

Contents

Volume 192

Comparison of aeration effect between pressure-driven and thermal membrane processes Jihyeok Choi, Yongjun Choi, Jaehyun Ju, Bomim Kim, Youngkyu Park, Sangho Lee (Korea)	1
Effect of vibration on fouling propensity of hollow fiber membranes in microfiltration and membrane distillation Youngkyu Park, Yongjun Choi, Jihyeok Choi, Jaehyun Ju, Bomim Kim, Sangho Lee (Korea)	11
Donnan dialysis for tap-water softening R. Gueccia (Italy), A.M.M. Alhadidi (The Netherlands), A. Cipollina, G. Micale (Italy)	19
Theoretical validation model of a double slope still with forced convection J.A.A. Navarro, B. Castillo-Téllez, R. Marzoug, M. Castillo-Téllez (Mexico)	33
Numerical simulation on horizontal tube falling film column flow with influence of gas crossflow Xueshuo Chen, Tao Lu, Jie Wang, Xue Chen, Shengqiang Shen, Jiang Sheng, Xuan Chen (China)	44
The purification of rainwater with nanofiltration membrane Ping Xiao, Feng Xiao, Liang Liu, Yuntao Zhao, Hongyan Xiao (China)	54
Applications of nanotechnology in membrane distillation: a review study M. El Haj Assad (UAE), E. Bani-Hani (Kuwait), I. Al-Sawafta, S. Issa (UAE), A. Hmida (Tunisia), M. Gupta (India), R.S.M. Atiqure (UAE), K. Hidouri (Tunisia)	61
Understanding transparent exopolymer particle occurrence and interaction with algae, bacteria, and the fractions of natural organic matter in the Red Sea: implications for seawater desalination A.H.A. Dehwah (Saudi Arabia), D.M. Anderson (USA), Sheng Li (Saudi Arabia, China), F.L. Mallon, Z. Batang, A.H. Alshahri (Saudi Arabia), S. Tsegaye, M. Hegy, T.M. Missimer (USA)	78
Water quality monitoring optimization using genetic algorithm, a case study: Mond River in Iran G. Asadollahfardi, N. Heidarzadeh, A. Sekhavati, A. Rashtizadeh, A. Samadi (Iran)	97
Ammoniacal nitrogen and COD removal from stabilized landfill leachate using granular activated carbon and green mussel (<i>Perna viridis</i>) shell powder as a composite adsorbent Z. Daud (Malaysia), A. Detho (Malaysia, Pakistan), M.A. Rosli (Malaysia), M.H. Abubakar (Nigeria), K.A. Samo, N.F.M. Rais (Pakistan), A. Abdul Halim, H.A. Tajarudin (Malaysia)	111
Effect of environmental factors on the synergistic denitrification of <i>Alcaligenes faecalis</i> and ammonia oxidising bacteria: a preliminary study Linke Zheng, Ying Xu, Yu Hua, Xiaohu Dai (China)	118
Occurrence, seasonal variation, and environmental impact of phthalic acid esters in a large wastewater treatment plant located in Guangzhou, China Zhineng Liu, M.M.N. Yung, D.T. F. Kuo, Qihang Wu, Xiaodong Hu, Chunhai Wei, Guoliang Xu (China)	127
In-situ synthesis of silica nanoparticle modified PVDF hydrophobic microporous membrane Lingming La, Chenyu Den, Yuanbin Mo, Yanyue Lu (China)	136
COD reduction of potato processing wastewater using natural and commercial adsorbents M. Ramezani Etedali, S. Eslamian (Iran)	146
In-situ enhanced heavy metal ion removal efficiency based on branched amino groups in the forward osmosis process Chaojie Cai, Xiaobin Lei, Xinzhen Zhao, Lin Wang, Jizhen Jia, Changkun Liu (China)	155
Determination of the effect of multi-walled carbon nanotube on the treatment efficiency and design parameters in the activated sludge systems Ü.Ö. Akdemir (Turkey)	166

Evaluation of ecotoxicity and inactivation of bacteria during ozonation of treated wastewater K. Affek, A. Muszyński, M. Załęska-Radziwiłł, N. Doskocz, A. Ziętkowska, M. Widomski (Poland)	176
Developing a field microbial biodegradation activity monitoring method based on the detection of adenosine phosphate (ATP, ADP and AMP) for petroleum-contaminated groundwater Ze He, Min Zhang, Caijuan Guo, Pingping Cai, Cuiling Wang, Lin Sun (China)	185
Sulfur and nitrogen doped -titanium dioxide coated on glass microspheres as a high performance catalyst for removal of naphthalene (C ₁₀ H ₈) from aqueous environments using photo oxidation in the presence of visible and sunlight A. Jafari, M. Sadeghi, F. Tirgir, S.M. Borghaei (Iran)	195
Kinetic and thermodynamic studies for the sorptive removal of crude oil spills using a low-cost chitosan-poly (butyl acrylate) grafted copolymer A.M. Omer, R.E. Khalifa, T.M. Tamer, A.A. Ali, Y.A. Ammar, M.S. Mohy Eldin (Egypt)	213
Optimized fabrication of chitosan-hydroxy apatite (HAp/CS) nano hybrid for removal of nitrite from water samples M. Habibi, A. Bagheri Garmarudi, M. Khanmohammadi Khorrami, S. Zandbaaf, D. Arjmandi (Iran)	226
Optimizing the parameters of amoxicillin removal in a photocatalysis/ozonation process using Box-Behnken response surface methodology E. Norabadi, A.H. Panahi, R. Ghanbari, A. Meshkinian, H. Kamani, S.D. Ashrafi (Iran)	234
Ciprofloxacin adsorption on a mesoporous carbon prepared by a dual-template route Na Ren, Conghui Wang, Wei Wei, Jaja Li, Xiaoqi Yue, Guotong Qin (China)	241
Delineation of groundwater potential zones using integrated remote sensing, GIS and multi-criteria decision making (MCDM) B.A. Elubid (China, Sudan), Tao Huang, Dao-Ping Peng, E.H. Ahmed (China), M.M. Babiker (Sudan)	248
Isotherm and kinetic studies for adsorption of boron on nano-copper oxide (CuO) in non-competitive and competitive solutions S. Mahdavi, Z. Salehi, M. Zarabi (Iran)	259
Adsorption of Cd(II) ions from aqueous solution by wasted low-grade phosphorus-containing oolitic hematite: equilibrium, kinetics and thermodynamics Xiaoli Yuan, Dongshan Zhou, Wentang Xia, Juan An, Xuejiao Zhou, Jianguo Yin (China)	271
Porous cordierite-supported polyethyleneimine composites for nickel(II) and cadmium(II) ions removal N. Obradović, J. Rusmirović, S. Filipović, D. Kosanović, A. Marinković, D. Radić, V. Pavlović (Serbia)	283
Spherical iron oxide methyltrimethoxysilane nanocomposite for the efficient removal of lead(II) ions from wastewater: kinetic and equilibrium studies H. Rashidi Nodeh, M. Shakiba, M.A. Gabris, M. Esmaeili Bid Hendi, S. Shahabuddin (Iran), R. Khanam (India)	297
Removal of barium and strontium from wastewater and radioactive wastes using a green bioadsorbent, <i>Salvadora persica</i> (Miswak) S.S.M. Hassan, A.H. Kamel, M.A. Youssef, A.H. A. Aboterika (Egypt), N.S. Awwad (Saudi Arabia)	306
A detailed examination on natural chromite as a heterogeneous catalyst in sono-Fenton process for removal of a cationic dye: Characterization and utilization potential Ö. Açıslı, İ. Acar, E. Dogan (Turkey)	315
A facile synthesis of BiVO ₄ with effective photocatalysis for refractory organic dyes Ying Zhu, Jingpeng Tao, Yuelong Qin, Kun Liu, Hanbing Zhang, Zhangfa Tong, Binbin Yu (China)	327
Hydroxyapatite conjugated graphene nanoplatelets vs. multi-walled carbon nanotubes for enhanced dye removal V.N. Narwade (India, Slovenia), J. Kovac, K.A. Bogle, V. Kokol (Slovenia)	340
Feasibility of naphthol green-B dye adsorption using microalgae: thermodynamic and kinetic analysis E. Gunasundari, P. Senthil Kumar, N. Rajamohan, P. Vellaichamy (India)	358
Effects of various factors on photodegradation-induced changes in spectroscopic characteristics and chlorine reactivity of transphilic acid in ice Shuang Xue, Siyu Zhao, Xuefeng Guan, Chao Wang, Zhonglin Chen, Qiang Liu (China)	371

Selected papers presented at PERMEA 2019, 26–29 August 2019, Budapest, Hungary

Modelling of beer membrane filtration	
Á. Varga, M. Ladányi, E. Márki (Hungary)	382
Filtration of BSA through TiO ₂ photocatalyst modified PVDF membranes	
E. Jigar, K. Bagi, Á. Fazekas, S. Kertész, G. Veréb, Z. László (Hungary)	392
Novel membranes for industrial laundry wastewater treatment	
D. Polak, M. Szwast (Poland)	400
Statistical analysis on the variables affecting itaconic acid separation by bipolar membrane electro dialysis	
P. Komáromy, T. Rózsenszki, P. Bakonyi, N. Nemestóthy, K. Bélafi-Bakó (Hungary)	408
Removal of naproxen and diclofenac using an aquaporin hollow fibre forward osmosis module	
I. Petrinic, H. Bukšek (Slovenia), I. Galambos, R. Gerencsér-Berta (Hungary), M.S. Sheldon (South Africa), C. Helix-Nielsen (Slovenia, Denmark)	415
Aerobic stabilization of organic waste effluents from anaerobic treatment for agricultural use	
G. Szelényi, P. Bakonyi, N. Nemestóthy (Hungary)	424
Temperature dependence modelling of reverse osmosis	
G. Lakner, J. Lakner, G. Racz (Hungary), M. Kłos (Poland)	431
Concentration dependence modelling of reverse osmosis	
G. Lakner, J. Lakner, G. Racz (Hungary), M. Kłos (Poland)	437
Kinetics of TransMembrane ChemiSorption for waste water with high ammonia contents	
J. Lakner, G. Lakner, P. Bakonyi, K. Belafi-Bako (Hungary)	444
Temperature dependence of TransMembrane ChemiSorption for wastewater with ammonia contents	
J. Lakner, G. Lakner, P. Bakonyi, K. Belafi-Bako (Hungary)	451
Author Index	458
