

**Contents**

**Volume 244**

Predictive supervised machine learning models for double-slope solar stills H.A. Maddah (Saudi Arabia) .....	1
Sensitivity investigation for solar still of double slope type included with N similar CPC integrated ETC by incorporating yield and efficiency A. Raturi, R. Dobriyal, R.K. Sharma, A. Dwivedi, S.P. Singh, D.B. Singh (India) .....	12
Studies on mechanical, vegetative, and roof water harvesting: strategies to enhance recharge of spring and its discharge in Himalaya S.C. Panday, D.C. Mishra, R.P. Yadav, A. Pattanayak (India) .....	27
Hydrogeological studies and evaluation of surface and groundwater quality of Khyber Pakhtunkhwa, Pakistan A. Mehmood, A. Qadir, M. Ehsan, A. Ali (Pakistan), D. Raza (China), H. Aziz (Pakistan) .....	41
Environmental impact of municipal wastewater management based on analysis of life cycle assessment in Denpasar City IW.K. Suryawan (Taiwan, Indonesia), A. Rahman (Indonesia), Jun-Wei Lim (Malaysia), Q. Helmy (Indonesia) .....	55
Towards a circular economy for stabilized residual from organic municipal solid waste processed at an MBT installation – the potential of SR recycling and recovery K. Bernat, I. Wojnowska-Baryła, A. Kamińska, M. Zaborowska (Poland) .....	63
Theoretical and experimental studies of double-unit air gap membrane distillation (DUAGMD) module for seawater desalination Chii-Dong Ho, Luke Chen, Yu-An Chen, Jia-Yu Jiang, Pin-Tsen Lu (Taiwan) .....	77
Synthesis and characterization of novel forward osmosis thin film nano-composite membrane to enhance the reverse osmosis desalination economics A.M. Ismail, Y.H. Kotp, M.G. Eloffy, A.H. Konsowa, H.A. Shawky (Egypt) .....	90
Artificial neural network modelling for the removal of lead from wastewater by using adsorption process A.H. Mahdi, G.M. Jaid, S.M. Alardhi (Iraq) .....	110
Synergistic function of bentonite, poly-aluminum chloride, and cationic polyacrylamide to realize highly efficient coagulation-flocculation process for leachate treatment Xinda Yang, Ming Zeng, Linlin Hao, Chang Wang (China) .....	120
Treatment of municipal solid waste landfill leachate by aeration assisted electrochemical peroxidation process using aluminium and iron electrodes C. Jegadeesan, A. Somanathan, R.B. Jeyakumar, V.G. Sharmila, K.A. Yasar Arafath (India) .....	131
Investigation of the anodic behavior of nickel in H <sub>2</sub> SO <sub>4</sub> solutions using galvanostatic polarization technique. III. Inhibition of pitting corrosion using nitrogen-containing organic compounds A.S. Al-Gorair, S.A. El Wanees, H. Hawsawi, M.G.A. Saleh (Saudi Arabia), M. Abdallah (Saudi Arabia, Egypt) .....	147
Investigation on hydrocyclone for increasing the performance by modification of geometrical parameters through CFD approach S. Venkatesh, S.P. Sivapirakasam, M. Sakthivel (India), R. Krishnaraj, T.J. Leta (Ethiopia) .....	157
Zeolite supported iron nanoparticles for the catalytic Fenton oxidative remediation of theophylline in aqueous medium M. Anis, S. Haydar (Pakistan) .....	167
Removal of persistent pharmaceutical from water by oxidation process based on ionizing technologies J. Aribi, W. Jahouach-Rabai, R. Lahasni, Z. Azzouz, B. Hamrouni (Tunisia) .....	180
Ozone assisted photolysis process in reduction of selected micropollutants from nanofiltration retentate I. Zimoch, D. Mroczko (Poland) .....	194

Synthesis and characterization of graphene oxide for removal of Cr(III) from tannery effluent S. Ahmed, Fatema-Tuj-Zohra, M.M. Mahdi, D.Md. Mahmudunnabi, T.R. Choudhury, Md.Z. Alam, M. Nurnabi (Bangladesh) .....	201
Synthesis and application of maghemite nanoparticles for water treatment: response surface method A. Iqbal, M.I. Jalees, M.U. Farooq (Pakistan), E. Cevik, N.D. Mu'azu (Saudi Arabia) .....	212
Effective adsorption of antimony(III) by MIL-101(Cr)-NH <sub>2</sub> : influencing-factor and characterization analyses and response surface optimization Tian Tian, Yannan Jia, Jianguo Wu, Jinlong Zhao, Kai Xu, Zijie Wang, Zheng Wang (China) .....	226
Enhanced removal of Ni(II) from electroplating effluents using herbal biomass as alum substituents R. Bhagavath, S. Subrahmanian, Narendrakumar G. (India) .....	241
Response surface modeling of methylene blue dye removal from wastewater on natural oil shale M. Rahmani, B. Regraguy, J. Mabrouki, A. Moufti, M. El'Mrabet, A. Dahchour, S. El Hajjaji (Morocco) .....	253
Fabrication of a novel chitosan Schiff bases hydrogel derivatives for the removal of anionic dyes from wastewater R.E. Khalifa, S. Aboulhadeed, H.M. Ahmed, A.M. Omer, T.M. Tamer, M.S. Mohy-Eldin (Egypt) .....	263
Methyl orange dye removal from wastewater by novel developed chitosan Schiff bases S. Aboulhadeed, H.M. Ahmed, R.E. Khalifa, A.M. Omer, T.M. Tamer, A. Abdelkhalek, M.S. Mohy-Eldin (Egypt) .....	279
Modeling and optimizing Orange G removal by heat-activation persulfate using two-step statistical strategies: Plackett-Burman and Box-Behnken designs N. Habache, O. Bechiri, I. Djaghout, M. Djenouhet (Algeria) .....	291
Cellulose acetate based hybrid materials: fascinating material as a potential adsorbent for Congo Red removal I. Asif, U. Rafique (Pakistan) .....	302
Adsorption of naphthol green B on CPC modified zeolite from solution and secondary adsorption toward methylene blue Zhiqiang Wang, Jinghua Zhang, Haojiang Wang, Runping Han (China) .....	325
Role of the similar molecular weight dyes on the adsorption by activated carbon M. Chaudhary, Suhas, R. Singh (India), M. Yilmaz (Turkey), S. Chaudhary, S. Kushwaha (India) .....	343
Author Index .....	355
