

On the use of integrated solar-combined cycle with desalting units in Qatar M. Darwish (Doha, Qatar)	855
Theoretical analysis of a reverse osmosis desalination system driven by solar-powered organic Rankine cycle and wind energy Guanghui Xia, Qingxuan Sun, Jiangfeng Wang, Xu Cao, Yizhao Yu and Laisheng Wang (Xi'an, China)	876
An experimental study of solar thermal vacuum membrane distillation desalination Yongqing Wang, Zhilong Xu (Xiamen, China), N. Lior (Philadelphia, PA, USA) and Hui Zeng (Xiamen, China)	887
Simulation of the transport phenomenon occurring in membrane pores during vacuum membrane distillation Li Xin, Liu Jia and Ren Shuhua (Beijing, China)	898
Treatment of municipal wastewater by a magnetic activated sludge device Zhimei Liu, Zhen Liang, Shengjun Wu and Feng Liu (Chongqing, China)	909
Removal of TOC from fertilizer production wastewater by electrooxidation O.T. Can (Bitlis, Turkey)	919
Treatment of concrete wash wastewater from ready-mix concrete operations A.-M. Mohamed (Abu Dhabi, UAE), W. El Shorbagy (Al-Ain, UAE), I. Mohammed (Dubai, UAE) and E. Abdel Gawad (Cairo, Egypt)	928
Dynamic filtration — influence of different precipitation agents on the filtration performance using an inside-out filtration module C. Loderer, B. Gahleitner (Vienna), A. Woerle (Innsbruck) and W. Fuchs (Vienna, Austria)	940
Effect of pH and inorganic salts on the photocatalytic decolorization of methyl orange in the presence of TiO ₂ P25 and PC500 N. Bouanimba, N. Laid, R. Zouaghi and T. Sehili (Constantine, Algeria)	951
<i>Artocarpus odoratissimus</i> skin as a potential low-cost biosorbent for the removal of methylene blue and methyl violet 2B L.B.L. Lim (Bandar Seri Begawan, Brunei), N. Priyantha (Peradeniya, Sri Lanka), C.H. Ing, M.K. Dahri, D.T.B. Tennakoon, T. Zehra and M. Suklueng (Bandar Seri Begawan, Brunei)	964
Biosorption of indigo from aqueous solution by dead fungal biomass <i>Aspergillus alliaceus</i> E. Khelifi, Y. Touhami, H. Bouallagui and M. Hamdi (Tunis, Tunisia)	976
Anaerobic biodegradation characteristics of estrone, estradiol and 17 α -ethinylestradiol in activated sludge batch tests Zhaohan Zhang, Peng Gao, Hui Su, Peirong Zhan, Nanqi Ren and Yujie Feng (Harbin, China)	985

***Selected papers presented at the International Joint CB-WR-MED Conference /
 2nd AOP'Tunisia Conference for Sustainable Water Management
 24–27 April 2013, Tunis, Tunisia***

Effect of different seasonal conditions on the potential of wetland soils for groundwater denitrification D. Ribas (Manresa and Barcelona), M. Calderer (Manresa), V. Marti (Manresa and Barcelona) and M. Rovira (Manresa, Spain)	994
Wastewater valorization adopting the microalgae accelerated growth B. De Benedetti (Torino), A.C. Barbera (Catania), P. Freni and P. Tecchio (Torino, Italy)	1001
Cytotoxicity bioremoval achieved by a submerged membrane bioreactor operated at pilot scale for the treatment of surfactant wastewater I. Friha, F. Feki, Z. Bouallagui and S. Sayadi (Sfax, Tunisia)	1012

Highly effective oxide catalyst for the detoxification of oil mill wastewaters by the wet air oxidation process F. Arena, D. Lombardo, G. Drago Ferrante, C. Italiano, L. Spadaro and G. Trunfio (Messina, Italy)	1018
Comparative study of the removal of heavy metals by two nanofiltration membranes C. Fersi Bennani and O. M'hiri (Sidi Thabet, Tunisia)	1024
Chemical transformation of ferrihydrite coating into green rust followed by Raman and X-ray photoelectron spectroscopies H. Boumaiza, S. Naille, A. Renard, B. Grégoire, M. Mallet and C. Ruby (Villers-lès-Nancy, France)	1031
Elaboration of membrane ceramic supports using aluminum powder M. Issaoui, J. Bouaziz and M. Fourati (Sfax, Tunisia)	1037
A new approach based on the dynamic evolving neural-fuzzy inference system (DENFIS) for modelling coagulant dosage (Dos): case study of water treatment plant in Algeria S. Heddam (Skikda) and N. Dechemi (Algiers, Algeria)	1045
Assessment of physicochemical water and sediment quality of Sfax-Kerkennah plateau, Tunisia G. Nedja, S.M. Moncef, G. Dorra, M. Khaled and A. Chafai (Sfax, Tunisia)	1054
Rain water harvesting as additional water supply for multi-storey buildings in Arba Minch, Ethiopia F. Feki (Sfax, Tunisia), N. Weissenbacher (Vienna, Austria), E. Assefa, E. Olto, M. Kanko Gebremariam, T. Dalecha, B. Shibru (Arba Minch, Ethiopia), S. Sayadi (Sfax, Tunisia) and G. Langergraber (Vienna, Austria)	1060
Removal of <i>E. coli</i> and enterococci in maturation pond and kinetic modelling under sunlight conditions A. Ouali (Soliman, Tunisia), H. Jupsin, J.L. Vassel (Arlon, Belgium) and A. Ghrabi (Soliman, Tunisia)	1068
The impact of power supply frequency of a low pressure UV lamp on bacterial viability and activities M. Ben Said (Borj-Cedria), M. Ben Mustapha (Tunis) and A. Hassen (Borj-Cedria, Tunisia)	1075
Single and binary adsorption of some heavy metal ions from aqueous solutions by activated carbon derived from olive stones T. Bohli, A. Ouederni (Gabès, Tunisia), N. Fiol and I. Villaescusa (Girona, Spain)	1082
Catalytic ozonation of model organic compounds in aqueous solution promoted by metallic oxides L. Mansouri (Tunis, Tunisia), M. Sabelfeld, S.-U. Geissen (Berlin, Germany) and L. Bousselmi (Tunis, Tunisia)	1089
Utilization of nano size TiO ₂ for degradation of phenol enrich water by solar photocatalytic oxidation T.S. Jamil, T.A. Gad-Allah, M.E.M. Ali (Cairo, Egypt) and M.N.B. Momba (Pretoria, South Africa)	1101
Efficiency of electrochemical denitrification using electrolysis cell containing BDD electrode M. Ghazouani, H. Akrouf and L. Bousselmi (Soliman, Tunisia)	1107
Treatment of dissolved sulfides in water by combined process using ozone and activated carbon A. Lagha and A. Ouederni (Gabès, Tunisia)	1118
Enzymatic degradation of azo dyes using three macrophyte species: <i>Arundo donax</i> , <i>Typha latifolia</i> and <i>Phragmites australis</i> D. Haddaji, L. Bousselmi (Soliman), O. Saadani, I. Nouairi (Hammam-Lif) and Z. Ghrabi-Gammar (Tunis-Mahrajène, Tunisia)	1126
Phthalates accumulation inside an anaerobic membrane bioreactor for landfill leachate treatment A. Zayen, S. Mnif, L. Jlaeil, M. Bouaziz and S. Sayadi (Sfax, Tunisia)	1136
