

**Issue 1**

***Selected papers presented at the VII Ibero-American Conference on Membrane Science and Technology (CITEM 2010), April 11–14, 2010, Sintra, Portugal***

Thermophilic treatment of paper machine white water in laboratory-scale membrane bioreactors C.A. de Sousa, C.M. Silva, N.M. Vieira, A.H. Mounteer, M.S. Amaral, M.R. Tótoia and W.G. Nunes (Viçosa, Brazil) .....	1
Nanofiltration membranes applied to the removal of saxitoxin and congeners L.A. Coral, L.A.O. Proença (Santa Catarina), F.J. Bassetti (Paraná) and F.R. Lapolli (Santa Catarina, Brazil) .....	8
Selection of membranes for purification of fructooligosaccharides R.C. Kuhn (Campinas, Brazil), L. Palacio, P. Prádanos, A. Hernández (Valladolid, Spain) and F.M. Filho (Campinas, Brazil) .....	18
Dielectric properties of electrolyte solutions in polymeric nanofiltration membranes M. Montalvillo, V. Silva, L. Palacio, A. Hernández and P. Prádanos (Valladolid, Spain) .....	25
Dual-sorption model for H <sub>2</sub> /CO <sub>2</sub> permeation in glassy polymeric Matrimid membrane O.C. David, D. Gorri, Í. Ortiz and A.M. Urtiaga (Santander, Spain) .....	31
Effect of enzymatic treatment on the viscosity of raw juice and anthocyanins content in the microfiltered blackberry juice M.C. Pessanha de Araujo, A.C.M. Senna Gouvêa, D.S. Couto, L.M.C. Cabral, R.L.O. Godoy (Rio de Janeiro) and S.P. Freitas (Sala, Brazil) .....	37
Mixed matrix membranes for gas separation with special nanoporous fillers B. Zornoza, P. Gorgojo, C. Casado, C. Téllez and J. Coronas (Zaragoza, Spain) .....	42
Purification of oligosaccharides obtained from <i>Pinus pinaster</i> hemicelluloses by diafiltration M.J. González-Muñoz, V. Santos and J.C. Parajó (Ourense, Spain) .....	48
Absorption of coal combustion flue gases in ionic liquids using different membrane contactors J. Albo, P. Luis and A. Irabien (Santander, Spain) .....	54
Hybrid system of nanofiltration, reverse osmosis and evaporation to treat the brine of inland desalination plants M.C. León-Hidalgo, J. Lora-García, J.M. Gozávez-Zafrilla and J.M. Arnal-Arnal (Valencia, Spain) .....	60
Obtaining polymeric composite membranes from lignocellulosic components of sugarcane bagasse for use in wastewater treatment S.C. Nakanishi, A.R. Gonçalves, G. Rocha (Lorena, Brazil), M.L. Ballinas and G. Gonzalez (Chihuahua, Mexico) .....	66
Effect of cellulose fibers on morphology and pure water permeation of PSf membranes T. dos Santos, K.A. Pacheco, P. Poletto (Caxias do Sul), C.S. Meireles (Uberlândia), A.M.C. Grisa and M. Zeni (Caxias do Sul, Brazil) .....	72
Polyamide 66 membranes with PVP addition prepared by phase inversion P. Poletto, J. Duarte, M.B. Thürmer and M. Zeni (Caxias do Sul, Brazil) .....	76
Effect of pH and MWCO on textile effluents ultrafiltration by tubular ceramic membranes S. Barredo-Damas, M.I. Alcaina-Miranda, M.I. Iborra-Clar, J.A. Mendoza-Roca (Valencia, Spain) and M. Gemma (Rome, Italy).....	81
Removal of inhibitory compounds from olive stone auto-hydrolysis liquors by nanofiltration J.L.C. dos Santos (Caparica and Beja), M.C. Fernandes (Beja), P.M.L. Lourenço (Alvito), L.C. Duarte, F. Carvalheiro (Lisbon) and J.G. Crespo (Caparica, Portugal) .....	90

Effect of microfiltration on bioactive components and antioxidant activity of <i>açaí</i> ( <i>Euterpe oleracea</i> Mart.) A.P. Gil Cruz (Rio de Janeiro), R. de Andrade Mattietto, C.M. Araújo Dib Taxi (Belém), L.M.C. Cabral, C.M. Donangelo, V.M. da Matta (Rio de Janeiro, Brazil) .....	97
Concentration of grape juice ( <i>Vitis labrusca</i> ) by reverse osmosis process I. Santana, P.D. Gurak, V.M. da Matta, S.P. Freitas and L.M.C. Cabral (Rio de Janeiro, Brazil) .....	103
Evaluation of nanofiltration membranes for the retention of anthocyanins of <i>açaí</i> ( <i>Euterpe oleracea</i> Mart.) juice D.S. Couto (Seropédica, Brazil), M. Dornier, D. Pallet, M. Reynes, D. Dijoux (Montpellier, France), S.P. Freitas and L.M.C. Cabral (Rio de Janeiro, Brazil) .....	108
Facilitated transport of valine through bulk liquid membranes containing Aliquat 336: A kinetic study G. León (Cartagena) and M.A. Guzmán (Murcia, Spain) .....	114
Concentration of watermelon juice by reverse osmosis process F. dos Santos Gomes, P.A. da Costa (Seropédica), M.B.D. de Campos (Rio Comprido), S. Couri and L.M.C. Cabral (Guaratiba, Brazil) .....	120
Effect of liquid flow on the separation of propylene/propane mixtures with a gas/liquid membrane contactor using Ag <sup>+</sup> -RTIL solutions M. Fallanza, A. Ortiz, D. Gorri and I. Ortiz (Santander, Spain) .....	123
Concentration of acerola ( <i>Malpighia emarginata</i> DC.) juice by integrated membrane separation process M.M. Pagani, M.H. Rocha-Leão, A.B.B. Couto, J.P. Pinto, A.O. Ribeiro, F. dos Santos Gomes and L.M.C. Cabral (Rio de Janeiro, Brazil) .....	130
Pervaporation through composite membranes with plasma treatment of porous support B. Villagra Di Carlo, J.C. Gottifredi (Salta, Argentina) and A.C. Habert (Rio de Janeiro, Brazil) .....	135
Removal of pesticides and polycyclic aromatic hydrocarbons from different drinking water sources by nanofiltration S. Sanches (Oeiras), A. Penetra, C. Granado, V.V. Cardoso, E. Ferreira, M.J. Benoliel (Lisbon), M.T. Barreto Crespo, V.J. Pereira (Oeiras) and J.G. Crespo (Caparica, Portugal) .....	141
Study of membrane ageing and grafting mechanisms using electron paramagnetic resonance F.R.P. Oliveira (Caparica), C.T. Matos (Lisbon), J.J.G. Moura, C.A.M. Portugal and J.G. Crespo (Caparica, Portugal).....	150
Electrochemical characterization of an ultrafiltration regenerated cellulose/polypropylene supported membrane V. Romero, L. Peláez, M.I. Vázquez and J. Benavente (Málaga, Spain) .....	159

## Issues 2–3

Sugar reduction in white and red musts with nanofiltration membranes N. García-Martín (Valladolid), S. Perez-Magariño, M. Ortega-Heras, C. González-Huerta (Rueda), M. Mihnea, M.L. González-Sanjosé (Burgos), L. Palacio, P. Prádanos and A. Hernández (Valladolid, Spain) .....	167
Development of EMC-based empirical model for estimating spatial distribution of pollutant loads Jianghua Yu (Chungnam), Kyung Sok Min (Daegu) and Youngchul Kim (Chungnam, Korea).....	175
Modification of the extended Spiegler–Kedem model for simulation of multiple solute systems in nanofiltration process G. Vakili-Nezhaad (Kashan, Iran, and Muscat, Oman) and Z. Akbari (Kashan, Iran) .....	189
Effects of various characteristics of seawater on the performance of dual media filters Seung-Hyun Kim, Jutmas Ksewsuk, Gyu-Tae Seo (Changwon, Korea).....	197
Photocatalytic degradation of Acid Red 1 dye using ZnO catalyst in the presence and absence of silver B.H. Hameed, U.G. Akpan and K.P. Wee (Penang, Malaysia) .....	204
Design aspects of small-scale photovoltaic brackish water reverse osmosis (PV-BWRO) system P. Poovanaesvaran, M.A. Alghoul, K. Sopian, N. Amin, M.I. Fadhel and M. Yahya (Selangor Darul Elhsan, Malaysia) .....	210
Potential of nanoparticles for water purification: a case-study on anti-biofouling behaviour of metal based polymeric nanocomposite membrane S. Kar, M. Subramanian, A.K. Ghosh, R.C. Bindal, S. Prabhakar, J. Nuwad, C.G.S. Pillai, S. Chattopadhyay and P.K. Tewari (Mumbai, India) .....	224
Outside skin tubular ultrafiltration membranes for separation of proteins and polysaccharides and removal of turbidity from seawater S. Prabhakar, A.K. Ghosh, R.C. Bindal and P.K. Tewari (Mumbai, India) .....	231

The combination and optimization study on RB29 dye removal from water by peroxy acid and single-wall carbon nanotubes K. Nadafi, A. Mesdaghinia, R. Nabizadeh, M. Younesian and M.J. Rad (Tehran, Iran) .....	237
On the controversial effect of sodium sulphate as supporting electrolyte on electrocoagulation process: A review D. Ghernaout (Blida) and B. Ghernaout (Laghouat, Algeria) .....	243
Modeling in desalination—electro-dialysis reversal M.T. Myint, A. Ghassemi and N. Nirmalakhandan (Las Cruces, NM, USA) .....	255
Alternative treatment of urban wastewater using electrochemical oxidation A.A. Zorpas (Paralimni, Cyprus) .....	268
Coalescence filtration of ship oil bilge water with an nonwoven fabric J. Gutteter-Grudziński (Szczecin) and A. Moraczewski (Lodz, Poland) .....	277
Simulation of indigo carmine dye adsorption on polymer doped sawdust in fixed-bed systems Deli Liu and Dezhi Sun (Harbin, China) .....	285
Synthesis, characterization and performance of membranes for clarification of lemon juice P.M. Chornomaz, N.A. Ochoa (San Luis), C. Pagliero and J. Marchese (Córdoba, Argentina) .....	294
Copper and silver impregnated carbon nanotubes incorporated into cyclodextrin polyurethanes for the removal of bacterial and organic pollutants in water L.P. Lukhele, R.W.M. Krause, Z.P. Nhlabatsi, B.B. Mamba (Doornfontein) and M.N.B. Momba (Pretoria, South Africa) .....	299
Ozone oxidation of desalinated seawater, with respect to optimized control of boron and bromate S. Sarp (Gwangju, Korea), B. Stanford, S.A. Snyder (Henderson, NV, USA) and J. Cho (Gwangju, Korea) .....	308
Experimental study on the effect of internal and external reflectors on the performance of basin type solar stills at various seasons A.J.N. Khalifa and H.A. Ibrahim (Baghdad, Iraq) .....	313
Spent mushroom: a new low-cost adsorbent for removal of Congo Red from aqueous solutions Xiuli Tian, Chuang Li, Huaijin Yang, Zhixiang Ye and Heng Xu (Chengdu, China) .....	319
Forward osmosis for applications in sustainable energy development S. Gormly (Albany, OR), J. Herron, M. Flynn, M. Hammoudeh and H. Shaw (Moffett Field, CA, USA).....	327
Aerobic treatment of oilfield wastewater with a bio-contact oxidation reactor Mang Lu (Jingdezhen), Xiaofang Wei (Beijing) and Youming Su (Tianjin, China).....	334
Author Index.....	341
