J.A. Hernández (Morelos, Mexico) .....	23132
Removal of scale-forming ions by a novel cation-exchange electrochemical system—A review D. Hasson, H. Shemer and R. Semiat (Haifa, Israel) .....	23147
The performance of polycarboxylates as inhibitors for CaCO <sub>3</sub> scaling in reverse osmosis plants K. Zimmer, W. Hater, A. Icart (Ludwigshafen), J. Jaworski, N. Kruse and G. Braun (Cologne, Germany) .....	23162
Headspace-solid phase microextraction: useful technique to characterize volatile and semi-volatile organic compounds in water reuse applications C. Martínez, V. Gómez, F. Borrull and E. Pocurull (Tarragona, Spain) .....	23176
Novel ultrafiltration membranes from low-fouling copolymers for RO pretreatment applications R. Krüger, D. Vial (Greifenberg), D. Arifin, M. Weber (Ludwigshafen) and M. Heijnen (Greifenberg, Germany) .....	23185
Dynamic performance of vacuum membrane distillation system A.S. Hassan (Doha and Cairo, Egypt), H.E.S. Fath (Sharja, UAE), M. Darwish and H. Abdulrahim (Doha, Qatar) .....	23196
A desalination system with efficiency approaching the theoretical limits P.A. Davies, J. Wayman, C. Alatta, K. Nguyen (Birmingham, UK) and J. Orfi (Riyadh, Saudi Arabia) .....	23206
Numerical study of double-diffusive convection developed within horizontal partially porous enclosure N. Hadidi (Médéa, Algeria), R. Bennacer (Cachan, France) and Y. Ould-amer (Algiers, Algeria) .....	23217
Treatment of model oily produced water by combined pre-ozonation–microfiltration process Z.L. Kiss, I. Kovács, G. Veréb, C. Hodúr and Z. László (Szeged, Hungary) .....	23225
Assessment of using hollow fibre microfiltration in treating lake water M.J. Megat Mohd Noor (Kuala Lumpur), T.A. Mohammad and A.H. Ghazali (Selangor, Malaysia) .....	23232
The effect of feed pretreatment on membrane microfiltration of titanium dioxide dispersions by ceramic tubular membranes M. Grulich and P. Mikulášek (Pardubice, Czech Republic) .....	23246
High-performance ultrafiltration mixed-matrix membranes based on cellulose acetate and nanohydroxyapatite G. Ciobanu and O. Ciobanu (Iasi, Romania) .....	23257
Study of the influence of operational conditions and hollow-fiber diameter on the ultrafiltration performance of a secondary treatment effluent M. Torà-Grau, J.L. Soler-Cabezas, M.C. Vincent-Vela, J.A. Mendoza-Roca and F.J. Martínez-Francisco (Valencia, Spain) .....	23266
Multivariate comparison of reverse osmosis and nanofiltration membranes through tree cluster analysis M. Tagliabue, R. Bagatin (San Donato M.se), G. Capannelli, C. Cattaneo, A. Bottino, R. Firpo, A. Jezowska and A. Voena (Genoa, Italy) .....	23273
Kinetics of transport of sodium chloride using supported liquid pertraction A.A. El-Shafei, A.A. Moneer, M.M. Elewa and M.M. Naim (Alexandria, Egypt) .....	23280

Effect of cell hydrodynamics in desalination of saline water by sweeping air pervaporation technique using innovated membrane M.M. Elewa, A.A. El-Shafei, A.A. Moneer and M.M. Naim (Alexandria, Egypt) .....	23293
Assessment of using synthetic polymers in dewatering of sewage sludge T.A. Mohammad (Selangor), M.J. Megat Mohd Noor (Kuala Lumpur) and A.H. Ghazali (Selangor, Malaysia) .....	23308
Development and application of an accelerated biofouling test in flat cell G. Massons-Gassol, G. Gilabert-Oriol, R. Garcia-Valls, V. Gomez (Tarragona, Spain) and T. Arrowood (Edina, MN, USA) .....	23318
Dairy wastewater utilization: separation of whey proteins in membrane and chromatographic processes M. Lech, A. Niesobska and A. Trusek-Holownia (Wroclaw, Poland) .....	23326
Ultrasound membrane hybrid processes for dairy wastewater treatment: pilot-scale analysis S. Kertész, I. Kovács, C. Hodúr, G. Keszthelyi-Szabó, G. Veréb and Z. László (Szeged, Hungary).....	23335
Reuse of urban-treated wastewater from a pilot-scale horizontal subsurface flow system in Sicily (Italy) for irrigation of Bermudagrass ( <i>Cynodon dactylon</i> (L.) Pers.) turf under Mediterranean climatic conditions M. Licata, S. La Bella, C. Leto, G. Virga, R. Leone, G. Bonsangue and T. Tuttolomondo (Palermo, Italy) .....	23343
Use of <i>Moringa oleifera</i> in drinking water treatment: study of storage conditions and performance of the coagulant extract B. Garcia-Fayos, J.M. Arnal, V. Ruiz and M. Sancho (Valencia, Spain).....	23365
Application of a discontinuous permeable adsorptive barrier for aquifer remediation. A comparison with a continuous adsorptive barrier G.F. Santonastaso, I. Bortone, S. Chianese (Aversa), A. Erto (Napoli), A. Di Nardo, M. Di Natale and D. Musmarra (Aversa, Italy) .....	23372
Valorization of <i>Moringa oleifera</i> seed husk as biosorbent: isotherm and kinetics studies to remove cadmium and copper from aqueous solutions B. Garcia-Fayos, J.M. Arnal, J. Piris and M. Sancho (Valencia, Spain) .....	23382
<i>Moringa oleifera</i> for drinking water treatment: influence of the solvent and method used in oil-extraction on the coagulant efficiency of the seed extract B. Garcia-Fayos, J.M. Arnal, M. Sancho and I. Rodrigo (Valencia, Spain).....	23397
Simulation of a regeneration plant for spent pickling solutions via spray roasting D. Bascone (Enna), A. Cipollina (Palermo), M. Morreale, S. Randazzo, F. Santoro (Enna) and G. Micale (Palermo, Italy) .....	23405
Desalination plants (reverse osmosis) to improve thermal power station. Yield and life cycle B. del Río Gamero, I. Prieto Prado, S.O. Pérez Báez and A. Gómez Gotor (Las Palmas, Spain) .....	23420
Liquid desiccant dehumidification and regeneration process to meet cooling and freshwater needs of desert greenhouses R. Lefers, N.M.S. Bettahalli, S.P. Nunes (Thuwal, Saudi Arabia), N. Fedoroff (University Park, PA, USA), P.A. Davies (Birmingham, UK) and T. Leiknes (Thuwal, Saudi Arabia) .....	23430
Spiral-shaped reactor for water disinfection S. Soukane, F. Ait-Djoudi, W.M. Naceur (Blida, Algeria) and N. Ghaffour (Thuwal, Saudi Arabia).....	23443
Author Index.....	23459
