Volume 136

Effect of the tube surface temperature on the seawater fouling process during falling film evaporation outside horizontal tubes Xiaohua Liu, Shuangyang Liu, Shubo Sun, Shengqiang Shen, Peijie Mi (China)	1
Parametric study of an integrated organic Rankine/reverse Brayton refrigeration cycle and multiple-effect desalination unit S.M. Alelyani, J.A. Sherbeck (USA), Zhaoli Zhang (China), W.K. Bertrand, P.E. Phelan (USA)	7
Review of different methods employed in pyramidal solar still desalination to augment the yield of freshwater A. Muthu Manokar (India), Y. Taamneh (Jordan), A.E. Kabeel (Egypt), R. Sathyamurthy (Egypt, India), D. Prince Winston (India), A.J. Chamkha (Saudi Arabia, UAE)	20
Application of direct contact membrane distillation for treating high salinity solutions: impact of membrane structure and chemistry M. Al-Furaiji, N. Benes, A. Nijmeijer (The Netherlands), J.R. McCutcheon (USA)	31
Permeate flux enhancement with roughened-surface flow channel in air-gap membrane distillation systems Chii-Dong Ho, Luke Chen, Chun-Hsuan Cheng, Tze-Hao Hsu (Taiwan), Jun-Wei Lim (Malaysia)	39
Nanomechanical characterization of recalcitrant foulants and hollow fiber membranes in ultrafiltration systems L. Gutierrez (Australia, Ecuador), A. Keucken (Sweden), C. Aubry (UAE), T.V. San Martin, J.-P. Croue (Australia)	49
Effect of flow rate, draw solution concentration and temperature on the performance of TFC FO membrane, and the potential use of RO reject brine as a draw solution in FO-RO hybrid systems N. Akther, S. Daer, S.W. Hasan (UAE)	65
The performance of a spiral wound RO membrane to desalinate a brackish groundwater in the middle of Iraq N.O. Kariem, D.E. Sachit, Z.Q. Ismael (Iraq)	72
Evaluation of direct osmosis at high salinities method by renewable lactate salts as draw solutes in RO membrane cleaning M. Narimani, M. Arjmand, S.M.T. Ghomsheh, A.A. Safekordi (Iran)	83
Modelling, simulation and PI gain-scheduling controller optimization of water desalination plant with liquid jet vacuum ejector M. Lomović, A.A. Petrović, M. Ristanović, A. Petrović (Serbia)	92
Development of sulfonated graphene oxide polyamide thin-film composite membranes for forward osmosis Y.R. Galagedara, M.G.N. Perera, Ywei Ren (China), M. Jayaweera (Sri Lanka), Yuntao Zhao (China), R. Weerasooriya (Sri Lanka)	111
Effect of intermittent operation of lab-scale upflow anaerobic sludge blanket (UASB) reactor on textile wastewater treatment A. Haider, S.J. Khan, M.S. Nawaz, M.U. Saleem (Pakistan)	120
Performance evaluation of moving-bed biofilm reactor and dissolved air flotation for the treatment of textile wastewater U. Tahir, A. Yasar, M.M. Nadeem (Pakistan)	131
Effects of aluminum (Al ³⁺) on sludge digestion and biofilm development in attached growth batch reactors using tire derived rubber as a media I. Sharafat, D.K. Saeed, Z. Zafar, N. Ali (Pakistan)	138
Increasing the performance of reverse osmosis membranes via the interfacial copolymerization of β-cyclodextrin with m-phenylenediamine/trimesoyl chloride Yanyan Zhao, Shuhao Wang, Zhuan Yi, Yong Zhou, Congjie Gao (China)	150
Investigation of a new double-hydrophilic block terpolymer as calcium scale inhibitors and dispersants Yiyi Chen, Qiuli Nan, Yongjuan Wang, Yuming Zhou, Qingzhao Yao, Mingjue Zhang, Wei Sun (China)	157

Modeling of drinking water distribution and its quality for an Indian state municipality N.K. Gautam, S. Sarkar (India)	167
Optimization of total organic carbon removal of a real dyeing wastewater by heterogeneous Fenton using response surface methodology B.G.H. Briton (Côte d'Ivoire), L. Duclaux (France), Y. Richardson (Burkina Faso), K.B. Yao (Côte d'Ivoire), L. Reinert (France), Y. Soneda (Japan)	186
Modeling of phenol adsorption isotherm onto activated carbon by non-linear regression methods: models with three and four parameters D.R. Tchuifon Tchuifon, G.N. Ndifor-Angwafor, A. Bopda, S.G. Anagho (Cameroon)	199
Survey on the removal of ciprofloxacin from aqueous solutions by nano-sono-catalytic process A.M. Banach (Poland), A. Mollazehi, S. Ahmadi (Iran)	207
Flocculation property of composite flocculants PAC/CPAM for polluted landscape water pretreatment Jiangya Ma, Liyan Jiang, Xue Fu, Lei Ding, Shun Zhou, Qiongjie Wang, Kun Fu, Jun Shi, Houcheng Ding, Yi Liao (China)	212
Trends of dissolved organic carbon in surface water treated by innate coagulants B.K. Dwarapureddi, V. Saritha, N. Srinivas, M.K. Karnena (India)	226
Kinetic studies on removing phosphate from synthetic solution and river water by reactive material in a form of suspended reactive filters A. Bus, A. Karczmarczyk (Poland)	237
Degradation of aniline by liquid ferrate(VI) Sun-Young Jung, Il-Kyu Kim (Korea)	245
Optimization of UV/H ₂ O ₂ /Fe ₃ O ₄ process to remove aniline from aqueous solutions using central composite methodology B. Mayahi, M. Arbabi, S. Hemati (Iran)	252
An ontology-based approach for modeling the heavy metals' temporal and spatial variations in groundwater resources by using fuzzy multi-criteria group decision-making models and geographical information system S. Shahsavani, M.R. Shooshtarian, H.R. Tabatabaei, M. Dehghani (Iran)	259
Extraction of technetium (HTcO ₄) with N,N,N',N'-tetra(2-ethylhexyl) diglycolamide from simulated high level waste P. Sinharoy, P.N. Khan, D. Banerjee, J.N. Sharma, C.P. Kaushik (India)	268
Elimination and absorption of butachlor from water aqueous containing herbicide by modified magnetic graphene oxide S. Nozhat, A.H. Hassani, H.A. Panahi, E. Moniri, M. Monavari (Iran)	273
Isolation and characterization of oil-degrading bacteria from marine sediment environment S.Z. Abbas, T.C. Whui, K. Hossain, A. Ahmad, M. Rafatullah (Malaysia)	282
Agar hydrogel supported metal nanoparticles catalyst for pollutants degradation in water T. Kamal (Saudi Arabia), I. Ahmad (Saudi Arabia, Pakistan), S.B. Khan, A.M. Asiri (Saudi Arabia)	290
Using of carbon nanofibers as effective scavengers for the uptake of Co(II) and Ni(II) in water by batch investigations Qingyuan Hu, Qingzhou Zhao, Baowei Hu, Yuling Zhu, Guodong Sheng (China), A.M. Asiri, H.M. Marwani (Saudi Arabia)	299
Impact of structure and morphology of titanate nanomaterials on Pb ²⁺ adsorption in aqueous solution Huiping Peng, Gongduan Fan, Xiaomei Zheng, Jing Luo, Jinjin Zhou (China)	306
Influence of H ⁺ and Na ⁺ ions on the morphology of titanate nanomaterial and its adsorption property of lead Gongduan Fan, Xiaomei Zheng, Huiping Peng, Jing Lou (China), Pei Hua (Germany), Jin Zhang (China)	320
Heavy metal analysis for assessing the quality of waste water effluent samples collected from three major waste drains of Peshawar city, Pakistan I. ur Rehman, M. Zahoor, M.T. Bashir, I. Ud Din, J. Shah, J. Ali, F.A. Khan, M. Sher, N. Gulfam (Pakistan)	332
Removal of Cd(II) from aqueous solution by a hierarchical porous hydroxylapatite-carbon composite prepared with the biotemplate of stalk internodes of sugarcane tops Huan Deng, Zongqiang Zhu, Yinian Zhu, Hui Ding, Yanhong Li, Ju Lin, Lihao Zhang (China)	341

Comparative performance of aerobic and anaerobic environments on simultaneous removal of Cd ²⁺ and Mn ²⁺ by Fe–electrocoagulation Longqian Xu, Xiaojun Xu, Guangzhu Cao, Shuli Liu, Zhengyang Duan (China)	356
Health risk assessment for exposure to nitrate and nitrite in drinking water in Iran: a systematic review and meta-analysis B. Karimi, S. Samadi (Iran)	369
Adsorption, reduction and regeneration behavior of high surface area activated carbon in removal of Cr(VI) B. Chu, M. Yamoto, Y. Amano, M. Machida (Japan)	395
Kinetics models for the electrochemical decolouration of two reactive azo dyes V. López-Grimau, M. Pepió, C. Gutiérrez-Bouzán, V. Buscio (Spain)	405
Comparative study of plasma-synthesized and commercial-P25 TiO ₂ for photocatalytic discoloration of Reactive Red 120 dye in aqueous solution A.P. Mbouopda, E. Acayanka, S. Nzali, G.Y. Kamgang, E.B. Njoyim Tamungang, S. Laminsi (Cameroon), D. Richard (France)	413
Decolorization of azo and triphenylmethane dyes by MW113 <i>Beauveria bassiana</i> strain M. Urbaniak, W. Przysaś, E. Zabłocka-Godlewska, Ł. Stępień, G. Janusz (Poland)	422
Low coast MF ceramic support prepared from natural phosphate and titania: application for the filtration of disperse blue 79 azo dye solution B. Hatimi, H. Nasrellah, I. Yassine, M. Joudi, M.A. El Mhammedi, I.-T. Lançar, M. Bakasse (Morocco)	433
Evaluation of adsorptive and synergistic effects for elimination of crystal violet from aqueous solution D. Gümüş (Turkey)	441
Modeling of the mass transfer in continuous electrocoagulation process with bipolar electrodes Jun Lu, Zhenting Yang, Jin Chen, Kai Xu, Tongyi Yang, Jing Zhang (China)	452
Author Index	460
