

Contents

Volume 139

Corrosion inhibition and structure-efficiency relationship study of CTAC and CDHAC Jiao Lin, Qiaona Liu, Jie Zhang, Ya Wu, Hong Li, Yun Ma, Chengtun Qu, Wenqi Song, Gang Chen (China)	1
Mechanism of scaling on reservoir formation damage by polymer-containing wastewater re-injection Yi-gang Liu, Hua-xing Chen, Hong-ming Tang, Yu-tian Feng, Ming Pang (China)	7
Performance comparison of a single slope solar still equipped with water heater and an external fan during summer and winter A.Z. Al-Garni, A.Z. Sahin, W.G. Abdelrahman (Saudi Arabia)	14
The role of fly ash in solar photocatalytic water treatment V. Gilja, Z. Katančić, V. Mandić, I. Peternel, H. Kušić, Z. Hrnjak-Murgić (Croatia)	23
Improving the performance of air gap membrane distillation process using a developed tubular condenser compared to a flat plate condenser M. Jalayer, M. Karimi, S.M. Borghei, A.H. Hassani (Iran)	39
Comparative study between ceramsite media and quartz sand for the removal of methylene blue dye from aqueous solution in fixed-bed columns Tianpeng Li, Tingting Sun, Tallal Bin Aftab, Jing Fan, Ting Li (China)	53
Evaluation of remineralization performance of osmosis water on the calcite bed at a laboratory scale A. Marrouche, M.G. Biyoune (Morocco), A. Mabrouk (France), A. Bachar, A. Atbir, L. Boukbir, S. Mançour-Billah, H. Bari, R. Bellajrou, A. Aydda, M. El Hadek (Morocco)	64
Establishment of database on the physical, chemical, and biological characteristics of the seawater intake of Kuwaiti desalination plants M. Salman, A. Al-Haji, S. Al-Haddad, M. Al-Rugaib, A. Al-Mesri (Kuwait)	70
CFD simulation of seawater desalination through a rectangular electro dialysis cell A. Fazlali, V. Ghaleh Khondabi, A. Tayyebi, M.K. Moraveji (Iran)	88
Developing a decision support tool for managing sludge from wastewater treatment plants in Jordan H.A. Abu Qdais (Jordan)	95
Comparison of the micro-polluted surface water purification effect using two kinds of hybrid membrane systems Rongrong Liu, Haichun Liu, Chundu Wu, Jiandong Zhou, Xujie Lu (China)	105
Degradation of tetracycline using photocatalytic membrane reactor with nanocomposite Ag doped clinoptilolite zeolite photocatalyst M. Hallajiqomi, M. Mehdipourghazi, F. Varaminian (Iran)	111
Using a multi-objective optimal design of GMDH type neural networks to evaluate the quality of treated water in a water treatment plant F. Alitalessi, A. Daghbandan (Iran)	123
Study of the application of a self-made ultrafine grinding catalytic internal electrolytic filler in pulping wastewater pretreatment Luting Pan, Guijiao Lin, Jiucheng Wang, Ajun Wan, Xinjue Xie, Yixuan Xie, Runqiu Tu (China)	133
Fabrication of quantum Cu(II) nanodot decorated TiO ₂ nanotubes by the photochemical deposition-assisted hydrothermal method: study catalytic activity in hydrogen generation N. Gilani, J. Vahabzadeh Pasikhani, P. Tafazoli Motie, M. Akbari (Iran)	145
The adsorptive potential of graphene monolith for organic pollutant treatment: kinetics, isotherms, and thermodynamics of interactions A. Hussain, T. Bin Aftab, Guo Qihao, Jiebing Li, Dengxin Li (China)	156
Oxidative degradation of acetaminophen by continuous flow classical Fenton process M. Anis, S. Haydar (Pakistan)	166

Investigation of the equilibrium, thermodynamic and kinetic parameters of study of the Allura red dye efficient removal from aqueous solution by magnetic α -Fe ₂ O ₃ nanoparticles and its nanocomposite with graphite powder (α -Fe ₂ O ₃ /G-p) T.u.H. Zia, A.H. Mehmood, B. Ara, K. Gul (Pakistan)	174
Synthesis of Mg/Al layered double hydroxides from a sub-bituminous coal ash and their application in hexavalent chromium removal from aqueous solution Dong-Xue Guo, Yun-Peng Zhao, Hui-Duo Yang, Shi-Feng Li, Xing Fan, Xian-Yong Wei (China)	191
Degradation of pharmaceutical contaminants in water by an advanced plasma treatment A. Sohrabi, G. Haghighat, P. Mojir Shaibani (Canada), C.W. Van Neste (USA), S. Naicker, M. Sadrzadeh, T. Thundat (Canada)	202
Evaluation of bromate formation control during drinking water disinfection in Saudi Arabia M.S. Algamdi, I.H. Alsohaimi, A.A. Alqadami, A.A. Alshahrani, N.F. Alotaibi, A.M. Aldawsari (Saudi Arabia)	222
Enhanced uptake of gold ions from wastewater due to covalent functionalization of organotriphosphonic acid on japonica shells Lijun Wei, Ping Yin, Zhenglong Yang, Yanbin Xu, Wei Jiang, Juan Jin, Honglan Cai, Zhenliang Guo (China)	228
Performance evaluation of point of use water treatment system in health risk reduction of trace metals in drinking water S. Rezaenia, S. Nasser, M. Gholami, M. Farzadkia, A. Esrafil (Iran)	246
Investigating the efficiency of surfactant-modified zeolites@pumice to remove phosphate from synthetic wastewater using Box-Behnken design S. Ghasemi, E. Derikvand, S. Khoshnavaz, S. Boroomand Nasab, M. Solimani Babarsad (Iran)	254
Numerical modeling of performance of olive seeds as permeable reactive barrier for containment of copper from contaminated groundwater Z.T. Abd Ali, H.M. Flayeh, M.A. Ibrahim (Iraq)	268
Degradation of four antibiotics from aqueous solution by ozonation: intermediates identification and reaction pathways M. Tahergorabi, A. Esrafil, M. Kerman, M. Gholami, M. Farzadkia (Iran)	277
Facile preparation of mercapto modified magnetic iron oxide nanoparticles for removal of mercury(II) from aqueous solutions Yuehong Pang, Qin Wang, Yun Ma, Qi Yue, Xiaofang Shen (China)	288
Optimizing the removal of humic acid with polyaluminum chloride and polyaluminum ferric chloride as green coagulants using response surface methodology M. Faraji, A. Ebrahimi, H. Nourmoradi, A. Nikoonahad, A. Abdolahnejad, R. Ghanbari, A. Mohammadi (Iran)	297
Real-time experimental generalized minimum variance control of operating parameters in an electrocoagulation process S. Camcioglu, B. Ozyurt, H. Hapoglu (Turkey)	305
Biomimetic prepared polyaniline/molybdenum disulfide nanosheet based electrochemical detection of bisphenol A Jingyi Zhang, Qing Zhang, Nguyen Thi Oanh, Hongxia Qu, Huifang Xie, Jinming Kong (China)	319
Statistical design of experiment as a tool for optimization of methylene blue sorption on CS/MCM-41/nano- γ alumina as a novel and environmentally friendly adsorbent: isotherm and kinetic studies A. Teimouri, N. Ghased, S. Ghanavati Nasab, S. Habibollahi (Iran)	327
Removal of eriochrome black T dye from water solution using modified nano-boehmite by organic compounds J. Rezaee, F. Salimi, C. Karami (Iran)	342
Enhanced electrochemical degradation of a basic dye with Ti/Ru _{0.3} Ti _{0.7} O ₂ anode using flow-cell A. Baddouh, E. Amaterz, B. El Ibrahim, M.M. Rguitti, M. Errami (Morocco), V. Tkach (Ukraine), L. Bazzi (Morocco)	352
Promising adsorption studies of bromophenol blue using copper oxide nanoparticles M. Rashad (Egypt, Saudi Arabia), H.A. Al-Aoh (Saudi Arabia)	360
Preparation of Fe ₃ O ₄ /organo-montmorillonite nanocomposite and its use as an adsorbent for removal of an anionic dye Ö. Açıslı (Turkey)	369
Author Index	379
