

Contents Volume 300

Solar interfacial evaporation properties of carbon nanotube polyvinyl alcohol composite surface Yifan Wang, Fengmin Su, Yiming Fan, Yulong Ji, Nannan Zhao (China)	1
Numerical simulation for the influence of water inlet types and inlet velocities on the hydraulic characteristics of a horizontal sedimentation tank Ch. Yang, W. Wei, Y. Hong, Q. Zhang, An. Ma, Pei Zhang (China)	12
Reducing the precipitation fouling of seawater feed to desalination processes using seeding and softening methods A. Alghamdi (Saudi Arabia)	20
UV/Fenton based treatment of paper recycling industry wastewater A. Iftikhar (Pakistan), Q. Mahmood (Pakistan, Bahrain), M.T. Hayat, M. Siddique, B.S. Zeb (Pakistan)	28
Wastewater remediation using activated carbon derived from Alhagi plant A.K. Mohammed, H.F. Hameed, I.M. Rashid (Iraq)	36
Electrochemical-based advanced oxidation for hospital wastewater treatment M.Y.D. Alazaiza (Oman), A. Albahnasawi, M. Eyvaz, D.E. Nassani (Turkey), S.S. Abu Amr (Oman), M.S.S. Abujazar (Palestinian Authority), O. Al-Maskari (Oman)	44
Tellurium-cobalt/polybutylene terephthalate nanocomposites: preparation, analysis and photocatalytic application T. Gul, K. Saeed, Navidullah (Pakistan)	57
Removal of Cd(II) and Pb(II) from aqueous solution using <i>Ziziphus lotus</i> leaves as a potential biosorbent N. El Yakoubi, M. Ennami, Z.N. El Ansari, L. Bounab, F.A. Lhaj, M.L. El Kbiach, B. El Bouzdoudi (Morocco)	65
Exploring the kinetics, thermodynamics, and isotherms of sodium naproxen uptake by oak-based activated carbon with ultrasonic enhancement A.M. Al-Ma'abreh, M. AlKhabbas, G. Edris, M.Kh. Haddad, D.A. Hmedat, R.A. Abuassaf, S.H. Hussein-Al-Ali, S. Alawaideh, A.A. Lagum (Jordan)	75
Removal of sulfamethoxazole and tetracycline in water using polyvinylidene fluoride membrane modified with polyethyleneimine Mixuan Ye, Tao Hu, Haidong Zhou, Xinxuan Xu, Tianyu Wu, Zuxin Wang, Jingyuan Zhang (China)	84
Removal of formaldehyde in water with low concentration of hydrogen peroxide catalyzed by lanthanum-silicon oxide composite Qingguo Ma, Siyang Shi, Fengfan Yang, Xuan Zhang (China)	101
Parametric and non-parametric kriging techniques for delineating water quality in the major cities of Pakistan Z. Javed, S. Chand, M. Suhail (Pakistan)	107
Long-term effect of copper and tetracycline on the performance and sludge characteristics of anoxic-aerobic sequencing batch reactor with integrated sludge disintegration E. Gürtekin (Turkey)	115
Effective adsorption of 2-nitroaniline from wastewater applying mesoporous material MCM-48: equilibrium, isotherm, and mechanism investigation A.E. Mahdi, N.S. Ali, H.Sh. Majdi, T.M. Albayati, M.A. Abdulrahman, D.J. Jasim, K.R. Kalash, I.K. Salih (Iraq)	120
Identification and quantification of microplastics in sea water and sea salt collected from sea salt ponds E.B.P. Putri, A. Syafiuddin, S.A. Aini, I. Iswahyudi, M.P. Garfansa (Indonesia)	130
Effective removal of Congo Red dye from aqueous solution using activated MgO-nanoparticles T.E. Rasilingwani, J.R. Gumbo, V. Masindi, K.L. Muedi, R. Mbhele (South Africa)	136

Tailoring activated carbons based cocoa pods lignocellulosic materials for Reactive blue 19 adsorption: optimization, adsorption isotherm and kinetic investigation A. Zemfack Mekuiko, D.R. Tchui fon Tchui fon, P.A. Nanssou Kouteu (Cameroon), C.G. Fotsop (Germany), C. Sadeu Ngakou, H.-I. Tiotsop Kuete, A. Bopda (Cameroon), A. Kamdem Tamo (Germany), S.G. Anagho (Cameroon)	144
Electrochemical oxidation of methyl blue dye using stainless steel rotating cylinder anode A.B. Salman, S.N. Abdulqahar (Iraq)	158
Methylene blue removal using black cumin seeds waste: experimental study and molecular dynamic simulation F. Benamraoui, H. Boudiaf, A. Bouhank, L. Bencheikh, R. Bourzami (Algeria), A. Gil, A.-I. Boulahbal (Spain), M. Boutahala (Algeria)	167
Acacia saligna leaves: a potential new low-cost adsorbent for removal of methylene blue from aqueous solutions M.C. Terkhi, A. Belhaine, F. Abdelmalek, M.R. Ghezzar, A. Addou (Algeria)	178
Sustainable approaches for dye removal using enzymatic hydrolysis residue of corncob as an adsorbent Guilong Yan, Yuzhen Zhou, Xinyi Zhao, Jianguo Wu, Ci Jin, Liqin Zhao, Wei Wang, Ying Chen, Xiaoya Yao (China)	192
Adsorption of neutral red and malachite green onto soybean dregs: influencing factors and thermodynamic studies Wei Li, Shiyao Wang, Lingling Zeng, Xuesong Wang, Zhixin Li, Yanbing Liu, Liya Zhu, Yingjie Dai (China)	199
Synthesis of graphene oxide–magnesium oxide composites and cationic dyes removal from water N. Behzad, O. Moradi, H. Raissi, M. Hakimi, S. Mozaffari (Iran)	213
Photocatalytic performance of Ag ₃ PO ₄ /BiOBr heterojunctions induced by effective interfacial charge separation Qian Zhang, Youmei Li, Junbo Zhong, Jianzhang Li (China)	230
Study of TiO ₂ /Fe ₃ O ₄ -SAC/PVDF membrane for dye wastewater treatment under "double carbon" target Enran Fan, Ping Fang, Lu Wen, Nan Wang, Min Zhao, Yan Li (China)	237
Author Index	248
