Volume 5

Membrane Society of Australasia .....	vii
MoU between the SWCC, Saudi Arabia, and the EDS .....	ix
<i>Issues 1 and 2, Selected papers from EuroMed 2008, Desalination for Clean Water and Energy Cooperation among Mediterranean Countries of Europe and the MENA Region</i>	
Powdered activated carbon for fouling reduction of a membrane in a pilot-scale recirculating aquaculture system V. Jegatheesan, N. Senaratne, C. Steicke (Townsville, Australia) and S.-H. Kim (Masan, Korea) .....	1
A pilot-scale comparison of granular media filtration and low-pressure membrane filtration for seawater pretreatment P.-J. Remize, J.-F. Laroche, J. Leparc and J.-C. Schrotter (Maisons-Laffitte, France) .....	6
On-line LiBr+H <sub>2</sub> O estimation for the performance of a water purification process integrated to an absorption heat transformer V.M. Velazquez, J.A. Hernández, D. Juárez, J. Siqueiros (Cuernavaca, Mexico) and S.F. Mussati (Santa Fe, Argentina) .....	12
Effect of flow rate on water quality parameters and plant growth of water spinach ( <i>Ipomoea aquatica</i> ) in an aquaponic recirculating system A. Endut (Darul Iman), A. Jusoh, N. Ali, W.N.S. Wan Nik and A. Hassan (Terengganu, Malaysia) .....	19
Influence of a high-intensity ultrasonic field on the removal of natural organic compounds from water L. Stępnia, U. Kępa and E. Stańczyk-Mazanek (Częstochowa, Poland) .....	29
Performance evaluation and fouling characterisation of two commercial SWRO membranes I.M. El-Azizi and R.G.J. Edyvean (Sheffield, UK) .....	34
A vibration membrane bioreactor S.C. Low, K.T. Cheong and H.L. Lim (Singapore) .....	42
The challenge of capacity-building strategies and perspectives for desalination for sustainable water use in MENA N. Ghaffour (Al-Khuwair, Sultanate of Oman) .....	48
AirLift MBR for municipal wastewater treatment: out of the box performance H. Futselaar, R. Borgerink, H. Schonewille and R. Rosberg (Enschede, The Netherlands) .....	54
Analysis of the evaporator heat flow rate in a water purification process integrated to an absorption heat transformer with energy recycling R.F. Escobar, J.A. Hernández, C.M. Astorga-Zaragoza, D. Colorado, D. Juárez and J. Siqueiros (Cuernavaca, Mexico) .....	59
More water, less energy and reduced CO <sub>2</sub> emissions — the Larnaca desalination plant E. Koutsakos and D. Moxey (Larnaca, Cyprus) .....	68
Long-term operating experience of Seaguard UF as pretreatment to SWRO in the Mediterranean region F. Knops and R. te Lintelo (Enschede, The Netherlands) .....	74
Statistical design of experiments for dye-salt-water separation study using bimodal porous silica/ $\gamma$ -alumina membrane A.L. Ahmad (Nibong Tebal), C.P. Leo (Bandar Sunway) and S.R. Abd. Shukor (Nibong Tebal, Malaysia) .....	80
Comparing the desalination performance of SMM blended polyethersulfone to SMM blended polyetherimide membranes by direct contact membrane distillation M. Qtaishat (Amman, Jordan), T. Matsuura (Ottawa, Canada), M. Khayet (Madrid, Spain) and K.C. Khulbe (Ottawa, Canada) .....	91
Development of lateral flow membranes for immunoassay separation A.L. Ahmad, S.C. Low, S.R. Abd Shukor (Nibong Tebal), A. Ismail (Kubang Kerian) and A.R. Sunarti (Nibong Tebal, Malaysia) .....	99
Equilibrium study of adsorption of Pb <sup>2+</sup> from aqueous solution onto Algerian bentonite clay S. Dib and M. Boufatit (Algiers, Algeria) .....	106
Appraisal of institutional and policy framework conditions for the use of autonomous desalination units in Jordan M. Saidam (Amman, Jordan), C. Epp and M. Papapetrou (Munich, Germany) .....	111
Boron removal by membrane processes A. Mnif, B. Hamrouni (Manar) and M. Dhahbi (Soliman, Tunisia) .....	119

Optimization of the mechanical vapor compression (MVC) desalination process using mathematical programming S. Mussati, N. Scenna (Santa Fe and Rosario), E. Tarifa, S. Franco (San Salvador de Jujuy, Argentina) and J.A. Hernandez (Cuernavaca, Mexico) . . . . .	124
Effect of recent technological developments on SWRO incorporated in the Red–Dead project P. Glueckstern and M. Priel (Tel Aviv, Israel) . . . . .	132
Dispersion of brine discharge from seawater reverse osmosis desalination plants Y. Fernández-Torquemada, J.M. González-Correa, A. Loya, L.M. Ferrero, M. Díaz-Valdés and J.L. Sánchez-Lizaso (Alicante, Spain) . . . . .	137
Will calcium carbonate really scale in seawater reverse osmosis? T. Waly, S. Saleh, M.D. Kennedy, G.J. Witkamp, G. Amy and J.C. Schippers (Delft, The Netherlands) . . . . .	146
Treatment of pesticides containing effluents using organoclays/nanofiltration systems: rational design and cost indicators H.F. Shaalan (Dokki, Egypt) . . . . .	153
Use of ultrafiltration membranes in the treatment of refinery wastewaters N. Ghaffour (Muscat, Oman), M.W. Naceur (Blida), N. Drouiche (Algiers) and H. Mahmoudi (Chlef, Algeria) . . . . .	159
Influence of the chosen process parameters on the efficiency of seawater desalination: SWRO pilot plant results at Urla Bay seashore E. Guler (Izmir, Turkey), J. Piekacz (Torun, Poland), D. Ozakdag (Izmir, Turkey), W. Kujawski (Torun, Poland), M. Arda, M. Yuksel and N. Kabay (Izmir, Turkey) . . . . .	167
Combined water and power plant (CWPP) — a novel desalination technology F. Mahbub, M.N.A. Hawlader and A.S. Mujumdar (Singapore) . . . . .	172
Degrémont's largest nanofiltration plant: NOM removal at the Vegi 2000 A. Tinghir, V. Bonnelye (Rueil-Malmaison, France) and P. Masereel (Herstal, Belgium) . . . . .	178
Application of forward osmosis in pretreatment of seawater for small reverse osmosis desalination units O.A. Bamaga (Sana'a, Yemen; Corvallis, OR), A. Yokochi (Corvallis, OR) and E.G. Beaudry (Albany, OR, USA) . . . . .	183
Modeling the impact of using multi-port RO pressure vessels in seawater reverse osmosis desalination plants using special simulation software M. Verhuelsdonk, T. Attenborough, O. Lex and T. Altmann (Munich, Germany) . . . . .	192
Phosphate limitation in reverse osmosis: An option to control biofouling? J.D. Jacobson, M.D. Kennedy, G. Amy and J.C. Schippers (Delft, The Netherlands) . . . . .	198
Measuring transparent exopolymer particles (TEP) as indicator of the (bio)fouling potential of RO feed water L.O. Villacorte, M.D. Kennedy, G.L. Amy and J.C. Schippers (Delft, The Netherlands) . . . . .	207
<i>Issue 3</i>	
Combination of an anaerobic process with O <sub>3</sub> , UV and O <sub>3</sub> /UV for cellulose pulp bleaching effluent treatment E.C. Pires and T.J. Momenti (São Paulo, Brazil) . . . . .	213
Stand-alone groundwater desalination system using reverse osmosis combined with a cooled greenhouse for use in arid and semi-arid zones of India P.A. Davies, A.K. Hossain (Birmingham, UK) and P. Vasudevan (New Delhi, India) . . . . .	223
Cleaning kinetics and related mechanisms of <i>Bacillus cereus</i> spore removal during an alkaline cleaning of a tubular ceramic microfiltration membrane P. Blanpain-Avet, C. Faille and T. Bénézech (Villeneuve d'Ascq, France) . . . . .	235
Public–private partnership in water desalination M. Al-Rashed and M. Abdel-Jawad (Safat, Kuwait) . . . . .	252
A method for the in-situ determination of the hydraulic conductivity of gravels as used in constructed wetlands for wastewater treatment P.R. Knowles and P.A. Davies (Birmingham, UK) . . . . .	257
Molecular weight distribution for NOM in different drinking water treatment processes D. An, J.-x. Song, W. Gao, G.-g. Chen and N.-y. Gao (Shanghai, China) . . . . .	267
Treatment of household grey water with a UF membrane filtration system F. Li, H. Gulyas, K. Wichmann and R. Otterpohl (Hamburg, Germany) . . . . .	275
Photodegradation of methylene blue dye using bentonite as a catalyst F. Banat, S. Al-Asheh, R. Zomaout, B. Qtaishat, T. Alateat and S. Almayta (Irbid, Jordan) . . . . .	283
Author index . . . . .	291
