Scaling and antiscalants

Control of severe membrane silica scaling: investigation and trouble shooting L. Diouri (Louvain la Neuve, Belgium), Lei Wang, Baoxu Wang, Lijun Xu (Beijing, China), Xuebing Ding (Panjin, China) and S. Choo (Louvain la Neuve, Belgium)	3471
Characterization of the inhibitory effectiveness of prominent environmentally friendly anti-scalants H. Shemer and D. Hasson (Haifa, Israel)	3478
Environmentally friendly antiscalant effective in inhibition of scale formation and dispersing organic and colloidal matter in seawater desalination plants I. Marian, N. Adroer, E. Cortada, D. Vidal and J. Aumatell (Barcelona, Spain)	3485
The use of phosphorus-free antiscalants in BWRO desalination plants and brine disposal pipelines S. Bason, I. David, A. Shulman and M. Priel (Tel-Aviv, Israel)	3498

Water quality / Water intake / Water treatment

Techno-economic assessment of boiler feed water production by membrane distillation with reuse of thermal waste energy from cooling water N. Kuipers, R. van Leerdam, J. van Medevoort, W. van Tongeren (Zeist, The Netherlands), B. Verhasselt, L. Verelst, M. Vermeersch and D. Corbisier (Linkebeek, Belgium)	3506
Quality considerations from integrating desalinated water into existing water infrastructure J. Philippou (Lefkosia, Cyprus)	3519
Feasibility of using a subsurface intake for SWRO facility, south of Jeddah, Saudi Arabia S. Al-Mashharawi, A.H.A. Dehwah, K. Bin Bandar (Thuwal, Saudi Arabia) and T.M. Missimer (Fort Myers, FL, USA)	3527
Technical feasibility of a seabed gallery seawater intake at Ras Abu Ali Island, Arabian Gulf, Saudi Arabia R.M. Rachman (Thuwal, Saudi Arabia) and T.M. Missimer (Fort Myers, FL, USA)	3538
Water treatment in a natural mountain catchment (Wapienica dam reservoir, southern Poland) A. Jagus (Bielsko-Biala, Poland)	3547
Innovative ceramic hollow fiber membranes for recycling/reuse of oilfield produced water M. Ebrahimi, S. Kerker, S. Daume, M. Geile (Gießen, Germany), F. Ehlen, I. Unger, S. Schutz (Ludwigsburg, Germany) and P. Czermak (Gießen, Germany and Manhattan, KS, USA)	3554
Fouling potential and reclamation feasibility for a closed landfill leachate treated by various pretreatment processes on membrane system Wen-Shing Chang, Shiao-Shing Chen, Tzi-Chin Chang, Nhat-Thien Nguyen (Taipei), Hsu-Hui Cheng (ChangHua) and Hung-Te Hsu (Taipei, Taiwan)	3568
Multi-variable approach to determine treatment efficiency of wetland: size effect and electro-kinetic effects S. Gupta, R. Singh, P.R. Chakraborty, R.K. Sharma (Jodhpur, India), A.B.O. Soboyejo (Columbus, OH, USA), Xiaohua Wei (Singapore) and A. Plappally (Jodhpur, India)	3576
Comparative analysis of hydrodynamics of treatment wetlands using finite volume models with empirical data R. Singh, S. Gupta (Jodhpur, India), S. Raman (Gandhinagar, India), P. Chakraborty, P. Sharma, R.K. Sharma (Jodhpur, India), L.C. Brown (Columbus, OH, USA), Xiaohua Wei (Singapore) and A. Plappally (Jodhpur, India)	3587

Wastewater treatment

Dual polyelectrolytes incorporating <i>Moringa oleifera</i> in the dewatering of sewage sludge T.A. Mohammad, E.H. Mohamed (Serdang), M.J. Megat Mohd Noor (Kuala Lumpur) and A.H. Ghazali (Serdang, Malaysia)	3613
Effectiveness of salt-extracted freeze-dried <i>Moringa oleifera</i> as a coagulant M.J. Megat Mohd Noor (Kuala Lumpur), E.H. Mohamed, T.A. Mohammad and A.H. Ghazali (Serdang, Malaysia)	3621
Influence of extraction and freeze-drying durations on the effectiveness of <i>Moringa oleifera</i> seeds powder as a natural coagulant E.H. Mohamed, T.A. Mohammad (Serdang), M.J. Megat Mohd Noor (Kuala Lumpur) and A.H. Ghazali (Serdang, Malaysia)	3628
Alternatives to the use of synthetic organic coagulant aids in drinking water treatment: improvements in the application of the crude extract of <i>Moringa oleifera</i> seed B. García Fayos, J.M. Arnal, L. Monforte-Monleon and M. Sancho (Valencia, Spain)	3635
Modeling methylene blue oxidation by means of Fenton chemistry enhanced by UV irradiation at mild conditions L. Jiménez-Lima, S. Silva-Martínez, J.A. Hernández, F.Z. Sierra and A. Alvarez-Gallegos (Cuernavaca, Mexico)	3646
Application of several pretreatment technologies to a wastewater effluent of a petrochemical industry finally treated with reverse osmosis M.C. Vincent-Vela, S. Álvarez-Blanco, J. Lora-García, C. Carbonell-Alcaina and M. Sáez Muñoz (Valencia, Spain)	3653
Treatment of oily wastewater by combining ozonation and microfiltration Z.L. Kiss, L. Kocsis, G. Keszthelyi-Szabó, C. Hodúr and Z. László (Szeged, Hungary)	3662
Financial analysis of NF membranes for upgrading municipal wastewater treatment H.F. Shaalan, M. El Tokhy, A.M. Sharaky, N.M. Abd El-Monem and G.A. Al Bazed (Giza, Egypt)	3670
Other	
Experimental study of air–water up-flow in a packed column using laser Doppler anemometry Y.S. Hernández-Demesa, C.A. Varela-Boydo, F.Z. Sierra-Espinosa, L.F. Ramírez-Verduzco, J.L. Cano-Domínguez and J.A. Hernández (Cuernavaca, Mexico)	3676
Elimination of bio-refractory chlorinated herbicides like atrazine, alachlor, and chlorbromuron from aqueous effluents by Fenton, electro-Fenton and peroxi-coagulation methods C. Lizama-Bahen, A. Álvarez-Gallegos, J.A. Hernández and S. Silva-Martinez (Cuernavaca, Mexico)	3683
Low-temperature organic Rankine cycle engine with isothermal expansion for use in desalination O.N. Igobo and P.A. Davies (Birmingham, UK)	3694
Effect of some physical and chemical properties on the interactions between biopolymers and anionic surfactants M. Nedjhioui, N. Moulai-Mostefa and M. Tir (Médéa, Algeria)	3704
Mathematical simulation to up-scale electrolysis for effective suppression of freshwater cyanobacteria G. Sardool (Kuala Lumpur, Malaysia), Y. Hamatani (Tsukuba, Japan), M. Goto (Tsukuba, Japan and Kuala Lumpur, Malaysia), M.J. Megat Mohd Noor (Kuala Lumpur, Malaysia), M. Utsumi (Tsukuba, Japan), N. Sugiura (Tsukuba, Japan and Kuala Lumpur, Malaysia) and Z. Ujang (Kuala Lumpur, Malaysia)	3713
Membrane separation and sonication in bio-ethanol production M. Ábel, G. Keszthelyi-Szabó, D. Vitay and C. Hodúr (Szeged, Hungary)	3725
Investigation of water decolorization by Fenton oxidation process in batch and continuous systems M. Nurbas and S.B. Kutukcuoglu (Eskisehir, Turkey)	3731
Lipid production by microalgae <i>Chlorella pyrenoidosa</i> cultivated in palm oil mill effluent (POME) using hybrid photo bioreactor (HPBR) H. Kamyab, M.F.M. Din, C.T. Lee, A. Keyvanfar, A. Shafaghat, M.Z. Abd Majid, M. Ponraj and Thian Xiao Yun (Skudai, Malaysia)	3737
Techniques for UF and MF autopsies M. Jefferies and F. Finlayson (Livingston, UK)	3750
Design of a small mobile PV driven RO water desalination plant to be deployed at the northwest coast of Egypt H.A. Shawky, A.A. Abdel Fatah, M.M.S. Abo ElFadl and A.H.M. El-Aassar (Cairo, Egypt)	3755
