**Volume 282**

Performance of polymeric nanofiltration membranes for non-aqueous systems:  
experimental results and modeling  
Hong Shi, Limeng Li, Jiahui Lu, Shengyuan Xu, Xiaoyang Hu, Rongxian Zhang,  
Guoxing Zhu, Weihua Zhu (China) ..... 1

Antimicrobial thin-film composite polyamide nanofiltration membrane with high desalination and  
flux performance manufactured through a novel UV light driven photoreduction method  
that generates dispersed silver nanoparticles  
Shanshan Dong, Xiping Zhang, Ying Xiong, Xuhui Mao, Xin Wu, Na Li,  
Shengyun Yang, Helin Hua (China) ..... 10

Pervaporation of the polydimethylsiloxane composite membranes  
filled with hydroxy-terminated silicone oil modified nano-silica  
Wenwen Sun, Bingbing Li, De Sun, Hongwei Lin, Rui Xiao, Haotian Liu (China) ..... 23

Experimental study on freezing-based methods in treating simulated high salt organic wastewater  
Hui Yang, Ying Zheng, Rui Wang, Yanzhuo Shi, Chunyuan Tian, Ru Shi, Xiaofang Tang (China) ..... 33

Experimental research and performance analysis of an improved solar still  
with a solar concentrator and heat recovery units  
Mingxian Chen, Yanling Jiang, Junming Ruan, Geng Wei, Hongfei Zheng, Zhengliang Li (China) ..... 44

Thermal analysis of water distillation system using PV/T collector combined single basin still  
V.V. Hoang, B.T. Nguyen, H.D. Ho (Vietnam) ..... 53

Experimental study of a solar desalination unit based on humidification–dehumidification  
by underground condensation  
A. Ajengui, R. Ben Radhia, S. Saidi, B. Dhifaoui, S. Ben Jabrallah (Tunisia) ..... 70

Performance enhancement of single basin solar still using a composite vertical wick configuration  
D. Sivasankar, S. Subramani, D.K. Murugan (India) ..... 80

Treatment of mixed domestic–industrial wastewater by combined coagulation–sedimentation,  
biological processes and advanced oxidation  
A. Abdo (Egypt) ..... 86

Genetic algorithm optimized back propagation artificial neural network for a study  
on a wastewater treatment facility cost model  
Gaiqiang Yang, Yunfei Xu, Lijuan Huo, Dongpeng Guo, Junwei Wang, Shuang Xia,  
Yahong Liu, Qi Liu (China) ..... 96

Factorial design and optimization of pinecone seed powder as a natural coagulant  
for organic and heavy metals removal from industrial wastewater  
M.S.S. Abujazar (Palestinian Authority, Turkey), S.U. Karaağaç (Turkey), S.S. Abu Amr (Oman),  
S. Fatihah, M.J.K. Bashir (Malaysia), M.Y.D. Alazaiza (Oman), A. Yusof (Malaysia),  
M.M. Abou Auda (Palestinian Authority) ..... 107

Modification of sunflower seeds waste biochar by Mg and its application  
for Cr(VI) adsorption from wastewater  
M.M.M. Mohammadi, F. Akhlaghian (Iran) ..... 118

Adsorption of yttrium(III), neodymium(III), gadolinium(III), samarium(III), and lutetium(III) ions  
using 8-hydroxyquinoline intercalated bentonite  
M.S. Gaber, B.A. Salah, A.T. Kandil (Egypt) ..... 127

Synthesis of functional hydrochar from pinewood wastes through hydrothermal carbonization  
for removal of Pb(II) ions from aqueous solutions  
B.S. Naveen Prasad, K. Saravanakumar (Oman), S. Manickam (UAE),  
R. Senthilkumar (Oman), D.M. Reddy Prasad (Brunei) ..... 139

Removal of Cu <sup>2+</sup> from aqueous solution using three alkyl-amine-modified cellulose absorbents prepared via Schiff base grafting Yu Li, Fei Wang (China) .....	146
Preparation of NaYF <sub>4</sub> :Yb,Tm/TiO <sub>2</sub> /RGO composite and photocatalytic degradation of nitenpyram Mingyue Piao, Huishi Du, Yuwei Sun, Yixuan Wang, Honghui Teng (China) .....	155
Chitosan/WS <sub>2</sub> nanosheets co-assembled aerogels with anisotropic micro-channels for efficient Pb(II) adsorption Yanhao Yuan, Xiangsheng Han, Hongzhen Cai, Keyan Yang, Feng Gao, Chengqian Jin (China) .....	163
Natural bentonite used as low-cost adsorbent for the adsorption pretreatment of coal gasification wastewater: performance comparison and component analysis Huiqin Zhang, Renwei Li, Biming Liu, Xian Zhang, Guangqing Song, Hui Xu, Shuo Zhang, Lu Chen, Shunlong Pan, Shengqiang Hei (China) .....	177
Comparison of direct UV photolysis and advanced oxidation technologies in the degradation efficiencies and kinetics of six typical organic pesticides Yuxia Wang, Yucan Liu, Yan Zhang, Hongwei Sun, Yanxiang Zhang, Wei Li (China) .....	189
Investigations on phosphorus recovery characteristics by active carbon prepared from date stones in aqueous solutions W. Hamdi (Tunisia), N. Hamdi (Tunisia, Oman), S. Jellali (Oman), M. Jeguirim (France), M. Seffen (Tunisia) .....	212
Pine needle biochar loaded with iron-nickel bimetal composite as heterogeneous catalysts to activate peroxydisulfate for efficient degradation of oxytetracycline Yan Chen, Mingyi Liu, Wenwen Fan, Pengfei Xiao (China) .....	220
Effective W/O emulsion performance to extract the antibiotic co-trimoxazole from wastewater M.A. Hussein, D.N. Ahmed, A.S. Kadhim, S.L. Kareem (Iraq) .....	237
Activation of <i>Luffa cylindrica</i> with particulate matter for the removal of fluoride ions from aqueous solutions in a fixed-bed adsorption column J.J. García-Sánchez, M. Solache-Ríos, M.C. Maldonado-Orozco, R. Sánchez-Orozco, O. Soriano-Vargas, J.J. García-García (Mexico) .....	246
Removal of Methylene Blue by synthesized ECD-GO/Fe <sub>3</sub> O <sub>4</sub> composite Mengqi Zhao, Yuxi Chao, Xiaoqing Ma, Dejun Chen, Yinnian Liao (China) .....	258
Preparation of NiFeCu-layered double hydroxide/graphene composite microsphere and its adsorption for dye from aqueous solution Zhuannian Liu, Rui Zhou, Yue Li, Wei Liu, Sheng Liao (China) .....	265
Eco-friendly design of alginate-coated hydroxyapatites for the effective removal of Rhodamine B dye from water: equilibrium, kinetics and thermodynamic study S. Jebri, S. Idoudi (Tunisia), J.M. da Fonte Ferreira (Portugal), I. Khattech (Tunisia) .....	276
Research progress on the formation and disappearance of electrocatalytic oxidation active species and the degradation process of azo dyes Jiping Jia, Yuke Dai, Yixuan Zhang, Jinyu Gou, Honghua Ge, Yuzeng Zhao, Xinjing Meng (China) .....	290
Author Index .....	301
