Volume 93

Theoretical analysis of a wet cooling tower coupled with a desalination plant for fresh water yield P. Sellamuthu, C. Manoharan, R. Senthil Kumar (India)	1
Fe and Zn removal from steel making industrial wastewater by electrically enhanced membrane bioreactor M.A.L. Ahmed, S.W. Hasan (UAE)	9
Effect of dissolved oxygen concentrations on the operational efficiency of the powdered activated carbon- membrane bioreactor (PAC-MBR) and single membrane bioreactor (MBR) Xia Zhao, Yabin Li, Hao Xu, Xiaochun Wang, Zhonglin Chen (China)	22
Removal of hardness from groundwater using two nanofiltration membranes: experimental study and modeling M. Igouzal, F. El Azhar, M. Hafsi, M. Taky, A. Elmidaoui (Morocco)	30
Post-treatment of anaerobically-treated compost leachate by membrane systems: emphasis on molecular weight distribution S. Acun, S.O. Celik, M. Cakmakci, D. Karadag, B. Armagan, B. Ozkaya (Turkey)	40
Designing activated carbon and zeolite amended biosand filters: optimization using response surface methodology S.A. Mirbagheri, S. Malekmohamadi, M. Ehteshami (Iran)	48
Sewage sludge-based activated carbon: its application for hexavalent chromium from synthetic and electroplating wastewater in batch and fixed-bed column adsorption Z. Aliakbari, H. Younesi, A.A. Ghoreyshi, N. Bahramifar, A. Heidari (Iran)	61
Application of response surface methodology (RSM) for optimization of strontium sorption by synthetic PPy/perlite nanocomposite H. Esfandian, A. Akrami, F. Bagheban Shahri (Iran)	74
Biotreatment of formaldehyde-contaminated air in a trickle bed bioreactor A. Goli, A. Talaiekhazani (Iran), N. Eshtiaghi (Australia), Y. Chisti (New Zealand), Reza Aramesh (Iran), Roya Aramesh (Malaysia), A. Shamiri (Australia, Malaysia)	83
Effect of nutrient regimes on desalination rate and lipid production of <i>Scenedesmus obliquus</i> in saline water Guangzhu Shen, Miaomiao Zhao, Dongran Cao, Dong Qu, Ming Li (China)	93
Fe ₃ O ₄ and Fe ₃ O ₄ /Fe ²⁺ /Fe ⁰ catalyzed Fenton-like process for advanced treatment of pharmaceutical wastewater Nan Zhang, Guangming Zhang, Ting Huang, Shan Chong, Yucan Liu (China)	100
Sorption of humic acid to layered double hydroxides prepared through ion thermal method Pei Zhong, Kefeng Ping, Xinhong Qiu, Fengxi Chen (China)	109
Synthesis of iron doped zeolite nanocomposite: one step treatment of drinking water from biological, inorganic and organic contaminants M. Zeeshan, R. Nazir, L. Tahir, S. Alam, A. Saleem, S.A. Khan, M. Zia-ur-Rehman (Pakistan)	120
Sorption of benzene, toluene, ethylbenzene from aqueous phase onto carbon nanotubes and the mutual effects of humic acid Huiying Zhan, Yufeng Jiang, Jinxi Wang (China)	131
Isolation and characterization of copper and cadmium resistant bacteria from industrial wastewaters and evaluating the biosorption of selected bacteria M.H. Habibollahi, A. Baghizadeh, A. Sabokbar, K. Sharafie (Iran)	139
Efficient degradation of 4-chloro-2-nitrophenol using photocatalytic ozonation with nano-zinc oxide impregnated granular activated carbon (ZnO-GAC) H. Arfaenia, H. Sharafi, M. Moradi, M. Ehsanifar, S.E. Hashemi (Iran)	145
Study on ion-exchange behavior of Cu ²⁺ and Ni ²⁺ with a high-efficiency resin Jia Qian, Minqian Qiu, Zuoxiang Zeng, Weilan Xue (China)	152

Effects of TiO ₂ on the laccase enzyme immobilization and the bisphenol-A removal of the ceramic membranes S. Sanguanpak, W. Shongkittikul, A. Wannagon, C. Chiemchaisri (Thailand)	163
Biosorption of bemacid red dye by brewery waste using single and poly-parametric study F. Ouazani, A. Iddou, A. Aziz (Algeria)	171
SPR response of CS-GO nanostructured thin films for selective detection of Pb(II) ions in the Saigon River, Vietnam N.F. Lokman, A.A. Abu Bakar, S. Abdul Talib, F. Suja (Malaysia)	180
Hourly stream flow prediction in tropical rivers by multi-layer perceptron network M. Seyam, F. Othman (Malaysia)	187

***Selected papers presented at the 3rd International Conference on Recycling and Reuse
28–30 September 2016, Istanbul, Turkey***

Removal of chloride, sulphate, TOC and COD from aqueous solution by vacuum distillation S. Güneysu, S. Aydın (Turkey)	195
MIMO control application for pulp and paper mill wastewater treatment by electrocoagulation Ş. Camcıoğlu, B. Özyurt, H. Hapoglu (Turkey)	200
A consecutive electrocoagulation and electro-oxidation treatment for pulp and paper mill wastewater B. Özyurt, Ş. Camcıoğlu, H. Hapoglu (Turkey)	214
Life cycle assessment as a decision support tool in wastewater treatment plant design with renewable energy utilization M. Başkurt, I. Kocababuç, E. Binici, E. Dulekgurgen, Ö. Karahan Özgün, R. Taşlı (Turkey)	229
Experimental study of direct bio-electricity generation from municipal waste-activated sludge simultaneously with its stabilization and modeling the process by KSOFM and MLP artificial neural networks H. Rasouli Sadabad, G. Badalians Gholikandi (Iran)	239
Heavy metal ions removal from waste-activated sludge by Fered-Fenton electrochemical advanced oxidation process (EAOP) with the aim of agricultural land application G. Badalians Gholikandi, H. Rasouli Sadabad, S. Karami, H. Masihi (Iran)	250
Removal of heavy metal ions from electroplating wastewater N. Sezgin, N. Balkaya (Turkey)	257
Employing Fered-Fenton advanced oxidation process for waste-activated sludge stabilization and reuse G. Badalians Gholikandi, N. Zakizadeh, S. Karami, H. Masihi (Iran)	267
Single and binary adsorption of copper and nickel metal ions on nano zero valent iron (nZVI): a kinetic approach K. Ulucan-Altuntas, E. Debik, I.I. Yoruk, D. Kozal (Turkey)	274
Performance of ozonation/biofiltration for disinfection by-products control on eutrophicated water source, Turkey H. Inan, Z. Yigit Avdan, M.U. Akçay (Turkey)	280
Arsenic and boron removal from spring and groundwater samples in boron mining regions of Turkey by electrocoagulation and ion-exchange consecutive processes M. Kobya, M.S. Öncel, E. Demirbas, M. Celen (Turkey)	288
Use of aluminium-coagulated water treatment residue in the treatment of dye containing wastewater N. Balkaya, N. Büker (Turkey)	297
A study on the use of a waste by-product from saw-mill in the removal of basic dye from aqueous solution: kinetics and thermodynamics N. Balkaya, N. Büker, B. Ergene (Turkey)	303
Green synthesis of clay/silver nanocomposite materials for adsorption of hazardous dyestuffs M. Oğuz, H. Usluer, D. Uzunoğlu, A. Özer (Turkey)	309
Characterization of apricot stone shells as a rapid filter medium E. Soyer, S. Yiğit Hünce, Ö. Akgiray (Turkey)	318
Behaviour of the X-ray contrast agent iopamidol during anaerobic treatment and effect on biogas production C. Yangin-Gomec, T. Sapmaz, S. Khoei, I. Arslan-Alaton, T. Olmez-Hanci (Turkey)	324
Evaluation of estrogenic hormones in water reservoirs and municipality treatment plants in Istanbul C.E. Gökçe, S. Güneysu, S. Arayıcı (Turkey)	329

The effects of manganese on the remediation of the heavy metal contaminated soil by using the dock (<i>Rumex patientia</i> L.) plant S. Adilođlu (Turkey)	335
Separation of lactic acid by multiwall carbon nanotube adsorption from water İ. İlalan, İ. İnci, N. Baylan (Turkey)	339
The investigation of fluorene removal with chemical oxidation after soil washing M. Oya Orkun, E. Burcu Özkaraova (Turkey)	346
An investigation on initial dilution of thermal wastewater discharges into shallow receiving waters with 60° inclination U.E. Temelli, N. Sezgin, F. Djamaa, S. Nemlioglu (Turkey)	355
Continuous versus batch contacting for nutrient recovery from human urine upon processing with clinoptilolite I: surface capacities and operation times A.D. Allar-Emek, B. Beler-Baykal (Turkey)	361
Author Index	368
