

Contents
Volume 82

Transport of trace organic contaminants (TrOCs) in pressure-assisted forward osmosis (PAFO) Seungho Kook, In S. Kim (Korea)	1
Fouling inhibition of RO membrane separation by two-stage H ₂ O ₂ /UV pre-oxidation for municipal wastewater reuse Hsing Yuan Yen, Jung Shun Chen, Yowching Liaw, Jung-Hua Chou (Taiwan)	11
Grafting of low cost ultrafiltration ceramic membrane by Tunisian olive oil molecules and application to air gap membrane distillation I. Derbel, M. Khemakhem (Tunisia), S. Cerneaux, M. Cretin (France), R. Ben Amar (Tunisia)	20
Optimization of the operational parameters in a submerged membrane bioreactor using Box Behnken response surface methodology: membrane fouling control and effluent quality M.B. Asif (Pakistan), R. Habib, S. Iftekhar (Finland), Z. Khan, N. Majeed (Pakistan)	26
Generation of positively charged bubbles by dissolved air flotation in aluminum electrolysis solution Tschungil Kim, T. Temesgen, Hyunju Park, Mooyoung Han (Korea)	39
Monitoring water input quality: early screening and system support through the application of an adapted multiple criteria decision making method P. De, M. Majumder (India)	44
Process optimization of an ultrasonic technology combining a CASS reactor for excess sludge minimization Feng Gao, Jun Nan, Tianhao Wu (China)	57
Performance and dynamic modelling of mixed biomass-kaolin packed bed adsorption column for the removal of aqueous phase methylene blue (MB) dye A. Shak, S. Dawood, T.K. Sen (Australia)	67
Cu-doped TiO ₂ -graphene/alginate nanocomposite for adsorption and photocatalytic degradation of methylene blue from aqueous solutions R. Mohammadi, B. Massoumi, B. Emamalinassabb, H. Eskandarloo (Iran)	81
Experimental study and modeling using Super Pro Designer of the elimination of a dispersed azo dye by coagulation-microfiltration F. Balaska, M. Chikhi, A.H. Meniai, N. Chadi, A. Touioui, F. Bouzerara (Algeria)	92
Magnetic NiFe ₂ O ₄ decorated-exfoliated graphite for adsorptive removal of anionic dyes and cationic dyes from aqueous solution B.T.P. Quynh (Vietnam), Sang Hoon Kim (Korea), D.T.Q. Minh, N.T.M. Diep, P.V. Thinh, N.T. Thuong (Vietnam)	101
Degradation of Congo red by integration of supported nanoscale zero-valent iron with photo-catalytic oxidation Guixiang Quan, Hongliang Zhao, Jinlong Yan (China)	114
Potential use of <i>Momordica charantia</i> (bitter melon) waste as a low-cost adsorbent to remove toxic crystal violet dye L.B.L. Lim (Brunei), N. Priyantha, K.J. Mek (Sri Lanka), N.A.H.M. Zaidi (Brunei)	121
Removal of Ba(II) and Sr(II) ions using modified chitosan beads with pendent amidoxime moieties by batch and fixed bed column methods A.F. Shaaban, T.Y. Mohamed, D.A. Fadel, N.M. Bayomi (Egypt)	131
Heavy metals removal from synthetic and shipyard wastewater using <i>Phoenix dactylifera</i> activated carbon R. Foroutan, F. Shakerian Khoo, B. Ramavandi, S. Abbasi (Iran)	146
Comparing cadmium removal efficiency of a magnetized biochar based on orange peel with those of conventional orange peel and unmodified biochar M.H. Salmani, M. Miri, M.H. Ehrampoush, A. Alahabadi, A. Hosseini-Bandegharai (Iran)	157
Sustainable use of autoclaved aerated concrete waste to remove low concentration of Cd (II) ions in wastewater Yuan Zhang, Lixuan Zeng, Yuan Kang, Jiwen Luo, Weijie Li, Qiuyun Zhang (China)	170

Removal of Pb(II) and Cu(II) from aqueous solutions by ultraviolet irradiation-modified biochar Qiao Li, Yutao Gao, Jian Lang, Wenchuan Ding, Yi Yong (China)	179
Removal of Cu(II) and Pb(II) from wastewater using biochar-clay nanocomposite F.E. Soetaredjo (Indonesia), Yi-Hsu Ju (Taiwan), S. Ismadji, A. Ayucitra (Indonesia)	188
Biosorptive removal of Pb(II) and Cd(II) ions from aqueous solution by dried biomass from <i>Ficus religiosa</i> A.-u.-R. Qureshi, U. Farooq, M. Athar, M. Salman, N. Rehmat (Pakistan)	201
Synthesis of a novel ion-imprinted polyaniline/hyper-cross-linked polystyrene nanocomposite for selective removal of lead(II) ions from aqueous solutions F. Saadati, M. Rahmani, F. Ghahramani, F. Piri, H. Shayani-jam (Iran), M.R. Yaftian (Iran, Australia)	210
Binary oxide composite adsorbent for copper, nickel and zinc cations removal from aqueous solutions O.A. Abdel Moamen, H.S. Hassan, E.A. El-Sherif (Egypt)	219
The investigation of Cu(II) removal by biocomposites synthesized with the immobilization of <i>R. delemar</i> and <i>Candida</i> microorganisms M. Erşan, F. Kip, Ü. Açıkel (Turkey)	234
Synthesis and characterization of magnetic nano-porous graphene functionalized with carboxyl for hexavalent chromium adsorption in aqueous solution S. Fathi, R. Rezaei Kalantary, A. Rashidi, A. Karbassi (Iran)	241
Adsorption studies of chromium (VI) on weak base resins Tulsion A-10X (MP) and Amberlyst A-21 (MP) in aqueous and mixed media J.M. Karekar, S.V. Divekar (India)	252
Kinetics and adsorption isotherm for the removal of fluoride and chromium (VI) from wastewater by electrocoagulation S. Aoudj, B. Cheknane, H. Zemmouri, F. Zermane, A. Khelifa, M. Hecini, N. Drouiche (Algeria)	262
Phosphate removal from aqueous solutions using magnetic multi-walled carbon nanotube; optimization by response surface methodology V. Alimohammadi, M. Sedighi, E. Jabbari, M. Nasrollahzadeh (Iran)	271
Removal of 2,4-dichlorophenoxy acetic acid from aqueous solutions by using activated carbon derived from olive-waste cake D. Angin, A. Ilci (Turkey)	282
Performance of Li salts (LiBr + LiI + LiNO ₃ + LiCl) for an absorption cycle of an experimental absorption heat transformer for water purification T. Torres-Díaz, J. Siqueiros (Mexico), A. Coronas, D. Salavera (Spain), A. Huicochea, D. Juárez-Romero (Mexico)	292
Application of catalytic iron for microbial nitrate removal from wastewater Jieting Ma, Yunlu Chen, Gang Luo, Jianxin Nie, Zhigang Guo, Yan Liu (China)	300
Optimization of micro-bubble aeration process for magnesium sulfite oxidation in desulphurization wastewater with response surface methodology Tie Li, Lin Guo, Jiao Zhao, Xiaojia Tang, Yimin Zhu (China)	308
Survey on efficiency of BF/AS integrated biological system in phenol removal of wastewater R. Shokoohi, H. Movahedian, A. Dargahi, A. Jonidi Jafari, A. Parvaresh (Iran)	315
Parameter evaluation of the anodic oxidation of phenol in wastewater using a Ti/RuO ₂ -IrO ₂ anode J. De Coster, L. Appels, R. Dewil (Belgium)	322
Toxicity evaluation of phenol by-products resulted from degradation of phenol by Fe (III)-doped TiO ₂ /UV process S. Hemmati Borji, S. Nasser, R. Nabizadeh, A.H. Mahvi, M.R. Zare (Iran)	332
Landfill leachate treatment in an integrated adsorption-chemical oxidation process including CNT and nZVI-H ₂ O ₂ A. Alighardashi, Z. Kashitarash Esfahani, S. Alizadeh Anbardan (Iran)	338
Harnessing hydroxyl radicals generated by hydrodynamic cavitation reactor in simultaneous removal of chlorpyrifos pesticide and COD from aqueous solution S.B. Randhavane, A.K. Khambete (India)	346
Evaluation of chemical, biological and ecotoxicological characteristics of cresol and its Fenton's degradation products M. Hajian, S.A. Mirbagheri, I. Taqizade, A.H. Javid (Iran)	355

Pulsed ultraviolet light inactivation of pure cultures of indicator and pathogenic bacteria A.H. Andoh, E.D.O. Ansa, G.A. Ansa (Ghana)	362
Feasibility study on decontamination of aged spent wash using activated carbon from <i>Limonia acidissima</i> shell K. Padmanabhan, M. Vasudevan, S. Ramakrishnan, N. Natarajan (India)	369
Insight into the spatial distribution of nutrient elements and sediments fraction analysis in Taihu Lake Min Zhang, Zexin Xu, Gengchen Li, Kun Pi, Peiyu Zhang, Jun Xu (China)	379
Author Index	391
