

Volume 55 Issue 3

Reverse osmosis membranes for treatment of produced water: a process analysis V. Piemonte (Rome), M. Prisciandaro (L'Aquila), L. Mascis, L. Di Paola and D. Barba (Rome, Italy)	565
Separation of atrazine from water through thin-film composite membranes: influence of salts and surfactants M. Saxena (Lucknow), H. Brahmhatt (Bhavnagar), D. Anjali Devi (Lucknow) and A. Bhattacharya (Bhavnagar, India)	575
Enhancement of upper basin distillate output by attachment of vacuum tubes with double-basin solar still H.N. Panchal and P.K. Shah (Ahmedabad, India)	587
Synthesis of nanostructured ZnO loaded on carbon cloth as high potential adsorbent for copper ion F. Joodaki, S. Azizian and S. Sobhanardakani (Hamedan, Iran)	596
Synthesis of a novel adsorbent, hydrous bismuth oxide (HBO ₂) for the removal of fluoride from aqueous solutions A.L. Srivastav, P.K. Singh and Y.C. Sharma (Varanasi, India)	604
Application of response surface methodology (RSM) to optimize operating conditions during ultrafiltration of oil-in-water emulsion M. Sadeghian, M. Sadeghi (Isfahan, Iran), M. Hesampour (Espoo, Finland) and A. Moheb (Isfahan, Iran)	615
Optimization preparation of activated carbon from <i>Enteromorpha prolifera</i> using response surface methodology and its adsorption studies of fluoroquinolone antibiotics Yuan Gao, Qinyan Yue, Baoyu Gao and Yuanyuan Sun (Jinan, China)	624
Comparison between diffusional and first-order kinetic model, and modeling the adsorption kinetics of pyridine onto granular activated carbon R. Leyva-Ramos, R. Ocampo-Pérez, J.V. Flores-Cano and E. Padilla-Ortega (San Luis Potosi, Mexico)	637
Catalytic wet hydrogen peroxide oxidation of phenolic compounds in coffee wastewater using Al-Fe-pillared clay extrudates Y.M. Peralta, N.R. Sanabria, J.G. Carriazo, S. Moreno and R. Molina (Bogota, Colombia)	647
Solar-light induced photodecolorization of water soluble azo-azomethine dye: influence of operational parameters and nanophotocatalysts H. Khanmohammadi and K. Rezaeian (Arak, Iran)	655
Sorption characteristics of peat from Brunei Darussalam for the removal of rhodamine B dye from aqueous solution: adsorption isotherms, thermodynamics, kinetics and regeneration studies H.I. Chieng, L.B.L. Lim (Gadong, Negara Brunei, Darussalam) and N. Priyantha (Peradeniya, Sri Lanka)	664

**Selected papers presented at the 13th International Conference on
 Environmental Science and Technology (CEST 2013)
 5–7 September 2013, Athens, Greece.....**

Effect of cross-flow velocity on membrane filtration performance in relation to membrane properties C.H. Koo, A.W. Mohammad and F. Suja' (Bangi, Malaysia)	678
Effects of sludge particles on performance of enhanced backwash for fouling reduction in anaerobic membrane bioreactors D.E. Lee, J.H. Kweon, H.S. Kim, K.Y. Lee, K.Y. Park and J.H. Song (Seoul, Korea)	693
Control of fouling in MBRs through nanospheres addition D. Scannapieco, V. Naddeo and V. Belgiorno (Fisciano, Italy)	702

A novel tool for control of odour emission in wastewater treatment plant S. Giuliani, T. Zarra, V. Naddeo and V. Belgiorno (Fisciano, Italy)	712
New pretreatment media filtration for SWRO membranes of desalination plants A.A. Bakr and W.A. Makled (Cairo, Egypt)	718
Drinking water treatment by in situ generated ferrate(VI) Jia-Qian Jiang, H.B.P. Durai (Glasgow, UK), R. Winzenbacher (Langenau, Germany), M. Petri (Sipplingen, Germany) and W. Seitz (Langenau, Germany)	731
Mathematical modelling of competition and coexistence of sulfate-reducing bacteria, acetogens, and methanogens in multispecies biofilms M.R. Mattei (Cassino), B. D'Acunto (Naples), G. Esposito (Cassino), L. Frunzo and F. Pirozzi (Naples, Italy)	740
“Green” scale inhibitors in water treatment processes: the case of silica scale inhibition K.D. Demadis and M. Preari (Heraklion, Crete, Greece)	749
Offline bioregeneration of spent activated carbon loaded with real produced water and its adsorption capacity for benzene and toluene P. Roccaro, G. Lombardo and F.G.A. Vagliasindi (Catania, Italy)	756
Simultaneous removal of Cu ^{II} , Ni ^{II} and Zn ^{II} by a granular mixture of zero-valent iron and pumice in column systems S. Bilardi, P.S. Calabro and N. Moraci (Reggio Calabria, Italy)	767
Removal of <i>Escherichia coli</i> and heavy metals from aqueous solutions using silver-modified clinoptilolite L. Akhigbe, S. Ouki and D. Saroj (Guildford, UK)	777
Analysis of real-scale experiences of novel sewage sludge treatments in an Italian pilot region M. Ragazzi, E.C. Rada and R. Ferrentino (Trento, Italy)	783
Partial nitrification of nitrogen-rich refinery wastewater (sour water) with different C ₄ /N molar ratios S. Milia, M. Perra, A. Muntoni and A. Carucci (Cagliari, Italy)	791
Coprecipitation of vanadium with iron(III) in drinking water: a pilot scale study P. Roccaro and F.G.A. Vagliasindi (Catania, Italy)	799
Determination of phytoplankton density, and study of the variation of nutrients and heavy metals in the surface water of Riva Stream; one of the water sources of Istanbul, Turkey N. Yilmaz, I.I. Ozyigit, G. Demir and I.E. Yalcin (Istanbul, Turkey)	810
Effect of heterotrophic activities on nitrous oxide emission during nitrification under different aeration rates Lei Shen, Yuntao Guan and Guangxue Wu (Shenzhen, China)	821
The role of ferrate(VI) in the remediation of emerging micropollutants: a review Jia-Qian Jiang (Glasgow, UK)	828
Preparation and evaluation of layered double hydroxides (LDHs) for phosphate removal Jia-Qian Jiang and S.M. Ashekuzaman (Glasgow, UK)	836
Author Index	844
