Issue 1 – Oxford Papers

First UK-Israeli Workshop on the Application of Membrane Technology in Water Treatment and Desalination and 2nd Oxford Water and Membrane Research 15th–20th June 2008
N. Hankins (Oxford, UK) 1

Process intensification during treatment of NOM-laden raw upland waters: Control and impact of the pre-coagulation regime during ultra-filtration
N. Hankins (Oxford), R. Price (Coventry, UK), N.A. Debacher (Santa Catarina, Brazil) 2

Characterisation of polysaccharide fouling of an ultrafiltration membrane using model solutions
T. de la Torre, M. Harff, B. Lesjean, A. Drews, M. Kraume (Berlin, Germany) 17

Removal of phosphorus from secondary effluents by coagulation and ultrafiltration
T. Nir, E. Arkhangelsky, I. Levitsky, V. Gitis (Beer-Sheva, Israel) 24

Limitations of resistance-in-series model for fouling analysis in membrane bioreactors: A cautionary note
I.-S. Chang (Asan, South Korea), R. Field, Z. Cui (Oxford, UK) 31

Modelling and simulation of short and long term membrane filtration experiments
T. Janus, P. Paul, B. Ulanicki (Leicester, UK) 37

Fouling behaviour for different module formats in membrane filtration applications for surface water treatment
G.K. Pearce (Pangbourne, UK) 48

Brine recovery at industrial RO plants: Conceptual process design studies
R. Singh (Colorado Springs, CO, USA) 54

Implications of critical flux and cake enhanced osmotic pressure (CEOP) on colloidal fouling in reverse osmosis: Modeling approach
T.H. Chong, A.G. Fane (Singapore) 68

Issue 2-3

Study on mechanism of electrocoagulation with iron electrodes in idealised conditions and electrocoagulation of humic acids solution in batch using aluminium electrodes
D. Ghernaout (Blida), B. Ghernaout (Medea), A. Boucherit, M.W. Naceur, A. Khelifa, A. Kellil (Blida, Algeria) 91

Prediction of chlor-alkali's caustic current efficiency by artificial neural network; case study: A zero-gap advanced chlor-alkali cell
E. Joudaki, F. Mohammadi, A. Yousefi, T. Mirzazadeh (Tehran, Iran) 100

Complex treatment of the ammonium nitrogen wastewater from rare-earth separation plant
H. Huang (Guangzhou; Beijing), X. Xiao, B. Yan (Guangzhou, PR China) 109

Biosorption properties of cadmium (II) and Zinc(II) from aqueous solution by tea fungus
Y.-n. Chen, D.-c. Zhang, M. Chen, Y.-c. Ding (Ganzhou Jiangxi, PR China) 118

Alkali solid-state conversion of kaolin and zeolite to effective adsorbents for removal of lead from aqueous solution
B.E.- Eswed (Zarka), R.I. Yousef, M. Alshaaer, F. Khalili, H. Khoury (Amman, Jordan) 124

The design aspects of rotary work exchanger for SWRO
O.M. Al-Hawaj (Safat, Kuwait) 131

Adsorption and removal of arsenite on ordered mesoporous Fe-modified ZrO ₂ X. Sun, C. Hu, J. Qu (Beijing, PR China)	139
Treatment of washrack wastewater with water recycling by advanced flocculation–column flotation J. Rubio, R.N. Zaneti (Porto Alegre, RS, Brazil)	146
Effects of orthophosphate corrosion inhibitor on copper in blended water quality environments E.D. Stone, S.J. Duranceau, J.S. Taylor (Orlando, FL, USA)	154
Preparation and characterization of sandwich-structure polyethersulfone membrane with pH sensitivity J. Xie, Q. Wei, B. Su, B. Qian, Q. Ling, C. Zhao (Chengdu, PR China)	163
Storage phenomena in relation to carbon sources for denitrification D. Güven, Ö. Karahan (Istanbul), H. Büyükgüngör (Samsun), S. Sözen (Istanbul, Turkey)	171
Investigating the relationship between model organic compounds and ultrafiltration membrane fouling B. Kwon (Seoul, Korea), H.K. Shon (Sydney, Australia), J. Cho (Gwangju, Korea)	177
Bench-scale assessment of membrane pre-treatment and seasonal fouling potential variations A. Esquivel, B. Barbeau, C. Bouchard (Quebec, Canada)	188
Sorption of malachite green by eucalyptus bark as a non-conventional low-cost biosorbent S. Boutemedjet, O. Hamdaoui (Annaba, Algeria)	201
Investigating iron release in distribution systems with blend variations of source waters and phosphate inhibitors A.A. Alshehri, S.J. Duranceau, J.S. Taylor, E.D. Stone (Orlando, FL, USA)	211
Electric-field-driven transport of valence-asymmetric salts within stagnant fluid films M.D. Afonso, V. Geraldés (Lisbon, Portugal)	221
Utilisation of the exergy method for the cost evaluation of integrated nuclear desalination systems S. Nisan (Pertuis, France)	225
Extraction of rubidium from the concentrated brine rejected by integrated nuclear desalination systems S. Nisan, F. Laffore, C. Poletiko, N. Simon (Saint Paul-lez-Durance, France)	236
The daily double – Betting on desalination and ethanol S. Rosenbloom (Washington, DC), M.D. Carelli (Pittsburg, PA, USA)	246
Characterization of bacterial alginate extracted from biofilm matrix Y. Lin (Rehovot; Qingdao), H. Zhang (Qingdao, PR China), A. Adin (Rehovot, Israel)	250
Heavy metals leachability before, during and after composting of sewage sludge with natural clinoptilolite A.A. Zorpas (Paralimni, Cyprus)	256
Adsorption of dyes using magnesium hydroxide-modified diatomite J.X. Lin, L. Wang (Hangzhou, PR China)	263
Integrated system for the treatment of blackwater and greywater via UASB and constructed wetland in Egypt H.I. Abdel-Shafy, M.A. El-Khateeb (Cairo, Egypt), M. Regelsberger (Gleisdorf, Austria), R. El-Sheikh (Zagazig), M. Shehata (Cairo, Egypt)	272
Pilot scale investigation of low pressure nanofiltration and reverse osmosis membrane techniques for the treatment of El-Salaam canal water, Sinai, Egypt A. Hafez, M. Khedr, K.E.- Katib, H. Gadallah (Cairo, Egypt)	279
El-Salaam Canal Water, Sinai, Egypt. Part V. Techno-economic study for integrated treatment plant A. Hafez, M. Khedr, K. El-Katib, H. Gadallah (Cairo, Egypt)	286
Author Index	294
