Editorial	vii
Obituary	viii
Water engineering for the promotion of peace	
W. Richard Bowen (Swansea, UK)	1
Modeling the permeate transient response to perturbations from steady state in a nanofiltration process	
S.J. Duranceau (Orlando, FL, USA)	7
Modeling the effect of anti-scalant on CaCO ₃ precipitation in continuous flow	
D. Lisitsin, D. Hasson and R. Semiat (Haifa, Israel)	17
Alternative primary energy for power desalting plants in Kuwait: the nuclear option I	
M.A. Darwish, F.M. Al-Awadhi, A. Akbar (Safat, Kuwait) and A. Darwish (Cairo, Egypt)	25
Alternative primary energy for power desalting plants in Kuwait: the nuclear option II	
The steam cycle and its combination with desalting units	
M.A. Darwish (Safat), M.E. Eleshaky (Shuwaikh), N.M. Al-Najem and B.S.A. Alazmi (Safat, Kuwait)	42
Potential applications of quarry dolomite for post treatment of desalinated water	
L. Birnhack, N. Fridman and O. Lahav (Haifa, Israel)	58
Salinity tolerance evaluation methodology for desalination plant discharge	
N. Voutchkov (Stamford, CT, USA)	68
Studies on a water-based absorption heat transformer for desalination using MED	
G. Srinivas, S. Sekar, R. Saravanan and S. Renganarayanan (Chennai, India)	75
Estimation of stream compositions in reverse osmosis seawater desalination systems	
J.A.G.C.R. Pais and L.M. Gando-Ferreira (Coimbra, Portugal)	82
Genetic algorithm-based optimization of a multi-stage flash desalination plant	
G.N. Sashi Kumar, A.K. Mahendra, A. Sanyal and G. Gouthaman (Mumbai, India)	88
Numerical simulation on a dynamic mixing process in ducts of a rotary pressure exchanger for SWRO	
Y. Zhou, X. Ding, M. Ju and Y. Chang (Dalian, China)	107
Simulation of an autonomous, two-stage solar organic Rankine cycle system for reverse osmosis desalination	
G. Kosmadakis, D. Manolakos, S. Kyritsis and G. Papadakis (Athens, Greece)	114
Experiment and optimal parameters of a solar heating system study on an absorption solar desalination unit	
Z. Chen (Beijing, Nanning), H. Zheng, C. Ma (Beijing), Z. Li (Nanning) and K. He (Beijing, Nanning, China)	128
Roles of various mixed liquor constituents in membrane filtration of activated sludge	
Z. Geng, E.R. Hall and P.R. Bérubé (Vancouver, BC, Canada)	139
Natural organic matter fouling using a cellulose acetate copolymer ultrafiltration membrane	
C. García, E. Rogel-Hernández, S.W. Lin and H. Espinoza-Gómez (Tijuana, Mexico)	150
Progress of enzyme immobilization and its potential application	
Y. Wang (Beijing), J. Zhang and J. Yin (Dalian, China)	157
Investigating microbial activities of constructed wetlands with respect to nitrate and sulfate reduction	
N. Park (Gwangju, Seoul), J. Lee, K. Chon (Gwangju), H. Kang (Yonsei) and J. Cho (Gwangju, Korea)	172
Membrane fouling caused by soluble microbial products in an activated sludge system under starvation	
H.-f. Zhang (Jilin, Tianjin), B.-s. Sun, X.-h. Zhao and J.-m. Sun (Tianjin, PR China)	180
Characterization of an ultrafiltration membrane modified by sorption of branched polyethyleneimine	
A. Escoda, B. Lakard (Besançon), A. Szymczyk (Rennes) and P. Fievet (Besançon, France)	186
Combined humic substance coagulation and membrane filtration under saline conditions	
N. Hilal (Nottingham, UK), M. Al-Abri and H. Al-Hinai (Muscat, Oman)	194
Preparation, characterization and performance of phenolphthalein polyether-sulfone ultrafiltration hollow fiber membranes	
S. Zhu (Shanghai, China), C. Branford-White (London, UK), L. Zhu, C. He and Q. Wang (Shanghai, China) ...	201
Application of coagulants in pretreatment of fish wastewater using factorial design	
A.G.M. Silva, M.O. Hornes, M.L. Mitterer and M.I. Queiroz (Rio Grande, Brazil)	208

Performance analysis of a trihybrid NF/RO/MSF desalination plant O.A. Hamed, A.M. Hassan, K. Al-Shail and M.A. Farooque (Al-Jubail, Saudi Arabia)	215
Nitrogen speciation by microstill flow injection analysis R. Lane, S. McLeod, D.E. Mulcahy (Mawson Lakes), C.W.K. Chow (Mawson Lakes and Bolivar) and D.E. Davey (Mawson Lakes, Australia)	223
Wastewater from a mountain village treated with a constructed wetland A. Albuzio (Padova), C. Lubian, R. Parolin, R. Balsamo, I. Camerin and P. Valerio (Bassano del Grappa, Italy)	232
The influence of various operating conditions on specific cake resistance in the crossflow microfiltration of yeast suspensions Z. Wang, Y. Cui, J. Yao, J. Chu and Y. Liang (Beijing, China)	237
On-line monitoring of floc formation in various flocculants for piggery wastewater treatment T. Kornboonraksa, S. Lee, S. Lee and H. Lee (Gyeongbuk, Korea)	248
Rigorous steady-state modeling of MSF–BR desalination systems F.N. Alasfour and H.K. Abdulrahim (Safat, Kuwait)	259
Detailed numerical simulations of flow mechanics and membrane performance in spacer-filled channels, flat and curved S. Wardeh and H.P. Morvan (Nottingham, UK)	277
Removal of polycyclic aromatic hydrocarbons from Ismailia Canal water by chlorine, chlorine dioxide and ozone O.A. Ali and S.J. Tarek (Cairo, Egypt)	289
Water resources management to satisfy high water demand in the arid Sharm El Sheikh, the Red Sea, Egypt A. Lamei, P. van der Zaag and E. von Münch (Delft, The Netherlands)	299
Effect of storage of NF membranes on fouling deposits and cleaning efficiency A. Houari (Pontoise), H. Habarou, M. Djafer (Nanterre), V. Heim (Paris) and P. Di Martino (Pontoise, France)	307
Laboratory studies and CFD modeling of photocatalytic degradation of colored textile wastewater by titania nanoparticles N.M. Mahmoodi, M. Arami and K. Gharanjig (Tehran, Iran)	312
Start-up operation and process control of a two-stage sequencing batch reactor (TSSBR) for biological nitrogen removal via nitrite W. Zeng, Y. Peng and S. Wang (Beijing, China)	318
Author Index	326
