Study of ultrasonically enhanced chemical cleaning of SWRO membranes at pilot plant scale B. Garcia-Fayos, J.M. Arnal, A. Gimenez, S. Alvarez-Blanco, M. Sancho (Spain)	1
A novel low-fouling zeolite-polysulfone nanocomposite membrane for advanced water treatment H.D. Raval, B.B. Mehta, R.N. Joshi (India)	8
Enhanced fouling resistance of surface-modified alumina membranes by controlling humic acid and negatively charged-organosilane concentrations Jongman Lee, Jang-Hoon Ha, In-Hyuck Song (Korea)	16
Scenarios of RO brines valorization in power plants A. Rehouma, A. Hannachi (Tunisia)	25
Brackish water RO plant as a variable load for renewables based hybrid power system for increased power output R. Nagaraj, D. Thirugnanamurthy, M.M. Rajput, M. Sai Baba (India)	33
Analytical characteristic equation of N identical evacuated tubular collectors integrated single slope solar still D.B. Singh, V.K. Dwivedi, G.N. Tiwari, N. Kumar (India)	41
Experimental and theoretical evaluation of a hybrid solar still integrated with an air compressor using ANN K. Hidouri (Tunisia), D.R. Mishra (India), A. Benhmidene, B. Chouachi (Tunisia)	52
The influence of fouling resistance on the nanocomposite microfiltration process M. Amouamouha, G. Badalians Gholikandi (Iran)	60
Biological nutrient removal and fouling behavior in an UCT-MBR process: synergistic effects of aeration intensity and mixed liquor recycling ratio Zhaozhao Wang, Kai Zhang, Changwen Wang, Lina Yan, Wei Zhang, Fengbing Tang, Simin Li (China)	67
Removal of recalcitrant organic pollutants from bio-treated coking wastewater using coal-based carbonaceous materials Chen Zhang (China), Zuliang Chen (Australia), Jianfeng Li, Yimin Guo, Fangqin Cheng (China)	75
Potential of kaolinite as adsorbent to remove anionic surfactant from simulated industrial wastewater S. Kamal, A. Kamal, T. Shahzad, S. Rehman, M. Azeem, I. Bibi (Pakistan)	85
Studies on the removal of manganese from synthetic wastewaters by nanofiltration – a parametric and modeling study D.S. Patil, J.U. Kennedy Oubagaranadi, S.M. Chavan (India)	93
Extraction of ethanol from aqueous solutions by emulsion liquid membrane: optimization of operating conditions and influence of salts in the feed phase S. Bouranene, A. Soualmia (Algeria), P. Fievet, S. Déon (France), F. Ismail (Algeria)	106
Effectiveness of denitrifying bacteria in restoring the city black-odorous river's sediment Zhanbo Hu, Cui Wang, Weiling Tu, Oumeng Yang, Hui Lu, Huiling Wu (China)	116
Sonocatalytic degradation of methylene blue using biochars derived from sugarcane bagasse Guoting Li, Xi Chen, Luyang Xu, Pengcheng Lei, Shan Zhang, Cun Yang, Qianying Xiao, Weigao Zhao (China)	122
Electrochemically reductive dechlorination of 2,4,6-trichlorophenol on palladium loaded titanium cathode modified with graphene/polymeric pyrrole-sodium dodecyl benzene sulfonate Zhirong Sun, Jinwei Zhang, Xueyun Wang, Xiang Hu (China)	128
Optimization of Cu(II) removal/recovery by bulk liquid membranes containing benzoylacetone as mobile carrier G. León, A.M. Hidalgo, M. Gómez, B. Miguel, E. Gómez (Spain)	139
Studies on natural biogenic iron oxides for removal of copper (II) ion from aqueous solution B. Kishor, N. Rawal (India)	145

Longan seed and mangosteen skin based activated carbons for removal of Pb(II) ions and Rhodamine-B dye from aqueous solutions Xiaoting Hong, Chengran Fang, Mengxian Tan, Haifeng Zhuang, Wanpeng Liu, K.S. Hui, Zhuoliang Ye, Shengdao Shan, Xianghong Lü (China)	154
Comparison of different approaches for color and COD removal from paper and pulp industry effluent A.B. Tabinda, A. Yasar, P. Saleem, H. Shabir, Y. Mahfooz, R. Rasheed, U. Tahir (Pakistan)	162
Date palm fiber as a potential low-cost adsorbent to uptake chromium (VI) from industrial wastewater M.W. Rahman, M.Y. Ali, I. Saha, M. Al Raihan, M. Moniruzzaman, M.J. Alam, A. Deb (Bangladesh), M.M.R. Khan (Malaysia)	169
Effect of polyaniline maize tree-trunk composite on adsorption of lead (II) and cadmium (II) ions from solution T.T.T. Mai, X.T. Mai, T.V. Pham, A.T.V. Nguyen, T.C. Le, B.T. Phan (Vietnam)	179
Adsorption of hazardous crystal violet dye by almond shells and determination of optimum process conditions by Taguchi method A. Goksu, M.K. Tanaydin (Turkey)	189
Synthesis and characterization of barium-doped TiO ₂ nanocrystals for photocatalytic degradation of Acid Red 18 under solar irradiation B. Shahmoradi, M.A. Pordel, M. Pirsaeheb, A. Maleki, S. Kohzadi (Iran), Yuxuan Gong (USA), R.R. Pawar, Seung-Mok Lee (Korea), H.P. Shivaraju (India), G. McKay (Qatar)	200
Evaluation of nanosilica, extracted from stem sweep, as a new adsorbent for simultaneous removal of crystal violet and methylene blue from aqueous solutions M. Ashrafi, M. Arab Chamjangali, G. Bagherian, N. Goudarzi, S. Kaviani (Iran)	207
Surface modification of cellulose nanowiskers with organosilane to fabricate high-performance polylactic acid nanocomposite materials Yongqi Yu, Jiaojiao Miao, Zhaodong Ding, Xuejiao Liu, Xuan Wang, Liping Zhang (China)	221
Crude oil removal via isolated cyanobacteria in presence of linear alkyl benzene sulfonates A.H.M.J. Al-Obiady, M.H.M. Lami, Z.Z. Al-Janabi (Iraq)	230
Quantitative structure-activity relationship (QSAR) for the adsorption of organic contaminants by nascent state manganese dioxide Pingru Su, Wenchao Ji, Zhemin Shen, Jianda Zhang, Weimin Guo (China)	235
Adsorption behavior of perchlorate removal from aqueous solution using MgAlCe hydrotalcite-like compounds Yiqiong Yang, Dewei Wen, Qiao Ding, Yin Wang, Ning Liu, Yunxiao Zhao, Xiaodong Zhang (China)	257
Biodiesel production from sunflower oil using electrochemical reaction as a green, low-cost and room temperature method: modeling and optimization by RSM M. Pirsaeheb, S. Cheraghianfard, P. Pakravan, T. Mohammadi (Iran), M. Vafaeifard, A. Akhbari (Malaysia), A.M. Mansouri (Iran)	268
Removal of tripolyphosphate from water by ion exchange resins M.A. Güngör, Ö. Özalp, Ö. Arar (Turkey)	279
Adsorption of vancomycin antibiotic from aqueous solution using an activated carbon impregnated magnetite composite F. Gashtasbi, R. Jalilzadeh Yengejeh, A.A. Babaei (Iran)	286
