Volume 58

Preparation and characterization of PVC/PAN blend ultrafiltration membranes:
Effect of PAN concentration and PEG with different molecular weight
H. Rabiee, S. Mojtaba Seyedi, H. Rabiei, N. Alvandifar (Iran) and A. Arya (Australia) 1

Empirical parameterization of solar still performance
A.A. Azooz and G.G. Younis (Iraq) 12

Influence of the turbulence model choice on the simulation of active substance dispersion
for the treatment of aquaculture pool invaded by algae
A.F. Moussoh, A. Biget, C. Lemaitre, M.-N. Pons and J.-P. Leclerc (France) 19

The impact of baffle orientation on the performance of the hollow fiber membrane distillation
A.N. Mabrouk (Qatar and Egypt), Y. Elhenawy, M. Abdelkader and M. Shatat (Egypt) 35

Seven-effect 2×4500 m³/d low temperature multi-effect desalination plant.
Part I: Design, installation and commissioning
Chunhua Qi, Houjun Feng, Hongqing Lv, Ke Xu and Yulei Xing (China) 46

Flocculation model applied to adjust operating conditions as flow changes
R.B. Moruzzi, L.S. Manetta and S.C. Oliveira (Brazil) 55

Intensification of catalytic wet air oxidation for industrial effluent treatment
using ozone and ultrasound as pretreatment
H.V. Khare and P.R. Gogate (India) 63

A novel approach for river health assessment of Chambal using fuzzy modeling, India
A. Kumar, M.P. Sharma and S.P. Rai (India) 72

The screening of disinfection by-products in large and small water systems in Greece
S.K. Golfinopoulos and A.D. Nikolaou (Greece) 80

Merit evaluation of disinfection, mineralization, and decolorization of municipal wastewater
by the H₂O₂/UV process for reuse
Hsing Yuan Yen and Tsung Kun Yang (Taiwan) 86

Separation of nickel and cobalt in aqueous solution by Ni²⁺-imprinted chitosan beads:
behavior and mechanism
Na Guo, Wei-yi Sun, Bing Liao, Sang-lan Ding and Shi-jun Su (China) 93

Competitive adsorption of Cd(II) and Pb(II) ions from aqueous solution
onto Iranian hematite (Sangan mine): Optimum condition and adsorption isotherm study
N. Khorshidi and A.R. Azadmehr (Iran) 106

Application of sawdust nanoparticles as a cheap and nontoxic biosorbent
for the removal of lead ions from polluted waters
H. Karami, F. Yaghoobi and F. Goli (Iran) 120

Adsorption of selected hazardous metal ions from aqueous solutions
using synthetic amorphous silico(IV)titanate as cation exchanger
D. Mohamed (Saudi Arabia) and E. Mowafy (Saudi Arabia and Egypt) 129

Removal of hexavalent chromium ions from aqueous solution by amidoxime functionalized wool fibers
Qiaoyu Li, Zhonglong Yin, Min Chen, Sheng Hu and Haiming Cheng (China) 137

Adsorption of Cr(VI) and Cd(II) on chitosan grafted polyaniline-OMMT nanocomposite:
isotherms, kinetics and thermodynamics studies
R. Ahmad, I. Hasan and A. Mittal (India) 144

Removal of lead, copper and cadmium ions from aqueous solution
using raw and thermally modified diatomite
E. Gokirmak Sogut and N. Caliskan (Turkey) 154

Photocatalytic reduction of Cr (VI) in aqueous solution over ZnO/ HZSM-5 nanocomposite:
Optimization of ZnO loading and process conditions
M. Haghighi, F. Rahmani, R. Dehghani, A. Mazaheri Tehrani and M.B. Miranzadeh (Iran) 168

Adsorption of phenol from water on activated carbon prepared from shaddock peel by $ZnCl_2$ and H_3PO_4 : equilibrium, kinetics and thermodynamics Bingzheng Li, Longmei Sun, Jianhua Xue, Chan Zhang, Wei Zheng and Liping Zhang (China)	181
Binary adsorption of phenol and O-cresol from aqueous solution on date palm pits based activated carbon: a fixed-bed column study N.D. Mu'azu, N. Jarrah and M.H. Essa (Saudi Arabia)	192
Artificial neural networks for modeling and optimization of phenol and nitrophenols adsorption onto natural activated carbon Y. El Hamzaoui, M. Abatal, A. Bassam, F. Anguebes-Franseschi, O. Oubram, I. Castaneda Robles and O. May Tzuc (Mexico)	202
Cultivation of phosphorus-removal granules under low organic loading rates – a case report Xiao Ling Zhang, Meng Meng Feng and Peng Zhou (China)	214
Effect of feeding rate and frequency on organics and nitrogen removal in VFCWs with a novel reoxygenation corridor Huaizheng Li, Jun Wu, Yifang Zhou, Weigang Wang and Jian Wang (China)	220
Removal of nitrate from water by bulk liquid membrane M. Pirmoradi and S.N. Ashrafizadeh (Iran)	228
Phosphate removal using aluminum-doped magnetic nanoparticles Jie Xu, Letitia Luu (China) and Yuanzhi Tang (USA)	239
Adsorption of chloride ions from aqueous solution on γ -alumina modified by sodium oxide: an equilibrium and kinetics study M. Gerami, R. Halladj, R. Biriāei, S. Askari and M. Nazari (Iran)	249
Investigation of UV/ H_2O_2 process for removal of ortho-toluidine from industrial wastewater by response surface methodology based on the central composite design A. Shokri (Iran)	258
Removal of methylene blue on soil: an alternative to clay P. Mundada, U. Brighu and A.B. Gupta (India)	267
Adsorption of methylene blue onto activated carbon obtained from $ZnCl_2$ activation of paulownia wood: kinetic and equilibrium studies S. Yorgun, N. Karakehya and D. Yıldız (Turkey)	274
Kinetic, equilibrium and thermodynamic studies for the adsorption of methyl orange using new anion exchange membrane (BII) M.I. Khan, M.A. Khan (China), S. Zafar, M.N. Ashiq, M. Athar, A.M. Qureshi and M. Arshad (Pakistan)	285
Photo-degradation and photo-mineralization of reactive brilliant orange KN-5R by nano-photocatalyst-modified 3D fabrics S.M. Ghoreishian (Iran), M. Norouzi (Canada) and K. Badii (Iran)	298
Application of kaolin- Fe_3O_4 nano-composite for the removal azo dye from aqueous solutions A. Mohagheghian, M. Pourmohseni, R. Vahidi-Kolur (Iran), Jae-Kyu Yang (Korea) and M. Shirzad-Siboni (Iran)	308
Enhancement of crystal violet dye adsorption on <i>Artocarpus camansi</i> peel through sodium hydroxide treatment Hei Ing Chieng, L.B.L. Lim (Brunei) and N. Priyantha (Sri Lanka)	320
Application of AAm/APTAC hydrogels and semi-interpenetrating polymer networks including of PVA in uptake of anionic dye from aqueous solutions Ö.B. Üzümlü, S. Kundakci, G. Çetin and E. Karadağ (Turkey)	332

Selected papers presented at the 2015 International Environmental Engineering Conference (IEEC 2015), October 28–30, 2015, Busan, Korea

Vacuum membrane distillation for deep seawater: experiments and theory Ho Ji, Mi-Yeon Choi, Ho-Seng Lee (Korea), Albert S. Kim (USA) and Hyeon-Ju Kim (Korea)	344
Research perspective of membrane distillation: multi-scale and multi-physics phenomena Albert S. Kim (USA), Seo Jin Ki and Hyeon-Ju Kim (Korea)	351
Computational fluid dynamics simulation of LiquiCel Membrane using OpenFOAM: implication for membrane distillation Albert S. Kim (USA), Min Soo Park and Ji Hee Mi (Korea)	360

Roles of polypropylene beads and photo-oxidation in hybrid water treatment process of alumina MF and photocatalyst-coated PP beads Na Young Kim and Jin Yong Park (Korea)	368
Roles of organic matters, photo-oxidation and adsorption in the hybrid water treatment process of multi-channel ceramic MF and photocatalyst-loaded PES beads B. Amarsanaa and Jin Yong Park (Korea)	376
Heterogeneous oxidation of organics from wastewater: Fe-ZSM-5 prepared by different silicon sources A. Aziz, Sungyoun Kim and Kwang Soo Kim (Korea)	385
Study on 4-bromophenol degradation using wet oxidation in-situ liquid ferrate(VI) in the aqueous phase F.B. Laksono and Il-Kyu Kim (Korea)	391
Environmental performance assessment of waste to energy plants in Europe by using the Cleaner Treatment Concept L.M. Goulart Coelho, H.M. Goulart Coelho and L.C. Lange (Brazil)	399
Evaluation of manganese removal by adsorption for prevention of membrane fouling Songbok Lee and Seungkwon Hong (Korea)	406
Enhanced adsorption of strontium(II) ion from aqueous solution using solid-phase extractant containing TTA and TOPO Chang-Han Lee and Min-Gyu Lee (Korea)	413
Polyethyleneimine functionalized magnetic nanocluster for removal of heavy metal ions in water Kyu Sun Hwang, Chan Woo Park, Kune-Woo Lee, Bum-Kyoung Seo, So-Jin Park and Hee-Man Yang (Korea)	420
Adsorption of zinc (II) onto MnO ₂ /chitosan composite: equilibrium and kinetic studies D. Van-Phuc, L. Ngoc-Chung, N. Van-Dong and N. Ngoc-Tuan (Vietnam)	427
Boron removal from wastewater via coagulation sedimentation with ettringite: an experimental and mechanism study Yuyu Liu, T. Takaya and A. Ohuchi (Japan)	435
Degradation of nine nitrosamines in water by ultraviolet irradiation H. Sakai (Japan), P. Callaud (France), K. Kosaka and S. Takizawa (Japan)	442
Anion-exchange separation of interfering iron from liquid samples for accurate determination of uranium by spectrophotometric method A. Aziz, M. Sajjad (Korea) and B. Mohammad (Pakistan)	449
Author Index.....	454
