Volume 219

Research progress of aging oil dehydration treatment process Bo Chen, Hongtao Chen, Hongbao Liang, Zhanheng Ma (China)	1
Long term effect of biochar on the efficiency of subsurface flow wetland pollutant treatment Li Jia, Lei Huang (China)	11
Research on marine pollution detection system based on wireless sensor network Zhiwen Yang, Pingzhen Zhou (China)	18
Calculation methods of stiffness after strengthening corroded RC beam under marine environment Shihui Guo, Xiaozhen Chen, Huang Tang, Bing Liu (China)	24
Haze episodes: identification of air pollutants and meteorological factors in Borneo, central, eastern, northern, and southern regions of Malaysia K.M.K.K. Yusof, K.C.A. Jalal, S. Abdullah, A. Azid, M.S.A. Sani, K. Yunus, N.M. Isa, M.A. Jamalani, Z.R. Zulkifli, N.L.A. Rani (Malaysia)	31
The impact of water resources and environmental improvement on the development of sustainable ecotourism Fei Meng (China)	40
Marine actinomycetes from Malaysia marine environments with antagonistic potential Z.A.Z. Abidin, A. Ahmad, G. Usup, A.J.K. Chowdhury (Malaysia)	51
Research on marine ship production scheduling system based on Multi-Agent System Fei Peng, Li Zheng, Ming Gong, Hui Zhou (China)	60
Marine water quality detection based on neural network Jiangping Liu, Heru Xue, Xin Pan, Jing Gao, Xinhua Jiang (China)	66
Research on marine environment monitoring based on Internet of things Ye Chen, Qingyun Ma, Chao Liu, Qiang Shu (China)	71
Research on the impact of reclamation project on surrounding water environment Ye Chen, Qingyun Ma, Chao Liu, Qiang Shu (China), H. Rashid (Pakistan)	77
Study on optimization of multimodal transportation of marine container considering carbon emission Shitong Zhao, M.A. Ashraf (China)	84
Research on networking scheme of Internet of things based on marine environment monitoring Yuanjun Wu (China)	90
Stability analysis of cemented paste backfill false roof in highwall mining: a case study Qingliang Chang, Xikui Sun, Xiangjian Dong, Sihua Shao (China)	96
Adaptive irrigation scheduling for winter wheat under drought conditions in North China Jianqin Ma, Lei Liu, Xiuping Hao, Sheng He, Wei Guo (China)	103
Using GIS and RUSLE to study on the geographical distribution characteristics of soil erosion on the Dianchi Watershed, China Shuangyun Peng (China)	113
Establishment and analysis of performance model of biofuel gasifier Weiwei Chang (China), Qingfeng Yang (Ireland)	122
Exploration of waterlogging regulation path in the cities on the Loess Tableland in Northwest China based on the concept of Sponge City: a case study of Qingyang City in Gansu Province, a pilot city of National Sponge Cities Qiushi Xu, Xiaohua Shi, Zai Liu (China)	132
Methodology and calculation of carbon sink in Baiyangdian water body Lijun Li, Kaiyang Sun, Yanli Li (China)	141
Rationality of Xinjiang to undertake textile industry based on water resources carrying capacity Haoxi Lin, Jinchuan Huang, Yunqian Chen, Kui Luo (China)	147
Biological control of cyanobacterial bloom by leaf biomass Z. Zainuddin, J. Lalung, T.N. Yusof, M. Rafatullah, N. Ismail (Malaysia)	157

The impact of slope positions on stand transpiration of a <i>Zenia insignis</i> plantation in North Guangdong Province, South China Huixia Li, Hongyi Zhou, Xinghu Wei, Zhaoxiong Liang, Shujuan Liu, Jinguo Huang (China)	164
Integrated reduction of large chemical kinetic model of bio-butanol Chunhui Liu, Kechuan Yi (China)	172
Enhanced startup of full-scale IC reactor treating high-salt fatty acid wastewater Qinfang Lu (China, Korea), Byung-gon Jeong (Korea), Shirong Lai, Guochao Li, Jiancheng Liu (China)	178
Power supply stability of marine aquaculture based on DC brushless generator Wenjuan Zhang, Zhigang Zhang (China)	187
The interaction between positive and negative ions of surfactant in aqueous solution Wenchang Zhuang, Xiqiu Wang, Wenyong Zhu, Lin Tian (China)	196
The ecological structure distribution characteristics of aquatic plant community in Scenic Island Wensheng Huang (China)	206
Growth optimization of mangrove <i>Streptomyces</i> for enhancement of actinorhodin production N.H. Azizan, N.A. Amirdun@Amirudin, Z. Zainuddin, M.F. Sharif, A.J.K. Chowdhury, Z.A.Z. Abidin (Malaysia)	217
The inverse problem calculation of parabolic equation about the influence of solid particles in sewage on formation permeability Xiangguo Liu (China), H.U. Khan (Pakistan)	223
Berthing force of windsurfing under accompanying wave action of wave group Rongjun Zhu (China)	232
Design of electric automatic control water treatment system based on LabVIEW Yujing Yang, Dan Wu (China)	240
Thermophilic anaerobic digestion of sewage sludge Guoguang Xiao (China, Korea), Tae Geun Kim, Geum Jin Shin, Seok Ho Gong (Korea)	250
Study on the behavior of chloride ion migration in concrete under cross sea pressure Xin-ruo Hua, M.A. Ashraf (China)	258
Research on seafloor geomagnetic observation technology based on CAN bus Zhe Wang, Yuntian Teng (China)	264
Numerical analysis of vibration of suspended pipelines in internal and external flow fields Wei Song, Suling Wang, Minzheng Jiang, Kangxing Dong (China)	269
Remote sensing dynamic monitoring of eco-water (layer) conservation spatiotemporal variation in earthquake stricken areas Mingshun Xiang, Jin Yang, Wunian Yang, Chunjian Wang, Linsen Duan (China)	276
Study on water exchange capacity of Fangcheng Bay in dry and wet season based on MIKE3 model Hongyuan Shi, Qingjie Li, Zaijin You, Lizhong Yang, Yucheng Fu (China)	287
Parameter inversion of marine ecosystem dynamics model based on adjoint function Xiaohong Wang (China), H.U. Khan (Pakistan)	297
Application of artificial intelligence technology in removal of heavy metals from water by iron oxide Xiaofa Zheng, Li Yang, Zhonghui Lin (China)	303
Collocation Trefftz method applied to groundwater tidal effect analysis Yan Su, Luxi Yang, Lanqing Huang, Chengyu Ku (China)	312
Adsorption of dissolved copper and zinc on sand and iron oxide coated sand (IOCS) for urban stormwater treatment: effects of pH, chloride, and sulfate Congwei Zhong, Dong Hoon Lee, Jin Hwi Kim, Joo-Hyon Kang (Korea)	319
Analysis of efficiencies of runoff reduction and pollutant removal for subdividing design volume calculation in permeable pavement Sungji Kim, Jiwon Lee, Kyungik Gil (Korea)	327
Development and evaluation of wetland sustainability index for Binae Wetland, Korea Jungwook Kim, Jaewon Jung, Daegun Han, Changhyun Choi, Hongjun Joo, Hung Soo Kim (Korea)	335
Evaluation of capacity adequacy in LID according to LID structure Jiyeol Im, Jiwon Lee, Young-Jun Jung, Kyungik Gil (Korea)	346
Improvement of the estimation method for non-point source pollution load reduction in Korean total maximum daily load management system Jichul Ryu, Jiyeon Choi, Jinsun Kim, Jaehong Park, Hasun Hwang, Dong Seok Shin, Jaekwan Lee (Korea)	356

Long-term monitoring and characterization of non-point source pollution from various land-use types in Korea Jiyeon Choi, Jichul Ryu, Jinsun Kim, Jaehong Park, Dongseok Shin, Jaekwan Lee (Korea)	369
Optimal watershed management practices for the reduction of future non-point pollutants loads Yoonkyung Park, Reeho Kim, Lee-Hyung Kim, Okjeong Lee, Sangdan Kim (Korea)	379
Selection of appropriate nature-based solution for stormwater through multi-criteria performance F.K. Geronimo, N.J. Reyes, Hyeseon Choi, K. Yano, Lee-Hyung Kim (Korea)	392
Impacts of heavy rain and floodwater on floating debris entering an artificial lake (Daecheong Reservoir, Korea) during the summer Yongeun Park, SungHwan Kim, Kangmin Chon, Hankyu Lee, Jin Hwi Kim, Jae-Ki Shin (Korea)	399
A forecast for the environmental effect of pressure-retarded osmosis on CO ₂ emissions from seawater reverse osmosis in Korea: a scenario-based study Sung Ho Chae, Joon Ha Kim (Korea)	405
Comparing watershed management strategies at different spatial scales under future climate scenarios using SWAT Heewon Jeong, Bumjo Kim, Joon Ha Kim, Sung Ju Yi, Jong Doo Kim, Seo Jin Ki (Korea)	413
Influence of abnormal water intake linked to underwater aeration on ceramic membrane fouling in a drinking water treatment plant in Yeoncho, Korea Jae-Ki Shin, Kangmin Chon, Hankyu Lee, Jin Hwi Kim, Yongeun Park (Korea)	423
Development of manufacturing method of simulated stormwater for indoor performance testing of nonpoint source pollution management facilities Seung Won Lee, Sung Min Cha, Jong Bin Park, Hyun Suk Shin (Korea)	431
