Volume 66

Analysis of a double-effect mechanical vapor recompression wastewater treatment system Lin Liang, Yimin Li (China), M.A. Talpur (Pakistan)	1
Impact of organic matter on biofilm growth and microbial community diversity Shuyan Zhang, Yanling Yang, Xing Li, Wei Bian (China)	10
Performance evaluation of hybrid reactor for biofiltration of n-hexane–styrene mixture N. Rajamohan (Oman)	17
Thin-film composite forward osmosis membrane in rejecting trace organic compounds: Impact of molecular charge Yan-Ling Liu, Fan-Xin Kong, Xiao-Mao Wang, Hong-Wei Yang (China), Yuefeng F. Xie (China and USA)	23
Novel design and modeling of a photovoltaic hydro electromagnetic reverse osmosis (PV-HEMRO) desalination system A. Ben Chaabene, K. Ouelhazi, A. Sellami (Tunisia)	36
Submerged microfiltration membrane performances of microalgal biomass cultivated in secondary effluent N.O. Say, S. Bayar, M.D. Gurol, A. Karagunduz (Turkey)	42
Experimental study of a cellulose triacetate spiral wound forward osmosis membrane for desalination process integration M. Ahmad, M. Abdel-Jawad, Y. Al-Wazzan, A. Al-Odwani, J.P. Thomas (Kuwait)	50
Solid layer freeze crystallization processes for desalting saline waters M. Ahmad, Y. Al-Wazzan, A. Al-Odwani, J.P. Thomas (Kuwait)	60
Material integrity of LDPE-based solar water disinfection reactors with improved usability S. Danwittayakul, S. Songngam, T. Fhulua, P. Muangkasem, P. Muensri, S. Sukkasi (Thailand)	72
Synthesis of intermediate crystal $Ba_{1-x}Ca_xSO_4$ system via co-precipitation of $BaSO_4$ - $CaSO_4$ and partial hindrance of gypsum formation H. Azaza, A. Doggaz, L. Mechi (Algeria), V. Optasanu (France), M. Tlili, M. Ben Amor (Algeria)	80
An unusual datura pod structure for calcite – Effect of EGTA on the morphology and polymorphism of $CaCO_3$ S. Bhuvaneshwari, K. Palanisamy, K. Subramani, V.K. Subramanian (India)	88
Hardness removal in membrane capacitive deionization with a selective cation exchange membrane Jae-Hwan Choi, Byung-Tae Kim (Korea)	97
Activated coconut coir for removal of water hardness E. Hettiarachchi, N. Kottegoda, A.D.L. Chandani Perera (Sri Lanka)	103
Mechanism of membrane fouling control in the magnetic activated sludge (MAS) process Zhijun Ren, Jingchao Shao (China)	111
Water footprint and virtual water trade in Qatar S. Mohammed, M. Darwish (Qatar)	117
O_3 -assisted UV-Fenton treatment of refining reverse osmosis water: optimization of process conditions by response surface methodology Changyu Li, Jiaohui Xia, Peipei Zhu, Lingling Ma, Jincheng Ding, Jie Lu (China)	133
Case analysis on textile wastewater subjected to combined physicochemical–biological treatment and ozonation Hua Yin, Huafang Guo, Peiwen Qiu, Linzi Yi, Jiajie Li (China)	140
Utilization of seafood processing waste as an adsorbent in the treatment of paint industry effluent in a fixed-bed column S. Vishali, R. Karthikeyan, S. Prabhakar (India)	149

Influence of C/N ratio on MBBR denitrification for advanced nitrogen removal of wastewater treatment plant effluent Quan Yuan, Hai-yan Wang, Zhao-sheng Chu, Qian-yu Hang, Kai Liu, Chun-mei Li (China)	158
Graphene oxide modified semi-aromatic polyamide thin film composite membranes for PPCPs removal Jue Wang, Nana Li, Yu Zhao, Shengji Xia (China)	166
Application of dispersive liquid–liquid microextraction as a simple assisted clean-up and preconcentration technique for GC/MS determination of selected PAHs extracted from sewage sludge by Soxhlet and ultrasound assisted extraction method S.A. Mokhtari, M. Farzadkia, A. Esrafil, R. Rezaei Kalantari, M. Gholami (Iran)	176
The distribution and characteristics of dissolved organic matter fractions in urban rivers during icebound season Shuang Xue, Ying Liu, Yang Wen, Fayun Li (China)	184
Enhancement performance of ozone mass transfer by high gravity technology Weizhou Jiao, Yuejiao Qing, Yonghong Wang, Liang Guo, Youzhi Liu (China)	195
Synthesis and characterization of inorganic microfiltration membrane through geopolymerization A. Naveed, S. Gul, N. Ul Amin, M. Younas, N. Ullah (Pakistan)	203
Removal of iron using an oxidation and ceramic microfiltration hybrid process for drinking water treatment R. Fakhfekh (Tunisia and France), E. Chabanon, D. Mangin (France), R. Ben Amar (Tunisia), C. Charcosset (France)	210
Wastewater disinfection using sodium dichloroisocyanate (NaDCC) and sodium hypochlorite (NaOCl): Modeling, optimization and comparative analysis K. Sharafi, M. Fazlzadeh, M. Pirsaeheb, M. Moradi, A. Azari, H. Sharafi, K. Dindarlo, H.R. Ghafari (Iran)	221
Comprehensive evaluation of integrative drip-irrigation and fertilization using a projection pursuit model based on the improved double chains quantum genetic algorithm Bai Wang, Yanfeng Li, Yan Meng, Xiao Liu (China)	229
Removal of non benzidine direct red dye from aqueous solution by using natural sorbents: beech and silver fir S.G. Muntean, A. Todea (Romania), S. Bakardjieva (Czech Republic), C. Bologa (USA)	235
Evaluation of biosorption potential of <i>Gracillaria corticata</i> for the removal of malachite green from aqueous solution: isotherm, kinetic and thermodynamic studies M. Jerold, K. Vasantharaj, C. Vigneshwaran, V. Sivasubramanian (India)	251
Using RBF and MLP models in predicting Reactive Red 198 removal from aqueous solution by SBA-15/CTAB composite H.-A. Tayebi (Iran)	263
Effect of heat treatment on the surface properties of selected bituminous shale for cationic dye sorption A. Gouza, K. Fanidi, S. Saoiabi, A. Laghzizil, A. Saoiabi (Morocco)	274
Kinetic and equilibrium studies of the biosorption of sunset yellow dye by alligator weed activated carbon Qiang Kong, Qun Liu, Ming-Sheng Miao, Yu-Zhen Liu, Qing-Feng Chen, Chang-Sheng Zhao (China)	281
Optimization, kinetic, equilibrium and thermodynamics parameters for Congo red adsorption from aqueous phase by untreated chicken feathers E. Cervantes-González, H. Martínez-Gutiérrez, C.L. Reyes-García (Mexico)	291
Sonocatalytic degradation of organic pollutants by CdS nanoparticles hydrothermally prepared from cadmium(II) diethanoldithiocarbamate S. Farhadi, F. Siadatnasab (Iran)	299
The effects of acidic functional groups and particle size of biochar on Cd adsorption from aqueous solutions F. Sadegh-Zadeh (Iran), A.W. Samsuri (Malaysia), B.J. Seh-Bardan, M. Emadi (Iran)	309
Filter backwash water treatment by coagulation: A comparison study by polyaluminum ferric chloride and ferric chloride A. Ebrahimi, M.M. Amin, Y. Hajizadeh, H. Pourzamani, M. Memarzadeh, A.H. Mahvi, M. Mahdavi (Iran)	320
Preparation and photocatalytic activity of porous ZnO and Cr ³⁺ doped ZnO microparticles Yuan Cao, Xianling Li, Ling Hu, Peiyuan Wang, Yanqin Xu (China)	330

A nanohybrid of mixed ferrite – polyaniline derivative copolymer for efficient adsorption of lead ions: Design of experiment for optimal condition, kinetic and isotherm study H. Alijani, M.H. Beyki, Y. Fazli, Z. Shariatinia (Iran)	338
Metal retention potential of sediment and water quality in the Mooi River, South Africa A. Manyatshe, E. Fosso-Kankeu, D. van der Berg, N. Lemmer, F. Waanders, H. Tutu (South Africa)	346
Sorption of β -naphthalene sulfonic acid by weak base anion exchangers as controlled by alkyl chain length of the amine functional group Yue Sun, Deqiang Yin, Jintao Duan, R.P. Singh (China)	358
Adsorption of terephthalic acid and <i>p</i> -toluic acid from aqueous solution using metal organic frameworks: Effect of molecular properties of the adsorbates and structural characteristics of the adsorbents A. Behvandi, F. Khorasheh, A.A. Safekordi (Iran)	367
Adsorption of bisphenol A and 2,4,5-trichlorophenol onto organo-acid-activated bentonite from aqueous solutions in single and binary systems N. Djebri, M. Boutahala, N.-E. Chelali, N. Boukhalifa, Z. Larbi (Algeria)	383
Author Index	394
