Volume 141

Evaluation of maintenance chemical cleaning in seawater reverse osmosis pilot plant using hot wastewater from power plant KiTae Park, JunYoung Park, Minjin Kim, HyungSoo Kim, PooReum Kim, Ji-Hoon Kim (Korea)	1
Desalination of seawater in the Gaza Strip: the regional short-term low-volume (STLV) seawater desalination plant of Deir Al-Balah as a case study M. Abualtayef, H. Al-Najjar, K. Qahman, M. Alnajjar (Palestinian Authority)	8
Simulation and optimization study of humidification-dehumidification desalination process F. Abdel-Hady, M. Alghamdi, A.K. Mazher, A. Alzahrani (Saudi Arabia)	23
Performance evaluation and economic analysis of solar desalination device made of building materials for hot arid climate of India A.K. Singh, S. Poonia, D. Jain, D. Mishra (India)	36
Optimization of an inverted multi-stage double slope solar still: An environmentally friendly system for seawater purification S.A. Abdul-Wahab (Oman), M. Fessehaye (Eritrea), K. Yetilmezsoy (Turkey), A. Al-Ghafir, A. Al-Barashdi, N. Al-Hajri, S. Al-Bulushi (Oman)	42
Effect of Ca ²⁺ on organic fouling of hydrophobic polytetrafluoroethylene membrane during membrane distillation process: an especial interest in intermolecular interactions Chang Liu, Lin Chen, Liang Zhu (China)	51
Mechanistic insight into disinfection by electrocoagulation – A review D. Ghernaout (Saudi Arabia, Algeria), M. Aichouni, M. Touahmia (Saudi Arabia)	68
Variations in heavy metals and turbidity in wastewater from wet flue gas desulfurization by electrocoagulation C. Zhou, H.Y. Zhang, J.W. Chen, X.L. Liu, R. Wang, W.Y. Tan (China)	82
Parametric studies on the removal of nickel using emulsion liquid membrane N. Rajamohan (Oman), M. Rajasimman (India), F. Al Qasmi (Oman)	89
Preparation of poly(vinylidene fluoride) (PVDF)/dopamine-modified sodium montmorillonite (D-MMT) composite membrane with the enhanced permeability and the mechanical property Ying Cai, Jian Lu, Jun Wu (China)	95
Peroxi-coagulation process: a comparison of the effect of oxygen level on color and TOC removals N. Yıldız, Ö. Gökkuş, A.S. Koparal, Y.Ş. Yıldız (Turkey)	106
Poly(acrylic acid)/SiO ₂ composite nanofiber membranes functionalized with mercapto groups for removal of humic acid from aqueous solution M.A. Zulfikar, D. Maulina, M. Nasir, A. Alni, M. Zunita (Indonesia), I.S. Zen (Malaysia), H. Setiyanto, H. Rusli (Indonesia)	115
One-pot preparation of magnetic Fe@Ag bimetallic catalyst for the catalytic reduction of 4-nitrophenol Hongliang Xia, Ziling Peng, Wei Wang, Fatang Tan, Xinyun Wang, Xueliang Qiao (China)	124
Development of a novel method for nitrate sorption: an application of Taguchi method A. Ghadi, S. Hosseini (Iran)	133
Removal of nonylphenol from aqueous solutions using carbonized date pits modified with ZnO nanoparticles N. Javid, A. Nasiri, M. Malakootian (Iran)	140
Analysis of water chemical characteristics and application around large opencast coal mines in grassland: a case study of the North Power Shengli coal mine Suping Peng, Feisheng Feng, Wenfeng Du, Yunlan He, Shan Chong, Zhenguo Xing (China)	149
Valorization of raw industrial waste and natural materials in the adsorption of heavy metals from wastewater of El Jadida City to be reused in irrigation I. Rhouch, A. Laamyem (Morocco)	163

Experimental and numerical study of the characteristics of thermal and nonthermal offset buoyant jets discharged into stagnant water H. Alfaifi (Canada, Saudi Arabia), A. Mohammadian, H.K. Gildeh, A. Gharavi (Canada)	171
Enhanced adsorption of 2, 4-dichlorophenoxyacetic acid from aqueous medium by graphene oxide/alginate composites A.F. Hassan (Egypt)	187
Kinetics, isotherms, and mechanism of Cr(VI) adsorption by polyaniline/sunflower stem pith composite adsorbent Xiangyao Liu, Baohui Wang, Guolin Jing, Ying Qiao (China)	197
Adsorptive and photocatalytic remediation of aqueous organic dyes and chromium(VI) by manganese(II) substituted magnetite nanoparticles P. Mahapatra, S.K. Giri, N. Das (India)	208
Copper adsorption by different extracts of shrimp chitin R. Andreazza, K.K.A. Heylmann, T.R.S. Cadaval Junior, M.S. Quadro, S. Pieniz, F.A.O. Camargo, T.F. Afonso, C.F. Demarco (Brazil)	220
Synthesis of magnetic Fe ₃ O ₄ /hydroxyapatite nanocomposites and adsorption to Cu ²⁺ ions Zhaoxia Hou, Chunhan Zhang, Haibo Long, Meihan Wang, Xiaodan Hu (China)	229
Creation of novel nanospheres/nanowires from Beauveria bassiana and their application for adsorption of Cd(II) in aqueous solution Haizhou Xu, Tianli Yang, Ren He, Wenlei Wang, Gui Zhang (China)	238
Removal of lead from battery industry wastewater by <i>Chlorella vulgaris</i> as green micro-algae (Case study: Kerman, Iran) M. Malakootian, Z. Yousefi, Z. Khodashenas Limoni (Iran)	248
Preparation and evaluation of granular Fe-impregnated attapulgite adsorbents (Fe-ATP) for arsenic removal from contaminated groundwater Bai Sun, Hui Wang, Chen-Feng Ding, Yu-Xian Guo, Shu-Guang Zhu, Jin Zhang, Ling-Tao Kong (China)	256
Preparation of activated carbon from worn tires for removal of Cu(II), Ni(II) and Co(II) ions from synthetic wastewater S. Abbasi, R. Foroutan, H. Esmaili, F. Esmailzadeh (Iran)	269
Equilibrium and kinetic studies in remediation of heavy metals in landfill leachate using wood-derived biochar A. Daryabeigi Zand, M. Rabiee Abyaneh (Iran)	279
Degradation kinetics of Reactive Dark Blue B-2GLN with Fenton oxidation process Aifang Gao, Aiguo Li, Weiping Wang (China)	301
Removal of Acid Red dye from aqueous solution using zero-valent copper and zero-valent zinc nanoparticles M.A. Salam, S.A. Kosa, N.A. Al-Nahdi, N.Y. Owija (Saudi Arabia)	310
Synthesis of CuS/graphene porous composite for adsorption synergistic photocatalytic degradation of methyl orange Tingwei Cai, Ying Ding, Lihui Xu (China)	321
Adsorptive removal of azo dye in a continuous column operation using biosorbent based on NaOH and surfactant activation of <i>Prunus dulcis</i> leaves S.N. Jain, P.R. Gogate (India)	331
Chitosan-containing organoclays: Structural characterization and retention/removal of methylene blue S. Kabbadj, M. Hajjaji, A. Alagui (Morocco)	342
KOH activated cattail-leaf-based carbon as an effective adsorbent for removal of methylene blue from aqueous solutions Yao Li, Miao Yu, Jian Li, Lijuan Wang (China)	356
Photocatalytic activity of ZnO nanoparticles towards tinidazole degradation: Experimental design by response surface methodology (RSM) L. Daneshvar, A. Nezamzadeh-Ejehieh (Iran)	364
Mineralization of o-tolidine by electrooxidation with BDD, Ti/Pt and MMO anodes O.T. Can, M. Bayramoglu, M. Sozbir, O. Aras (Turkey)	377
Synthesis and physical characterization of nickel oxide nanoparticles and its application study in the removal of ciprofloxacin from contaminated water by adsorption: Equilibrium and kinetic studies S. Rahdar, A. Rahdar (Iran), C.A. Igwegbe (Nigeria), F. Moghaddam, S. Ahmadi (Iran)	386
Author Index	394
