

Contents
Volume 80

Biofouling patterns in spacer filled channels: High resolution imaging for characterization of heterogeneous biofilms M. Staal (The Netherlands), N. Farhat (Saudi Arabia), M. van Loosdrecht (The Netherlands), J. Vrouwenvelder (The Netherlands, Saudi Arabia)	1
Effect of chlorine dioxide (ClO ₂) on polyamide based RO membrane for seawater desalination process: exposure to high concentration of ClO ₂ Jeong Ho Koh, Am Jang (Korea)	11
The influences of deposited silica nanoparticles on a forward osmosis membrane Youngpil Chun (Australia, Singapore), D. Mulcahy (Australia), In S. Kim (Korea), Linda Zou (UAE)	18
Optimization on performance of single-slope solar still linked solar pond via Taguchi method S.J.P. Gnanaraj, S. Ramachandran (India)	27
Geostatistical simulation and the health risk assessment of groundwater quality in south west of Iran M. Sakizadeh (Iran)	41
Decanter system as mechanical treatment for enhancing seawater feed quality at Sabiya power generation and water desalination plant Y. Al-Wazzan, M. Ahmed, M. Al-Tabtabaei, A. Al-Mesri (Kuwait)	53
Effect of a geotextile filter on leachate quality in a recirculated landfill bioreactor C. Yaman, Y. Küçükakağa (Turkey)	61
A novel combined process of MF/PAC coagulation and mineralized refuse adsorption for landfill leachate pretreatment Zhanmeng Liu, Xian Li, Lichun Xu, Rongrong Liu (China)	74
Modelling of long-term permeability of compacted and consolidated clays permeated with leachate M.Ş. Özçoban, T. Ormanci Acar, G. Turkoglu Demirkol, S. Gunes Durak, S.A. Aya, N. Tüfekci (Turkey)	83
Optimization of metal component, characterization, and stability of Cu/Mg/Al-chitosan catalyst in catalytic ozonation of a landfill leachate D. Ranjbar Vakilabadi, B. Ramavandi, A.H. Hassani, G. Omrani (Iran)	89
Stabilization of the urban sludge from sewage plants using carbide lime waste R. Ayeche, A. Messis, A. Balaska, A. Adjebli (Algeria)	100
Use of sludge membrane filters as an alternative method for processing wastewater treatment R.A. Sary El-Deen, H.I. El Shimi, M.M. El-Shafei, S.T. El-Sheltawy (Egypt)	106
Submerged membrane bioreactor for synthetic tomato processing wastewater treatment: membrane foulant and colloidal particles characterization Tong Shu, Kuizu Su, Zhidong Wang, Weihong Wang (China)	113
Impact of decreasing COD/N ratio on nitrogen removal and fouling in a membrane bioreactor for urban wastewater treatment A. Lahdhiri (France, Tunisia), S. Sid, G. Lesage, M. Heran (France)	121
Risk assessment of water supply system safety based on WHO's water safety plan. Case study: Ardabil, Iran M. Aghaei, R. Nabizade, S. Nasserli, K. Naddafi, A.H. Mahvi, S. Karimzade (Iran)	133
Quantitative microbial risk assessment of <i>Giardia</i> cyst and <i>Ascaris</i> egg in effluent of wastewater treatment plants used for agriculture irrigation — a case study K. Sharafi, M. Pirsaeheb, R. Davoodi, H.R. Ghaffari, M. Fazlzadeh, M. Karimaei, M. Miri, K. Dindarloo, A. Azari, H. Arfaeinia (Iran)	142
Efficiencies of solar light, solar/H ₂ O ₂ and solar photo-Fenton processes for disinfection of turbid wastewaters U. Alkan, B. Şengül Topaç, N. Denizli (Turkey)	149

TiO ₂ (rutile and anatase) deposited on ordered mesoporous SiO ₂ : effect of pore size on photocatalytic activity A. Haghghatzadeh, B. Mazinani, M. Shahedi Asl, L. Bakhtiari (Iran)	156
Characteristics and trends in global lead removal research: a Science Citation Index Expanded-based analysis S.R. Kolle, T.H. Shankarappa, M. Arun, T.B. Manjunatha Reddy (India)	164
Highly efficient removal of Pb(II) ion from aqueous phase using surface modified graphene. Equilibrium and kinetic study M. Zubair, N. Jarrah, M.S. Manzar, M.A. Al-Harathi, N.D. Mu'azu (Saudi Arabia)	174
Palm tree leaves usage for biosorption and recovery of heavy metals from wastewater M. Kaakani, M.M. Mortula, M.Y. Abouleish (UAE)	184
Mycoremediation of cadmium from aqueous solution using newly isolated <i>Actinomucor</i> sp.: isotherm and kinetic studies R. Masoudi, M. Basiri, H. Moghimi (Iran)	193
Removal of Ni(II), Cu(II), and Zn(II) ions from aqueous solution using <i>Tetraselmis</i> sp. biomass modified with silica coated magnetite nanoparticles Buhani, Rinawati, Suharso, D.P. Yuliasari, S.D. Yuwono (Indonesia)	203
Removal of Cu(II) from aqueous phase using tailor made sulphur impregnated activated carbon inspired by Claus process K. Anoop Krishnan, K.G. Sreejalekshmi, V.V. Dev, S. Antony, H. Mahadevan (India)	214
Highly efficient capture of Cu(II) by magnetic graphene oxide from aqueous solution: Influences of pH, ionic strength, temperature, soil humic acid and fulvic acid Chengan Jin, Wensheng Linghu, Lianyang Zhang (China), Jun Hu (Saudi Arabia), Yang Jin, Di Xu, Guodong Sheng (China)	223
Fast and efficient chromium(VI) pertraction with Aliquat 336 in emulsion liquid membrane using sunflower oil as a high potential solvent P. Davoodi-Nasab, A. Rahbar-Kelishami, M. Raji-Asadabadi (Iran)	234
Thermodynamic, kinetic and isotherm studies of sulfate removal from aqueous solutions by graphene and graphite nanoparticles A. Naghizadeh, F. Ghasemi, E. Derakhshani, H. Shahabi (Iran)	247
Recent developments in aqueous phase bromate (BrO ₃ ⁻) species treatment using adsorption, reduction, and ion exchange processes A.J. Kedir (Canada), M.S. Vohra (Saudi Arabia)	255
Removal of sodium dodecylbenzenesulfonate from aqueous solution using polyethyleneimine modified bentonite clay N. Öztekin (Turkey)	268
An insight into the prediction of biosorption mechanism, and isotherm, kinetic and thermodynamic studies for Ni(II) ions removal from aqueous solution using acid treated biosorbent: the <i>Lantana camara</i> fruit K. Nithya, A. Sathish, P. Senthil Kumar, T. Ramachandran (India)	276
Removal of nitrate and phosphate from aqueous solution by modified corn straw: characteristics and mechanism Xintian Sui, Guining Lu, Hongyu Lin, Xingchun Duan, Yingying Xie, Wensi Pan, Xiaoyun Yi, Zhi Dang (China)	288
Adsorptive removal of hazardous organic water pollutants by humic acid-carbon hybrid materials: kinetics and isotherm study E.K. Radwan (Egypt, Canada), H.H. Abdel Ghafar (Egypt, Saudi Arabia), A.S. Moursy (Egypt), C.H. Langford (Canada), A.H. Bedair (Egypt), G. Achari (Canada)	297
Evaluation of bromide incorporation into THMs and DHANs from chlorination of algal organic matter Yu Miao, Yanan Zhou, Hongyan Zhai, Fen Wang, Min Ji, Jing Zhang (China)	306
Comparative study of naproxen degradation in water by UV/persulfate and UV/H ₂ O ₂ processes Yu-qiong Gao, Nai-yun Gao, Da-qiang Yin, Ju-xiang Chen (China)	317
Enhancement of synthetic zeolite (crystal-right) adsorption characteristics toward NH ₄ ⁺ by regeneration M. Kukučka, N. Kukučka Stojanović (Serbia), L. Foglar (Croatia)	326
Aniline degradation from aqueous solution using electro/Fe ²⁺ /peroxydisulfate process B. Kamarehie, J. Mohamadian, S.A. Mousavi, G. Asgari, Y. Dadban Shahamat (Iran)	337
Nitrate removal from aqueous solution by almond. Indonesia, shells activated with magnetic nanoparticles M. Arbabi, S. Hemati, Z. Shamsizadeh, A. Arbabi (Iran)	344

Photocatalytic degradation of pentachlorophenol by TiO ₂ supported on mesoporous silica M. Matsumoto, S. Usami (Japan)	352
Study of the performances of low-cost adsorbents extracted from <i>Rosa damascena</i> in aqueous solutions decolorization M. Kermani, H. Izanloo, R. Rezaei Kalantary, H. Salehi Barzaki, B. Kakavandi (Iran)	357
Removal of methyl orange from aqueous solution with crosslinked quaternized chitosan/bentonite composite Pan Hu, Lujie Zhang, Jing Wang, Ruihua Huang (China)	370
Assessment of tetracycline antibiotic removal from hospital wastewater by extended aeration activated sludge A. Neisi, M.J. Mohammadi, A. Takdastan, A.A. Babaei, A.R. Yari, M. Farhadi (Iran)	380
Catalytic degradation of tetracycline by Mo-Fe catalyst Suli Zhi, Liang Tian, Nan Li, Keqiang Zhang (China)	387
Author Index	401
