

Contents
Volume 24

The impact of industrial pollution on the ecosystem of Réghaia Lake (Algeria) S. Ahriz, D. Nedjraoui, N. Sadki	1
Nitrogen removal in submerged MBR with intermittent aeration J. Čurko, M. Matošić, H.K. Jakopović, I. Mijatović	7
Removal of malachite green from aqueous solutions using molecularly imprinted polymer K. Farhadi, A.A. Matin, P. Hashemi	20
Synthesis of pH – Thermosensitive gum arabic based hydrogel and study of its salt-resistant swelling behavior for saline water treatment B.S. Kaith, S. Ranjta	28
Kinetics of convective heat and mass transfer coefficient of green chilli during open-sun and greenhouse drying D. Jain, D. Mridula, R.T. Patil, P. Barnwal, R. Kumar	38
Equilibrium and kinetics studies of 2,4,5-trichlorophenol adsorption onto organophilic-bentonite H. Zaghouane-Boudiaf, M. Boutahala	47
The influence of polyphosphonates on the precipitation of strontium sulfate (celestite) from aqueous solutions S.K. Hamdona, S.M. Hamza, A.H. Mangood	55
Removal of methylene blue using acid and heat treatment of clinoptilolite M. Qiu, Q. Jian, D. Yu, K. Feng	61
Treatment of phenolic wastewaters in single baffle reactor by Solar/TiO ₂ /H ₂ O ₂ process S. Adishkumar, S. Kanmani	67
Liquid phase adsorption of Indigo Carmine and Methylene Blue on Neem bark R. Srivastava, D.C. Rupainwar	74
Removal of ammonia nitrogen from washing wastewater resulting from the process of rare-earth elements precipitation by the formation of struvite H. Huang, X. Xiao, L. Yang, B. Yan	85
Mathematical models application for natural organic matter adsorption onto activated carbon A.H. Sulaymon, A.F.M. Ali, S.K. Al-Naseri	93
Thermal analysis of the internal condensation process in a horizontal tube of falling film evaporation L. Yang, S. Shen, H. Hu, X. Chen	101
Removal of nitrate from drinking water by adsorption using ion exchange resin C. Malika, A. Kenza, A.O. Yasmine, A. Abdeltif, B. Aicha	109
Seawater intake and partial pre-treatment with Neodren - results from investigation and long-term operation T. Peters, D. Pintó	117
Exergy cost of water supply and water treatment technologies A. Martínez, J. Uche, C. Rubio, B. Carrasquer	123
Influence of operational parameters on photodegradation of Acid Black 1 with ZnO B. Krishnakumar, K. Selvam, R. Velmurugan, M. Swaminathan	132

Improving a conventional greenhouse solar still using sun tracking system to increase clean water yield S.A. Mutasher, N. Mir-Nasiri, S.Y. Wong, K.C. Ngoo, L.Y. Wong	140
Design of ILEDR for brackish groundwater: A literature review approach M.T. Myint, A. Ghassemi, N. Nirmalakhandan	150
Preparation of isoproturon and 2,4-dichlorophenoxy acetic acid imprinted membranes: Ion transport study K.P. Singh, R. Dobhal, R.K. Prajapati, S. Kumar, Sanjesh, M.A. Ansari	176
Adaptability of membrane filtration systems under different treatment options for textile wastewater management in an industrial cluster M. Karthik, P. Manekar, T. Nandy	190
Manganese removal from water by magnesium enriched kaolinite-bentonite ceramics Vesna S. Cvetković, Milovan M. Purenović, Jovan N. Jovičević	202
Pervaporation performance of trifluoroethoxy substituting polyphosphazene membrane for different organic compounds aqueous solutions Y. Huang, J. Fu, Y. Zhou, X. Huang, X. Tang	210
Use of derivatised L-methionine for efficient extraction of Ag(I) by tracer technique R. Saha, P. Dey and D. Das	220
Impact of system factors on the water saving efficiency of household grey water recycling S. Liu, D. Butler, F. Memon, C. Makropoulos, Q. Wang	226
Reduction of lead pollution in groundwater using soil based protective liner bed in land fill pits P. Saha, S.K. Sanyal	236
Dropsiz function during dropwise condensation in relation to heat transfer intensification – Statistical approach M.K. El-Adawi, T.H. Felemban	244
Coagulation and advanced oxidation processes in the treatment of olive mill wastewater (OMW) W.K. Lafi, M. Al-Anber, Z.A. Al-Anber, M. Al-shannag, A. Khalil	251
Optimization and characterization of rhamnolipid biosurfactant from sponge associated marine fungi <i>Aspergillus</i> sp. MSF1 G. S. Kiran, N. Thajuddin, T.A. Hema, A. Idhayadhulla, R.S. Kumar, J. Selvin	257
Treatment of lixiviate from Jebel Chakir-Tunis by electrocoagulation E.S.B.H. Hmida, D. Mansour, N. Bellakhal	266
A comparative study of degradation of the azo dye C.I. Acid Blue 9 by Fenton and photo-Fenton oxidation M. Qiu, C. Huang	273
Identification and quantification of foulant in submerged membrane reactor J. Lebegue, R. Aryal, H.K. Shon, S. Vigneswaran, M. Heran, A. Grasmick	278
Sorption of cadmium (II) from aqueous solution by magnetic clay composite Z. Orolínová, A. Mockovčiaková, J. Škvarla	284
Desalination/concentration of reverse osmosis and electrodialysis brines with membrane distillation M.S. Osman, J. J. Schoeman, L. M. Baratta	293
Adsorptive removal of arsenite from water using nanomagnetite T. Türk, İ. Alp, H. Deveci	302
The influence of aeration on nitrification and the nitrifier distribution in an upflow biological aerated filter for tertiary treatment of municipal sewage B. Jiang, W. Hu, H. Pei, P. Chen, Q. Liu	308
Adsorption of glyphosate onto activated carbon derived from waste newspaper M.M. Nourouzi, T.G. Chuah, T.S.Y. Choong	321

A kinetics analysis applied to the recovery of Zn(II) content from mine drainage by using a surfactant liquid membrane F. Valenzuela, C. Basualto, J. Sapag, J. Romero, W. Höll, C. Fonseca, C. Araneda	327
Decontamination and adsorption modelling of aqueous Pb ²⁺ and Co ²⁺ ions using natural inorganic materials: tripoli (NT) and bentonite (NB) N.Al. Ghezawi, M.A. Al-Anber, Z.A. Al-Anber, T. El-Hasan, I. Al-Momani	336
Removal of lead, cadmium, and mercury ions using biosorption A.H. Sulaymon, S.E. Ebrahim, S.M. Abdullah, T.J. Al-Musawi	344
Author Index	353
