

Contents

Volume 169

Study of the adaptation of an MBR system to double the wastewater purification capacity of the Barranco Seco II treatment plant
A. Muñoz Elguera, S.O. Pérez Báez, J.N. Castillo García, S. Azofra Manrique, B. Del Rio-Gamero, I. Prieto Prado (Spain) 1

Addressing drinking water salinity due to sea water intrusion in Praia de Leste, Parana, by a brackish water desalination pilot plant
G.K. Wiecheteck (Brazil), L.C. Campos (UK), G.A. Carranza, M.F. Acevedo (USA), M.R. Szeliga, M.E. de Souza, T. Bovaroti, A.C.M. Rodrigues, J.P. de Almeida, A.C.B. Kummer (Brazil) 9

The influence of gambier extract modification as inhibitor of calcium sulfate scale formation
Suharso, Buhani, H.R. Utari, Tugiyono, H. Satria (Indonesia) 22

Liquid smoke of coconut shell as green inhibitor of calcium carbonate scale formation
Suharso, E. Setiososari, A.A. Kiswandono, Buhani, H. Satria (Indonesia) 29

Experimental design modelling and optimization of levofloxacin removal with graphene nanoplatelets using response surface method
A. Zaka, T.H. Ibrahim, M.I. Khamis, N. Abdel Jabbar (UAE) 38

Corrosion inhibition of mild steel in acidic solution by leaves and stem extract of *Acacia nilotica*
F.M. Mahgoub, A.M. Hefnawy, E.H. Abd Alrazzaq (Egypt) 49

Novel formulations for scalable multilayer nanoporous graphene-based membranes for use in efficient water detoxification revisited
S. Gupta, A. Henson, B. Evans (USA) 59

Studies on kinetics and settling behavior of flocs formed using a sustainable coagulant in sewage water treatment
S. Vishali, H. Gayathri, R. Malhotra, A. Mahapatra (India) 72

Study on the pretreatment of high concentration polyester resin wastewater
Penghao Tian, Chao Wang, Mingyang Yang, Junbo Zhou (China) 82

Assessment of a double slope solar still for the distillation of cenote water in the Yucatan peninsula – thermal and economic analysis
J. Gual-Uc, J.G. Carrillo, A. Bassam, M. Flota-Bañuelos, C.A. Pineda-Arellano (Mexico) 88

Elaboration and characterization of novel PES/nanocomposites mixed matrix membranes
I. Ben Belgacem, H. Bouhamed (Tunisia), P. Loulergue, A. Szymczyk (France), S. Khemakhem (Tunisia) 102

Study on the utilization and protection of water resources in the eco-tourism development of the Boluo Lake wetland nature reserve in Jilin Province
Zhao Zhuang, Sun Yan, Wang Wen, Yang Yilin (China) 114

Rhizofiltration system consisting of *Phragmites australis* and *Kyllinga nemoralis*: evaluation of efficient removal of metals and pathogenic microorganisms
C.A. Odinga, A. Kumar, M.S. Mthembu, F. Bux, F.M. Swalaha (South Africa) 120

Removal of several types of sodium and potassium salts from aqueous solutions based on their natural fixation
Jun Wan, Hao-Tian Wang, Xue Li, Chun-Xue Zhang, Xin-Shi Wu, Bo Sun (China) 133

Synthesis of nanoparticles using biological entities: an approach toward biological routes
G. Yashni, A.A. Al-Gheethi, R.M.S.R. Mohamed, S.N.H. Arifin, N.H. Hashim (Malaysia) 152

Accumulation of essential and toxic metals in sediment from the Marmara Sea along Tekirdağ coast: risk assessment for ecological health
A.H. Dökmeçi, T. Sabudak, V. Dalmuş (Turkey) 166

Mathematical model to determine the required dosage of chlorine in the Bellavista rural water treatment plant in Peru
F.G. Aparicio Roque (Peru), B.G. Blas Achic (Brazil), R.L. Moreno Jaimes, J.M. Roque (Peru) 173

Adsorption of pollutants from palm oil mill effluent using natural adsorbents: optimization and isotherm studies A.A. Oyekanmi, A.A. Abdul Latiff, Z. Daud, R.M.S.R. Mohamed, N.A. Ab Aziz, N. Ismail, M. Rafatullah, A. Ahmad, K. Hossain (Malaysia)	181
Improving treatment performance of biofilters for heavily polluted surface water using combined organic/inorganic substrates and exogenous carbon source of wood pieces Junjun Chang, Wei Jia, Ying Qu, Liangjie Wang, Jinqian Chen (China)	191
Study on salt release intensity from sediments and influencing factors in coastal reservoirs: combining small-medium-large experiments Yi Zhang, Cuiling Jiang, Haifeng Pei, Cunli Li, Haikuo Zhang, Xue Zhang (China)	198
Preparation and adsorption properties of iron and manganese modified N-doping mesoporous carbon from waste biomass Yi Chen, Shuang Zhang, Min Wang, Wenju Jiang, Ruzhen Xie, Lu Yao, Xia Jiang (China)	209
Photocatalytic degradation of amoxicillin, cephalexin, and tetracycline from aqueous solution: comparison of efficiency in the usage of TiO ₂ , ZnO, or GO-Fe ₃ O ₄ nanoparticles M. Fazilati (Iran)	222
Evaluation of the photo-catalytic degradation of pyrene using Fe-doped TiO ₂ in presence of UV M. Khodadadi Saloot, S.M. Borghei, R.H.S.M. Shirazi (Iran)	232
Treatment of a saline petrochemical wastewater containing recalcitrant organics using electro-Fenton process: persulfate and ultrasonic intensification M. Ahmadi, N. Jaafarzadeh Haghhighifard, R. Darvishi Cheshmeh Soltani, M. Tobeishi, S. Jorfi (Iran).....	241
Enhanced NH ₄ ⁺ -N removal in a bioelectrochemical system with fabricated activated carbon-polytetrafluoroethylene electrodes Zhixing Xiao, Jinyu Shen, Dongdong Zhang, Chunfang Zhang (China)	251
Rapid and environmentally friendly determination of trace nitrite in water under combined effects of cetyltrimethyl ammonium bromide and β-cyclodextrin Gui-Ping Cao, Fu-Hua Jiang, Ya-Feng Zhuang (China)	259
Phosphorus removal characteristics of chemical coagulation process to decrease phosphorus loadings in stream water from agricultural area Dong-Heui Kwak (Korea)	268
Molecular imprinted materials PDA/Fe-MOFs/RGO for the selective and high removal of phenol Zuchao Meng, Bin Liu, Mao Li, Xiang Liu, Shanjian Li, Biyun Su (China)	279
Optimization of photo-Fenton to work at neutral pH using NTA-Fe ²⁺ J.G. Cortes, R.F. Dantas (Brazil)	287
Improved the removal of chromium by polymer epichlorohydrin-dimethylamine functionalized mesoporous silica Shanshan Zhang, Xing Xu, Qinyan Yue, Wengang Wang, Baoyu Gao (China)	294
A surfactant-based emulsification microextraction (SBEME) method for the atomic absorption determination of gold Z. Bahadir (Turkey)	305
Adsorption of Pb ²⁺ from aqueous solution by black TiO _{2-x} nanoparticles with enhanced surface area and porosity Tuqiao Zhang, Zhejian Wu, Rong Chen, Qimao Gan, Xun Wang, Miaomiao Ye (China)	312
Removal of Cd (II) from aqueous solution by sulfur-functionalized walnut shell: adsorption performance and micro-structural morphology Xiuguo Lu, Jinjin Wu, Yiting Guo (China)	322
Mechanism, kinetics and thermodynamic of Penicillin G antibiotic removal by silica nanoparticles from simulated hospital wastewater F. Masoudi, M. Kamranifar, F. Safari, A. Naghizadeh (Iran)	333
Investigation of photocatalytic activity of synthesized zinc stannate for tetracycline antibiotic degradation: modelling and optimization through RSM, ANN and genetic algorithm S. Taherkhani, H. Karimi, F. Mohammadi, M. Darvishmotevalli, B. Bina (Iran)	342
Sorption of acidic dyes from water by poly(vinyl imidazole) grafted onto poly(styrene) based beads F. Bildik, G. Torunoglu Turan, H. Duran, T. Şişmanoğlu, B.F. Senkal (Turkey)	353

Decolorization of reactive azo dye from aqueous solutions with Fenton oxidation process: effect of system parameters and kinetic study N. Deđermerenci, G.D. Deđermerenci, H.B. Ulu (Turkey)	363
Implementation of integrated adsorption and biological process in wastewater treatment for the permanent dye removal and its subsequent decontamination A.V. Buntić, M.D. Milić, D.G. Antonović, S.S. Šiler-Marinković, S.I. Dimitrijević-Branković (Serbia)	372
Adsorption of cationic and anionic organic dyes on SiO ₂ /CuO composite M. Sunjuk, H. Arar, W.F. Mahmoud, M. Majdalawi, M.M. Krishan, Y. Abu Salha, B. El-Eswed (Jordan)	383
A green 3D scaffolds based on chitosan with thiol group as a model for adsorption of hazardous organic dye pollutants F.G.L. Medeiros Borsagli (Brazil)	395
Author Index	412
