***Selected papers presented at the EDS conference on Desalination for the Environment:  
Clean Water and Energy, Rome, Italy, 22–26 May 2016***

Advanced characterization of dissolved organic matter released by bloom-forming marine algae Z.U. Rehman, S. Jeong, S.A.A. Tabatabai, A.-H. Emwas, T. Leiknes (Saudi Arabia) .....	1
Potential of Donnan dialysis water purification processes D. Hasson, R. Semiat, H. Shemer (Israel) .....	12
Influence of amine functionalization of silica particles fillers on the morphology and water permeation of polyethersulfone nanocomposite ultrafiltration membranes A. Martín, J.M. Arsuaga, N. Roldán, A. Martínez, A. Sotto (Spain) .....	18
Ultrafiltration membranes from novel low-fouling copolymers for RO pretreatment applications (Part II) M. Heijnen, A. Gukova, M. Rummel, M. Weber, D. Vial, P. Berg (Germany) .....	29
Application of membrane filtration for integrated production of ethanol and carboxylic acids from pre-treated straw M. Kuglarz, K. Grübel (Poland) .....	35
Effects of shear rate on membrane filtration S. Kertész, P. Bor, C. Hodúr, J. Csanádi, G. Veréb, I. Kovács, G. Keszthelyi-Szabó, Z. László (Hungary) .....	43
Evaluation of DOW™ ultrafiltration operation at low temperatures S. Das, E. Jové, V. Gomez, V. Garcia-Molina (Spain) .....	50
Modified titanate nanotubes incorporated polyamide layer for the fabrication of fouling control thin film nanocomposite forward osmosis membranes R. Kumar, H. Al-Jabli, S. Al-Haddad, M. Al-Rughaib, J. Samuel (Kuwait) .....	56
Effect of manufacture conditions on reverse osmosis desalination performance of polyamide thin film composite membrane and their spiral wound element A.-H.M. El-Aassar, M.M.S. Abo ElFadl, M.E.A. Ali, Y.H. Kotp, H.A. Shawky (Egypt) .....	65
Surface modification of polyamide membrane with silane compounds and its effect on the performance of reverse osmosis L. Johanna, A Ram Kim, Jae Hoon Jung, Tae Yun Lee, Jea-Keun Lee, Jun-Heok Lim, Yong Sun Won (Korea) .....	72
Surface modification of polyamide membranes using the layer-by-layer technique: characterization and antifouling potential V. Kochkodan, Y. Manawi, D. Johnson, A.K. Fard, M. Atieh (Qatar) .....	84
Modeling of a spiral-wound reverse osmosis process and parameter estimation M.A. Al-Obaidi (UK and Iraq), C. Kara-Zaitri, I.M. Mujtaba (UK) .....	93
A hybrid photocatalysis and ceramic membrane filtration process for humic acid degradation: Effect of pore size and transmembrane pressure Lili Song (China), Bo Zhu, V. Jegatheesan, S. Gray, M. Duke, S. Muthukumaran (Australia) .....	102
A comparison of a blower and a Venturi aeration system in a submerged membrane bioreactor N. Kayaalp, G. Ozturkmen, E. Gul, E. Gunay (Turkey) .....	109
Treatment of dye solutions by DL nanofiltration membrane D. Kavak (Turkey) .....	116
IEX and BMED hybrid process for dilute organic acids recovery: identification of key steps to manage energy consumption M. Jaouadi (France and Tunisia), J. Ding (France), A. Hannachi (Tunisia), L. Muhr (France) .....	123
Capacitive deionization of aqueous solutions: modeling and experiments Yu.M. Volkovich, D.A. Bograchev, A.A. Mikhailin, A.Yu. Rychagov, V.E. Sosenkin (Russia), Daewook Park (Korea) .....	130

Composite cation-exchange resins containing zirconium hydrophosphate for purification of water from U(VI) cations Y.S. Dzyazko (Ukraine), O.V. Perlova, N.A. Perlova, Yu.M. Volkovich, V.E. Sosenkin (Russia), V.V. Trachevskii (Ukraine), V.F. Sazonova (Russia), A.V. Palchik (Ukraine) .....	142
The influence of organic matter on fluoride removal efficiency during the electrodialysis process M. Grzegorzec, K. Majewska-Nowak (Poland) .....	153
A comparative performance ranking of some phosphonates and environmentally friendly polymers on CaCO <sub>3</sub> scaling inhibition by NACE protocol K. Popov, G. Rudakova, V. Larchenko, M. Tusheva, E. Afanas'eva, S. Kombarova, S. Kamagurov, N. Kovaleva (Russia) .....	163
Calcium carbonate scales on process equipment: A measure of the induction time for nucleation G. Mazziotti di Celso, M. Prisciandaro, D. Karatza, A. Lancia, D. Musmarra (Italy) .....	173
Performance comparison between overlapped and woven spacers for membrane distillation L. Gurreri, A. Tamburini, A. Cipollina, G. Micale, M. Ciofalo (Italy) .....	178
Theoretical and experimental study of multi-effect vacuum membrane distillation systems for liquid desiccant air conditioning and zero liquid discharge F. Kiefer, F. Schummer, A. Präbst, M. Spinnler, T. Sattelmayer (Germany) .....	190
Crevice corrosion behavior of stainless steels and nickel-based alloy in the natural seawater – effect of crevice geometry, temperature and seawater world location A. Meroufel (Saudi Arabia), N. Larché (France), S. Al Fozan (Saudi Arabia), D. Thierry (France) .....	202
Pressure drop of steam condensation flow in vacuum horizontal tube for LT-MEE desalination plant Yaoyuan Wang, Xingsen Mu, Shengqiang Shen, Wenjie Zhang (China) .....	210
Comparative performance evaluation of LT-MEE desalination systems with three feed configurations Shihe Zhou, Shengqiang Shen, Yali Guo, Xingsen Mu (China) .....	217
Optimal operating conditions analysis of a multi-effect distillation plant J.A. Carballo, J. Bonilla, L. Roca, A. de la Calle, P. Palenzuela, M. Berenguel (Spain) .....	229
Falling film evaporation on a vertical corrugated plate conduit in MED J.R. Ebanesar, A. Mani (India) .....	236
A novel process of humidification-dehumidification with brine recirculation for desalination in remote areas of the world M. Capocelli, L. Di Paola, M. De Falco, V. Piemonte, D. Barba (Italy) .....	244
Removal of pharmaceutically active compounds by using low-pressure membrane processes J. Garcia-Ivars, M.-I. Iborra-Clar (Spain), M. Massella (Italy), C. Carbonell-Alcaina, M.-I. Alcaina-Miranda (Spain) .....	252
Preconcentration of heavy metals on multiwalled carbon nanotubes in water samples prior to analysis using FAAS M.S. Algamdi, A.S. Alghamdi, I.H. Alsohaimi, F.D. Allohybi, A.A. Alqadami (Saudi Arabia) .....	261
Heterogeneous catalytic degradation of phenol by a Fenton-type reaction using copper ferrites (CuFe <sub>2</sub> O <sub>4</sub> ) N. Hamdan, M. Abu Haija, F. Banat, A. Eskhan (UAE) .....	268
Preparation of nano-Fe <sub>2</sub> O <sub>3</sub> particles and evaluation of their catalytic activity in adsorption of Pb(II), Mn(II) and Zn(II) from aqueous solution N.A. Youssef, S.A. Shaban, F.A. Ibrahim, A.M. Mahmoud (Egypt) .....	284
Metal-rich sludge from mine water treatment: from waste to effective arsenate adsorbent M. Tagliabue, R. Bagatin, A. Conte, A. Congiu, S. Perucchini, S. Zanardi, M. Bellettato, A. Carati (Italy) .....	294
Enhancement of stability and reactivity of nanosized zero-valent iron with polyhydroxybutyrate S. Waclawek (Czech Republic), L. Chronopoulou, M. Petrangeli Papini (Italy), Vinod V.T.P. (Czech Republic), C. Palocci (Italy), J. Kupčík, M. Černík (Czech Republic) .....	302
Recovery of valuable products from kerf slurry waste – case of photovoltaic industry N. Drouiche (Algeria), P. Cuellar (The Netherlands), A. Lami, S. Aoudj (Algeria) .....	308
Energy and environmental analysis of disposing of concentrate by injecting it back into the deep geological formation B. Tomaszewska, L. Pająk, G. Hołojuch (Poland) .....	316
Waste heat recovery from ship diesel generators for water–energy dual purpose plants M. Capocelli, E. Moliterni, A. Bello, V. Piemonte, L. Di Paola, M. De Falco (Italy) .....	322

The use of full factorial design to model the effects of process parameters on decolorization of Reactive Yellow 15 by using Fe/ZrO <sub>2</sub> catalyst Y. Asci, N. Ayas, E. Aktar Demirtas (Turkey) .....	328
PAHs removal from municipal landfill leachate using an integrated membrane system in aspect of legal regulations M. Smol, M. Włodarczyk-Makuła, B. Skowron-Grabowska (Poland) .....	335
Chemical desorption of non-condensable gases in horizontal-tube bundles for falling film evaporation Luopeng Yang, Yan Yang, Yang Liu, Shengqiang Shen (China) .....	344
Treatment of coke oven wastewater using ozone with hydrogen peroxide and activated carbon A. Kumar, B. Sengupta, M.C. Kannaujiya, R. Priyadarshinee, S. Singha, D. Dasguptamandal, T. Mandal (India) .....	352
Author Index .....	366
