Volume 255

***Special Issue on the International Virtual Conference on Water and Energy (ICWE21)
Hassiba Benbouali University of Chlef, Algeria, 25–27 May 2021***

Foreword

H. Mahmoudi (Algeria)	1
Performance optimization and reliability of solar pumping system designed for smart agriculture irrigation Y. Serbouh, T. Benikhelef, D. Benazzouz, M.A.A. Chikh, S. Touil, A. Richa, H. Mahmoudi (Algeria)	4
Preparation and characterization of PVDF hybrid membranes by embedding nanomaterials as silica-gel and clay: evaluation of the removal efficiency of nickel and copper ions from water M. Chabane (Algeria), A. Tavolaro, F. Russo, G. Chiappetta (Italy), B. Dahmani (Algeria), A. Figoli (Italy)	13
Energy yield evaluation of a rainwater harvesting system using a novel agrophotovoltaics design F. Chekired, A. Richa, S. Touil (Algeria), B. Bingwa (Germany)	27
Enhancing the value of agro-food waste in the treatment of water laden with organic pollutants D. Soumia, D.H. Mebarka (Algeria)	34
Numerical simulation of flow through porous membranes with finger-like formations B.M. Erdugan, E. Demirel (Turkey)	47
Swelling and adsorption properties of cross-linked chitosan-based films: kinetic, thermodynamic and optimization studies N. Boudouaia, A.A. Bendaoudi, H. Mahmoudi (Algeria), T. Saffaj (Morocco), Z. Bengharez (Algeria)	56
Characterization and catalytic activity of ZSM-5 zeolite doped with iron and copper in the oxidation of phenol by hydrogen peroxide F. Talhaoui, F. Hamidi (Algeria)	68
Exploitation of hydroelectric potential of the irrigation reservoirs in Eastern Crete G.J. Tsikalakis, P.J. Bourbourakis, N. Makrinakis (Greece)	74
Lactic acid production by immobilization of <i>Lactobacillus</i> sp. isolated from olive mill wastewater K. Ayadi, K. Bounedjar, D.T. Douma, S. Bensouna, M. Fellah, M. Meziane, K. El-Miloudi (Algeria)	83
Diagnosis and improvement of diffuser performance of Fouka Desalination Plant (Algeria) M. Amitouche, A. Lefkir, B. Remini, M.S. Sebki, L. Aissaoui (Algeria)	94
Study of Cu ²⁺ and dyes removal by sorption onto palygorskite in batch and continuous flow processes M. Pachoulis, A.A. Sopalidis, E.P. Kouvelos, A. Gotzias, G.Z. Kyzas, E.P. Favvas (Greece)	101
Fabrication of titanium dioxide/reduced graphene oxide nanofibers for photodegradation of tartrazine dye in aqueous solution M. Samir (Egypt, Kuwait), H.H. Hassan, H.H. El-Maghrabi, A.A. Nada (Egypt)	110
A critical review of the preparation, characterization and applications of polyamide membranes A. El-Gendi (Egypt)	120
Al ₂ O ₃ @SiO ₂ -chitosan synthesis via sol-gel process and its application for ciprofloxacin adsorption N. Ferrah, D. Merghache, G. Lebar (Algeria)	136
Groundwater quality modeling using geostatistical methods and artificial neural networks: a case study of the Western Middle Chelif alluvial plain in Algeria Y. Elmeddahi, D.-E. Moudjaber, H. Mahmoudi (Algeria), M.F. A. Goosen (Saudi Arabia)	145

Potential of large-scale application of pervaporation for bioethanol production from rice straw S.R. Tewfik, A.M.G. Abulnour, M.M. El Sayed, H.A. Hani, M.H. Sorour, H.F. Shaalan (Egypt)	157
Creating an artificial neural network time series model for the prediction of daily solar radiation in Oran E.H.I.E.I. Soukeur, D. Chaabane (Algeria), K. Amarouche (Turkey), N.E.I. Bachari (Algeria)	163
Impact of treated wastewater irrigation on long-term soil water retention S. Touil (Algeria), A. Degre (Belgium), M.N. Chabaca, M.C. Naziha, R. Amina (Algeria)	172
Influence of solvent on the stability and reactivity of imidacloprid: theoretical study N. Benbrahim, Z. Zizi, Z. Bengharez (Algeria)	179
Elaboration and characterization of new polymeric membrane based on cellulose triacetate, polyelectrolytes and dioctylephthalate as plasticizer N. Draï, N. Abdellaoui, F. Saïb, O. Arous, M. Trari (Algeria)	185
Assessment of fouling in commonly used polymeric membranes I.M. Scoullou, I. Tournis, E. Kouvelos, Z. Sideratou, A. Sapalidis (Greece)	192
Preparation and assessment of polyvinylidene fluoride hollow fiber membrane for desalination by membrane distillation S.R. Tewfik, M.H. Sorour, H.A. Hani, H.F. Shaalan, A.M.G. Abulnour, M.M. El Sayed, E.S. Sayed, M. Eltoukhy (Egypt)	200
Antifouling graphene oxide-polyvinylidene fluoride mixed matrix membrane for membranes distillation applications E. Fontananova, V. Grosso (Italy), A.A. Sapalidis (Greece), E. Tocci, G. Di Profio (Italy)	212
Utilizing hydrograph transform methods and a hydrologic modeling system in rainfall-runoff simulation of a semi-arid watershed in Algeria in north-west Africa H. Allali, Y. Elmeddahi, D.-E. Moudjeber, H. Mahmoudi (Algeria), M.F.A. Goosen (Saudi Arabia)	220
Coupling a brackish water greenhouse desalination system with membrane distillation for Southern Algeria Z.B.M. Elamine, D.-E. Moudjeber, M. Djennad, H. Mahmoudi (Algeria), M.F.A. Goosen (Saudi Arabia)	229
Superior photodegradation activity of MoS ₂ /TiO ₂ nanofibers for phenol under visible light irradiation E.A. Nada, H.H. El-Maghrabi, H.R. Ali, S.A. El-Wahab, D.Y. Sabry, Y.M. Moustafa, A.A. Nada (Egypt)	236
Variation in physico-chemical and bacteriological characteristics of dialysis water: a case study of eight hemodialysis centers K. Berkache, D. Medine, H. Mahmoudi, Z. Bengharez (Algeria), M. Amrane (France)	242
Author Index	255
