Characteristics of desalinated water in reverse osmosis plants in Spain M. Hernández-Suárez, F.A. León (Spain)	1
Proposal to determine the carbon and ecological footprint of seawater reverse osmosis desalination in the Canary Islands plants considering the energy mix F.A. Leon, A. Ramos Martín, Y. Falcón Alvarado, S. Brito (Spain)	9
Ecological footprint in a reverse osmosis seawater desalination plant. Case study: Canary Islands F.A. Leon, A. Ramos Martín, G. Herrera (Spain)	17
Results of high-efficiency membrane pilot testing for membrane design optimisation F.A. León, A. Ramos-Martín (Spain)	25
Indirect calculation of Langelier saturation index and sodium adsorption ratio for remineralised waters from data on electrical conductivity and pH prior to and following remineralisation M. Hernández-Suárez, F.A. León (Spain)	33
Mitigation of climate change through the analysis and reduction of greenhouse gases in desalination plants N. El Kori, B. Del Rio-Gamero, J. Schallenberg-Rodríguez, S. Cabrera-Del Rosario (Spain)	38
Redox potential effect of bisulfite in brackish water with the presence of chlorine dioxide, chlorite, chlorate and metals J.A. Salvadó, E. Ferrero, S. Navea, C. Repollés, J.J. Malfeito (Spain)	48
Techno-economic evaluation of multi-stage vacuum membrane distillation (MSVMD) W. Alam, M. Asif, M. Suleman (Pakistan)	64
Influence of operating parameters on performance of air-gap diffusion distillation device in desalination Ping Wang, Lei Li, Lele Chen, Shiming Xu, Shuping Zhang, Lin Xu (China)	80
Performance of evacuated tube solar collector integrated solar desalination unit – a review R. Kumar, D.B. Singh, A. Dewangan (India), V.K. Singh (Portugal), N. Kumar (India)	92
Leakage and permeability characteristics of seawater with different concentrations at the distribution windows of variable motor pumps for seawater desalination Ya-Nan Sun, Dian-Rong Gao, Zong-Yi Zhang, Jian-Hua Zhao, Bo Chen (China)	116
Reverse electrodialysis for perchlorate abatement in salt water B.M.B. Ensano, Yeonghee Ahn (Korea)	129
Post-mortem examination combined with one-time chemical cleaning of fouled flat sheet PVDF-based membrane element used in MBR for TiO ₂ particle separation K.H. Lasisi (China, Nigeria), Fang Fang, Kaisong Zhang (China), T.F. Ajibade (China, Nigeria), Weihao Yao, Qiang Xue (China)	136
Pilot-scale comparison of non-coated and activated carbon-coated cosmoball for removal of organic matter and nutrients from municipal wastewater K. Shahot (Libya), A. Idris, R. Omar (Malaysia)	155
Facile solid-state synthesis of heterojunction CeO ₂ /TiO ₂ nanocomposite as an efficient photocatalyst for the degradation of organic pollutants M.Z. Bin Mukhlis, Md. Amirul Islam, M.A. Rahman, S. Hossain, Md. Akhtarul Islam, M.T. Uddin (Bangladesh)	169
Performance improvement of reduced graphene oxide blended PVDF ultrafiltration membrane K. Zlaoui, A. Rhimi, D. Jellouli Ennigrou, K. Horchani Naifer (Tunisia)	184
Efficient purification of oily wastewater by a single-stage filtration with diatomite/carbon membranes Yonghong Wu, Rui Yao, Xueqian Hong, Bing Zhang, Tonghua Wang (China)	193
Synthesis and characterization of crosslinked membranes based on sodium alginate/polyvinyl alcohol/graphene oxide for ultrafiltration applications A. Rhimi, K. Zlaoui (Tunisia), B. Van der Bruggen (Belgium), K. Horchani-Naifer, D. Jellouli Ennigrou (Tunisia)	204

Oxidation of sulfur ions in oilfield wastewater by montmorillonite loaded Mn-catalyzed hydrogen peroxide oxidation Zhongying Xu, Jianlong Dong, Yifan Liu, Jie Zhang, Chengtun Qu, Ying Tang (China)	219
Removal of ammoniacal nitrogen from contaminated groundwater using waste foundry sand in the permeable reactive barrier A.A.H. Faisal, L.A. Naji (Iraq), A.A. Chaudhary, B. Saleh (Saudi Arabia)	227
Adsorption-desorption of tetracycline onto molecularly imprinted polymer: isotherm, kinetics and thermodynamics studies A.D. Khatibi, A.H. Mahvi, N. Mengelizadeh, D. Balarak (Iran)	240
The effect of hospital wastewater discharge of Medical City, Baghdad on heavy metals concentration of the Tigris River N.H.A. Al Satar, D.E. Sachit (Iraq)	252
Performance of photocatalytic ceramic membrane for hospital effluent treatment W. Khongnakorn, P. Pattanasattayavong, K. Tanthai, P. Jutaporn (Thailand)	259
Comparative performance evaluation of ozone oxidation and coagulation for the treatment of electroplating wastewater A. Yasar, A. Ghaffar, Y. Mahfooz, A.B. Tabinda, A. Mehmood (Pakistan)	268
Removal of toxic dye (Rhodamine B) from aqueous solutions by natural smectite (SMC) and SMC-nanoTiO ₂ M.A.U.R. Al-Kazragi, D.T.A. Al-Heetimi (Iraq)	276
Sulfonic modified mesoporous silica for the removal of cationic dyes Ru Li, Xin Huang, Yumeng Zhang (China)	288
Membranes of polysulfone and hybrid applied in dye separation B.A. Araújo, E.M. Araújo, S.S.L. Oliveira, R.S.B. Ferreira, K. Machado de Medeiros, C.A.P. de Lima (Brazil)	298
Study on selective adsorption and separation of dysprosium by a multi-template oriented imprinted composite membrane Wenda Wang, Jiachen Yuan, Yue Jiang, Weiqiao Liu (China)	310
Enhanced photocatalytic degradation of Congo Red under visible light illumination by using Zn-Al-Co-LDH@g-C ₃ N ₄ nanocomposite M. Ajam, M. Ehteshami, S. Boudaghpour, S.A. Mirbagheri (Iran), M. Kafil (Finland)	318
Electrochemical behaviors of waste steel container as electrodes for removal of Acid Red 18 dye in water through electrocoagulation process A. Nurulhuda, I. Suzylawati, A.S. Farhan, A.A. Zuhairi (Malaysia)	331
Adsorption of anionic dyes using composites based on basic polyelectrolytes and physically activated carbon A.M. Herrera-González, M.C. Reyes-Angeles, A.A. Peláez-Cid (Mexico)	346
Co-deposition integrating with interfacial polymerization to prepare PA/PDA/PVDF nanocomposite membrane and the application in the simulating RB5 dyeing wastewater treatment Heng Cui, Zhehui Li, Jun Wang, Honghai Yang (China)	359
Preparation of bismuth-activated carbon and application to methylene orange removal Heng Yan, Xin Jiang, Hongying Xia, Libo Zhang, Qi Zhang, Wei Zhang, Chunfu Xin, Kangqing Zeng (China)	372
Influence of important parameters on the adsorption of diclofenac sodium by an environmentally friendly eucalyptus wood biochar and optimization using response surface methodology R. Treméa, H.B. Quesada, R. Bergamasco, F. de Jesus Bassetti (Brazil)	384
Fenitrothion pesticide adsorption from aqueous solution using copper nanoparticles modified 13X zeolite H. Esfandian (Iran)	400
Carbon quantum dots decorated Bi ₄ O ₅ I ₂ with greatly improved visible-light photocatalytic performance Xu Yan, Long Pan, Yanli Mao, Haiyan Kang, Zhongxian Song, Xia Zhang, Xiaole Yan, Wei Ma, Biao Liu, Yong Zhao (China)	411
UV degradation of naproxen adsorbed on graphite oxide A. Sarihan, S. Balbay (Turkey)	419
Investigation of the thermal performance of an indirect forced convection solar dryer for tapioca chips drying M. Selvaraj, P. Sadagopan, S. Vijayan (India)	430
Author Index	442
