Volume 137

Cleaning and regeneration of irreversibly fouled and discarded RO membranes: method and mechanism Miao Wang, Zhenjiang Yu, Yalei Zhang, Xuefei Zhou, Huaqiang Chu (China)	1
Sulfate addition for controlling propionate accumulation in a thermophilic anaerobic co-digestion system: methane fermentation process and microbial communities Qian Li, Xiaohuan Yang, Chaosui Yuwen, Xinru Cheng, Xiaochang Wang (China)	11
Adsorption behavior of Sb(III) on iron-functionalized attapulgite in aqueous solution Pengcheng Ni, Rui Zuo, Jinsheng Wang, Aixia Zhou (China)	22
Research on dynamic synergistic scale inhibition performance and mechanisms of ESA/IA/AMPS copolymer with electrostatic field Meifang Yan, Qiangqiang Tan, Haihua Li, Lihui Zhang, Zhenfa Liu (China)	34
An investigation on flow dynamics in the electrochemical reactor for the treatment of pharmaceutical wastewater M.Y. Sikkandar (Saudi Arabia), S. Begum S (India)	41
Using <i>Cyperus alternifolius</i> for treating ink factory wastewater: effect of microbial communities in the system R. Dolphen, N. Boonapatcharoen, S. Techkarnjanaruk, P. Thiravetyan (Thailand)	49
Fluoride, iron and manganese removal from brackish groundwater by solar powered vacuum membrane distillation Ying Zhang, M. Sivakumar (Australia), M. Ramezani pour (New Zealand), Shuqing Yang, K. Enever (Australia)	58
Indium extraction from indium tin oxide (ITO) scraps using subcritical water A. Rahmawati (Taiwan), S. Ismadji (Indonesia), Young Ku, Jhy-Chern Liu (Taiwan)	69
Application of several plant roots as biosorbent and nanobiosorbent for the removal of Pb ²⁺ and Zn ²⁺ from aqueous solutions H. Karami, T. Mohammadi (Iran)	76
Equilibrium and kinetic studies on the process of removing chromium(VI) from solutions using HDTMA-modified halloysite K. Kurdziel, M. Raczynska-Żak, L. Dąbek (Poland)	88
Effect of operational variables on biological hydrogen production from palm oil mill effluent by dark fermentation using response surface methodology A. Akhbari (Malaysia), A.A. Zinatizadeh (Iran), M. Vafaefard (Malaysia), P. Mohammadi (Iran), B.S. Zainal, S. Ibrahim (Malaysia)	101
Core/shell magnetic nanoparticles of Fe ₃ O ₄ /Mn _x Zn _y Fe _{3-x-y} O ₄ for phosphate adsorption from water: effects of adsorbent composition using response surface methodology M. Mirzapour, F. Akhlaghian (Iran)	114
Silica nanoparticles for the removal of fluoride from aqueous solution: equilibrium, isotherms, kinetics and thermodynamics F. Masoudi, A. Naghizadeh (Iran)	125
A comparison study of granular activated carbon modification by FeCl ₃ under acidic and basic condition for arsenic removal from water M. Mahdavi, A.H. Mahvi, A. Fatehizadeh, M. Sadani, B. Shahmoradi, A. Ebrahimi (Iran)	134
Adsorption of phenol onto alginate-adsorbent beads prepared from pine cone: equilibrium and factorial design methodology S. Bouchareb, D. Hank (Algeria), M.A. Salam (Saudi Arabia), K. Ouddai, A. Hellal (Algeria)	143
Removal of colour and COD from paper and pulp industry wastewater by ozone and combined ozone/UV process H.M.S. Munir, N. Feroze, A. Ikhlaq, M. Kazmi, F. Javed, H. Mukhtar (Pakistan)	154

Enhanced removal of Ni(II) by acetic acid modified peat N. Priyantha (Sri Lanka), L.B.L. Lim (Brunei), S. Mallikarathna, T.P.K. Kulasoorya (Sri Lanka)	162
Iron oxide nanoparticle preparation and its use for the removal of fluoride from aqueous solution: application of isotherm, kinetic and thermodynamics A. Rahdar, S. Ahmadi (Iran), Jie Fu (China), S. Rahdar (Iran)	174
MgFe compounds for water purification: the effect of annealing temperature on lead removal performance T.L. Leung, C.S. Kam, Qian Sun, A.B. Djurišić, Mao Hai Xie, Wai Kin Chan, Hang Kong Li, Ying Zhou, Kaimin Shih (Hong Kong)	183
Study the treatment of tannery wastewater after biological pretreatment by using electrochemical oxidation on BDD/Ti anode T.L. Luu, T.T. Tien, N.B. Duong, N.T.T. Phuong (Vietnam)	194
Toxicity assessment and degradation of benzoquinone by ZnO photocatalytic oxidation process A. Akyol (Turkey)	202
Removal of lead ion from environmental samples using modified glass nanoparticles S. Arjmandpour, H.A. Panahi (Iran)	212
Removal of parasitic particles, protozoan cysts and thermotolerant coliforms in the integrated aeration lagoon, case study: Iran A. Almasi, M. Mohammadi, S. Salehnia, M. Pirsahab, M.H. Azizi, M.R. Zolfaghari (Iran)	221
Evaluation of water quality in the Kızılırmak River (Central Anatolian) using physicochemical parameters and process proposal for improvement in water quality – a case study M.K. Öden (Turkey)	226
Construction of 2D g-C ₃ N ₄ /MoS ₂ heterojunction photocatalyst for enhanced degradation of pollution under visible light Zijun Zhong, Ruopeng Xu, Huijuan He, Qiuna Zhuang, Langhuan Huang (China)	234
Biosorption of phosphorus, total suspended and dissolved solids by dried <i>Phragmites australis</i> : isotherm, kinetic and Interactive response surface methodology (IRSM) in oil and soap-derivatives industrial wastewater G. Heikal, A. El Shahawy (Egypt)	243
Removal of ciprofloxacin from water through magnetic nanocomposite/membrane hybrid processes A. Ullah, M. Zahoor, S. Alam (Pakistan)	260
The effect of diazinon on the removal of carmoisine by <i>Saccharomyces cerevisiae</i> A. Sadeghi, M.H. Ehrampoush, M.T. Ghaneian, A.A. Najafpoor, H. Fallahzadeh, Z. Bonyadi (Iran)	273
Efficient and fast removal of nitrate from water using a novel lignocellulosic anion exchanger modified with a silane group L. Manhooei, B. Mehdinejadani, S.M. Amininasab (Iran)	279
Study of the removal efficiency of arsenic from aqueous solutions using <i>Melia azaderach</i> sawdust modified with FeO: isotherm and kinetic studies M. Davodi, H. Alidadi, A. Ramezani, F. Jamali-Behnam, Z. Bonyadi (Iran)	292
Fabrication of pervaporative composite PDMS.MWCNT/PES membrane for ethanol/water separation A. Farahi, G.D. Najafpour, A. Ghoreyshi (Iran)	300
Heterogeneous photocatalytic degradation and mineralization of 2,4-dichlorophenoxy acetic acid (2,4-d): its performance, kinetics and economic analysis G.D. Okcu, H.E. Okten, A. Yalcuk (Turkey)	312
Facile synthesis of Ag nanoparticles-anchored polydopamine-modified polyurethane sponge for the effective catalysis of organic pollutants from wastewater Guangcheng Luo, Zhigang Jia, Tao Ni, Ziyu Li, Jun Chen, Hongping Wu, Nannan Wang (China)	328
Removal of methylene blue from water solution by modified nano-goethite by Cu F. Salimi, H. Rahimi, C. Karami (Iran)	334
Biosorption potential of <i>Sapindus Mukorossi</i> dead leaves as a novel biosorbent for the treatment of Reactive Red 241 in aqueous solution F. Javed, N. Feroze, A. Ikhlaq, M. Kazmi, S.W. Ahmad, H.M.S. Munir (Pakistan)	345
Adsorption of cationic and anionic dyes by ethylenediamine-modified carboxymethyl cellulose Wenjuan Chen, Yunshan Bai, Min Wu, Hongzhu Ma (China)	358
Photocatalytic degradation of aqueous methyl orange using a novel Ag/TiO ₂ /Fe ₂ O ₃ photocatalyst prepared by UV-assisted thermal synthesis M. Nasirian, M. Mehrvar (Canada)	371

Sonophotocatalytic degradation of aqueous Acid Red 27 and Direct Violet 51 using copper impregnated Al ₂ O ₃ F. Khitab, M.R. Jan, J. Shah (Pakistan)	381
Enhanced photocatalytic activity of environment-friendly C/ZnFe ₂ O ₄ nanocomposites: application in dye removal S. Salla, N.R. Ankem, P. Senthil Kumar, A. Annam Renita, K. Micheal (India)	395
The effect of salt basins on the trend of groundwater quality changes in the surrounding basins (case study: Tabriz plain, northwest of Iran) M.H. Dehghani, F.B. Asghari, M. Yousefi (Iran)	403
Author Index	412
