

Contents
Volume 222

Changes in water demand patterns in a European city due to restrictions caused by the COVID-19 pandemic J.K. Kazak, S. Szewrański, T. Pilawka, K. Tokarczyk-Dorociak, K. Janiak, M. Świąder (Poland)	1
Water transfer projects and "Water–Energy–Food Nexus" governance from the perspective of game theory Shuang Yang, Jiancheng Chen, Xiuru Wang (China)	16
Challenges and progress made towards the improvement of a multistage solar still desalination system M.M. Mkhize, V. Msomi (South Africa)	23
Experimental study on the deaeration process of low temperature thermal desalination plant D. Balaji, G. Dhinesh, S.V.S. Phani Kumar, M.V. Ramana Murthy (India)	36
Model to generate solar radiation values for solar distillation numerical simulations B.T. Nguyen, V.V. Hoang, H.C. Le (Vietnam)	47
Assessment of the design, operation, and economy of the seawater reverse osmosis plant in Al-Jubail region, Saudi Arabia I. Wazeer, Salah Ud-Din Khan, I.S. Al-Mutaz, I.M. AlAteeq (Saudi Arabia), A. Chafidz (Indonesia), Shahab Ud-Din Khan (Pakistan)	60
Surface spreading of the brine discharge from the seawater reverse osmosis plants: Hamma Water Desalination plant in Algeria M. Amokrane, A. Salmi (Algeria)	81
Design optimization and sensitivity analysis of a hybrid renewable power generation system coupled with a reverse osmosis desalination unit H. Cherif, J. Belhadj (Tunisia)	92
Evaluating urbanization impact on stressed aquifer of Quetta Valley, Pakistan F. Dawood, M.M. Akhtar, M. Ehsan (Pakistan)	103
Molecular insight into bacterial communities of consumer tap water – a case study A. Siedlecka, M. Wolf-Baca, K. Piekarska (Poland)	114
Regenerating of consuming ion-exchange resin by graft polymerization for steam boiler wastewater treatment H.S. Al-Lami, M.A. Al-Marzok (Iraq)	127
Experimental study on the mechanisms involved in the synergetic effect of anaerobic co-digestion of mature leachate with food waste Xiaofeng Liao, Fan Zeng, Garg Akhil, Jingping Zhu, Li Liao (China)	137
Biological treatment of fuel wastewater generated from a thermal power plant by continuous and discontinuous aeration H. Qachach (Morocco), N. Abriak (France), B. El Mahrad (Morocco, UK, Portugal), S. Souabi, M. Tahiri (Morocco)	145
Prediction model of dissolved oxygen in marine pasture based on hybrid Gray Wolf algorithm optimized support vector regression Baoan Yin, Rong Wang, Shengbo Qi, Jingdong Yu, Wenliang Jiang (China)	156
Water plant optimization control system based on machine learning Dongsheng Wang, Yan Wang, Rui Zhou, Yong Cao, Fuchun Jiang, Xue Zhang, Jinghua Li (China)	168
Study on the changing characteristics and model of oxidation reduction potential in wet desulfurization under experimental conditions Shuangchen Ma, Fang Xu, Yanfei Yu, Zixuan Fan, ShuaiJun Fan (China)	182

Progress in modeling of high-rate algal ponds F. Zouhir (Belgium), A. El Ghadraoui (Italy), C. Keffala (Tunisia), F. Aziz (Morocco), M.N.D. Liady (Benin), A. El Ghadraoui, H. Jupsin, B. Tychon (Belgium)	189
The influence of cation and temperature on the liquid–liquid equilibrium of water + 2-butanone system and its simulation using artificial intelligent-based models C. Laiadi, N. Lami, A. Merzougui, S.E. Laouini (Algeria)	196
Applications of dye adsorption in fixed bed column and modeling studies M. Onay, Ç.S. Özdemir (Turkey)	209
Retention and release of the orange azo dyes by the chitosan-clay beads in aqueous solutions S. Kabbadj, M. Hajjaji, A. Alagui (Morocco)	219
Methylene Blue sorption by the chemically modified <i>Ocimum basilicum</i> leaves powder S.A. Bani-Atta, H.A. Al-Aoh, M.M.H. Aljohani, A.A. Keshk, H.S. Al-Shehri, S.K. Mustafa, N.A. Alamrani (Saudi Arabia), A.A.A. Darwish (Yemen, Saudi Arabia), M. Sobhi (Saudi Arabia)	237
Removal of toxic dyes from aqueous solutions by adsorption onto a novel activated carbon prepared from chestnut shell Mingyang Zhang, Xinzhe Liu, Bingxin Li, Wenda Li, Zhuowei Tan, Qian Wang, Linhua Zhang (China)	246
Influence of physical and chemical parameters in the treatment of Basic Red dye 46 by atmospheric plasma M.J. Rodríguez Albarrán, A. Gómez Díaz, P.G. Reyes Romero, J.C. Palomares Amado, J. Vergara Sánchez, C. Torres Segundo, H.A. Saldarriaga Noreña, H. Martínez Valencia (Mexico)	259
Preparation of CQDs-TiO ₂ modified activated carbon with photocatalytic regeneration properties Jiliang Yang, Xiantian Yue, Riwu Zhang, Jun Ren (China)	271
Preparation of CuO nanoparticles via organometallic chelate for the removal of acid red 57 from aqueous solutions K.S. Abou-Melha (Saudi Arabia), G.A.A. Al-Hazmi (Saudi Arabia, Yemen), I. Althagafi, R. Shah (Saudi Arabia), F. Shaaban, N.M. El-Metwaly (Saudi Arabia, Egypt), A.A. El-Bindary (Egypt)	282
Photo-Fenton oxidation of dichlorophene in aqueous solution: kinetics investigation and effects of operational parameters S. Sultana, A. Hayat, M. Sayed, I. Rehan (Pakistan), K. Rehan (China), S. Tabassum, N. Ul Amin, S. Khan, A. Khan, L.A. Shah, M. Ur Rehman (Pakistan)	295
A new approach in photocatalytic degradation of tetracycline using biogenic zinc oxide nanoparticles and peroxymonosulfate under UVC irradiation M. Malakootian, S.N. Asadzadeh, M. Mehdipoor, D. Kalantar-Neyestanaki (Iran)	302
Can anaerobic intermediate stages affect the biotransformation and sorption of pharmaceutical compounds? N.A.Z. Azizan, A. Yuzir, N. Abdullah (Malaysia), F.F. Al-Qaim (Iraq)	313
Simultaneous activation of <i>Ficus carica</i> L. leaves for the removal of emerging pollutants from aqueous solutions Z. Mekibes, B. Bestani, N. Douara, N. Benderdouche, M. Benzekri-Benallou (Algeria)	322
Efficiency of <i>Botryococcus</i> sp. in photobioreactor treatment system for nutrient removal from greywater A. Wurochekke (Nigeria, Malaysia), R.M.S.R. Mohamed, A. Al-Gheethi (Malaysia), N. Fitriani (Indonesia)	336
Oxidation of sulfadiazine and sulfamethoxazole through O ₃ , UV, and UV/O ₃ processes Xinshu Liu, Yahui Huang, Xiaoman Su, Sijie Tian, Yue Li, Rongfang Yuan (China)	346
Application of the Fe ₃ O ₄ @activated carbon magnetic nanoparticles for the adsorption of metronidazole from wastewater: optimization, kinetics, thermodynamics and equilibrium studies A. Sheikhmohammadi, E. Asgari, J. Yeganeh (Iran)	354
Stability and efficiency of Fe ³⁺ EDDS complex for the treatment of secondary effluent in the photo-Fenton process U.J. Ahile, R.A. Wuana, A.U. Itodo, R. Sha’Ato (Nigeria), J.A. Malvestiti, R.F. Dantas (Brazil)	366
Comparative study of Pb(II) ions adsorption on PET fibers and flakes: isotherm, kinetic and mechanism considerations C.-Ş. Ciobanu, R. Copae, D. Bulgariu, L. Bulgariu (Romania)	375
Fungal biosorption of cadmium(II) onto <i>Fennelia nivea</i> from aqueous solution: equilibrium, thermodynamics, and kinetics Y. Doruk Aracagök, E. Ögün, M. Torun, H. Akyıl, N. Cihangir, S. Sanin (Turkey).....	386

Dynamic adsorption of In(III) and Fe(III) on solvent impregnated resins containing trioctylmethylammonium chloride Xuezhen Gao, Junshen Liu, Xunyong Liu, Lei Guo, Shengxiao Zhang (China)	394
Potato peels as promising low-cost adsorbent for the removal of lead, cadmium, chromium and copper from wastewater M. Aschale, F. Tsegaye, M. Amde (Ethiopia)	405
Effect of coexistent anions on the nitrate removal by denitrifying granular sludge Yankai Guo, Chao Zhang, Weilong Liu, Yaoqi Xue, Jing Lian, Jianbo Guo, Yanyan Niu (China)	416
Investigation of bisphenol A removal using peroxy electrocoagulation method F. Boysan, A. Çavunt (Turkey)	426
Author Index	434
