

Overall mass transfer rates during pervaporation: effect of the convective velocity on the separation
E. Nagy, Z. Prettl, L. Hajba and J. Dudás (Veszprém, Hungary) 3455

Alkali-treated fly ash for the removal of fluoride from aqueous solutions
C.K. Geethamani, S.T. Ramesh, R. Gandhimathi and P.V. Nidheesh (Tiruchirappalli, India) 3466

Evaluation of equilibrium, kinetic, and thermodynamic parameters for adsorption of Cd²⁺ ion and methyl red dye onto amorphous poly(azomethinethioamide) resin
T. Vidhyadevi, A. Murugesan, S.S. Kalaivani, M.P. Premkumar, V. Vinoth Kumar (Chennai), L. Ravikumar (Coimbatore) and S. Sivanesan (Chennai, India) 3477

Preparation of zinc tetraaminophthalocyanine sensitized TiO₂ hollow nanospheres and their enhanced photocatalytic properties under visible light
Y. Jiang, L. Guo, W. Zhang, F. Dai, Y. Yan, F. Zhang and H. Lv (Zhenjiang, China) 3489

Preparation and characterization of nanoscale cadmium oxide using bovine serum albumin as green capping agent and its photocatalytic activity
D. Pathania, Sarita, P. Singh (Solan) and S. Pathania (Bhopal, India) 3497

Adsorption of phenol from wastewater by organo-bentonite
C.-Y. Cao, L.-K. Meng and Y.-H. Zhao (Liaoning Jinzhou, China) 3504

The removal of atrazine, simazine, and prometryn by granular activated carbon in aqueous solution
C. Li (Hangzhou), L. Wang (Shanghai) and Y. Shen (Hangzhou, China) 3510

Separation of dimethylformamide/water mixtures through sodium alginate and sodium alginate/clinoptilolite composite membranes by vapor permeation with and without feed-membrane temperature difference
S. Kahya and O. Sanlı (Teknikokullar, Turkey) 3517

Mineralization of Acid Green 50 by Fe₂O₃-Al₂O₃ as a highly active hetero-Fenton catalyst
C. Ramos Preza, S. Silva Martínez, A. Álvarez Gallegos, J. Vergara Sánchez (Cuernavaca), C. Pineda Arellano (Temixco) and R. Rodríguez Díaz (Cuernavaca, Mexico) 3526

Biosorption of crystal violet onto *Cyperus rotundus* in batch system: kinetic and equilibrium modeling
B.K. Suyamboo and R. Srikrishnaperumal (Tiruchirappalli, India) 3535

Optimization, equilibrium, kinetic modeling, and thermodynamic studies of biosorption of aniline blue by the dead biomass of *Aspergillus fumigatus*
G. Baskar, S.K. Pavithra, K. Sheraz Fahad and S. Renganathan (Chennai, India) 3547

Efficient removal and separation of anionic dyes from aqueous medium by the application of reverse micelles of cationic surfactants
C.K. Mangat and S. Kaur (Amritsar, India) 3555

Adsorption of Congo red from aqueous solution onto pyrolusite reductive leaching residue
W. Shen, B. Liao, W. Sun, S. Su and S. Ding (Chengdu, China) 3564

Removal of Cr(VI) ions from wastewater using nanosized ferric oxyhydroxide loaded anion exchanger on a fixed-bed column
N. Li, J. Ren, L. Zhao and Z.-l. Wang (Tianjin, China) 3572

Effects of nitrogen source on enhancing growth conditions of green algae to produce higher lipid
H. Kamyab, C.T. Lee, M.F. Md Din, M. Ponraj, S.E. Mohamad and M. Sohrabi (Johor, Malaysia) 3579

Lab-scale optimization of propylene glycol removal from synthetic wastewater using activated sludge reactor
A. Talaiekhosani (Skudai, Malaysia), S. Jorfi (Tehran, Iran), M.A. Fulazzaky, M. Ponraj, M.Z. Abd Majid (Skudai, Malaysia), A.H. Navarchian, M.R. Talaie and S. Zare (Isfahan, Iran) 3585

Application of a grounded group decision-making (GGDM) model:
a case of micro-organism optimal inoculation method in biological self-healing concrete
A. Keyvanfar, M.Z. Abd Majid, A. Shafaghat, H. Lamit, A. Talaiekhosani, M.W. Hussin, C.T. Lee, R.B.M. Zin and M.A. Fulazzaky (Johor, Malaysia) 3594

Biofiltration process as an ideal approach to remove pollutants from polluted air
M.A. Fulazzaky, A. Talaiekhosani, M. Ponraj, M.Z. Abd Majid, T. Hadibarata (Johor, Malaysia) and A. Goli (Isfahan, Iran) 3600

Application of ion chromatography for the assessment of cadmium adsorption in simulated wastewater by activated carbon
M. Musa, A. Kikuchi, N.E. Ismail, J. Jaafar, Z. Abdul Majid, M.R. Salim (Johor, Malaysia) and K. Tanaka (Hiroshima, Japan) 3616

Application of <i>Proteus mirabilis</i> and <i>Proteus vulgaris</i> mixture to design self-healing concrete A. Talaiekhazani, A. Keyvanfar, R. Andalib, M. Samadi, A. Shafaghat, H. Kamyab, M.Z. Abd Majid, R.M. Zin, M.A. Fulazzaky (Johor), C.T. Lee (Skudai) and M.W. Hussin (Johor, Malaysia)	3623
Bio-composite materials potential in enhancing sustainable construction M.F.A. Yazdi (Skudai), R. Zakaria, M. Mustaffar, M.Z. Abd Majid, R.M. Zin, M. Ismail and K. Yahya (Johor, Malaysia)	3631
Combination effects of ultrasound wave and biocide treatment on the growth of sulfate reducing bacteria (SRB) R. Mohd Rasol, N. Md Noor, N. Yahaya, A. Abdullah, A. Abu Bakar and A.S.A. Rashid (Skudai, Malaysia)	3637
Impact of hydraulic retention time on the performance and archaea populations of an anaerobic reactor treating synthetic Tylosin wastewater S. Chelliapan (Kuala Lumpur, Malaysia), A. Yuzir, M.F.M. Din, A.N. Anuar, M. Ponraj (Skudai, Malaysia) and P.J. Sallis (Newcastle upon Tyne, UK)	3647
Palm oil mill effluent sludge ash as adsorbent for methylene blue dye removal M.A.A. Zaini, T.Y. Cher, M. Zakaria, M.J. Kamaruddin, S.H.M. Setapar and M.A.C. Yunus (Johor, Malaysia)	3654
Removal of formaldehyde from polluted air in a biotrickling filter reactor A. Talaiekhazani, M.A. Fulazzaky, M. Ponraj and M.Z. Abd Majid (Johor, Malaysia)	3663

***Selected papers presented at the
11th Scientific Conference on Microcontaminants in Human Environment
25–27 September 2013, Wisla, Poland***

Chromium as an inhibitor of PAHs degradation in deposited sewage sludge M. Włodarczyk-Makuła (Częstochowa, Poland)	3672
The impacts of aluminum and zirconium nano-oxides on planktonic and biofilm bacteria N. Chrzanowska and M. Załęska-Radziwiłł (Warsaw, Poland)	3680
Comparison of the dynamics of natural biodegradation of petrol and diesel oil in soil P. Szarlip, W. Stelmach, K. Jaromin-Gleń, A. Bieganski, M. Brzezińska, A. Trembaczowski, S. Hałas and G. Łagód (Lublin, Poland)	3690
Removal of halogenated by-products precursors in photocatalysis process enhanced with membrane filtration A. Włodyka-Bergier (Krakow), M. Rajca (Gliwice) and T. Bergier (Krakow, Poland)	3698
Application of white-rot fungi for biodegradation of refractory organic compounds – a review M. Łebkowska and M. Załęska-Radziwiłł (Warsaw, Poland)	3708
Use of stripping tower and reverse osmosis in removal of petroleum hydrocarbons from water J. Piekutin and I. Skoczko (Białystok, Poland)	3714
The optimization of chlorine dose in water treatment process in order to reduce the formation of disinfection by-products I. Zimoch and E. Łobos (Gliwice, Poland)	3719
Hybrid conditioning before anaerobic digestion for the improvement of sewage sludge dewatering P. Wolski and I. Zawieja (Częstochowa, Poland)	3725
Advantages and potential risks of municipal sewage sludge application to urban soil E. Wolejko, A. Butarewicz, U. Wydro and T. Łoboda (Białystok, Poland)	3732
Modeling performance of commercial membranes in the low-pressure filtration coking wastewater treatment based on mathematical filtration models K. Mielczarek (Częstochowa), J. Bohdziewicz (Gliwice), M. Włodarczyk-Makuła and M. Smol (Częstochowa, Poland)	3743
Effect of peracetic acid disintegration on the acceleration of hydrolysis process I. Zawieja and M. Barański (Częstochowa, Poland)	3753
Speciation of heavy metals in non-volatile solids of sewage sludge L. Dąbrowska (Częstochowa, Poland)	3761
Use of inorganic coagulants and polyelectrolytes to sonicated sewage sludge for improvement of sludge dewatering B. Bień and J.D. Bień (Częstochowa, Poland)	3767
Analysis of sorptive capabilities of post-flotation dolomites used in insulation barriers construction of dumping sites J. Sobik-Szołtysek and E. Siedlecka (Częstochowa, Poland)	3775
Characteristics of selected fractions of heavy metals in biologically and thermally transformed sewage sludge M. Koncewicz-Baran, K. Orłowska and K. Gondek (Krakow, Poland)	3783
Changes in selected dioxin-like PCB concentration and toxicity in anaerobically stabilized sewage sludge A. Rosińska (Częstochowa, Poland)	3790

Toxic effects of cadmium-spiked sediments in <i>Tubifex tubifex</i> : enzyme biomarkers measurements A. Arendarczyk, A. Jakubowska, A. Zgórska and E. Grabińska-Sota (Gliwice, Poland)	3798
Pesticide residues in berries fruits and juices and the potential risk for consumers E. Wołejko, B. Łozowicka and P. Kaczyński (Białystok, Poland).....	3804
The influence of anthropogenic factors on organic matter content changes in chosen beach ecosystems J. Trojanowski, K. Bigus and J. Antonowicz (Słupsk, Poland).....	3819
Ultrasonic aiding of selected pharmaceuticals removal from wastewater M. Próba, L. Wolny and I. Zawieja (Częstochowa, Poland).....	3832
Photo-Fenton method usage to organic compounds degradation I. Skoczko and J. Piekutin (Białystok, Poland)	3837
Comparison of effectiveness of coagulation with aluminum sulfate and pre-hydrolyzed aluminum coagulants A. Nowacka, M. Włodarczyk-Makuła and B. Macherzyński (Częstochowa, Poland).....	3843
Evaluation of dewatered sludge properties from a selected municipal sewage treatment plant E. Włodarczyk, L. Wolny and P. Wolski (Częstochowa, Poland)	3852
Desorption of PAHs from solid phase into liquid phase during co-fermentation of municipal and coke sewage sludge B. Macherzyński, M. Włodarczyk-Makuła and A. Nowacka (Częstochowa, Poland)	3859
The effective use of EU funds for environmental activities in the Operational Program Infrastructure and Environment (OP I&E) E. Bień and A. Wójcik-Mazur (Częstochowa, Poland).....	3871
Comparison of post-process coke wastewater treatment effectiveness in integrated and hybrid systems that combine coagulation, ultrafiltration, and reverse osmosis K. Mielczarek (Częstochowa), J. Bohdziewicz (Gliwice), M. Włodarczyk-Makuła and M. Smol (Częstochowa, Poland)	3879
Comparison of the retention of selected PAHs from municipal landfill leachate by RO and UF processes M. Smol, M. Włodarczyk-Makuła, K. Mielczarek (Częstochowa) and J. Bohdziewicz (Gliwice, Poland)	3889
Occurrence of volatile organic chlorination by-products in water distribution system in Krakow (Poland) A. Włodyka-Bergier, T. Bergier and M. Kot (Krakow, Poland)	3898
Ecotoxicity of chosen pharmaceuticals in relation to micro-organisms – risk assessment M. Załęska-Radziwiłł, K. Affek and J. Rybak (Warsaw, Poland).....	3908
Effect of redox potential on heavy metals and As behavior in dredged sediments A. Popenda (Częstochowa, Poland)	3918
An assessment of metals content in <i>Phragmites australis</i> (cav.) Trin. Ex steudel grown in natural water reservoirs according to climate zone and salinity A. Astel, K. Obolewski (Słupsk), E. Skorbiłowicz and M. Skorbiłowicz (Białystok, Poland)	3928
Removal of precursors of chlorinated organic compounds in selected water treatment processes M. Wolska (Wrocław, Poland)	3938
Analysis of the sorption complex in sandy soils fertilized with differently dried sewage sludge E. Stanczyk-Mazanek, L. Stepniak and M. Piatek (Częstochowa, Poland)	3947
The potential of biosolid application for the phytostabilisation of metals M. Kacprzak, A. Grobelak, A. Grosser and A. Napora (Częstochowa, Poland)	3955
Occurrence changes of <i>Escherichia coli</i> (including O157:H7 serotype) in wastewater and sewage sludge by quantitation method of (EMA) real time—PCR K.L. Fijalkowski, M.J. Kacprzak and A. Rorat (Częstochowa, Poland).....	3965
Dewatering of initially conditioned excess sludge after fermentation P. Wolski and M. Małkowski (Częstochowa, Poland)	3973
The influence of modification of activated carbon on adsorption of Ni(II) and Cd(II) J. Lach, E. Okoniewska, L. Stepniak and A. Ociepa-Kubicka (Częstochowa, Poland)	3979
Sorption of copper (II) and cadmium (II) ions with the use of algae K. Kipigroch, M. Janosz-Rajczyk and R. Mosakowska (Częstochowa, Poland)	3987
Examples for elimination of selected groups of petroleum-derived compounds from rainwater and meltwater B. Janowska and K. Szymański (Koszalin, Poland)	3993
Changes of metal forms in sewage sludge after EDTA washing B. Karwowska (Częstochowa, Poland).....	4000
Simultaneous removal of PAHs and phenols from coking wastewater under anaerobic conditions M. Janosz-Rajczyk, E. Wiśniowska, J. Płoszaj and S. Wróz (Częstochowa, Poland)	4006
Occurrence of heavy metals and PAHs in soil and plants after application of sewage sludge to soil A. Sieciechowicz, Z. Sadecka, S. Myszograj (Zielona Góra), M. Włodarczyk-Makuła, E. Wiśniowska and A. Turek (Częstochowa, Poland)	4014
Author Index	4027
