

Contents

Volume 168

| | |
|---|-----|
| Exergy analysis of a closed mechanical vapour compression desalination system by the entropy method Junling Yang, Zhentao Zhang, Xuejun Lin (China) | 1 |
| Summer and winter comparison of productivity improvement in a single slope solar still by using external mirrors A.Z. Al-Garni, A.Z. Sahin, S. Alfifi (Saudi Arabia) | 9 |
| Mathematical modeling and thermal performance analysis of shallow experimental cooling ponds S. Al-Sanea, J. Orfi (Saudi Arabia) | 16 |
| Temporary step-wise cyclic operation controlled by DCS to mitigate fouling in RO water desalination M. Ghassoul, N.Al-Bastaki, S. Samsamuddin (Bahrain) | 32 |
| Photocatalytic ultrafiltration membranes based on visible light responsive photocatalyst: a review Jingli Fu, Xiuju Wang, Zhun Ma, Hao Wenming, Jianye Li, Zhongpeng Wang, Liguang Wang (China) | 42 |
| Mitigating membrane fouling with sinusoidal spacers Peng Xie, L.C. Murdoch, D.A. Ladner (USA) | 56 |
| Techno-economic evaluation of different seawater reverse osmosis configurations for efficient boron removal S. Alabduljalil, S. Alotaibi (Kuwait), H. Abdulrahim (Egypt) | 65 |
| Synthesis and characterization of activated carbon fibers derived from corn silk and its application in p-cresol removal M.A. Sabri, T.H. Ibrahim, Y.A. El Sayed (UAE) | 77 |
| Sulfate reduction and heavy metal removal by a novel metal-resistant sulfate-reducing bacterium: mechanism and optimization Jia Yan, Siji Wang, Kengqiang Zhong, Haoshen Hu, Zixuan Chen, Zhuoyi Jian, Huijun Wen, Hongguo Zhang (China) | 88 |
| Enhanced electro-catalytic degradation and kinetics of phenol in wastewater by high-gravity field with Ti/RuO ₂ -IrO ₂ -SnO ₂ anodes Jing Gao, Huanhuan Zhao, Weizhou Jiao, Youzhi Liu, Dongming Zhang, Lijia Chen (China) | 100 |
| Utilization of autoclaved aerated concrete solid waste as a bio-carrier in immobilized bioreactor for municipal wastewater treatment S.I. Abou-Elela, S.A. Abo-El-Enein, M.S. Hellal (Egypt) | 108 |
| Determination of sodium alginate in algae by near-infrared spectroscopy Peilong Xu, Na Na, Shouwu Gao, Cunzhen Geng (China) | 117 |
| Collaborative based pollution sources identification algorithm in water supply sensor networks Jinyu Gong, Xuesong Yan, Chengyu Hu, Qinghua Wu (China) | 123 |
| The traffic pollution in low carbon environment Hong Xiao, Yanjuan Ren, Bo Hang, Qingrui Zhang (China) | 136 |
| Off-grid desalination for irrigation in the Jordan Valley H. Abu Ali, M. Baronian (Israel), L. Burlace, P.A. Davies (UK), S. Halasah (Israel, Jordan), M. Hind (Palestinian Authority), A. Hossain (UK), C. Lipchin, A. Majali, M. Mark (Israel), T. Naughton (UK) | 143 |
| Groundwater management of Skhira aquifer (center east of Tunisia): flow modeling and planning under climate and anthropogenic constraints F. Hamzaoui-Azaza, R. Trabelsi, R. Bouhlila (Tunisia) | 155 |
| Assessment of heavy metal pollution in the Great Al-Mussaib irrigation channel I.I. Omran, N.H. Al-Saati (Iraq), K.S. Hashim (Iraq, UK), Z.N. Al-Saati (Iraq), P. Kot, R. Al Khaddar, D. Al-Jumeily, A. Shaw, F. Ruddock, M. Aljefery (UK) | 165 |
| Distribution, composition, levels, source, and risk assessment of PAHs in surface water and sediment from the mainstream Three Gorges Reservoir Lei Dong, Li Lin, Wenjun Yang, Min Liu, Chao Li, Huawei Huang (China) | 175 |

| | |
|---|-----|
| Trace level analysis and risk assessment of typical antibiotics in drinking water by liquid chromatography-tandem mass spectrometry (LC-MC/MS) Feng Li, Feng Lei, Cheng Yanru, Zhang Jun, Zhang Sheng (China) | 184 |
| Differentiated WTP for improvement of water quality in Miyun Reservoir, Beijing Haixia Zheng, Fengying Nie, Lubiao Zhang, Chunhong Qu (China), Shen Siran (USA) | 193 |
| Utilization efficiency and influencing factors of agricultural water resources in Hubei province Yewang Zhou (China) | 201 |
| Applicability evaluation of groundwater in the People's Victory Canal Irrigation Area, China Zhongpei Liu, Dongqing Zhang, Jianhua Ping, Yuping Han, Qingfeng Cai (China) | 207 |
| Water footprint assessment of textile enterprise based on ISO14046 Xiaojing Ren, Xue Bai, Mengting Hu, Dan Liu, Yue Wu, Zhongguo Zhang (China) | 216 |
| Evaluation of river network planning layout in plain city consideration for combining water quality and flood control Cheng Gao, Yuquan Zhang, Yi Zhou, Chunxu Gu, Dandan Qing, Zhenxing Wang (China) | 224 |
| Assessment of cemetery effects on groundwater quality using GIS S. Jafarpour Kandoli, H. Alidadi, A.A. Najafpoor, M. Mehrabpour, A. Hosseinzadeh, F. Momeni (Iran) | 235 |
| Modeling and stability analysis of ecosystem with water saturation constraints Hejun Yao, M.A. Ashraf (China) | 243 |
| Absorption of copper ions from wastewater by organically modified bentonite Shujie Liu, Shujuan Dai, Licong Xiao (China) | 247 |
| Lead (II) biosorption from aqueous solutions by <i>Trichoderma</i> fungus: equilibrium and thermodynamic study A.A. Zarei, E. Bazrafshan, M. Navari (Iran) | 252 |
| In situ capping technology for controlling heavy metals release from contaminated sediment Yanhao Zhang, Yuchen Wang, Zhibin Zhang, Haohan Zhang, Menglong Xing (China), T. Marhaba, Wen Zhang (USA) | 261 |
| Preparation of bamboo-based oxidized biochar for simultaneous removal of Cd(II) and Cr(VI) from aqueous solutions Bei Chu, Y. Amano, M. Machida (Japan) | 269 |
| Removal of antimonite (III) from wastewater using sodium-alginate-modified Fe-attapulgitite with sodium alginate beads Aixia Zhou, Jinsheng Wang (China) | 282 |
| Excellent stability, recyclable nature and high photo-catalytic performance of graphite oxide/Fe ₃ O ₄ nanocomposites J. Ahmed, A. Hussain, M. Ubaidullah, H. Alrobei, N. Alhokbany, S.M. Alshehri (Saudi Arabia) | 291 |
| Removal of azodyes using natural phosphate doped by titanium dioxide (NP-TiO ₂) nanoparticles M. Joudi, H. Hafdi, J. Mouldar, H. Nasrellah, B. Hatimi, M.A. El Mhammedi, M. Bakasse (Morocco) | 298 |
| Carboxylated alginate hydrogel beads for methylene blue removal: formulation, kinetic and isothermal studies M.S.M. Eldin, E.A. Soliman, A.A.F. Elzatahry, M.R. Elaassar, B.Y. Eweida, M.F. Elkady, A.M. Abdel Rahman, M.E. Yossef (Egypt) | 308 |
| Film-pore diffusion modeling for the adsorption of aqueous dye solution on to acid treated sugarcane bagasse M. Mahalakshmi, S.E. Saranaathan (India) | 324 |
| Effect of rice husk flour size on sewage sludge dewaterability during composite conditioning with persulfate Chang Chen, Qiao Xiong, Shijie Jiang, Yiqie Dong, Haobo Hou (China) | 340 |
| Transformation of leaf waste into 3D graphene for water treatment Xuechun Wang, Baosen Liu, Baoyou Shi, Laizhou Song, Yuan Zhuang (China) | 348 |
| Optimal strategy for domestic electric water heaters based on virtual energy storage characteristics Jinsha Yuan, Fei Zhao, Ning Wang, Haizhou Zhao (China) | 357 |
| A practical method for predicting marine saturation of NGH Xiangsheng Bao, Zhenyu Zhu, Weihua Guo, Quanwen Liu, Haiyan Zhou, Zhenya Chen (China) | 366 |
| Diagnosis of key safety risk sources of long-distance water diversion engineering operation based on sub-constraint theory with constant weight Bo Wang, Tianyu Fan, Yurong Cui, Xiangtian Nie (China) | 374 |

| | |
|---|-----|
| Contribution of coral composition to color red in the uniform color space CIE 1976L*a*b* | |
| Yushu Yang, Ying Guo, Ye Zhang, Yanrong Zou, Jinyu Wei, Lu Liang (China) | 384 |
| Regionalization of cryosphere water resource service | |
| Haoxi Lin, Jinchuan Huang, Chuanglin Fang, Jie Liu, Xiaoxiao Qi, Yunqian Chen (China) | 394 |
| Author Index | 405 |
