

Application of response surface and Taguchi optimization techniques to air gap membrane distillation for water desalination—A comparative study A.E. Khalifa and D.U. Lawal (Dhahran, Saudi Arabia) .....	28513
Effect of electric field intensity on the performance of poly(piperazine amide) nanofiltration membranes Runlin Han (Panjin and Dalian), Shouhai Zhang and Xigao Jian (Dalian, China) .....	28531
Aerobic granular sludge to treat paper mill effluent: selection of ideal strains that contribute to the formation of strong aggregates I.L.H. Morais, C.M. Silva, A.G do Nascimento (Viçosa), N.P. Filho and J.C.T. Dias (Ilhéus, Brazil) .....	28537
Analysis of greenhouse gas emissions and the energy balance in a model municipal wastewater treatment plant J. Mikosz (Kraków, Poland) .....	28551
Usability of powdered activated carbon for landfill leachate treatment—continued research D. Kulikowska (Olsztyn, Poland).....	28560
Control of agricultural non-point source pollution in Fuxian lake with riparian wetlands Jin Xu (Nanjing, China), Shang Lien Lo (Taipei, Taiwan), Ran Gong and Xiao Xu Sun (Nanjing, China) .....	28570
Performance and bacterial community structure of an anoxic/oxic membrane bioreactor treating anaerobically digested piggery wastewater Lijie Zhou (Shenzhen), Ming Zhao, Liang Feng, Xin Wang, Xiaoyin Xu and Siqing Xia (Shanghai, China) .....	28581
<i>Lecane tenuiseta</i> (Rotifera, Monogononta) as the best biological tool candidate selected for preventing activated sludge bulking in a cold season E. Fiałkowska, A. Pajdak-Stós, J. Fyda, W. Kocerba-Soroka and M. Sobczyk (Kraków, Poland).....	28592
Biokinetic coefficients of anaerobic immersed membrane bioreactor (AnIMBR) treating dairy wastewater M.H. Al-Malack and G.R. Aldana (Dhahran, Saudi Arabia).....	28600
Recent developments in forward osmosis membrane bioreactors: a comprehensive review M. Eyvaz (Kocaeli), T. Aslan (Istanbul), S. Arslan, E. Yüksel (Kocaeli) and İ. Koyuncu (Istanbul, Turkey) .....	28610
Neural network approach for predicting solar still production using agricultural drainage as a feedwater source A.F. Mashaly and A.A. Alazba (Riyadh, Saudi Arabia) .....	28646
Optimization of sludge dewatering process by inorganic conditioners under mild thermal treatment Yi Han, Min Zhou, Sha Wan, Fei Xue, Anna Liang, Jiabin Yuan and Haobo Hou (Wuhan, China) .....	28661
Development of a hybrid water treatment process using forward osmosis with thermal regeneration of a surfactant draw solution M. Hoyer, R. Haseneder and J.-U. Repke (Freiberg, Germany).....	28670
Comparative assessment of green supply chain management (GSCM) in drinking water service industry in Lao PDR, Thailand, and South Korea Dong Hak Park, P. Kashyap and C. Visvanathan (Klong Luang, Thailand) .....	28684
Formation of disinfection by-products during chlorine dioxide pre-oxidation of chironomid larvae metabolites followed by chlorination Biyao Song, Xingbin Sun (Harbin), Yifeng Jiang (Hangzhou), Yanpeng Li (Harbin) and Lu Che (Beijing, China) .....	28698
A survey on the present status of sustainable technologies for water pollutant abatement B. Panda (Noida, India).....	28705
Effects of Cu <sup>2+</sup> on biological process of wastewater treatment plant (WWTP) in electroplating industrial park Qinxue Wen, Qiong Wang, Zhiqiang Chen, Xinqi Li and Yu Tian (Harbin, China) .....	28715

Electrocoagulation of tissue paper wastewater and an evaluation of sludge for pyrolysis U. Tezcan Un, S. Topal and F. Ates (Eskisehir, Turkey) .....	28724
Quality of packaged drinking water in Kolkata City, India and risk to public health S. Ray, P.K. Roy and A. Majumder (Kolkata, India).....	28734
Effects of temperature on N <sub>2</sub> O production in the process of nitrogen removal by micro-expansion aerobic granular sludge Li-Li Chen, Zhi-Dan Wen, Wei-Hua Wang, Hong Liang and Da-Wen Gao (Harbin, China) .....	28743
Effect of shock oxidation on nitrification in raw water distribution system Kun Xiang, Yanling Yang, Xing Li, Da Zhang, Zhiwei Zhou, Yongwang Liu and Shuai Wang (Beijing, China) .....	28749
Study of the impact of combination of ZnO nanoparticles with ultraviolet radiation (photocatalytic process) on the removal of anionic surfactant linear alkyl benzene sulfonate (LAS) from aqueous solutions using Taguchi statistical method T. Razavi, A. Fadaei, M. Sadeghi and S. Shahsavan Markadeh (Shahrekord, Iran) .....	28755
Adsorption of bentazon on two kinds of granular activated carbons: equilibrium, kinetic and thermodynamic studies Xingya Wei, Naiyun Gao, Changjun Li (Shanghai), Jing Deng (Hangzhou), Yanping Zhu and Qiongfang Wang (Shanghai, China) .....	28762
Removal of IBMP using ozonation: role of ozone and hydroxyl radical Shumin Zhu, Bingzhi Dong, Naiyun Gao and Jin Jiang (Shanghai, China) .....	28776
Nature of the degradation products of phenol which produce high levels of color in the wastewater oxidized in a photo-Fenton system N. Villota, J.M. Lomas and L.M. Camarero (Vitoria-Gasteiz, Spain) .....	28784
Equilibrium and kinetics studies of adsorption phosphate on raw and novel lithium silica fume based adsorbent Yuguo Lai, Wenju Jiang, Zhishan Yang, Xianpeng Hao and Ruzhen Xie (Chengdu, China) .....	28794
Adsorption performance of modified graphene oxide nanoparticles for the removal of toluene, ethylbenzene, and xylenes from aqueous solution A. Azizi, A. Torabian (Tehran), E. Moniri (Pishva), A.H. Hassani and H.A. Panahi (Tehran, Iran) .....	28806
Optimization studies on degradation of monocrotophos in an immobilized bead photo reactor using design of experiment K. Sivagami, R. Ravi Krishna and T. Swaminathan (Chennai, India).....	28822
Comparative evaluation of packed-bed performance of biomass ashes as adsorbents for removal of diuron from aqueous solution S.K. Deokar, S.A. Mandavgane (Nagpur) and B.D. Kulkarni (Pune, India) .....	28831
Techno-economic evaluation of simultaneous arsenic and fluoride removal from synthetic groundwater by electrocoagulation process: optimization through response surface methodology L.S. Thakur and P. Mondal (Roorkee, India) .....	28847
Adsorption and removal of diethyl phthalate from aqueous media with poly(hydroxyethyl methacrylate) nanobeads E. Tümay Özer, A. Göçenoğlu Sarıkaya and B. Osman (Bursa, Turkey).....	28864
Green synthesized Fe <sub>3</sub> O <sub>4</sub> nanoparticles as a magnetic core to prepare poly 1, 4 phenylenediamine nanocomposite: employment for fast adsorption of lead ions and azo dye M.H. Beyki, M. Shirkhodaie (Tehran), M.A. Karimi (Kerman), M.J. Aghagoli and F. Shemirani (Tehran, Iran) .....	28875
Synthesis, characterization, and application of magnetic-activated carbon nanocomposite (m-Fe <sub>3</sub> O <sub>4</sub> @ACCs) as a new low-cost magnetic adsorbent for removal of Pb(II) from industrial wastewaters M.R. Sovizi, M. Eskandarpour and M. Afshari (Tehran, Iran) .....	28887
High efficient removal of lead(II) and nickel(II) from aqueous solution by novel polysulfone/Fe <sub>3</sub> O <sub>4</sub> -talc nanocomposite mixed matrix membrane P. Moradihamedani (Serdang), K. Kalantari (Kuala Lumpur), A.H. Abdullah (Serdang) and N.A. Morad (Kuala Lumpur, Malaysia) .....	28900
Kinetic and isotherm studies for adsorption of Pb(II) from aqueous solution onto coconut shell activated carbon G.E. Sharaf El-Deen and S.E.A. Sharaf El-Deen (Inshas, Egypt).....	28910

Bio-physical removal of heavy metal from aqueous solution S.R.M. Kutty, E.H. Ezechi, S.G. Khaw, C.L. Lai and M.H. Isa (Perak, Malaysia).....	28932
Environmental remediation of Cr(VI) solutions using Ni-bismuth oxyiodide nanospheres E.S. Baeissa (Jeddah, Saudi Arabia) .....	28939
Enhanced As(III) removal at low concentrations by the combined pre-oxidation and nanofiltration membrane process Qiao Wang, Guang-shan Zhang, Han Chen and Peng Wang (Harbin, China) .....	28947
Efficient removal of methylene blue from aqueous solutions by an ordered mesoporous HPMo-SiO <sub>2</sub> Huawen Wang, Xiaofeng Peng, Cheng Zhou and Yiwei Wu (Huangshi, China).....	28957
Adsorption removal of methylene blue (MB) dye from aqueous solution by bio-char prepared from <i>Eucalyptus sheathiana</i> bark: kinetic, equilibrium, mechanism, thermodynamic and process design S. Dawood, T.K. Sen and Chi Phan (Perth, Australia).....	28964
Effective adsorption of cationic dye from aqueous solution using low-cost corncob in batch and column studies S.M.H. Gardazi (Abbottabad, Pakistan), T.A. Butt (Hail, Saudi Arabia), N. Rashid (Lahore, Pakistan), A. Pervez, Q. Mahmood, M.M. Shah and M. Bilal (Abbottabad, Pakistan) .....	28981
Removal of brilliant cresyl blue from aqueous solutions using modified zirconia nanoparticles as an adsorbent under ultrasonic action N. Pourreza, R. Mirzajani and M. Taghizadeh-Behbahani (Ahvaz, Iran) .....	28999
Effect of KOH treatment on bituminous coal for the effective removal of Basic Blue 41 dye from aqueous solutions T. Kopac, E. Sulu and A. Toprak (Zonguldak, Turkey).....	29007
Adsorption capability of sawdust of <i>Populus alba</i> for Pb(II), Zn(II) and Cd(II) ions from aqueous solution R. Najam and S.M.A. Andrabi (Srinagar, India) .....	29019
Effects of radical scavengers on humic acid removal by electron beam irradiation T. Jasemizad, M.T. Ghaneian, M.H. Ehrampoush, I. Rezapour, A. Jebali (Yazd) and F. Sahlabadi (Birjand, Iran) .....	29036
The synergistic effect of organic foulants and their fouling behavior on the nanofiltration separation to multivalent ions Fang Gao, Yuxing Sheng, Hongbin Cao, Yuping Li (Beijing), Chunlei Su (Beijing and Xiangtan) and Xiaoli Cui (Jinzhou, China) .....	29044
Author Index.....	29058
