

Contents

Volume 272

| | |
|--|-----|
| Comparison of Spiegler-Kedem combined with film theory model and original SK model Mohammad Hadian, Mahdie Hadian (Iran) | 1 |
| Removal of bisphenol A from water by micellar enhanced ultrafiltration with nonionic-cationic surfactant mixtures O. Kochkodan, N. Antraptseva, T. Semenenko (Ukraine) | 6 |
| Functional nanomaterial based membrane in membrane distillation for water reclamation L.L.H. Ting, T.Y. Haan (Malaysia) | 14 |
| Membrane filtration enhanced by ultrasound for reducing endotoxin in dialysis water Y.R. Humudat, S.K. Al-Naseri, M.A. Abdul-Majeed, M.Sh. Jaafar, A.N. Al-Naem, L.A. Najim (Iraq) | 31 |
| Efficient water desalination using Bernoulli effect Tianzhen Wang, Lu Huang, Junxian Pei, Xuejiao Hu, Haifeng Jiang (China) | 37 |
| Recent advances in alginate-based adsorbents for heavy metal retention from water: a review K.Z. Elwakeel (Saudi Arabia, Egypt), M.M. Ahmed, A. Akhdhar, M.G.M. Sulaiman, Z.A. Khan (Saudi Arabia) | 50 |
| Evaluation of modified peanut shell in the removal of Cr(VI) from aqueous solution Qian Li, Qing Huang, Yifan Ruan (China) | 75 |
| Analysis of zero liquid disposal plant using electrodialysis integrated with electrolyser for hydrogen fuel production E. Ali, A. Bessadok-Jemai (Saudi Arabia) | 88 |
| Use of iron-crosslinked sodium alginate beads for adsorption of phosphate from solution Weijiao Pan, Xu Liu, Peifeng Yang, Runping Han (China) | 108 |
| Competitive adsorption of alkali metal ions onto Prussian blue Tan Guo, Shan Yun, Yuan Liang, Jiahui Li, Yanxing Li, Xiushen Ye, Zhijian Wu (China) | 118 |
| Removal of phosphorus from wastewater by metal salt doping waste-based ceramsite Yixiao Xing, Xiao Huang, Jianghua Yu, Chao Gong, Chen Zhang (China) | 126 |
| Efficient catalytic reduction of 4-nitrophenol by magnetic Cu/Fe nanocomposite catalyst Qiang Li, Huo Zhou, Guangyong Li, Yuxuan Ye, Dongsheng Xia (China) | 138 |
| Removal of penicillin from wastewater: a short review A.C. Mejía-López, J.J. Ramírez-García, M. Solache-Ríos (Mexico) | 144 |
| Prediction and optimization of steroid hormone removal parameters from municipal wastewater by ultrasound probe using artificial neural network and genetic algorithm: a review N. Mousavi Kia, F. Mohammadi, H. Hashemi Nejjhad (Iran) | 156 |
| Adsorption of humic acid onto chitosan polyvinyl alcohol blend membrane from solution and second adsorption toward copper ions Yuting Ma, Rong Wang, Chenghui Ma, Runping Han (China) | 167 |
| Microbubbles improve removal of oil-in-water emulsions stabilized by humic acids T.V. Le, L.T.T. Dang (Vietnam), H. Yasui, T. Imai (Japan) | 183 |
| Research on mechanism of perfluorooctanoic acid adsorption by calcined CuAl-carbonate layered double hydroxide Yuechao Wu, Yulin Wang, Jiangguang Li, Huiming Zeng, Feng Lin, Haijie Ben, Mingping He, Zhenqiang Dong, Wanli Xu, Liang Lv (China) | 192 |
| Feasibility investigation of various leaves as carbon sources for biological denitrification B.A.-H.O. Wagou, Junting Zhao, Gaigai Cao, Yunpeng Shen, Zhenjun Wu, Donjin Wan, Qiaochong He (China) | 198 |
| Treatment of dinitrotoluene in an aqueous environment by electro-peroxodisulfate process using a central composite design A. Shokri, S. Karimi (Iran) | 209 |

| | |
|---|-----|
| Comparative isothermal study of phenolic removal from water using different forms of rice husk M.I. Jalees, A. Javed, A. Iqbal, N. Zahara, M. Batool (Pakistan) | 220 |
| Microplastic in the environment: identification, occurrence, and mitigation measures M.Y.D. Alazaiza (Oman), A. Albahnasawi (Turkey), O. Al-Maskari (Oman), G.A.M. Ali (Egypt), M. Eyvaz (Turkey), M.S.S. Abujazar (Turkey, Palestinian Authority), S.S. Abu Amr (Oman), D.E. Nassani (Turkey) | 233 |
| Cation removal behaviour by cross-linked sodium alginate-PVA beads: characterisation, kinetics and equilibrium studies N. Flores-Alamo, M.J. Solache-Rios, C.G. Aguirre-Malvaez, F. Cuellar-Robles, M.C. Carreño-De León (Mexico) | 248 |
| Green synthesis of copper nanoparticles using <i>Allium cepa</i> (onion) peels for removal of Disperse Yellow 3 dye M.A. Rafique (China), S. Kiran (Pakistan), A. Jamal (Saudi Arabia), M.N. Anjum, F. Jalal, B. Munir, I. Hafiz, F. Noureen, S. Ajmal, W. Ahmad, M.Y. Arshad (Pakistan) | 259 |
| Removal of reactive blue 171 dye from aqueous solution and textile industrial wastewater using peroxi-electrocoagulation process by iron electrode: application of response surface methodology (RSM) A. Mahroudi, M. Aghasi, M. Dolatabadi, S. Ahmadzadeh (Iran) | 266 |
| Effective adsorption and removal of industrial dye from aqueous solution using mesoporous zinc oxide nanoparticles via metal organic frame work: equilibrium, kinetics and thermodynamic studies G.H. Al-Hazmi, M.S. Refat (Saudi Arabia), M.G. El-Desouky, A.A. El-Bindary (Egypt) | 277 |
| Synthesis and evaluation of the performance of MWCNTs-CoFe ₂ O ₄ magnetic nanocomposite for adsorption of Remazol Brilliant Blue Reactive: kinetics and thermodynamics study H. Rahbar, S.D. Ashrafi, K. Taghavi, J. Jaafari (Iran) | 290 |
| Use of waste biomass of common mushroom (<i>Agaricus bisporus</i>) as a sorbent for the removal of Reactive Black 5 and Basic Violet 10 dyes from aqueous solutions T. Józwiak, U. Filipkowska, B. Pyko | 303 |
| Author Index | 316 |
