Volume 65

Evaluation of energy production from municipal wastewater using forward osmosis process and anaerobic membrane bioreactor S. Onoda, Y. Masumori, T. Miyoshi, M. Yasukawa, T. Takahashi, H. Matsuyama (Japan)	1
Surface modification of TFC FO membrane using <i>N</i> -isopropylacrylamide (NIPAM) to enhance fouling resistance and cleaning efficiency Byung-Moon Jun, Thi Phuong Nga Nguyen, Yu-Kyung Kim, Hyung Kae Lee, Young-Nam Kwon (Korea)	11
Selection of potential fertilizer draw solution for fertilizer drawn forward osmosis application in Egypt P. Nasr (Egypt), H. Sewilam (Germany)	22
Measurement of transparent Alcian blue-stainable materials in freshwater by a centrifugation-based method Nguyen Thi Thuy (Taiwan and Vietnam), Chihpin Huang, Justin Chun-Te Lin (Taiwan)	31
Metal fixation under soil pollution and wastewater reuse D. Papaioannou, I.K. Kalavrouziotis, P.H. Koukoulakis, F. Papadopoulos, P. Psoma (Greece)	43
Reconstituted and brackish waters desalination by neutralization dialysis process with ion-exchange membranes M. Chérif (France and Tunisia), S. Korchane, L. Chaabane, L. Dammak (France), A. Ben Salah, K. Walha (Tunisia), A. Kozmai (Russia)	52
Laboratory-scale study of the advanced Fenton process for silica removal from brackish underground water in arid areas in Saudi Arabia F. Djouider, M.S. Aljohani (Saudi Arabia)	60
Adaptive neuro-fuzzy model for renewable energy powered desalination plant P. Kofinas, A.I. Dounis, E.Sh. Mohamed, G. Papadakis (Greece)	67
An investigation of desalination research in Saudi universities O.P. Agboola (Saudi Arabia)	79
Treatment of anaerobic membrane bioreactor (AnMBR) effluent using direct contact membrane distillation Lin Chen, Chang Liu, Chuqing Cao, Liang Zhu (China)	89
Synthesis, application, and evaluation of palygorskite porous ceramics as filter media in biological aerated filters Teng Bao (China and Australia), Tianhu Chen (China), M.-L. Wille (Australia), Juan Tan, Dan Zhu, Dong Chen (China)	98
Equilibrium and kinetics of color adsorption on agriculture by-products/wastes (sugarcane bagasse, corncob, saw dust) T. Aftab, F. Bashir, B. Khan, J. Iqbal, R.A. Khan (Pakistan)	109
Predicting scale formation in wastewater disposal well of Rag-e-Safid desalting unit No. 1 M. Bijani, R.M. Behbahani, J. Moghadasi (Iran)	117
Quantitative and qualitative assessment of rainwater harvesting as an alternative water source in semi-industrial areas M.H. Rashidi Mehrabadi, B. Saghafian, H. Ghalkhani (Iran)	125
Initial dilution comparison of wastewater marine outfall diffusers with sharp-edged ports in thick diffuser pipe wall and duckbill check valves S. Nemlioglu, S. Yilmaz (Turkey)	136
Investigation on the implementation of an in situ process for the treatment of coal tar using standard mixture of surfactants in different CaCl ₂ concentrations I. Voukkali, A.A. Zorpas, M. Stylianou (Cyprus), K. Kostarelos (USA)	142
Environmental impact elimination of chrome tanning effluent using electrocoagulation process assisted by chemical oxidation M.A. El-Khateeb, E.-S.H.A. Nashy, N.A. Abdel Ghany, A.M. Awad (Egypt)	147

Optimal design of a new water distribution network using a water supply risk assessment Taeho Choi, Cheolho Bae, Hwisu Shin, Jayong Koo (Korea)	153
Investigation the spatial variability of some important groundwater quality factors based on the geostatistical simulation (case study: Shiraz plain) M. Salari, G. Rakhshandehroo, M. Ehetshami (Iran)	163
Effect of anoxic:oxic ratio on the efficiency and performance of sequencing batch reactor (SBR) system for treatment of wastewater containing direct dye S. Sirianuntapiboon, A. Chaochon, K. Tawisuwan (Thailand)	175
Pollution parameters and identification of performance indicators for wastewater treatment plant of Medea (Algeria) S. Karef, A. Kettab (Algeria), D. Loudyi (Morocco), M.C. Bruzzoniti, M. Del Bubba (Italy), F. Ait Nouh, N. Boujelben (Morocco), L. Mandi (Tunisia)	192
Surface modification of polyethersulfone membranes with goethite through self-assembly I.G. Sandoval-Olvera, L. Villafaña-López, J.A. Reyes-Aguilera, M. Ávila-Rodríguez, T.A. Razo-Lazcano, M.P. González-Muñoz (Mexico)	199
Microbial, chemical and physical properties of drinking water in Bushehr distribution network system A. Raeisi, F. Soleimani, S. Dobaradaran, M. Keshtkar, V. Noroozi Karbasdehi (Iran)	208
Distribution and pollution status of metals in some water bodies of mid-Brahmaputra valley S. Dutta, P. Dutta, U. Devi, K.P Sarma (India)	215
Adsorption kinetics and adsorption isotherms for the elimination of organic micropollutants and dissolved organic carbon from municipal wastewater by activated carbon A. Abels, S. Beier, J. Pinnekamp (Germany)	224
Decolorization of eosin-Y dye using activated carbon electrode prepared from bael fruit (<i>Aegle marmelos</i>) shell N. Mohanraj, S. Bhuvaneshwari (India)	233
Application of MCDM for biologically based management scenario analysis in integrated catchment assessment and management A.R. Keshtkar, B. Asefjah, Y. Erfanifard, A. Afzali (Iran)	243
Spatial distribution characteristics of phosphorus in the overlying water, interstitial and sediment of Lihu Lake, China Shuhang Wang, Tao Wang, Li Zhao, Rong Li (China)	252
Removal of iron and manganese from aqueous solution using some clay minerals collected from Saudi Arabia M.A. Embaby, H.H. Abdel Ghafar, M.M.E. Shakdofa, N.M. Khalil (Saudi Arabia and Egypt), E.K. Radwan (Egypt)	259
Preparation and characterization of chemically activated carbons from different varieties of date stones O. Belaid, A.A. Bebbi, M.L. Sekirifa, L. Baameur (Algeria), A.H. Al-Dujaili (Jordan)	267
Photocatalytic degradation of COD in dairy wastewater using CuO nanoparticles P. Amirian, E. Bazrafshan, A. Payandeh (Iran)	274
Preparation of polymeric aluminum ferric silicate for the pre-treatment of oily wastewater through response surface method Mengdan Tang, Yongjun Sun, Chengyu Zhu, Yanhua Xu, Huaili Zheng, Xuefeng Xiao, Wenquan Sun, Huifang Wu, Cuiyun Liu (China)	284
Rapid malachite green removal from aqueous solution by natural zeolite: process optimization by response surface methodology M. Tanyol (Turkey)	294
Adsorption of red nylosane solution on natural materials A. Ouldoumna, N. BENDERDOUCHE (Algeria), L. Reinert (France), B. Bestani (Algeria), L. Duclaux (France)	304
Optimization and mechanism study of C.I. Acid Blue 25 wastewater degradation by ozone/Fenton oxidation process: response surface methodology, intermediate products and degradation pathway Yongjun Shen, Qihui Xu, Jiaming Shi, Mi Li, Yan Zhang (China)	313
Synthesis and adsorption study of NiO nanobelts for removal of anionic dyes Yi-Biao Shao, Jian-Hua Huang (China)	327
Comparative studies on the adsorptive removal of Acid Violet-17 dye from aqueous solution by using zinc aluminium carbonate – LDH (ZAC-LDH) and modified LDH K. Manjula Rani, P.N. Palanisamy (India)	337

Adsorption of methylene blue dye by pyrolytic tire char in fixed-bed column V. Makrighianni, A. Giannakas, D. Hela, M. Papadaki, I. Konstantinou (Greece)	346
Evaluation of removal efficiency of fluoride from aqueous solutions using synthesis of nano-scale alumina on multi walled carbon nanotube (MWCNTs): equilibrium and kinetic studies H. Zarei, S. Nasser, R. Nabizadeh Noudehi, S. Pourfadakari, F. Shemirani, A.H. Mahvi (Iran)	359
Synthesis and characterization of amino-functionalized magnetic nanocomposite (Fe ₃ O ₄ -NH ₂) for fluoride removal from aqueous solution A. Norouzian Baghani, A.H. Mahvi, N. Rastkari, M. Delikhoon, S. Sadat Hosseini, R. Sheikhi (Iran)	367
Fluoride ion removal from aqueous solution, groundwater, and seawater by granular and powdered <i>Conocarpus erectus</i> biochar F. Papari, P. Rouhi Najafabadi, B. Ramavandi (Iran)	375
Removal of inorganic nickel and organic compounds from source water by enhanced coagulation Jian Yuan, Boyu Wang, Tao Sun (China).....	387
Cometabolism of p-nitrophenol by phenol-oxidizing <i>Ralstonia eutropha</i> : the involved kinetics N. Etebari Alamdari, A. Habibi, F. Vahabzadeh (Iran)	394
UV/H ₂ O ₂ oxidation process optimization by response surface methodology for removal of polycyclic aromatic hydrocarbons (PAHs) from water A. Malakahmad, L.L.H. Ho (Malaysia)	408
Adsorption of nitrate using diatomite-supported ferric oxide nanoparticles: determination of optimum condition, kinetics, and adsorption isotherms S. Dehestaniathar, S. Amini, A. Maleki, B. Shahmoradi, N. Reshadmanesh, P. Teymouri (Iran)	418
Optimization of chromium extraction from aqueous solutions by emulsion liquid membrane E.A. Fouad, F. Ahmad, N. Ahmed (Saudi Arabia)	428
Adsorption of Cr(VI) and methyl orange from aqueous solutions by quaternized chitosan immobilized bentonite Pan Hu, Jing Wang, Ruihua Huang (China)	435
Biosorption of lead from aqueous solution onto <i>Nasturtium officinale</i> : performance and modeling A. Almasi, F. Navazeshkha, S.A. Mousavi (Iran)	443
Photocatalytic degradation of tetrabromobisphenol A with a combined UV/TiO ₂ /H ₂ O ₂ process Xingxing Peng, Wanying Li, Jiejing Chen, Xiaoshan Jia (China)	451
Sustainable development of water resources based on wastewater reuse and upgrading of treatment plants: a review in the Middle East V. Kazemi Moghaddam, F. Changan, A. Mohammadi, M. Hadei, R. Ashabi, L. Ebrahimi Majd, A.H. Mahvi (Iran)	463
Author Index	474
