

Contents
Volume 163

Virtual reality of water management in a big town E. Pajorova, L. Hluchy (Slovak Republic)	1
Multiple disinfection processes of <i>Legionella pneumophila</i> positive in hotels' water distribution systems in Jordan M.N. Saidan, A.I. Abdalla, N. Al Alami, H. Al-Naimat (Jordan)	7
Multicriteria decision making model of wastewater reuse: a stakeholders' perspective in the context of India S. Das, K. Radhakrishnan (India)	17
Health implication of anion contents in different brands of bottled water samples consumed in some parts of south west Nigeria O. Mawell, A.O. Olusegun, J.E. Sunday, O.C. Adaeze, A.T. Emuobor, A. Akinwumi, C. Oneyemi, O.J.A. Oluwadare, D.B. Micheal, O.U. Anne, I. Promise (Nigeria), Z. Embong (Malaysia)	26
Comparison of in-situ sludge reduction in a sequencing batch biofilm reactor (SBBR) under different carriers: operation parameter optimizations Yonglei Wang, Zhenqi Du, Baozhen Liu, Yongjian Liu, Hongbo Wang, Wei Liu, Anran Zhou, Liang Zhao, Zedong Zheng (China)	36
Effect of mixed liquor suspended solid concentration on nitrous oxide emission from an anoxic/oxic sequencing bioreactor Xu Yan, Dongli Guo, Dezhi Qiu, Shikan Zheng, Mengke Jia, Mengjiao Zhang, Jingjing Liu, Xianfa Su, Jianhui Sun (China)	48
Use of chlorine dioxide as alternative to chlorination in reverse osmosis product water A.A. Al-Hamzah, M.M. Rahman, P. Kurup, A. Barnawi, B. Ghannam, I. Musharraf, F. Al Najjar, A. Obeidallah (Saudi Arabia), N. Palmer (UK)	57
Optimal sizing of an off-grid, renewable energy reverse osmosis desalination system based on a genetic algorithm Daming Xu (China), T. Acker (USA)	67
Adsorption performances of Methylene blue by poly(vinylidene fluoride)/MWCNT membranes via ultrasound-assisted phase inversion method Yangyang Huan, Zhipeng, Li, Chunqing Li, Guangfen Li (China)	83
Degradation of chloramphenicol by Ti-Ag/ γ -Al ₂ O ₃ particle electrode using three-dimensional reactor Yongjun Sun, Aowen Chen, Wenquan Sun, Jun Zhou, K.J. Shah, Huaili Zheng, Hao Shen (China)	96
Synthesis and characterization of ultrafiltration membranes by phase inversion and by uropathogenic <i>Escherichia coli</i> retention performance I. Ounifi, N. Saidi, M. Kahloula (Tunisia), K.S. Sealey (USA), A. Hafiane, E. Ferjani (Tunisia)	109
Evaluating the performance of extended and unscented Kalman filters in the reverse osmosis process Seung Ji Lim, Seo Jin Ki, Jangwon Seo, Sung Ho Chae, Young Geun Lee, Kwanho Jeong, Jungsu Park, Joon Ha Kim (Korea)	118
Fabrication of Prussian blue/polydopamine layers on polyacrylonitrile membranes for efficient adsorption of cesium Zhiqian Jia, Shuang Hao, Xiaoxue Cheng, Xiaoyu Lu, Lanying Tu (China)	125
Simultaneous bioaccumulation and translocation of iron and aluminium from mining wastewater by <i>Scirpus grossus</i> N.'I. Ismail, S.R.S. Abdullah, M. Idris, H. Abu Hasan, M.I.E. Halmi (Malaysia), N.H. Al Sbani (Libya), O.H. Jehawi (Malaysia)	133
Competitive adsorption property of multi-metals in static and dynamic process using millet chaff-based biochar Zehua Ji, Yuansheng Pei (China)	143

Synthesis of magnetic rectorite/humic acid/chitosan composite for removal of heavy metal ions from water Xiao Zhu, Yu-bin Tang, Fang-yan Chen, Yu Shi, Xin-gang Wang (China)	155
Electrostatic attraction based on N-rich dendrimer amines grafted onto graphene oxide for the removal of chromium(VI) from aqueous solution Xuezhen Feng, Fangli Liao, Zijie Guo, Mingyue Peng (China)	166
Manganese-based metal-organic frameworks-oxidized multi-walled carbon nanotubes composites for electrochemical determination of Pb ²⁺ and Cd ²⁺ Sisi Chen, Runmin Huang, Kuan Luo, Jingang Yu, Xinyu Jiang (China)	179
Adsorption of chromium (VI) and phosphorous (V) from aqueous solution by calcined Mg-Al-CO ₃ hydrotalcite-like compound Xiaoliang Zhang, Xuanmin Song (China)	190
Efficiency of an iron matrix-based filter in adsorption of arsenic from water S. Shahmohammadi, B. Shahmoradi, A. Maleki (Iran), Jae-Kyu Yang, Seung-Mok Lee (Korea)	198
Evaluation of anti-microbial activities of silver nanoparticles embedded in capacitive deionization electrodes A.S. Abdallah, Y.A.C. Jande, R.L. Machunda (Tanzania)	206
Adsorption behavior of diclofenac sodium from aqueous solution using natural volcanic ash Yingxin Zhao, Ying Yang, Yashu Wang, Duo Liu (China)	216
A novel rose-like polyaniline/Bi ₂ WO ₆ nanocomposite: synthesis and its application in photocatalysis Limin Zhao, Xin Shao, Min Wang, Hui Zhao, Bo Ge, Wenzhi Li (China)	224
Environmental and hydraulic study of novel limestone porous weir for river aquatic life protection and treating selected contaminants T.R. Al-Husseini, H.A. Al-Mussawy, A.H. Ali (Iraq)	233
A series of novel non-stoichiometric cobalt ferrite nanoparticles as efficient reusable nanoadsorbents for hexachromium ions L. Ben Tahar, M.H. Oueslati (Saudi Arabia, Tunisia), S. Saidani (Tunisia, France), A. Smith (France)	243
Nonmetal carbon-based photocatalysts for degradation of organic pollutants: a short review Hongjun Dong, Xiaoxu Zhang, Huihui Wu, Chunmei Li (China)	260
Illite for the removal of <i>E. coli</i> by filtration in water treatment processes: a comparative study Mun-Ju Kim, Chang-Gu Lee, Chang-Hee Lee, Seong-Jik Park (Korea)	270
Thiourea-assisted sol-gel preparation of ZnO with enhanced photocatalytic performance originated from promoted separation rate of photo-induced carriers Xinlu Liu, Tao Wang, Junbo Zhong, Shengtian Huang, Jianzhang Li (China)	281
Visible light-excitable ZnO/2D graphitic-C ₃ N ₄ heterostructure for the photodegradation of naphthalene N. Mukwevho, N. Kumar, E. Fosso-Kankeu, F. Waanders, J. Bunt, S.S. Ray (South Africa)	286
Bisphenol S degradation using Fe-SBA-15/UV/US/peroxymonosulfate: performance optimization, biodegradability, mineralization and toxicity studies A. Rahmani, H. Rahimzadeh, M.-T. Samadi, A. Farmani, G. Asgari (Iran)	297
Optimal allocation of multi-objective water treatment based on hybrid particle swarm optimization algorithm Zhanping Wang, Juncang Tian, Kepeng Feng (China)	310
Kinetics of temperature effects on autotrophic nitrogen removal from digested swine wastewater Fangyu Huang, Liangwei Deng, Hongnan Yang, Jian Yang, Lan Wang (China)	317
Electrocoagulation treatment of reject brine effluent from Solvay process M.A. Osman (UAE), M. El-Naas (Qatar), S. Al-Zuhair (UAE)	325
Low-cost activated carbon for adsorption and heterogeneous ozonation of phenolic wastewater treatment A.T.S. Konan (Côte d'Ivoire, France), R. Richard, C. Andriantsiferana (France), K.B. Yao (Côte d'Ivoire), M.-H. Manero (France)	336
Inactivation of viable <i>Ascaris</i> eggs during faecal sludge co-composting with chicken feathers and market waste M. Manga (USA, UK, Uganda), M.A. Camargo-Valero (UK), B.E. Evans (UK, Colombia)	347
Removal of <i>Escherichia coli</i> from synthetic turbid water using titanium tetrachloride and zirconium tetrachloride as coagulants A.J. Jafari, M. Mahrooghi, M. Moslemzadeh (Iran)	358
Biosorption of remazol orange RR from aqueous solution: kinetic, equilibrium and thermodynamic studies B. Ulas, M. Ergun (Turkey)	366

Effective removal of Reactive Orange 16 dye from aqueous solution by amine-functionalized sepiolites S. Lazarević, V. Marjanović, I. Janković-Častvan, L. Živković, D. Janačković, R. Petrović (Serbia)	376
Use of citrus fruit peels (grapefruit, mandarin, orange, and lemon) as sorbents for the removal of Basic Violet 10 and Basic Red 46 from aqueous solutions T. Józwiak, U. Filipkowska, P. Zajko (Poland)	385
Influences of laterite soil towards physico-chemical properties and heavy metals concentration in urban lake quality index R. Othman, W.S.H.W. Sulaiman, Z.M. Baharuddin, L.H. Mahamod, K.S.H.-Y. Hashim (Malaysia)	398
Impact of sandy soil physico-chemical properties towards urban lakes eutrophication and inorganic pollutant status R. Othman, W.S.H.W. Sulaiman, Z.M. Baharuddin, L.H. Mahamod, K.S.H.-Y. Hashim (Malaysia)	404
Xinjiang Uyghur’s local knowledge of ecological protection: the case of water resources protection in Hotan, China Yuan You, Yongdong Wang, Jiaqiang Lei (China)	409
Multi-kernel SVM based multi-feature fusion algorithm for analyzing wastewater membrane permeation in environmental pollution Aidong Fang, Lin Cui, Zhiwei Zhang (China)	415
Author Index	421
