*Selected Papers Presented at Challenges in Environmental Science and Engineering (CESE-2010)
Total Water Management for the Sustainability of Freshwater in the Future
26 September – 1 October 2010, The Sebel, Cairns, Queensland, Australia*

Editorial

V. Jegatheesan, L. Shu (Townsville, Australia), H.K. Shon (Broadway, Australia), L.D. Nghiem (Wollongong, Australia) and Chia-Yuan Chang (Tainan, Taiwan)	1
Landfill-leachate treatment by simultaneous partial nitrification, anammox and denitrification (SNAD) process Chih-Cheng Wang, Mathava Kumar, Chien-Ju Lan and Jih-Gaw Lin (Hsinchu City, Taiwan)	4
Fractionation and potential risk of heavy metals in surface sediment of Nansi Lake, China Zhi jian Li, Qin yan Yue (Jinan), Heng Ni (Beijing) and Bao yu Gao (Jinan, China)	10
Screening of potential hyperaccumulator for cadmium from contaminated soil N. Rungruang, S. Babel and P. Parkpian (Pathum Thani, Thailand)	19
Effect of suspended solids in secondary wastewater effluent on DOC removal by enhanced coagulation A. Aryal, A. Sathasivan and Weixi Zhan (Bentley, Australia)	27
Determination of head loss progress in dual-media BOPS-sand filter using numerical modeling incorporated with matrix approach A. Jusoh, M.N.A. Rajiah, A. Nora'aini and E. Azizah (Kuala Terengganu, Malaysia)	33
Removal of 2,4-dichlorophenol as herbicide's by-product by Fenton's reagent combined with an electrochemical system T. Methatham (Bangkok, Thailand), Ming-Chun Lu (Tainan, Taiwan) and C. Ratanatamskul (Bangkok, Thailand).....	42
Occurrence of β -blockers and β -agonists in hospital effluents and their receiving rivers in southern Taiwan Tsung-Hsien Yu, Angela Yu-Chen Lin, Xiao-Huan Wang and Cheng-Fang Lin (Taipei, Taiwan)	49
Occurrence and fate of pharmaceuticals and personal care products in Taiwan's aquatic environment Angela Yu-Chen Lin, Yu-Ting Tsai, Tsung-Hsien Yu, Xiao-Huan Wang and Cheng-Fang Lin (Taipei, Taiwan)	57
Study on the antipollution of phreatic system in Northern Shaanxi, China Yunfeng Li (Xi'an, China), Weifeng Wan (Zhengzhou, China), Song Jin (Laramie, WY, USA), Yaoguo Wu, Yaqiao Sun and Yanan Zhou (Xi'an, China)	65
Optimal combined operation of production and barrier wells for the control of saltwater intrusion in coastal groundwater well fields J. Sreekanth and B. Datta (Townsville, Australia)	72
Simulated annealing based simulation-optimization approach for identification of unknown contaminant sources in groundwater aquifers M.K. Jha and B. Datta (Townsville, Australia).....	79
North Queensland regional power independence and a superb new water supply for Cairns S. Aeberhard (Cairns, Australia).....	86
Effect of temperature on onset of nitrification in chloraminated distribution system D.C. Sarker and A. Sathasivan (Perth, Australia).....	95
Evaluation of second order and parallel second order approaches to model temperature variation in chlorine decay modelling A. Jabari Kohpaei, A. Sathasivan and H. Aboutalebi (Perth, Australia).....	100
Effectiveness of parallel second order model over second and first order models A. Jabari Kohpaei, A. Sathasivan and H. Aboutalebi (Perth, Australia).....	107
Modeling urea biodegradation in activated sludge using combined respirometric–titrimetric measurements M.A. Hoque and V. Aravinthan (Toowoomba, Australia).....	115

Evaluating waste concrete for the treatment of acid sulphate soil groundwater from coastal floodplains G. Regmi, B. Indraratna, L.D. Nghiem and L. Banasiak (Wollongong, Australia).....	126
Organic matter removal from biologically treated sewage effluent by flocculation and oxidation coupled with flocculation S. Saminathan (Jaffna, Sri Lanka), Hong Liu (Hubei, China), T.V. Nguyen and S. Vigneswaran (Broadway, Australia)	133
Comparison of kinetic models for predicting phosphate adsorption onto spent alum sludge in a continuous fixed-bed column Yao-Sen Chen, Wei-Chin Chang (Touliu), Shun-Hsing Chuang (Taichung) and Shih-Min Chiang (Hsing-Ying, Taiwan)	138
Nitrous oxide emissions from a typical northern Chinese municipal wastewater treatment plant Jinhe Wang, Jian Zhang, Jing Wang, Pengyu Qi, Yangang Ren and Zhen Hu (Jinan, China).....	145
Investigation of the water purification efficiency of land treatment system by using microbial community as an index Yu-Kang Yuan, Chih-Min Huang (Yunlin) and Jung-Han Cheng (Kaohsiung, Taiwan)	153
Analysis of iron ore sinter particles (IOSP) on the treatment of wastewater by a biological aerated filter Li-Hui Huang, Tao Yang, Yuan-Yuan Sun and Da-Chuan Zhao (Jinan, China).....	161
Preliminary development of a sewerage infrastructure buffer assessment tool for engineering risk and strategic land use planning J.L. Cheong (Brisbane), P. O'Flaherty (Gold Coast), L. Dawes and Y. Foong (Brisbane, Australia)	169
Simultaneous wastewater decoloration and fly ash dechlorination during the dye wastewater treatment by municipal solid waste incineration fly ash Qiang Liu, Yingmei Zhou, Luquan Zou, Tao Deng, Jia Zhang, Ying Sun, Xiuxiu Ruan, Ping Zhu and Guangren Qian (Shanghai, China)	179
Removal of natural organic matter (NOM) by the coagulation–ultrafiltration system using an inorganic–organic composite coagulant Yan Wang, Bao-Yu Gao (Jinan), Yong-Bao Chu, Xu-Zhi Zhou (Qingdao) and Qian Wang (Jinan, China)	187
Removal of effluent organic matter by purolite fluidised bed and submerged membrane hybrid system R.T. Ahmad, T.V. Nguyen, S. Vigneswaran and D.P. Ho (Broadway, Australia).....	194
Application of air flow for mitigation of particle deposition in submerged membrane microfiltration M. Pradhan, R. Aryal, S. Vigneswaran and J. Kandasamy (Broadway, Australia).....	201
Water quality of membrane filtered rainwater B. Kus, J. Kandasamy, S. Vigneswaran, H.K. Shon (Broadway, Australia) and N. Areerachakul (Bangkok, Thailand).....	208
In-situ monitoring of polysulfone membrane formation via immersion precipitation using an ultrasonic through-transmission technique Ying Cai, Jianxin Li, Xiuwei Zhang and Yuzhong Zhang (Tianjin, China).....	214
In situ monitoring of membrane fouling in spiral-wound RO modules by UTDR with a sound intensity modeling Genghong An, Jiebin Lin, Jianxin Li and Xiqi Jian (Tianjin, China).....	226
Treatment of saline aqueous solutions using direct contact membrane distillation L.D. Nghiem, F. Hildinger, F.I. Hai (Wollongong, Australia) and T. Cath (Golden, CO, USA)	234
The potential of a polysulfone (PSF) nanofiltration membrane as the end stage treatment technology of aquaculture wastewater N. Ali, N. Abdul Hanid and A. Jusoh (Terengganu, Malaysia)	242
Preparation and characterization of a polysulfone ultrafiltration membrane for bovine serum albumin separation: Effect of polymer concentration N. Ali, H. Sofiah, A. Asmadi and A. Endut (Terengganu, Malaysia).....	248
Effect of a longer cleaning-frequency period on nanofiltration membrane fouling for long-term water supply production T. Methatham and C. Ratanatamskul (Bangkok, Thailand).....	256
Removal of PFOA by hybrid membrane filtration using PAC and hydrotalcite R. Rattanaoudom and C. Visvanathan (Pathumthani, Thailand).....	262
Physiological responses of three plant species exposed to excess ammonia in constructed wetland Cong Li, Bo Zhang, Jian Zhang, Haiming Wu, Huijun Xie, Jingtao Xu and Pengyu Qi (Jinan, China)	271
Variability of soil microbial respiration under different vegetation succession stages in Jiuduansha wetland Yushu Tang, Lei Wang, Jianwei Jia, Yanli Li, Wenquan Zhang, Hongli Wang, Xiaohua Fu and Yiquan Le (Shanghai, China).....	277

Measuring treatment effectiveness of urban wetland using hybrid water quality – Artificial neural network (ANN) model G. Singh, J. Kandasamy, H.K. Shon (Sydney, Australia) and J. Cho (Gwangju, Korea)	284
Influence of non-point source pollution on water quality of Wetland Baiyangdian, China Yingxia Li, Junhua Ma, Zhifeng Yang (Beijing) and Inchio Lou (Macau, China).....	291
SWOT analysis to assist identification of the critical factors for the successful implementation of water reuse schemes B. Mainali, H.H. Ngo, W.S. Guo, T.T.N. Pham (Sydney, Australia), X.C. Wang (Xi'an, China) and A. Johnston (Sydney, Australia)	297
Thermodynamic analysis of an urban water system with reclaimed water as supplemental water resource Xiaochang C. Wang, Li Luo, Rong Chen (Xi'an, China) and Huu Hao Ngo (Sydney, Australia).....	307
Treatment of coal seam gas produced water for beneficial use in Australia: A review of best practices L.D. Nghiem, T. Ren, N. Aziz, I. Porter and G. Regmi (Wollongong, Australia)	316
Superiority of date seed ash as an adsorbent over other ashes and ferric chloride in removing boron from seawater A.J. Al-Ithari, A. Sathasivan, R. Ahmed, H.B. Vuthaluru, Weixi Zhan (Perth, Australia) and M. Ahmed (Al-Khod, Oman)	324
CORMIX simulations of brine discharges from Barka plants, Oman A. Purnama, H.H. Al-Barwani (Al-Khod, Oman), T. Bleninger (Karlsruhe, Germany) and R.L. Doneker (Portland, OR, USA)	329
Comparison of different pretreatments for seawater desalination Seung-Hyun Kim, Choong-Sik Min (Kyungnam) and Jaeweon Cho (Gwangju, Korea).....	339
Recovery of nickel with the addition of boric acid using an electrodeposition reactor Chuh-Shun Chen, Yu-Jen Shih, Yao-Hui Huang (Tainan) and Gaw-Haw Huang (Hsinchu, Taiwan)	345
A comparative study of phosphate removal technologies using adsorption and fluidized bed crystallization process Yao-Hui Huang, Yu-Jen Shih, Chun-Chi Chang (Tainan) and Shun-Hsing Chuang (Taichung, Taiwan).....	351
Coal mine site investigation of wastewater quality in Australia R. Thiruvengkatachari, M. Younes and S. Su (Kenmore, Australia)	357
Near infrared spectroscopy as a rapid non-invasive tool for agricultural and industrial process management with special reference to avocado and sandalwood industries B.B. Wedding (Cairns and Townsville), C. Wright (Townsville), S. Grauf (Cairns), R.D. White (Townsville) and P.A. Gadek (Cairns, Australia).....	365
Calculation of storage capacity of geothermal resources by weighted element weight method – A case study of Zhangjiapo Formation in Xi'an Depression Yunfeng Li (Xi'an), Jinlai Ren (Xi'an and Lian Yungang), Yaoguo Wu, Yaqiao Sun, Ya'nan Zhou and Bo Li (Xi'an, China)	373
Solar-powered electrocoagulation system for water and wastewater treatment G. Sharma, J. Choi, H.K. Shon and S. Phuntsho (Broadway, Australia)	381
Roadside rest area wastewater treatment system: Performance evaluation and improvement A. Kiss, F.I. Hai and L.D. Nghiem (Wollongong, Australia)	389
Performance evaluation of chemical precipitation and upflow anaerobic floating filter hybrid processes for piggery wastewater treatment Seunghwan Lee (Gumi, Korea).....	397
Application of activated carbon fibre (ACF) for lead removal in aqueous solution Kwangyong Jung (Gumi), Ankyu Lee (Daejeon) and Seunghwan Lee (Gumi, Korea).....	404
Performance of a 270,000 CMD integrated membrane system for water supply in Taiwan Benson Liao (Taichung), Chia-Yuan Chang (Tainan), Chao-Chang Chang and Tzu-Wen Liu (Taichung, Taiwan).....	411
Nutrient removal from aquaculture wastewater by vegetable production in aquaponics recirculation system A. Endut, A. Jusoh, N. Ali and W.B. Wan Nik (Terengganu, Malaysia)	422
Optimum backwash method for granular media filtration of seawater Seung-Hyun Kim, Hwan-Kyu Lim, Woo-Chang Jeong (Changwon) and No-Suk Park (Daejeon, Korea).....	431
Rectification methods for the fouling of ultrafiltration hollow-fibre membranes as a result of excessive soluble iron M. Manzouri and H.K. Shon (Broadway, Australia)	437

Arsenic removal from water using a modified rutile ore and the preliminary mechanisms Lin Ma and Shuxin Tu (Wuhan, China).....	445
Application of lead flocs fractal dimension by new poly-ferric-silicon coagulant Yanzhen Yu, Yong Sun, Juan Tan and Jichao Zhang (Jinan, China).....	453
Author Index.....	459
