

Contents Volume 232

Biofilm cultivated in SBR, together with hydroponic <i>Chlorophytum comosum</i> for eutrophic water remediation Youbao Wang, Fanghui Pan, Yanan Gui (China), T. Matthew (China, Ghana), Xinxi Zhang (China)	1
Research on enhanced coagulation test for sludge water recycling in water treatment plant in Ganjiang River Nanchang section Zhengong Tong, Longwang Fu, Jun Li, Caixia Kang, Zheshuai Wu, Cilong Zhong (China)	9
The role of microalgae-based systems in the dynamics of odorous compounds in the meat processing industry. Part II – Olfactometry and sensory relevance K. Rodrigues Vieira, M.M. Maroneze, B. Klein, R. Wagner, M.I. Queiroz, E. Jacob-Lopes, L. Queiroz Zepka (Brazil)	16
An initial study and potential application of maltodextrin as draw solution in forward osmosis process for desalination Q.T. Nguyen, M.T. Hoang, V.N. Le, N.T. Nguyen, T.G. Le (Vietnam)	26
A purification agent for coking wastewater treatment using iron and steel solid wastes Jie Deng, Dongnan Zhao, Xianfeng Xu, Wangui Gan, Wei Gong, Yongjun Fu (China)	33
Optimization of ammonium adsorption from landfill leachate using montmorillonite/hematite nanocomposite: response surface method based on central composite design H. Hashemi, S. Bahrami, Z. Emadi, H. Shariatipor, M. Nozari (Iran)	39
Particle size distribution characterization of swine wastewater using membrane treatment process for resource recovery Zheng Shen, Xin Song, Yuan Li, Minyan Gu, Yibiao Yu, Jia Miao, Hao Zhu, Xuefei Zhou, Yalei Zhang (China)	55
Experimental and simulation investigation on the characteristics and performance of the spray separation tower for evaporation crystallization of saline wastewater Jing Yu, Liang Chen, Weidong Yan (China)	67
Application of ordered micro-mesoporous carbon materials activated by steam and CO ₂ or KOH in solid phase extraction of selected phthalates from aqueous samples D. Wideł, K. Jedynek, Z. Witkiewicz (Poland)	91
Coking wastewater treatment by coagulation coupled with Fenton and hydrodynamic cavitation/Fenton Xingqiao Feng, Riya Jin, Yina Qiao, Zengdi He, Kun Wang, Chaoqi Wang, Yanrong Lu, Yufan Zhang (China)	105
One step synthesis of water-soluble graphitic carbon nitride nanosheets with enhanced visible-light photocatalytic activity Huiya Wang, Keqiang Ding, Danping Shao, Guoqiang Pan (China)	114
Synthesis and characterization of mesoporous tungsten oxides and application of its photo-catalytic activity on photo degradation of methyl orange Seo-Hyun Pak, Chan-gyu Park (Korea)	121
Use of hen feathers to remove Reactive Black 5 and Basic Red 46 from aqueous solutions T. Józwiak, U. Filipkowska, P. Marciniak (Poland)	129
Plant-mediated detoxification of lead, cadmium and chromium present in aqueous solution through chemically modified <i>Populus nigra</i> leaves S.M. Salman, M. Zahoor, M. Sadia, Z. Hussain (Pakistan), S.H. Alotaibi (Saudi Arabia), M. Wahab, Q. Khan, D. Shahwar (Pakistan), G.S. Khan (Bahrain).....	140
Removal of Ni(II) from aqueous solutions by sulfide-modified nanoscale zero-valent iron supported by hydroxyapatite(HAP/S-nZVI) Hui Xu, Minzhang Chen, Yajuan Zhang, Pengdong Chen, Yong Chen (China)	149

Understanding the electrokinetic behavior of the acrylic acid based Fe(II) ion-imprinted polymer for its application in Fe(II) ions removal from aqueous medium with high selectivity T.u.H. Zia, D.K. Ghazali, B. Ara, K. Gul, M.H. Qureshi, N. Ali (Pakistan)	165
Effective removal of diazinon and imidacloprid toxins from aqueous samples by nano poly (4,4'-methylenedianiline)/graphene oxide A. Toolabi, E. Mohseni, M.R. Zare, N. Mengelizadeh, E. Rostami, M. Taghavig, S. Kharazi (Iran)	187

***Selected papers presented at the First International Conference
"Strategies toward Green Deal Implementation – Water and Raw Materials" (ICGreenDeal2020)
held online on 14–16 December 2020, Cracow, Poland***

Preface to the Special Issue on the First International Conference "Strategies toward Green Deal Implementation – Water and Raw Materials" (ICGreenDeal2020), held online on 14-16 December 2020, Cracow, Poland M. Smol (Poland)	198
Application of activated sludge model for phosphorus recovery potential simulation M. Preisner, M. Smol, E. Neverova-Dziopak, Z. Kowalewski (Poland)	199
Implementation of the Green Deal in the management of nutrients – phosphorus recovery potential from sewage sludge M. Smol (Poland)	208
Methane fermentation of the excess sludge sonicated and oxidized with Fenton's reagent I. Zawieja, M. Worwał, K. Brzeska (Poland)	216
A toxic-free environment ambition in the light of the Polish Baltic Sea coastal zone pollution by heavy metals M. Preisner, M. Smol, D. Szoldrowska (Poland)	225
Biofiltration – an ecological method of removing odors generated during drying sewage sludge-case study M. Gałwa-Widera, A. Kwarciak-Kozłowska (Poland)	236
Effect of pH on adsorption of Cr(VI), K(I) and NH ₄ (I) ions onto natural zeolites and bentonites T. Bakalár (Poland)	244
Removal of chemotherapeutic agents in an integrated process of coagulation and sorption B. Macherzyński, M. Wszelaka-Rylik, M. Włodarczyk-Makuła, D. Andrzejewska-Górecka (Poland)	256
Treatment of landfill leachate in intermittently aerated hybrid or conventional SBRs operating at different temperatures J. Koc-Jurczyk, Ł. Jurczyk, A. Zapałowska (Poland)	264
Antibiotics and endocrine disruptors in sewage sludge samples in terms of its agriculture use W. Bolesta, M. Głodniok, M. Pieczonka, K. Styszko (Poland)	280
Analysis of biogas from sewage sludge digestion in terms of diversification in the natural gas production structure in Poland M. Ruszel, A. Masłoń, P. Ogarek (Poland)	298
The occurrence of chemicals of emerging concern in samples of surface water and wastewater collected in Kraków, Poland K. Styszko, J. Durak, A. Malicka, T. Bochnia, T. Żaba (Poland)	308
Evaluation of the stability of selected hydroxy derivatives of polycyclic aromatic hydrocarbons in environmental samples J. Durak, K. Styszko, E. Sochacka-Tatara (Poland)	324
Analysis of rheological properties of thickened sewage sludge P. Wolski (Poland)	331
Sulfides removal from slag infiltrate with layered double hydroxides O. Dan (Poland)	339
Using local mineral materials for the rehabilitation of the Ustya River – a case study Y. Trach (Ukraine, Poland), V. Melnychuk, G. Melnychuk (Ukraine), Ł. Mazur, A. Podlasek (Poland), M.D. Vaverková (Poland, Czech Republic), E. Koda (Poland)	346

Resilience of riverside areas as an element of the green deal strategy – evaluation of waterfront models in relation to re-urbanization and the city landscape of Warsaw K. Rybak-Niedziółka, M. Grochulska-Salak, E. Maciejewska (Poland)	357
Bioleaching of cadmium(Cd) and zinc(Zn) from the contaminated soil using bacteria from wastewater sludge D.A. Andrzejewska-Górecka, B. Macherzyński, M. Wszelaka-Rylik (Poland)	372
Application of UV irradiation for polycyclic aromatic hydrocarbon removal from treated wastewater in water reclamation system P. Sobczak, A. Rosińska (Poland)	380
Renaturalisation of local rivers in city landscape, based on Sokolowka Trail Valley design K. Langie, K. Rybak-Niedziółka (Poland)	387
Quality of the soil and water environment in the immediate vicinity of the Barania Gora Forest Reserve M. Widlak, R. Kowalik, S. Sobura (Poland)	404
Adsorption of selected 3- and 4-ring polycyclic aromatic hydrocarbons on polyester microfibers – preliminary studies E. Wiśniowska, M. Włodarczyk-Makuła (Poland)	414
Assessment of wastewater quality indicators for wastewater treatment influent using an advanced logistic regression model B. Szelağ, M.-J. Mehrani, J. Drewnowski, M. Majewska, G. Łagód (Poland), S. Kumari, F. Bux (South Africa)	421
Author Index	433
