

**Contents**  
**Volume 92**

A simple method for the determination of adsorption kinetic parameters using circulating-type shallow bed reactor (CSBR) T. Kawakita (Japan), Huan-Jung Fan (Taiwan), Y. Seida, T. Kinoshita, E. Furuya (Japan) .....	1
Filtration improvement and structure optimization of baffle promoter for tubular membrane Jianxin Liu, Zhijun Liu, Fengxia Liu, Wei Wei, Xin Zhang (China) .....	9
Bentonite-loaded carboxy methylcellulose membrane for pervaporative desalination F.U. Nigiz, N.D. Hilmioglu (Turkey) .....	20
Preparation of polyethersulfone nanofiltration membrane by UV photo-grafting and separation for dye solutions Zhe Wang, Baoli Shi, Lina Jia (China) .....	27
Kemenyan ( <i>Styrax benzoin</i> Dryand) extract as green inhibitor of calcium carbonate (CaCO <sub>3</sub> ) crystallization Suharso, N.A. Sabriani, Tugiyono, Buhani, T. Endaryanto (Indonesia) .....	38
Experimental analysis of solar thermal integrated MD system for cogeneration of drinking water and hot water for single family villa in Dubai using flat plate and evacuated tube solar collectors M. Asim (Hong Kong, Pakistan), M. Imran (Pakistan, Denmark), M.K.H. Leung (Hong Kong), N.T. Uday Kumar (UAE), A.R. Martin (Sweden), F. Kashif (Pakistan) .....	46
Selection of the best coefficient of performance prediction by artificial neural network model considering uncertainty D. Colorado-Garrido, B.A. Escobedo-Trujillo, I. Cobaxin-Muñoz, F.A. Alaffita-Hernández, J.V. Herrera-Romero (Mexico) .....	60
Kinetic study and modelling of cephalixin removal from aqueous solution by advanced oxidation processes through artificial neural networks O.R.S. da Rocha, R.F. Dantas, W.J. do Nascimento Júnior, Y. Fujiwara, M.M.M.B. Duarte, J.P. da Silva (Brazil) .....	72
Influence of flow rate variations on chemistry change of pumped Disi water to Amman/Jordan: a laboratory simulation approach A.E. Al-Rawajfeh, E. Alshamaileh, A.M. Al-Ma'abreh (Jordan), Gh.A. Al Bazed (Egypt) .....	80
The hydrochemical characterization of the high plains aquifers: case of the plain of F'kirina Ain-Beïda, Northeastern Algeria D. Salima, H. Belgacem (Algeria) .....	90
Evaluation of performance of calcined bones as a new adsorbent for the removal of carbaryl pesticide from aqueous solutions A. Roudani, R. Mamouni, N. Saffaj, A. Lahnifli, S. Lazar (Morocco) .....	98
Hydrothermal synthesis of SnS <sub>2</sub> nanocrystals for photocatalytic degradation of 2,4,6-trichlorophenol under white LED light irradiation Kezhen Qi (China), S. Karthikeyan (India), Woolcheol Kim (Korea), F. Al Marzouqi, I.S. Al-Khusaibi (Oman), Younghun Kim (Korea), R. Selvaraj (Oman) .....	108
Removal of trihalomethane precursors from water using activated carbon obtained from oak wood residue: kinetic and isotherm investigation of adsorption process A.A. Babaei, E. Niknam, A. Ansari, K. Godini (Iran) .....	116
Biodegradation and fate of linear alkylbenzene sulfonate in integrated fixed-film activated sludge using synthetic media H. Eslami, M.R. Samaei, E. Shahsavani, A.A. Ebrahimi (Iran) .....	128
Facile synthesis of aluminum-based bimetallic (hydr)oxides for enhanced fluoride removal from water Qiongzhi Tang, Haiying Wang, Shunqi Tian, Ruiyang Xiao, Liyuan Chai, Weichun Yang (China) .....	134
Preparation of mesoporous TiO <sub>2</sub> -SiO <sub>2</sub> by ultrasonic impregnation method and effect of its calcination temperature on photocatalytic activity A. Haghizadeh, B. Mazinani, M. Shokouhimehr, L. Samiee (Iran) .....	145

TiO <sub>2</sub> nanoparticles containing phthalocyanine as a visible light driven photocatalyst for degradation of thionine acetate in synthetic wastewater A. Ebrahimian Pirbazari (Iran) .....	152
Improved electrocoagulation process using chitosan for efficient removal of cefazolin antibiotic from hospital wastewater through sweep flocculation and adsorption: kinetic and isotherm study S. Ahmadzadeh, A. Asadipour, M. Yoosefian, M. Dolatabadi (Iran) .....	160
Formation of predominant interstitial N-TiO <sub>2</sub> using physical preparation under microwave irradiation for Reactive Red 4 dye removal M.S. Azami (Malaysia), W.I. Nawawi (Malaysia, UK), D.S.M. Shukri (Malaysia) .....	172
Liquid-phase adsorption of phenol onto blended adsorbents through bioremediation Subramanyam B (India) .....	181
The effect of modified zeolite, activated carbon and peat with cationic surfactant and sodium hydroxide on removing anions from irrigation saline waters M. Ghasemi, J. Abedi Koupai, M. Heidarpour (Iran) .....	196
Degradation of antibiotic wastewater based on high-pressure submerged cavitation jet and synergetic methods Yuequn Tao, Jun Cai, Xiulan Huai (China) .....	205
Removal of cadmium(II) ion from wastewater by using Lebanese <i>Prunus avium</i> stem as adsorbents N. Al-Afy, A. Hijazi, H. Rammal, M. Reda, R. Nehme, H. Annan (Lebanon), J. Toufaily (Lebanon, USA), T. Hamieh (Lebanon, France) .....	215
Mono/competitive adsorption of hexavalent chromium and acid fuchsin dye onto bamboo charcoal modified by Cu <sup>2+</sup> -N-aminopropylsilane complexes via response surface methodology Yunhai Wu, Haitao Sha, Yiang Fan (China) .....	222
Comparative solid phase extractions of Pb(II) from water samples using magnetic nanoparticles impregnated banana peels (MNPs-BP), magnetic nanoparticles (MNPs) and banana peels (BP) M. Khan, J. Shah, M.R. Jan (Pakistan) .....	245
Potential of L-tyrosine and L-tryptophan modified silica nanoparticles as adsorbents for Pb(II) ions: kinetics and thermodynamic investigation M. Koorepazan Moftakhar, M.R. Yaftian, M. Ghorbanloo (Iran) .....	255
Removal of lead ions from aqueous solutions using novel-modified magnetic nanoparticles: optimization, isotherm, and kinetics studies S. Jafarinejad, M. Faraji, P. Jafari, J. Mokhtari-Aliabad (Iran) .....	267
Synthesis and comparison of spent caustic wastewater photocatalytic treatment efficiency with zinc oxide composite A. Ahmadpour, A. Haghghi Asl, N. Fallah (Iran) .....	275
Kinetics, isotherm and thermodynamics for thorium ions adsorption from aqueous solutions by coal T. Javed, N. Khalid, M.L. Mirza (Pakistan) .....	291
Adsorption of anionic azo dye Congo Red from aqueous solution onto NaOH-modified jute fibre A.K. Dey, U. Kumar (India) .....	301
Author Index .....	309
