

Contents Volume 72

Effect of initial feed and draw flowrates on performance of an 8040 spiral-wound forward osmosis membrane element Seung-ho Kook (Korea), Jungeun Kim (Australia), Sung-Jo Kim, Jinwoo Lee, Doseon Han (Korea), S. Phuntsho, Wang-Geun Shim (Australia), Moonhyun Hwang (Korea), Ho Kyong Shon (Australia), In S. Kim (Korea)	1
Economic analysis of brackish-water desalination used for irrigation in the Jordan Valley T.H. Qtaishat, E.K. Al-Karablieh, A.Z. Salman, M.A. Tabieh, H.F. Al-Qudah, N. Seder (Jordan)	13
Factors controlling the ripening of manganese removal filters in conventional aeration-filtration groundwater treatment J.H. Bruins, B. Petrusevski, Y.M. Slokar, K. Huysman, K. Joris, J.C. Kruithof, M.D. Kennedy (The Netherlands)	22
Kinetic and isothermal studies of manganese (VII) ions removal using Amberlite IRA-420 anion exchanger M.S. Mohy Eldin (Saudi Arabia and Egypt), K.A. Alamry, M.A. Al-Malki (Saudi Arabia)	30
Development of low-cost chitosan derivatives based on marine waste sources as oil adsorptive materials: I. Preparation and characterization M.S. Mohy Eldin (Saudi Arabia and Egypt), Y.A. Ammar, T.M. Tamer, A.M. Omer, A.A. Ali (Egypt)	41
Mn ²⁺ ions retention onto agriculture waste: a statistical design analysis, estimation of equilibrium and kinetic parameters S. Mirani, N. Samadani Langeroodi, A. Goudarzi, P. Ebrahimi (Iran)	52
Mathematical modelling of sorption and permeation through composite membrane in pervaporation process A. Shokouhi, A. Mafi, A. Raisi, G. Pazuki, A. Aroujalian (Iran)	61
Water – energy nexus: case study of Rwanda C.N. Nibagwire, N. Drouiche (Algeria)	73
Identification of the most probable causes for filamentous bacteria over-proliferation in Riqqa wastewater treatment plant, Kuwait A. Abusam, A. Mydlarczyk, F. Al-Salameen, M.I. Ahmed (Kuwait)	78
Statistical analysis of pollution parameters of activated sludge process R. Maachou, A. Lefkir, A. Bermad, T. Djaoui, A. Khouider (Algeria)	85
Management of agricultural irrigation in the Algerian Sahara and its impact S. Benguergoura Laradj (Algeria)	92
Evaluating thermal performance of a basin type modified active solar still Sandeep, S. Kumar, V.K. Dwivedi (India)	100
Performance and evaluation of aerobic granular sludge in oily wastewater treatment S. Wang, Q.Q. Yang, W.X. Shi, S.L. Yu, J.Z. Lv, J. Li (China)	112
Recycling ferric water treatment sludge (Fe-WTS) as coagulation aid: A case study in residual aluminum control Zhaoyang Su, Xing Li, Yanling Yang (China)	119
Properties of carbonaceous material from sewage sludge to remove organic matter. Phenol as a particular case S. Pinedo-Hernández, E. Gutiérrez-Segura, M. Solache-Ríos, A. Colín-Cruz (Mexico)	126
Influence of synthetic wastewater on the transport and transformation in irrigated soils A. Erfani Agah (Belgium and Iran), P. Meire, E. De Deckere (Belgium)	136
Safety analysis of the wastewater treatment process in the field of organic pollutants including PAHs B. Tchórzewska-Cieślak, M. Włodarczyk-Makuła, J. Rak (Poland)	146
Exploitation and optimization of a microbial fuel cell for the treatment of whey wastewater and the power generation P. Shanmuganathan, A. Ramachandra Murthy, P. Rajasulochana, K. Vishwalingam (India)	156

Electrocoagulation of municipal wastewater – a pilot-scale test L. Smoczyński, S. Kalinowski (Poland), H. Ratnaweera (Norway), M. Kosobucka, M. Trifescu, K. Pieczulis-Smoczyńska (Poland)	162
Pollution characterization and source analysis of the wet weather discharges in storm drainages Zuxin Xu, Lijun Xiong, Huaizheng Li, Hailong Yin, Jun Wu, Jin Xu (China), Jin Zhang (Germany)	169
TiO ₂ @ phenyl-functionalized mesoporous silica for removal of bisphenol A from water Lijun Luo, Wei Tang, Huabin Xong (China), C.J. Barrow, Wenrong Yang, Hongbin Wang (Australia)	182
Sol-gel synthesis of χ TiO ₂ /HZSM-5 and photocatalytic degradation of phenol Wenjie Zhang, Zheng Ma, Xijuan Chen, Hongbo He (China)	190
Properties of chemically prepared corncob-based activated carbons and their adsorption characteristics for aqueous lead and phenol Qing-Song Liu (China)	197
Enantioseparation of (S)-amlodipine from pharmaceutical wastewater by hollow-fiber supported liquid membrane: central composite design and optimization N. Sunsandee, N. Kunthakudee, B. Chutvirasakul, S. Phatanasri, P. Ramakul (Thailand)	207
Polysulfone-mesoporous metal oxide based tubular nanocomposite ultrafiltration membranes for turbidity removal of seawater A.K. Ghosh, B. Ghosh, V.S. Mamtani, R.C. Bindal, P.K. Tewari (India)	216
Minimizing flux decline in surimi wash water ultrafiltration for protein recovery N. Ali, D. Kamarudin, N.M. Ismail (Malaysia)	222
Removal of isopropyl ethylthionocarbamate from aqueous solution by oxidation Donghui Liu, Chao Ma, Guohua Gu, Chongqing Wang, Xiong Chen (China)	228
Preparation and characterization of magnetic polysulfone/thiourea microcapsules and their application for Cr(III) removal T. Sardohan-Koseoglu, S. Dogan, F. Karipcin, E. Kır, M.S. Engin (Turkey)	235
Remediation of metal containing dye solutions by combined ozonation–adsorption process P.V. Thitame, S.R. Shukla (India)	243
Enhanced degradation of ternary dye effluent by developed bacterial consortium with RSM optimization, ANN modeling and toxicity evaluation P. Banerjee, S. Roy Barman, D. Sikdar, U. Roy, A. Mukhopadhyay, P. Das (India)	249
Coagulation and clarification of wastewater using rice husk ash C.C. Nnaji, C.N. Mama, D.A. Ezekoye, I. Iwuchukwu (Nigeria)	266
Thermotechnical comparison of conventional heating and microwave radiation method for dewatering of sewage sludge Y. Avsar, U. Kurt (Turkey)	274
Optimization of hexavalent chromium removal by emulsion liquid membrane (ELM) using sunflower oil as eco-friendly solvent K. Anarakdim (Algeria), M. Matos (Spain), O. Senhadji-Kebiche, M. Benamor (Algeria)	281
Enhanced Cr ⁶⁺ biosorption from aqueous solutions using genetically engineered <i>Saccharomyces cerevisiae</i> Ruigang Zhang, Huilan Yi (China)	290
Graphene oxide cross-linked chitosan nanocomposite adsorbents for the removal of Cr (VI) from aqueous environments Lirui Wu, Ziyi Qin, Fei Yu, Jie Ma (China)	300
Adsorption characteristics of graphene oxide in the removal of Cu(II) from aqueous solutions In-Geol Yi, Jin-Kyu Kang, Jae-Hyun Kim, Seung-Chan Lee, Eun-Hye Sim, Jeong-Ann Park, Song-Bae Kim (Korea)	308
Comparison of lead removal from aqueous solution between natural-, sodium-, and acid-modified clinoptilolite-rich tuffs M. Abatal, M.T. Olguin (Mexico)	318
Assessment of concentration physicochemical parameters and heavy metals in Kızılırmak River, Turkey S. Aras, O. Findik, E. Kalipci, S. Sahinkaya (Turkey)	328
Equilibrium and thermodynamics for adsorption of uranium onto potassium hydroxide oxidized carbon S.M.E. Yakoot (Saudi Arabia and Egypt), N.A. Salem (Egypt), A.A. Abdeltawab (Egypt and Saudi Arabia)	335
Optimization of chemical modification process of activated carbon surface with iron nanoparticles for efficient vanadium removal: Kinetics, equilibrium and surface complexation modelling H. Sharififard, M. Soleimani, F. Zokae Ashtiani (Iran)	343

Preparation and characterization of granular zeolite material from construction and demolition waste for lead removal Chuan Wang, Xinxin Chen (China)	354
Rare earth elements/ WO_3 nanowires: Visible lights nanophotocatalysts R.M. Mohamed (Saudi Arabia and Egypt), E.S. Aazam, Z.A. Aldabbagh (Saudi Arabia)	360
Application of nano aluminum oxide and multi-walled carbon nanotube in fluoride removal I. Rostami, A.H. Mahvi, M.H. Dehghani, A. Norouzian Baghani, R. Marandi (Iran)	368
Novel synthesis of TiO_2 combined spherical carbon for the photocatalytic decolorization of commercial Texbrite dyes under visible light response A. Ali (Korea), Lei Zhu (Korea and China), Shu Ye, Jin-do Chung, Won-Chun Oh (Korea)	374
Degradation of ofloxacin in aqueous solution with UV/ H_2O_2 Honghai Xue, Chun Hu, Juwei Peng, Lining Wang, Ying Wang, Ning Ji, Xue Wen (China)	386
Synthesis of copper oxide nanoparticle and photocatalytic dye degradation study using response surface methodology (RSM) and genetic algorithm (GA) N.M. Mahmoodi, S. Keshavarzi, P. Rezaei (Iran)	394
Activated carbon derived from date stone as natural adsorbent for phenol removal from aqueous solution H. Pasalari, H.R. Ghaffari, A.H. Mahvi, M. Pourshabani, A. Azari (Iran)	406
Antimicrobial activity of <i>Mukia maderasapatna</i> stem extract of jujube seeds activated carbon against gram-positive/gram-negative bacteria and fungi strains: Application in heavy metal removal R. Gayathri, K.P. Gopinath, P. Senthil Kumar, A. Saravanan (India)	418
Author Index	428
